PRELIMINARY PROSPECTUS (SUBJECT TO COMPLETION)

DATED NOVEMBER 8, 2023

## 4,250,000 Class A Ordinary Shares

### DDC Enterprise Limited

This is the initial public offering of our Class A ordinary shares (“Class A Ordinary Shares”). We are offering 4,250,000 of our Class A Ordinary Shares, par value \$0.016 per share, on a firm commitment basis. The estimated initial public offering price is expected to be between US\$9.50 and US\$11.50 per share. Currently, no public market exists for our Class A Ordinary Shares. We have applied to list our Class A Ordinary Shares on the NYSE Group, or NYSE, under the symbol “DDC”. We cannot guarantee that we will be successful in listing our Class A Ordinary Shares on the NYSE Group; however, we will not complete this offering unless we are so listed.

Our ordinary shares will be classified into Class A Ordinary Shares and Class B Ordinary Shares. In respect of matters requiring shareholders’ vote, each Class A ordinary share is entitled to one vote, and each Class B ordinary share is entitled to ten votes.

We are both an “emerging growth company” and a “foreign private issuer” as defined under the U.S. federal securities laws and, as such, may elect to comply with certain reduced public company reporting requirements for this and future filings. See “Prospectus Summary — Implications of Being an Emerging Growth Company and a Foreign Private Issuer” for additional information. Investors are cautioned that you are buying shares of a shell company issuer incorporated in the Cayman Islands with operating subsidiaries in China and Hong Kong, investors will not hold direct equity investments in our China and Hong Kong operating subsidiaries. Our Class A ordinary shares offered in this prospectus are shares of our Cayman Islands holding company. See “Risk Factors — Risks Related to Doing Business in China and Hong Kong — Changes in China’s economic, political or social conditions or government policies could have a material adverse effect on our Company’s business and results of operations we may pursue in the future; — Uncertainties with respect to the PRC legal system, including uncertainties regarding the enforcement of laws, and sudden or unexpected changes in laws and regulations in China could adversely affect us; and — The Hong Kong legal system embodies uncertainties which could limit the legal protections available to us.”

We will not be a “controlled company” under the New York Stock Exchange Listed Company Manual post public offering.

Investing in our Class A Ordinary Shares is highly speculative and involves a significant degree of risk. Our Class A ordinary shares offered in this prospectus are shares of our Cayman Islands holding company. Although “we,” “us,” “our,” “our Group,” “the Group” or “our company” refer to DDC Enterprise Limited and its subsidiaries and the VIEs as a whole for ease of reference and discussion, investors should be aware that DDC Cayman and its subsidiaries do not have direct ownership in the VIEs, but rather exert control over and receive economic benefits from the VIEs through various contractual arrangements. In this prospectus where business activities or functions of the VIEs are described, specific references will be made to the relevant VIEs. We currently conduct our business through Shanghai DayDayCook Information Technology Co., Ltd, or SH DDC, Shanghai Lashu Import and Export Trading Co., Ltd., or SH Lashu, and Lin’s Cook Group Limited, each an indirect wholly owned subsidiary of DDC Cayman, and a number of operating subsidiaries non-wholly and wholly owned by SH DDC. All of these operating subsidiaries are established under the laws of the PRC. During the two years ended December 31, 2021 and 2022, we had conducted part of our operations in China through (1) contractual arrangements with two variable interest entities and their consolidated entities (the “Weishi and City Modern VIEs”), namely, Shanghai Weishi Information Technology Co., Ltd., Shanghai City Modern Agriculture Development Co., Ltd., Shanghai City Vegetable Production and Distribution Co-op, Shanghai Jiapin Vegetable Planting Co-op, Shanghai Jiapin Ecological Agriculture Co-op, and (2) the Mengwei VIE. Through such contractual arrangements, we, through our indirect wholly-owned PRC subsidiary SH DDC, control and receive the economic benefits of the Weishi and City Modern VIEs without owning any direct equity interest in them. As of April 2022, such contractual arrangements with the Weishi and City Modern VIEs were terminated. In January 2021 and April 2023, we entered into contractual arrangements with Chongqing Mengwei Technology Co., Ltd. (“Mengwei Technology”), Liao Xuefeng, Chongqing Changshou District Weibang Network Co., Ltd. (“Weibang”), Chongqing Yizhichan Snack Food Electronic Commerce Service Department (“Yizhichan”) and Chongqing Ningqi E-commerce Co. Ltd. (“Ningqi”) to enable us to have the ability to control a number of online stores purchased from them since the titles of such online stores cannot be transferred to us due to the limitations from the policies of certain online platforms. These online stores were considered VIEs and SH DDC was the primary beneficiary. We refer to these online stores the “Mengwei VIE” throughout this prospectus. As of August 2023, all such contractual arrangements with regard to the Mengwei VIE have been terminated.

Recent statements by the Chinese government have indicated an intent to exert more oversight and control over offerings that are conducted overseas and/or foreign investments in China based issuers. Any future action by the Chinese government expanding the categories of industries and companies whose foreign securities offerings are subject to government review could significantly limit or completely hinder our ability to offer or continue to offer securities to investors and could cause the value of such securities to significantly decline or be worthless.

Recently, the PRC government initiated a series of regulatory actions and made a number of public statements on the regulation of business operations in China with little advance notice, including cracking down on illegal activities in the securities market, enhancing supervision over China-based companies listed overseas using a variable interest entity structure, adopting new measures to extend the scope of cybersecurity reviews, and expanding efforts in anti-monopoly enforcement. As there remains significant uncertainty in the interpretation and enforcement of relevant PRC cybersecurity laws and regulations, we cannot assure you that we would not be subject to cybersecurity review or investigations launched by PRC regulators. On December 28, 2021, the Cyberspace Administration of China (the “CAC”), and 12 other relevant PRC government authorities published the amended Cybersecurity Review Measures, which came into effect on February 15, 2022. The final Cybersecurity Review Measures provide that a “network platform operator” that possesses personal information of more than one million users and seeks a listing in a foreign country must apply for a cybersecurity review. Further, the relevant PRC governmental authorities may initiate a cybersecurity review against any company if they determine certain network products, services or data processing activities of such company affect or may affect national security. Through the contractual arrangements with Weishi, DDC SH had collected and possessed personal information of more than one million users. After the contractual arrangements with Weishi were terminated in April 2022, DDC SH still has been possessing this amount of personal information which are stored in mainland China. For purposes of the Cybersecurity Review Measures, we have applied for and completed the cybersecurity review with respect to our proposed overseas listing pursuant to the Cybersecurity Review Measures. See “Risk Factors — We may be liable for improper collection, use or appropriation of personal information provided by our customers.” Because these statements and regulatory actions are new, however, it is highly uncertain how soon legislative or administrative regulation making bodies in China will respond to them, or what existing or new laws or regulations will be modified or promulgated, if any, or the potential impact such modified or new laws and regulations will have on our daily business operations or our ability to accept foreign investments and list on an U.S. exchange.

On February 17, 2023, CSRC promulgated the Trial Administrative Measures of Overseas Securities Offering and Listing by Domestic Enterprises (the “Trial Measures”), which became effective on March 31, 2023. On the same date, the CSRC circulated Supporting Guidance Rules No. 1 through No. 5, Notes on the Trial Measures, Notice on Administration Arrangements for the Filing of Overseas Listings by Domestic Enterprises and relevant CSRC Answers to Reporter Questions (collectively, the “Guidance Rules and Notice”) on the CSRC’s official website. Under the Trial Measures, either direct or indirect overseas offering and listing by domestic companies shall fulfill the filing procedure with the CSRC with submitting relevant materials. Any overseas offering and listing made by an issuer that meets both the following conditions will be determined as indirect: (1) 50% or more of the issuer’s operating revenue, total profit, total assets or net assets as documented in its audited consolidated financial statements for the most recent accounting year is accounted for by domestic companies; and (2) the main parts of the issuer’s business activities are conducted in the Chinese Mainland, or its main places of business are located in the Chinese Mainland, or the senior managers in charge of its business operation and management are mostly Chinese citizens or domiciled in the Chinese Mainland. The determination as to whether or not an overseas offering and listing by domestic companies is indirect, shall be made on a substance over form basis. When certain circumstances happen, overseas offering and listing shall not be made. And if the intended overseas offering and listing necessitates a national security review, relevant security review procedures shall be completed according to law before the application for such offering and listing is submitted to any overseas parties such as securities regulatory agencies and trading venues. Pursuant to the Trial Measures and the Guidance Rules and Notice, initial public offerings or listings in overseas markets shall be filed with the CSRC within 3 working days after the relevant application is submitted overseas, while PRC domestic enterprises that have submitted valid applications for overseas offerings and listing but have not obtained the approval from the relevant overseas regulatory authority or overseas stock exchanges shall complete filings with the CSRC prior to their overseas offerings and listings. We have submitted the filing materials with the CSRC to fulfill the filing procedure with the CSRC as per requirement of the Trial Measures, and completed such proceeding in November 2023. However, there is no guarantee that we will continue to comply with the Trial Measures and if we fail to do so, we will be required to correct our behaviors, facing warnings and fines which amount will range from RMB1,000,000 to RMB10,000,000, and directly responsible personnel will also be warned and fined which amount will range from RMB500,000 to RMB5,000,000. Any failure of us to complete further filings or any other relevant regulatory

procedures in a timely manner will completely hinder our ability to offer or continue to offer our Class A Ordinary Shares, cause significant disruption to our business operations, and severely damage our reputation, which would materially and adversely affect our financial condition and results of operations and cause our Class A Ordinary Shares to significantly decline in value or become worthless. See “Risk Factors — The approval of the China Securities Regulatory Commission and other PRC governmental authorities provided under the M&A rules are not required in connection with this offering, and, if required, we cannot predict whether we will be able to obtain such approval. Except for the CSRC filing for this issuance and listing, we are not required to obtain any permission or approval from any Chinese authority to issue securities to foreign investors or in connection with this offering. We completed the CSRC filing in November 2023. However, there is no guarantee that we will continue to comply with additional filing requirements, if any, in the future.”

The Holding Foreign Companies Accountable Act, or the HFCAA, was enacted on December 18, 2020. In accordance with the HFCAA, trading in securities of any registrant on a national securities exchange or in the over-the-counter trading market in the United States may be prohibited if the Public Company Accounting Oversight Board (the “PCAOB”) determines that it cannot inspect or fully investigate the registrant’s auditor for three consecutive years beginning in 2021, and, as a result, an exchange may determine to delist the securities of such registrant. On December 23, 2022, the Accelerating Holding Foreign Companies Accountable Act, or the AHFCAA, was enacted, which amended the HFCAA by reducing the aforementioned inspection period from three to two consecutive years, thus reducing the time period before our securities may be prohibited from trading or delisted if our auditor is unable to meet the PCAOB inspection requirement. Pursuant to the HFCAA, the PCAOB issued a Determination Report on December 16, 2021 which found that the PCAOB is unable to inspect or investigate completely registered public accounting firms headquartered in: (1) mainland China of the People’s Republic of China because of a position taken by one or more authorities in mainland China; and (2) Hong Kong, a Special Administrative Region and dependency of the PRC, because of a position taken by one or more authorities in Hong Kong. In addition, the PCAOB’s report identified the specific registered public accounting firms which are subject to these determinations. Our registered public accounting firm, KPMG Huazhen LLP, is headquartered in mainland China or Hong Kong and was identified in this report as a firm subject to the PCAOB’s determination. On December 15, 2022, the PCAOB Board determined that the PCAOB was able to secure complete access to inspect and investigate registered public accounting firms headquartered in mainland China and Hong Kong and voted to vacate its previous determinations to the contrary. However, whether the PCAOB will continue to be able to satisfactorily conduct inspections of PCAOB-registered public accounting firms headquartered in mainland China and Hong Kong is subject to uncertainties and depends on a number of factors out of our and our auditor’s control. The PCAOB continues to demand complete access in mainland China and Hong Kong moving forward and is making plans to resume regular inspections in early 2023 and beyond, as well as to continue pursuing ongoing investigations and initiate new investigations as needed. The PCAOB has also indicated that it will act immediately to consider the need to issue new determinations with the HFCAA if needed. If the PCAOB is unable to inspect and investigate completely registered public accounting firms located in China and we fail to retain another registered public accounting firm that the PCAOB is able to inspect and investigate completely in 2023 and beyond, or if we otherwise fail to meet the PCAOB’s requirements, our Class A ordinary Shares will be delisted from the NYSE Group and will not be permitted for trading over the counter in the United States under the HFCAA and related regulations. On December 2, 2021, the SEC adopted final amendments implementing the disclosure and submission requirements under the Holding Foreign Companies Accountable Act, pursuant to which the SEC will (i) identify an issuer as a “Commission-Identified Issuer” if the issuer has filed an annual report containing an audit report issued by a registered public accounting firm that the PCAOB has determined it is unable to inspect or investigate completely because of the position taken by the authority in the foreign jurisdiction and (ii) impose a trading prohibition on the issuer after it is identified as a Commission-Identified Issuer for three consecutive years. See “Risk Factors — The recent enactment of the Holding Foreign Companies Accountable Act may result in de-listing of our securities.”

As a holding company, we may rely on dividends and other distributions on equity paid by our PRC subsidiaries for our cash and financing requirements. If any of our PRC subsidiaries incurs debt on its own behalf in the future, the instruments governing such debt may restrict their ability to pay dividends to us. As at the date of this prospectus, neither of our direct wholly or non-wholly owned subsidiaries nor the VIEs have made any dividends or other distributions to our holding company and the holding company has not made any dividends or distributions to any investors including U.S. investors as of the date of this prospectus. The holding company, its subsidiaries, and VIEs do not have any plan to distribute dividend or settle amounts owed under the prior or current contractual agreements in the foreseeable future. However, to the extent cash/assets in the business is in PRC/Hong Kong or our PRC/Hong Kong entity, the funds/assets may not be available to fund operations or for other use outside of the PRC/Hong Kong due to interventions in or the imposition of restrictions and limitations on the ability of us, our subsidiaries or the VIEs by the PRC government to transfer cash/assets. See “Transfer of Cash Through our Organization”, and “Risk Factors — Risks Related to Doing Business in China and Hong Kong — PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay us from using part of the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiaries, which could materially and adversely affect our liquidity and our ability to fund and expand our business” and “Restrictions on currency exchange may limit our ability to utilize our revenues effectively.” In the future, cash proceeds raised from overseas financing activities, including this offering, may be transferred by us to our PRC subsidiaries via capital contribution or shareholder loans, as the case may be. We currently don’t have any cash management policies and procedures in place that dictate how funds are transferred through our organization. Rather, the funds can be transferred in accordance with the applicable PRC laws and regulations. As of the date of this prospectus, no cash transfer has been made among the holding company, its subsidiaries and VIE.

Before buying any shares, you should carefully read the discussion of material risks of investing in our Class A Ordinary Shares in “Risk Factors” beginning on page 39 of this prospectus.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

### Our Mission

Our mission is to inspire others to enjoy cooking as part of a quality lifestyle and culture. We are driven to improve lives by creating easy-to-cook, delicious, and healthy meal solutions. It is our vision to create fun experiences and inspirations in every kitchen.

### Overview

We are a food innovator with leading content driven (i.e. using content to reach and engage target customers) consumer brands offering easy, convenient ready-to-heat (“RTH”), ready-to-cook (“RTC”), ready-to-eat (“RTE”) and Plant-based meal products (i.e. meal products consisting largely or solely of vegetables, fruits, grains and other foods derived from plant-based protein, rather than animal protein) while promoting healthier lifestyle choices to our predominately Millennial and Generation Z (“GenZ”) customer-base. We are also engaged in the provision of advertising services.

We were founded in Hong Kong in 2012 by Ms. Norma Ka Yin Chu, a highly regarded entrepreneur and a true cooking enthusiast, as an online platform which distributed food recipes and culinary content. Subsequently, we further expanded our business to provide advertising services to brands that wish to place advertisements on our platform or video content. In 2015, we entered the Mainland China market through the establishment of Shanghai DayDayCook Information Technology Co., Ltd (“SH DDC”) to engage in technology development of computer software, food circulation and advertising production in China. In 2017, we started expanded our business from content creation to content commerce. Later in 2019, we extended our business to include the production and sale of, among others, own-branded RTH, RTC convenient meal solution products.

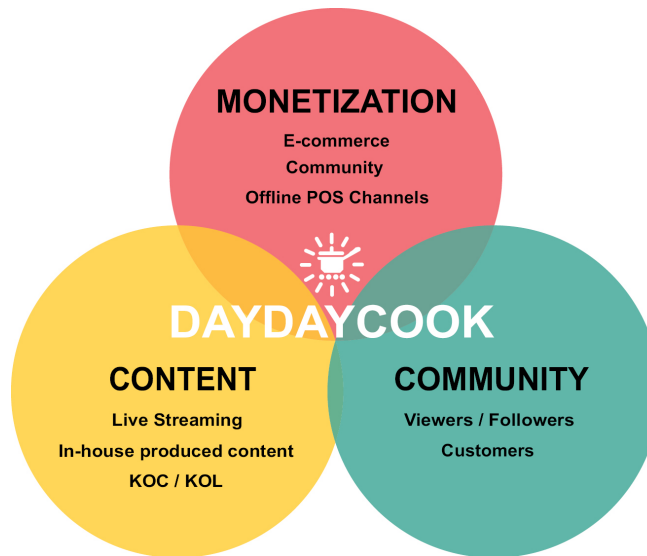

As of June 30, 2023, our main product categories include (i) own-branded RTH products — typically semi-cooked meals with some but minimal preparation required ahead of serving, (ii) own-branded RTC products — ready to be consumed within 8 to 15 minutes with some additional cooking preparation, (iii) own-branded RTE products — typically pre-cooked meals that are ready to serve with minimal level of additional preparation, which includes our plant-based meal products localized for the palate of an Asian consumer, and (iv) private label products (i.e. third-party branded food products).

### Business Model

Our omni-channel (online and offline) sales, end-to-end (“E2E”) product development and distribution strategy, and data analytics capabilities enable us to successfully identify, assess, and pivot to cater to changing consumer preferences and trends across multiple customer segments and price-points. From a product distribution standpoint, we have created a network of direct-to-customer (“D2C”), retailer, and wholesaler sale options.

- We leverage (i) large China-based e-commerce platforms e.g., Tmall, JD.com, Pinduoduo, (ii) leading livestreaming, video-sharing, content-marketing platforms e.g., ByteDance (TikTok and sister-app Douyin), Bilibili, Weibo, Little Red Book (小红书), Kuaishou etc., and (iii) online-merged-offline (OmO) group-buy platforms e.g., Meituan-Dianping to drive online sales. We would cooperate with third-party online distributors on these e-commerce platforms to promote and sell our products.

- We have access to a network of offline point-of-sales (“POS”) through partnerships with (i) convenience stores e.g., 7/11, Lawson etc., (ii) multi-national retail corporations e.g., Carrefour, Hema etc., (iii) boutique supermarket chains e.g., Ole’, G-Super etc., and (iv) various corporate partnerships e.g., Towngas to distribute and sell our products.
- We operate in the Mainland China market but are actively expanding into international markets including but not limited to the United States and Canada.
- We own multiple brands in our portfolio that provide convenient meal solution products to a wide range of consumers. We are actively looking for acquisition opportunities in complimentary brands in the Asian food and cooking categories as well as targets that can strengthen the company’s network of sales distribution.

As of June 30, 2023, we had 24.5 million paid customers. Around 69% of our followers on social media & video platforms are GenZ. 50% of customers are from the Eastern & Southern parts of China, and 86% are female. In particular, we believe that our products appeal to GenZ because (1) when compared to older age groups, GenZ generally do not want to spend a long time cooking at home and they value cost effective options like RTC, RTH and RTE meals due to the ease of cooking that RTC, RTH and RTE products provide; (2) we promote our products mainly through social media, the audience of which are mainly the GenZ population; (3) we mainly sell our products through e-commerce platforms, including livestreaming e-commerce, the customers demographics of which are dominated by GenZ; (4) plant-based diets have progressed from a food trend to a globally recognized lifestyle which GenZ is more willing to embrace. The average age of a viewer engaging with our products or marketplace is younger than 30 years old. From 2018 to June 2023, we have a content library with more than 247,874 minutes of in-house created content.

For the six months ended June 30, 2023, we recorded RMB89.4 million (or US\$12.3 million) in total revenue compared to RMB66.8 million for the six months ended June 30, 2022, representing a 33.9% increase. Subsequent to June 30, 2023, we completed two acquisitions. Assuming these two acquisitions had taken place on 1 January 2023, the unaudited pro forma revenue of the Company for the six months ended June 30, 2023 would be RMB123.6 million (or US\$17.0 million). For the six months ended June 30, 2023, our gross margin increased to 26.2% versus 20.2% for the six months ended June 30, 2022.

For the year ended December 31, 2022, we recorded RMB179.6 million (or US\$24.8 million) in total revenue. This drop in revenue was largely a result of negative impact from extended zero-covid policy in China which led to massive disruptions in the company’s e-commerce operations. In the face of this challenge, we completed four acquisitions in 2022

to speed up the diversification of revenue streams as well as aggressive improvement on overall cost structure. Assuming these four acquisitions had taken place on 1 January 2022, the unaudited pro forma revenue of the Company for the year ended December 31, 2022 will be RMB231.9 million (or US\$32.0 million). Equally important, our focus has been on improving the overall cost structure of the business when facing Covid and inflation challenges. For the year ended December 31, 2022, our gross profit margin increased to 24.5% versus 17.8% for the year ended December 31, 2021.

As the company continues to execute on its M&A strategy, which primarily focuses on the acquisition of complimentary brands in the Asian food and cooking categories as well as sales channel access, in April 2023, we entered into a purchase agreement to acquire 51% equity interest of Shanghai Yuli Development Limited (“Yuli”), to add new sales channels in Ready-To-Cook and Ready-To-Eat product categories; also in May 2023, we entered into a purchase agreement to acquire “Nona Lim”, an Asian food brand based in San Francisco, USA. The brand sells Ready-To-Cook Asian noodle meal kits and a variety of soup bases to its customers through an established distribution network in the United States, including major retailers such as Whole Foods Market, Target, and Kroger. The acquisitions of Yuli and Nona Lim were completed in the third quarter of 2023.

We have incurred a loss from operations, had net cash used in operating activities, net current liabilities and an accumulated deficit. In addition, our auditor’s report includes an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern.

### **Our Industry**

We compete primarily in the convenient meal solutions market providing RTE, RTC and RTH products to our customers. With (i) the proliferation of food delivery service options, (ii) a shift in customer preference and behavior away from home-cooked to convenience, and (iii) an increase in GDP per capita/overall disposable income (both in our target demographic and in-general) the demand for convenient meal solution products including RTC/RTE products has increased significantly. Customers have also become more discerning and expect RTC/RTH/RTE products to be of a high quality, have a higher nutritional value, and taste better when compared with other processed or semi-processed food product categories. Typically, RTC and RTE meals are made using high-quality and seasonal ingredients with full traceability at every stage of the food chain and a focus on nutritional value and maintaining a balanced diet is factored into the recipe and product R&D process.

COVID-19 has accelerated the shift to e-commerce and the need to develop and professionalize China’s cold chain transport infrastructure. The logistics industry is benefiting from the proliferation of professional third-party logistics service providers as well as improvements in preservation/storage, information logistics, analysis, and distribution technology. As a result of improvements in logistical infrastructure and the scale of the distribution network, the RTC and RTE industry has been able to expand its geographical reach, improve product delivery efficiency, and guarantee food safety and maintain quality over larger distances.

Internationally, the development history of mature overseas RTC and RTE markets nurtures an extensive customer base of RTC and RTE products. The COVID-19 pandemic further stimulates such demands in overseas markets as it alters people’s lifestyle and increases health consciousness, especially in Southeast Asia. In addition, with the development of those mature RTC markets, an increasing number of customers are in pursuit of a healthier lifestyle and start to favor healthier ready-to-cook products instead of RTC products of high calories as well as healthier ready-to-eat products instead of junk food. Chinese companies in the RTC and RTE industry, because of their well-established value chains, are able to offer RTC and RTE products of competitive prices in markets like North America and Europe despite the additional logistic expenses. Thus, Chinese companies that are actively seeking international expansion opportunities are well positioned to gain share in the global RTC and RTE market.

Plant-based products are a nascent Fast-Moving Consumer Goods (“FMCG”) category in China. Some Chinese brands have recently emerged as strong competitors to international incumbents. Younger individuals are the target demographic of companies offering plant-based substitutes/alternatives. Many new brands have been able to penetrate the younger customer segment by adopting an omnichannel strategy and by offering good quality, varied product offerings at a reasonable price-point.

Around the globe, the public has been paying more attention to environmental and natural resources protection over the past decades. The technology and production of plant-based meat has also experienced rapid development. Benefiting from the mature production technology of plant-based meat, foreign brands, when compared with Chinese brands, have obvious advantages in imitation of meat flavor and texture. However, limiting to product categories, flavor localization, stock-keeping unit (“SKU”) quantity, and high price, it is difficult for them to seize significant business opportunities in Chinese market. Compared to foreign brands, domestic brands pay more attention to

recipe R&D and introduce various plant-based meat food products into the market, ranging from Western cuisine to Chinese cuisine, including but not limited to Panini, pizza, hamburgers, braised rice, pies, noodles, and other products. Finally, the processed volume of soybean protein and pea protein in China contributes nearly half of the global volume every year, which provides a significant advantage in raw materials for domestic plant-based meat food products companies.

### **Our Competitive Strengths**

We believe the following competitive strengths differentiate us from our competitors and will continue to contribute to our success:

#### ***Leading Content Driven Consumer Brand in China that Possess a Loyal Customer Base, and Clear Alignment with Consumer Trends***

We are a food innovator with leading content-driven lifestyle brands for young food lovers, especially GenZ customers in China. We believe that our RTH, RTC, RTE, and plant-based meal products portfolio aligns with broader Fast-Moving-Consumer-Goods trends and shifts in consumer behavior. Our products, brand, and mission resonate strongly with our GenZ customer base who seek high quality and nutritional food products that are sustainably and ethically sourced. As of June 30, 2023, more than 24.5 million consumers had purchased our products via one or more e-commerce platforms.

#### ***Track Record of Innovation***

We allocated and will continue to allocate significant resources to product innovation for our RTC and RTE products. We typically launch new products on a quarterly basis. To position us as a leader in the convenient RTC and RTE categories, we partnered with PFI Foods in the third quarter of 2020, cooperated with Meta Meat in 2021, both companies being leading plant-based meat manufacturers in mainland China, to develop a line of plant-based food products. In 2023, we have also launched a partnership with Nestle China using their Harvest Gourmet brand of plant-based meat to bring the first-ever RTC products to market.

In addition, the company is building a library of new product concepts and recipes, ready for further development and testing. We believe that we excel at identifying ingredient combinations, and flavor profiles that appeal to the palate of young Asian consumers. Leveraging our innovation capabilities, our experience in the Chinese markets and our deep understanding of the palate of Asian consumers, we are confident that when executing our international market expansion plan, we can introduce new product innovation and develop food products that appeal to other Asian communities and potentially an even wider audience on the global stage.

#### ***Omni-Channel and Multi-Faceted Sales & Distribution Strategy***

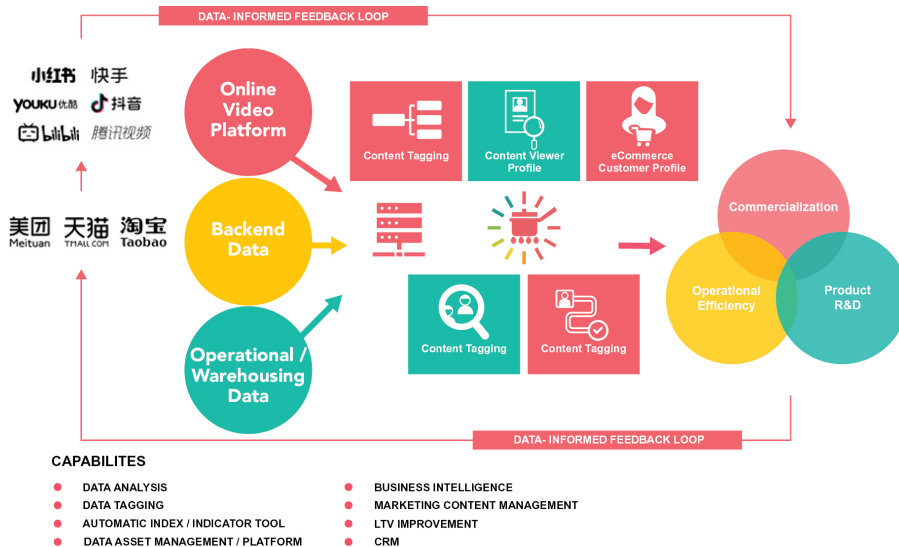

The Company's core distribution strategy is to balance the revenue mix of online sales and offline sales. By leveraging the power of e-commerce, we tap into the growing digital market while providing various meal solutions to our consumers all around China. Simultaneously, we maintain a strong presence in physical retail through distributors, ensuring accessibility and brand visibility. This balanced distribution strategy enables us to capture diverse customer segments, optimize sales channels, and mitigate risks associated with concentration on a single distribution channel. In 2022, due to the impact of Covid outbreak in mainland China, we encountered difficult meeting our customers' need online. As a result, about 81% and 61% of our revenue came from Offline consumer product sales for the six months ended June 30, 2023 and for the year ended December 31, 2022 respectively.

Our omni-channel (both offline and online) strategy spans (i) popular e-commerce channels e.g., Taobao and JD.com, (ii) social and content platforms e.g., TikTok, Kuaishou, Bilibili, and WeChat, and (iii) community group buying platforms e.g., Meituan-Dianping. From 2019 to March 2023, our online sales network including, among others, Tmall, JD.com, and China Pinduoduo have attracted 107.18 million visitors and for the six months ended June 30, 2023, and for the year ended December 31, 2022, generated online consumer product sales of RMB16.4 million (or US\$2.3 million) and RMB67.0 million (or US\$9.2 million) respectively. In 2023, we increased our offline retail distribution network and have worked with 709 distributing partners.

We will continue to focus on bringing our customers the best quality Asian meal solution, by implementing a balanced distributing strategy. In 2023, the company's forecasted online sales will account for 50% of total sales, while offline sales will account for the remaining half.

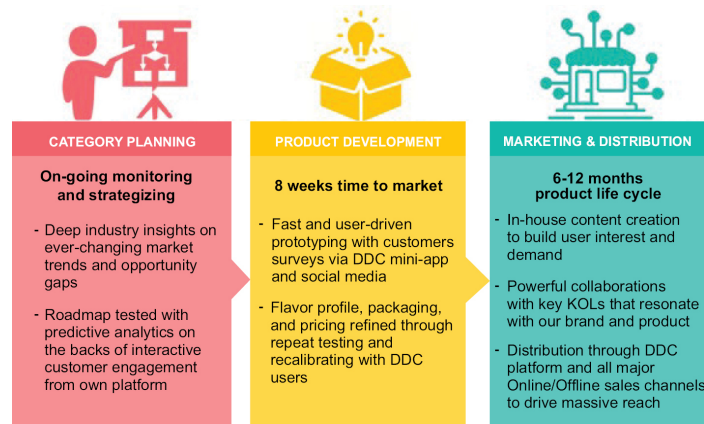

### Customer Engagement Analytics, Customer Service, and Real-Time (“RT”) Feedback Capabilities

We analyze transaction data, collect customer feedbacks through one or more channels, and engage in customer engagement analytics. This helps to (i) streamline the product development lifecycle and reduce the risk of a customer-product mismatch, (ii) uncover new (sub) product categories and/or potential bundling and/or up and cross-sell opportunities within the existing product portfolio, (iii) strengthen our brand image, and (iv) improve customer “stickiness” by providing customers with a forum.

### E2E Supply Chain Visibility, Agile Product Development and Go-to-Market (“GTM”) Capabilities

On average, we can deliver a new product to-market within 8 weeks. Our E2E supply chain visibility and strong product execution i.e., product concept, prototyping, product validation and recalibration, commercial manufacturing, product marketing and placement capabilities mean we can react in almost real-time to changes in customer needs and preferences. As part of our more proactive new product development strategy, we leverage our deep industry and cross-disciplinary expertise to uncover potential market and product opportunities. We have an in-house content development team which focuses on building interest and demand pre product launch. They will keep abreast of the latest market developments and identify potential trends and consumers interests. To promote our new products, we also collaborate with key opinion leaders (“KOLs” or “KOL”). We are well placed to continue to grow our market share and become the dominant player in the RTH, RTC, RTE, and plant-based meal products industry in mainland China.

#### ***Experienced Management Team, Board of Directors, and Advisory Network***

We have an experienced management team. Members of our management team have significant experience across the FMCG, e-commerce, and IT services/technology, media, and telecommunications industries/sectors. More importantly, our management team comprises of a few selected individuals that offer strong understanding of the Chinese market as well as have extensive experiences in operating and expanding FMCG businesses in international markets.

In particular, our founder, Ms. Norma Ka Yin Chu, is a highly regarded entrepreneur and a true cooking enthusiast who has won numerous awards as a visionary entrepreneur in the cooking and lifestyle community. She was named as China New Media Top 100 people in 2016, and one of CY Zone's Most Notable Female Entrepreneurs for three consecutive years from 2017 to 2019. In 2020, she was awarded the Outstanding ICT Women Awards 2020: Women Entrepreneur Category, Harper's Bazaar The Visionary Woman 2020 and JESSICA Most Successful Women Award 2020 — Digital Women. Prior to founding our group, Norma was the Head of Research of HSBC Private Bank in Hong Kong. Therefore, not only does Ms. Chu have rich experience in the cooking and food products industry, she also has extensive experience in private equity, which together enable her to lead our group's drive to become a leader in the market.

We further augmented the management team with a Board of Directors and an advisory network with significant operator expertise and experience spanning PepsiCo, General Mills, Danone and Meitu.

## **Our Strategies**

### ***International market expansion***

Internationally, the development history of mature overseas RTC and RTE markets nurtures an extensive customer base of RTC and RTE products. The COVID-19 pandemic further stimulates such demands in overseas markets as it alters people's lifestyle and increases health consciousness, especially in Southeast Asia,. Chinese companies in the RTC and RTE industry, attributable to their well-established value chains, are able to offer RTC and RTE products of competitive prices in markets like North America and Europe despite the additional logistic expenses. Thus, Chinese companies that are actively seeking international expansion opportunities are well positioned to further gain share in the global RTC and RTE market.

Moreover, around the globe, the public has been paying more attention to environmental and natural resources protection over the past decades. Compared to foreign brands, domestic Chinese brands pay more attention to the recipe R&D and introduce various plant-based meat food products into the market, covering from Western cuisine to Chinese cuisine, including but not limited to Panini, pizza, hamburgers, braised rice, pies, noodles, and other products to cater consumers. The processed volume of soybean protein and pea protein in China contributes nearly half of the global volume every year, which provides a significant advantage in raw materials for Chinese plant-based meat food products companies.

In view of the above and to the extent permitted due to our recurring losses from operations and an accumulated deficit, we are raising funds from investors for the purpose of expanding our business in the U.S. and Southeast Asia in hope of widening our customer base.

For the U.S., we have devised a three-fold strategy: (1) to launch our products through major Asian-focused online and offline sales channels, (2) to launch our direct-to-consumer stores on Amazon and our U.S. website, and (3) to grow through acquisitions. Since July 2022, we have successfully gained access to the U.S. market through sales on Yamibuy.com, one of the largest Asia food e-commerce platforms headquartered in the U.S.. In May 2023, we entered into a purchase agreement to acquire "Nona Lim", an Asian food brand based in San Francisco, USA. The brand sells Ready-To-Cook Asian noodle meal kits and a variety of soup bases to its customers through an established distribution network in the United States, including major retailers such as Whole Foods Market, Target, and Kroger. The acquisition of Nona Lim was completed in July 2023. This acquisition enables us to expand our customer base into the US market. As for the Southeast Asian market, we are currently negotiating with local companies that would give us instant access to a growing customer base in the RTC and RTE meal markets.

### ***Enhance our sales and marketing capabilities, as well as our sphere of influence***

We will continue to monitor the performance of our e-commerce partners and platforms, adapt our product pricing strategy and offerings, and expand our fulfillment capabilities to support our revenue targets. We are raising funds from investors to deepen and broaden our existing partnerships and continue to expand cooperation with a wider network of influencers and KOLs to build our brand awareness. Also, we plan to engage more up-and-coming social e-commerce platforms to (i) drive higher traffic to our stores through more and closer collaborations; (ii) improve our ability to aggressively penetrate non-tier 1 cities and (iii) accelerate the growth of our paid customer base. In addition, we will continue to improve our sales and marketing capabilities and leverage the internet and various social media platforms to build brand awareness in non-Tier 1 cities in China. We will also engage content and social media marketing providers and platforms to drive an increase in average order value ("AOV"), repeat purchases, and to attract net-new users to our platform.

As of June 30, 2023, we had 24.5 million paid customers.

### ***Continue to innovate and expand product offerings***

We expect consumer demand for RTH, RTC, RTE and plant-based meal products to not only persist, but to grow at an accelerated rate. We plan to leverage our deep industry expertise, data-informed consumer insights, and predictive analytics to identify meaningful consumer trends and then partner with and solicit product feedback from our customers to optimize and expand on our existing product portfolio. We are committed to strengthening our R&D and product development capabilities to improve our ability to innovate more effectively within our core product categories.

### **Mergers and Acquisitions (“M&A”) Rollup**

M&A is a key growth strategy going forward for the company in order for us to execute on the multi-brand strategy and also further diversify away from brand concentration risks and into markets outside of China. Historically, virtually all of our sales have been in China. For example, our international (meaning outside of China) sales were zero in 2022 and accounted for 0.17% of our total revenue for the six months ended June 30, 2023. M&A is an important part of our strategy to establish our footprint and sales channel internationally. We are actively looking at potential targets with revenues in the US, Europe, Australia, SE Asia, and Middle East. As a group, we are targeting to have international sales to account for 20 – 30% of total revenue in 2024 and around 50% in 2025. We have already identified several targets but to the extent permitted due to our recurring losses from operations and an accumulated deficit, we will evaluate and opportunistically execute on strategic joint ventures (JV), potential investments and acquisition opportunities across the value-chain with a focus on supplementing and/or complementing our existing products, sales channels, customer-base and/or allow us to optimize our existing brand marketing and sales channel management capabilities. There can be no assurances that we will be successful in generating revenues internationally. For example, our M&A strategy may not identify M&A candidates and acquisitions that are completed may not be successfully integrated into our operations and may not produce significant international revenues. Apart from executing acquisitions with considerations paid through share exchanges, we are also raising funds from investors to have an option to acquire companies through a mixture of cash and shares.

As of June 2019, Shanghai Juxiang Culture Media Co., Ltd. (“SH Juxiang”), a wholly owned subsidiary of SH DDC, was established for the purpose of engaging in e-commerce business in China. In June 2023, we sold a 33% equity interest in SH Juxiang to Haosheng Fan, and after giving effect to such sale, we hold a 67% equity interest in SH Juxiang. SH Juxiang’s name was changed to Hangzhou Jushi Culture Media Co., Ltd. (“HZ Jushi”) in September 2023.

In January 2019, SH DDC acquired 60% equity interest in Fujian Jinjiang Yunmao Electronic Commerce Co., Ltd. (“Yunmao”), a limited liability company incorporated under the Laws of the PRC, for a combination of a share option consideration equivalent to a value of RMB10.2 million, and a cash consideration of RMB10.2 million, to engage in food and beverage retail and e-commerce. Yunmao owns a direct equity interest in Hangzhou Damao Technology Co., Ltd., which was established in June 2020 with a main business of e-commerce.

In January 2021, SH DDC acquired a number of online stores from Chongqing Mengwei Technology Co., Ltd. (“CQ MW”), Liao Xuefeng, Chongqing Changshou District Weibang Network Co., Ltd. (“CQ DDC”), which is established for accepting the online stores acquired and operating newly set-up online stores, in which, SH DDC holds 51% equity interest. CQ DDC was established for the purpose of engaging in online food retail business in China. However, due to certain limitations from the policies of third-party online platforms, the titles of such online stores currently could not be transferred to CQ DDC and the operation of such online stores were delegated to the Transferors through relevant contractual arrangements to enable us to have the ability to control such online stores. In April 2023, CQ MW sold its 49% equity interest to SH DDC, upon which CQ DDC became SH DDC’s wholly owned subsidiary. Also in April 2023, SH DDC acquired more Pinduoduo online stores from CQ MW, Weibang, Yizhichan and Chongqing Ningqi E-commerce Co. Ltd. (“Ningqi”), and operated these online stores in the same way. Therefore, these online stores were considered VIEs and SH DDC was the primary beneficiary. We refer to these online stores the “Mengwei VIE” throughout this prospectus.

On July 1, 2021, the Company, through its wholly owned subsidiary, SH DDC, entered into a purchase agreement (“the SPA”) with Mr. Zheng Dongfang and Mr. Han Min (“collectively the YJW Seller”), the shareholders of Fujian Yujiaweng Food Co., Ltd. (“Yujiaweng”) to acquire 60% interests of Yujiaweng’s product sales business, primarily including distribution contracts, the sales and marketing team, procurement team and other supporting function personnel (“the YJW Target Assets”). Yujiaweng is principally engaged in manufacturing and the distribution of snack foods. SH DDC and Mr. Zheng Dongfang agreed to form an entity (“YJW Newco”) with the Company holding 60% equity interest and Mr. Zheng Dongfang holding 40% equity interests. According to the SPA, during the period from July 1, 2021 until the date when YJW Newco is formed (“the transition period”), the Company manages and operates the Target Assets and is entitled to 60% of the net profit arising from the operation of the Target Assets.

On July 1, 2021, the Company, through its wholly owned subsidiary, SH DDC, entered into a purchase agreement (“the SPA”) with Mr. Xu Fuyi, (“the KeKe Seller”), the shareholder of Fujian KeKe Food Co., Ltd. (“KeKe”) and Mr. Zheng Dongfang, the president of KeKe, to acquire a 60% interest in KeKe’s product sales business, primarily including distribution contracts, the sales and marketing team, procurement team and other supporting function personnel (“the KeKe Target Assets”). KeKe is principally engaged in manufacturing and distribution of candy products. SH DDC and Mr. Zheng Dongfang agreed to form an entity (“KeKe Newco”) with the Company holding 60% equity interest and Mr. Zheng Dongfang holding 40% equity interests. According to the SPA, during the period from July 1, 2021 and the date when KeKe Newco is formed (“the transition period”), the Company manages and operates the Target Assets and is entitled to 60% of the net profit arising from the operation of the Target Assets.

On February 1, 2022, the Company, through its wholly owned subsidiary, entered into a purchase agreement with Mr. LIN Kai Hang, Mr. SIO Leng Kit and Mr. Tang Wai Cheung, to acquire 51% shares of Lin’s Group Limited (“Lin’s Group”). Lin’s Group have its own brand “Deliverz” and principally engaged in manufacturing and distribution of RTC products with its major online sales channel. This was an upstream integration where Lin’s Group is the major supplier of RTC meal kits for the company’s Hong Kong operations. This acquisition allows the company to optimize cost structure for the RTC meal kits in the Hong Kong market. It also enables the company to expand its product offerings with its own production facility.

As of April 1, 2022, all contractual arrangements with Weishi and City Modern, have been terminated. As a result of the termination of the contractual arrangements with the Weishi and City Modern VIEs, we expect to be able to focus our capital and efforts on selling our products through online e-commerce platforms and offline distributors and retailers. We intend for the termination and discontinuation of business streams to reduce the company’s overall net losses, and free up capital to be allocated into our other fast growing RTH, RTC, RTE and plant based product businesses.

On May 1, 2022, the Company, through its wholly owned subsidiary, entered into a purchase agreement with Mr. Gao Xiaomin, Mr. Zhang Yi and Ms Chen Di, to acquire 51% shares of Shanghai Lishang Trading Ltd, (“Lishang”). Lishang is principally engaged in distribution of private label products. This acquisition was completed during the nation-wide lock down when the company expedited its strategy to diversify revenue streams and improve overall margin structure. Lishang has strong sales channel access into the corporate gifting channel which carries higher margin compared to the company’s existing e-commerce and offline distribution channels. By acquiring Lishang, the Company now has healthier gross margins as well as access to sales and distribution partnerships with global FMCG brands such as Pepsi Co (Lays brand.) These partnerships in turn can help the company secure better traffic and overall sales conversion on social commerce platforms to drive higher sales for its own branded product business.

On June 17, 2022, the “YJW Newco”, Quanzhou DayDayCook Food Co., Limited (“Quanzhou DDC”) was formed. As part of the transaction dated July 1, 2021, the YJW Target Assets and Keke Target Assets from the acquisition were transferred into Quanzhou DDC. And on the same day, SH DDC has obtained control over the YJW Target Assets and Keke Target Assets, and the results were consolidated into the Group.

beneficial owners; (ii) we are a company incorporated under the laws of the Cayman Islands controlled by non-PRC citizens and we do not fit into the definition of “overseas special purpose vehicle” under the M&A Rules; and (iii) the CSRC currently has not issued any definitive rule or interpretation concerning whether offerings like ours under this prospectus are subject to the M&A Rules. As such, we have never conducted any mergers or acquisitions of any PRC domestic companies with a related party relationship as prescribed in the M&A Rules. MOFCOM’s approval under the M&A Rules is also not required as we have never conducted any mergers or acquisitions of any PRC domestic companies with a related party relationship. We cannot assure you that relevant PRC governmental agencies, including the CSRC, would reach the same conclusion as we do.

On July 6, 2021, the General Office of the Central Committee of the Communist Party of China and the General Office of the State Council jointly issued the Opinions on Strictly Cracking Down on Illegal Securities Activities According to Law (the “**Opinions**”), which called for strengthened regulation over illegal securities activities and supervision on overseas listings by China-based companies and propose to take effective measures. As at the date of this prospectus, no official guidance or related implementation rules have been issued in relation to the Opinions, and the interpretation and implementation of the Opinions also remain unclear to some extent at this stage. Based on our understanding of the current PRC laws and regulations in effect at the time of this prospectus, except for the CSRC filing procedure which we have completed according to the Trial Measures as described below, no other prior permission is required under the M&A Rules, the Opinions or other PRC laws and regulations from any PRC governmental authorities for consummating this offering by our company, as advised by our PRC legal adviser, Grandall Law Firm (Shanghai). However, there can be no assurance that the relevant PRC governmental authorities, including the CSRC, would reach the same conclusion as us, or that the CSRC or any other PRC governmental authorities would not promulgate new rules or new interpretation of current rules (with retrospective effect) to require us to obtain the CSRC or other PRC governmental approvals for this offering. If we or our subsidiaries inadvertently conclude that such permission is not required, our ability to offer or continue to offer our Class A Ordinary Shares to investors could be significantly limited or completely hindered, which could cause the value of our Class A Ordinary Shares to significantly decline or become worthless. Our Group may also face sanctions by the CSRC, the CAC or other PRC regulatory agencies. These regulatory agencies may impose fines and penalties on our operations in China, limit our ability to pay dividends outside of China, limit our operations in China, delay or restrict the repatriation of the proceeds from this offering into China or take other actions that could have a material adverse effect on our business, financial condition, results of operations and prospects, as well as the trading price of our securities.

The PRC Data Security Law, which took effect on September 1, 2021, imposes data security and privacy obligations on entities and individuals that carry out data activities, provides for a national security review procedure for data activities that may affect national security and imposes export restrictions on certain data and information. On August 20, 2021, the Standing Committee of the National People’s Congress, or the SCNPC, promulgated the PRC Personal Information Protection Law (the “**PIPL**”), which took effect on November 1, 2021. The PIPL sets out the regulatory framework for handling and protection of personal information and transmission of personal information to overseas. The PRC regulatory requirements regarding cybersecurity are constantly evolving. For instance, various regulatory bodies in China, including the Cyberspace Administration of China, the Ministry of Public Security and State Administration for Market Regulation, or the SAMR, have enforced data privacy and protection laws and regulations with varying and evolving standards and interpretations. On November 14, 2021, the Cyberspace Administration of China, or the CAC, issued the Draft Cyber Data Security Regulations for public comments, pursuant to which, data processors carrying out the following activities must, in accordance with the relevant national regulations, apply for a cybersecurity review: (i) the merger, reorganization or spin-off of internet platform operators that possess a large number of data resources related to national security, economic development and public interests that affects or may affect national security; (ii) listing in a foreign country of data processors that process the personal information of more than one million users; (iii) listing in Hong Kong of data processors that affects or may affect national security; and (iv) other data processing activities that affect or may affect national security. The scope of and threshold for determining what “affects or may affect national security” is still subject to uncertainty and further elaboration by the CAC.

On December 28, 2021, the Cyberspace Administration of China (the “CAC”), and 12 other relevant PRC government authorities published the amended Cybersecurity Review Measures, which came into effect on February 15, 2022. The final Cybersecurity Review Measures provide that a “network platform operator” that possesses personal information of more than one million users and seeks a listing in a foreign country must apply for a cybersecurity review. Further, the relevant PRC governmental authorities may initiate a cybersecurity review against any company if they determine certain network products, services or data processing activities of such company affect or may affect

national security. Through the contractual arrangements with Weishi, DDC SH had collected and possessed personal information of more than one million users. After the contractual arrangements with Weishi were terminated in April 2022, DDC SH still have been possessing this amount of personal information which are stored in mainland China. For purposes of the Cybersecurity Review Measures, we have applied for and completed the cybersecurity review with respect to our proposed overseas listing pursuant to the Cybersecurity Review Measures. As there remains significant uncertainty in the interpretation and enforcement of relevant PRC cybersecurity laws and regulations, we cannot assure you that we would not become subject to enhanced cybersecurity review or investigations launched by PRC regulators in the future. Any failure or delay in the completion of the cybersecurity review procedures or any other non-compliance with the related laws and regulations may result in rectification, fines or other penalties, including suspension of business, website closure, removal of our app from the relevant app stores, and revocation of prerequisite licenses, as well as reputational damage or legal proceedings or actions against us, which may have material adverse effect on our business, financial condition or results of operations. See *“Risk Factors — Risks Relating to Doing Business in China and Hong Kong — We may be liable for improper collection, use or appropriation of personal information provided by our customers.”*

On February 17, 2023, the CSRC promulgated the Trial Administrative Measures of Overseas Securities Offering and Listing by Domestic Enterprises (the “Trial Measures”), which became effective on March 31, 2023. On the same date, the CSRC circulated Supporting Guidance Rules No. 1 through No. 5, Notes on the Trial Measures, Notice on Administration Arrangements for the Filing of Overseas Listings by Domestic Enterprises and relevant CSRC Answers to Reporter Questions (collectively, the “Guidance Rules and Notice”) on the CSRC’s official website. Under the Trial Measures, either direct or indirect overseas offering and listing by domestic companies shall fulfill the filing procedure with the CSRC with submitting relevant materials. Any overseas offering and listing made by an issuer that meets both the following conditions will be determined as indirect: (1) 50% or more of the issuer’s operating revenue, total profit, total assets or net assets as documented in its audited consolidated financial statements for the most recent accounting year is accounted for by domestic companies; and (2) the main parts of the issuer’s business activities are conducted in the Chinese Mainland, or its main places of business are located in the Chinese Mainland, or the senior managers in charge of its business operation and management are mostly Chinese citizens or domiciled in the Chinese Mainland. The determination as to whether or not an overseas offering and listing by domestic companies is indirect, shall be made on a substance over form basis. When certain circumstances happen, overseas offering and listing shall not be made. And If the intended overseas offering and listing necessitates a national security review, relevant security review procedures shall be completed according to law before the application for such offering and listing is submitted to any overseas parties such as securities regulatory agencies and trading venues. Pursuant to the Trial Measures and the Guidance Rules and Notice, initial public offerings or listings in overseas markets shall be filed with the CSRC within 3 working days after the relevant application is submitted overseas, while PRC domestic enterprises that have submitted valid applications for overseas offerings and listing but have not obtained the approval from the relevant overseas regulatory authority or overseas stock exchanges shall complete filings with the CSRC prior to their overseas offerings and listings. We have submitted the filing materials with the CSRC to fulfill the filing procedure with the CSRC as per requirement of the Trial Measures, and completed such proceeding in November 2023. However, there is no guarantee that we will continue to comply with the Trial Measures. If we fail to comply with the Trial Measures, we will be required to correct our behaviors, facing warnings and fines which amount will range from RMB1,000,000 to RMB10,000,000, and directly responsible personnel will also be warned and fined which amount will range from RMB500,000 to RMB5,000,000. Any failure of us to complete further filings or any other relevant regulatory procedures in a timely manner will completely hinder our ability to offer or continue to offer our Class A Ordinary Shares, cause significant disruption to our business operations, and severely damage our reputation, which would materially and adversely affect our financial condition and results of operations and cause our Class A Ordinary Shares to significantly decline in value or become worthless. See *“Risk Factors — The approval of the China Securities Regulatory Commission and other PRC governmental authorities provided under the M&A rules are not required in connection with this offering, and, if required, we cannot predict whether we will be able to obtain such approval. Except for the CSRC filing for this issuance and listing, we are not required to obtain any permission or approval from any Chinese authority to issue securities to foreign investors or in connection with this offering. We completed the CSRC filing in November 2023. However, there is no guarantee that we will continue to comply with additional filing requirements, if any, in the future.”*

On February 24, 2023, the CSRC, together with the MOF, National Administration of State Secrets Protection and National Archives Administration of China, revised the Provisions on Strengthening Confidentiality and Archives Administration for Overseas Securities Offering and Listing, which were issued by the CSRC and National

Administration of State Secrets Protection and National Archives Administration of China in 2009, or the “Provisions.” The revised Provisions were issued under the title the “Provisions on Strengthening Confidentiality and Archives Administration of Overseas Securities Offering and Listing by Domestic Companies”, and came into effect on March 31, 2023, together with the Trial Measures. One of the major revisions to the revised Provisions is expanding their application to cover indirect overseas offering and listing, as is consistent with the Trial Measures. The revised Provisions require that, among other things, (a) a domestic company that plans to, either directly or indirectly through its overseas listed entity, publicly disclose or provide to relevant individuals or entities including securities companies, securities service providers and overseas regulators, any documents and materials that contain state secrets or working secrets of government agencies, shall first obtain approval from competent authorities according to law, and file with the secrecy administrative department at the same level; and (b) a domestic company that plans to, either directly or indirectly through its overseas listed entity, publicly disclose or provide to relevant individuals and entities including securities companies, securities service providers and overseas regulators, any other documents and materials that, if leaked, will be detrimental to national security or public interest, shall strictly fulfill relevant procedures stipulated by applicable national regulations. Any failure or perceived failure by our Company or our PRC subsidiaries to comply with the above confidentiality and archives administration requirements under the revised Provisions and other PRC laws and regulations may result in the relevant entities being held legally liable by competent authorities and referred to the judicial organ to be investigated for criminal liability if suspected of committing a crime.

#### *Requisite Licenses and Approvals for Our Operations*

Our business is subject to governmental supervision and regulation by the relevant PRC governmental authorities, including but not limited to the State Council, the SAMR, the Ministry of Commerce (the “MOFCOM”), the State Internet Information Office, the General Administration of Customs and other governmental authorities in charge of the relevant services provided by us. These government authorities promulgate and enforce regulations that cover various aspects of the operation of food products and e-commerce, including entry into these industries, scope of permitted business activities, licenses and permits for various business activities.

To operate our general business activities currently conducted in China, we are required and has obtained business licenses and food operation licenses, except for Quanzhou Weishi Food Co., Limited which does not hold any assets or operations for now and we are in the process of applying for relevant food operation licenses for it. In addition, SH Lashu have been filed for record as consignee or consignor of import and export goods. However, we cannot assure you that we can successfully renew these licenses in a timely manner. No application for any such licenses have been denied.

See “*Risk Factors — Risks Relating to Our Business and Industry — If we fail to obtain and maintain the requisite licenses and approvals required under the complex regulatory environment applicable to our businesses in China, or if we are required to take compliance actions that are time-consuming or costly, our business, results of operations and financial condition may be materially and adversely affected.*”

(1) Being elimination of cash contributions from the Company to its subsidiary.					

**Transfer of Cash Through our Organization**

Currently, DDC Cayman is incorporated in Cayman Islands to be the ultimate parent company of the Group. As a holding company with no material operations of our own, DDC Cayman conduct our operations through our operating subsidiaries established in Hong Kong and mainland China. DDC Cayman is permitted under the laws of Cayman Islands to provide funding to our subsidiaries in Cayman Islands, Hong Kong and mainland China through loans or capital contributions on the amount of the funds. DDC Cayman can distribute earnings from its businesses, including subsidiaries, to the U.S. investors as well as the ability to settle amounts owed under intercompany agreements.

Our operating subsidiaries are permitted under the laws of the PRC and Hong Kong, respectively, to provide funding to DDC Cayman, the holding company incorporated in the Cayman Islands through dividend distributions. Our Group currently intend to retain all available funds and future earnings, if any, for the operation and expansion of our business and do not anticipate declaring or paying any dividends in the foreseeable future. We currently do not have any dividend policy, and we do not anticipate declaring or paying dividends in the foreseeable future. We intend to retain all available funds and any future earnings to fund the development and expansion of our business. However, to the extent cash and assets in our business are in the PRC or our PRC entities, the funds/assets may not be available to fund operations or for other use outside of the PRC due to interventions in or the imposition of restrictions and limitations on the ability of us or our subsidiaries, by the PRC government. If our subsidiaries incur debt on its own behalf in the future, the instruments governing such debt may restrict their ability to pay dividends to us. Other than cash transferred in the ordinary course of business among our subsidiaries, there were no other significant cash transfers and transfers of other assets among DDC Cayman and its subsidiaries to date. Moreover, to the extent cash and assets in our business are in the PRC or our PRC entities, the funds/assets may not be available to fund operations or for other use outside of the PRC due to interventions in or the imposition of restrictions and limitations on the ability of us or our subsidiaries, by the PRC government.

Currently, our operations are conducted through our operating entities established in Hong Kong and mainland China. During the two years ended December 31, 2021 and 2022, we had conducted part of our operations in China through contractual arrangements with the Weishi and City Modern VIEs (namely, Shanghai Weishi Information Technology Co., Ltd., Shanghai City Modern Agriculture Development Co., Ltd., Shanghai City Vegetable Production and Distribution Co-op, Shanghai Jiapin Vegetable Planting Co-op, Shanghai Jiapin Ecological Agriculture Co-op). Through such contractual arrangements, we, through our indirect wholly-owned PRC subsidiary SH DDC, controlled and received the economic benefits of the Weishi and City Modern VIEs without owning any direct equity interest in them. As of April 2022, such contractual arrangements with the Weishi and City Modern VIEs have been terminated. During the two years ended December 31, 2021 and 2022, and ended August 19, 2023, we had the contractual arrangements with Chongqing Mengwei Technology Co., Ltd., Liao Xuefeng, Chongqing Changshou District Weibang Network Co., Ltd., Chongqing Yizhichan Snack Food Electronic Commerce Service Department and Chongqing Ningqi E-commerce Co. Ltd. to enable us to have the ability to control a number of online stores purchased from them since the titles of such online stores cannot be transferred to us due to the limitations from the policies of certain online platforms. These online stores which we refer to collectively as the Mengwei VIE, are considered VIEs and SH DDC was the primary beneficiary. The contractual arrangements for the Mengwei VIE were not designed to create any ownership over the Mengwei VIE but were designed to provide SH DDC with the power, rights, and obligations equivalent in all material respects to those it would possess as the principal asset-holder of the Mengwei VIE. Neither DDC Cayman nor any of its subsidiaries has an equity ownership or direct foreign investment in, or control of, through such ownership or investment, the Mengwei VIE. Consolidated VIEs were the assets in which our PRC subsidiary SH DDC, through contractual arrangements, exercised effective control over the operating activities that most impact the economic performance, bore the risks of, and enjoyed the rewards normally associated with ownership of the assets, and therefore SH DDC was the primary beneficiary of the Mengwei VIE and had, for accounting purposes, consolidated their financial results in our consolidated financial statements in accordance with U.S. GAAP. In this prospectus, any description of control over the Mengwei VIE or benefits from the Mengwei VIE that accrue to us is made based on the assumption that we had met all the conditions for consolidation under U.S. GAAP. As of August 2023, such contractual arrangements with regard to the Mengwei VIE have been terminated.

Hong Kong is a special administrative region of the PRC and the basic policies of the PRC regarding Hong Kong are reflected in the Basic Law, providing Hong Kong with a high degree of autonomy and executive, legislative and independent judicial powers, including that of final adjudication under the principle of “one country, two systems”. Under Hong Kong law, dividends could only be paid out of distributable profits (that is, accumulated realized profits less accumulated realized losses) or other distributable reserves. Dividends cannot be paid out of share capital. Under the current practice of the Inland Revenue Department of Hong Kong, no tax is payable in Hong Kong in respect of dividends paid by us.

We may make loans to our PRC subsidiaries subject to the approval or registration from governmental authorities and limitation of amount, or we may make additional capital contributions to our wholly foreign-owned subsidiaries in China. Any loans to our subsidiaries in China are subject to foreign debt registrations. In addition, the foreign exchange receipts under the capital account of a domestic institution shall be used pursuant to the principle of authenticity and self-use within its business scope. And the capital shall not be used for the purposes prohibited by law. Non-investing foreign-invested enterprises are permitted to make equity investments in the PRC with their capital funds in accordance with applicable PRC laws and regulations under the premise that the domestic investment projects are true and in compliance with applicable PRC laws and regulations. As the relevant government authorities have broad discretion in interpreting the regulation, it is unclear whether SAFE will permit such capital funds to be used for equity investments in the PRC in actual practice.

Under existing PRC foreign exchange regulations, payment of current account items, such as profit distributions and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior approval from State Administration of Foreign Exchange, or SAFE, by complying with certain procedural requirements. Therefore, our subsidiaries are able to pay dividends in foreign currencies to us without prior approval from SAFE, subject to the condition that the remittance of such dividends outside of the PRC complies with certain procedures under PRC foreign exchange regulations, such as the overseas investment registrations by our shareholders or the ultimate shareholders of our corporate shareholders who are PRC residents. Approval from, or registration with, appropriate government authorities is, however, required where the RMB is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. The PRC government may also at its discretion restrict access in the future to foreign currencies for current account transactions. Current PRC regulations permit our PRC subsidiaries to pay dividends to the Company only out of their accumulated profits, if any, determined in accordance with Chinese accounting standards and regulations. As of the date of this prospectus, there are no restrictions or limitations imposed by the Hong Kong government on the transfer of capital within, into and out of Hong Kong (including funds from Hong Kong to the PRC), except for transfer of funds involving money laundering and criminal activities.

To address persistent capital outflows and the RMB's depreciation against the U.S. dollar in the fourth quarter of 2016, the People's Bank of China and SAFE have implemented a series of capital control measures in the subsequent months, including stricter vetting procedures for China-based companies to remit foreign currency for overseas acquisitions, dividend payments and shareholder loan repayments. The PRC government may continue to strengthen its capital controls and our PRC subsidiaries' dividends and other distributions may be subject to tightened scrutiny in the future. The PRC government also imposes controls on the conversion of RMB into foreign currencies and the remittance of currencies out of the PRC. Therefore, we may experience difficulties in completing the administrative procedures necessary to obtain and remit foreign currency for the payment of dividends from our profits, if any. Furthermore, if our subsidiaries in the PRC incur debt on their own in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments. If we or our subsidiaries are unable to receive all of the revenues from our operations, we may be unable to pay dividends on our ordinary shares.

Further, the PRC government imposes controls on the convertibility of RMB into foreign currencies and, in certain cases, the remittance of currency out of China. The dividends and distributions from our PRC subsidiaries are subject to relevant regulations and restrictions on dividends and payment to parties outside of China. See *"Risk Factors — Risks Related to Doing Business in China and Hong Kong — PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay us from using part of the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiaries, which could materially and adversely affect our liquidity and our ability to fund and expand our business"* and *"Restrictions on currency exchange may limit our ability to utilize our revenues effectively"* for more information on the risk of PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion with respect to part of the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiary and restrictions on currency exchange may limit our ability to utilize our revenues effectively with respect to our operations. Further, investment in Chinese companies, which are governed by the Foreign Investment Law and Company Law, and the dividends and distributions from our PRC subsidiaries are subject to relevant regulations and restrictions on dividends and payment to parties outside of China. Applicable PRC law permits payment of dividends to DDC Cayman by our PRC subsidiaries only out of its net income, if any, determined in accordance with PRC accounting standards and regulations. Each of our PRC subsidiaries required to set aside at least 10% of its after-tax profits each year, if any, to fund a statutory reserve until such reserve reaches 50% of its registered capital. Although the statutory reserves can be used, among other ways, to increase the registered capital and eliminate future losses in excess of retained earnings of the respective companies, the reserve funds are not distributable as cash dividends except in the

event of liquidation. A PRC company is not permitted to distribute any profits until any losses from prior fiscal years have been offset. Profits retained from prior fiscal years may be distributed together with distributable profits from the current fiscal year. In addition, registered share capital and capital reserve accounts are also restricted from withdrawal in the PRC, up to the amount of net assets held in each operating subsidiary.

Cash dividends, if any, on our ordinary shares will be paid in U.S. dollars. If we are considered a PRC tax resident enterprise for tax purposes, any dividends we pay to our overseas shareholders may be regarded as China-sourced income and as a result may be subject to PRC withholding tax at a rate of up to 10%. A 10% PRC withholding tax is applicable to dividends payable to investors that are non-resident enterprises. Any gain realized on the transfer of ordinary shares by such investors is also subject to PRC tax at a current rate of 10% which in the case of dividends will be withheld at source if such gain is regarded as income derived from sources within the PRC.

Within the organization, investor cash inflows have all been received by DDC Cayman. Cash to fund DDC Cayman's operations is transferred from DDC Cayman down through our Hong Kong and Cayman entities and then into our Chinese entities through capital contributions and loans. Transfers among our Hong Kong entities are not restricted. Furthermore, subject to payment of withholding taxes, there are no restrictions and limitations on our ability to distribute earnings from our subsidiaries to DDC Cayman and U.S. investors as well as the ability to settle amounts owed under any agreements.

In the reporting periods presented in this prospectus and up to the date of this prospectus, save for (i) cash transfers among entities of our Group that are made in the ordinary course of business; and (ii) cash transfers described in the table below, no material cash and other asset transfers have occurred among DDC Cayman, its subsidiaries and the VIEs, or from DDC Cayman and its subsidiaries to investors; and no dividends or distributions from any of the subsidiaries and the VIEs has been made to DDC Cayman or to investors, or from DDC Cayman to any of the subsidiaries and the VIEs or to investors.

See "Selected Consolidated Financial Data" and our consolidated financial statements and related notes included elsewhere in this prospectus. We currently intend to retain all available funds and future earnings, if any, for the operation and expansion of our business and do not anticipate declaring or paying any dividends in the foreseeable future.

Transferring cash through our subsidiaries is subject to risks due to the uncertainty of the interpretation and application of the PRC laws and regulations, including but not limited to regulatory review of oversea listing of PRC companies through a special purpose vehicle. Moreover, the Chinese government has significant oversight and

discretion over the conduct of SH DDC's business and may intervene or influence SH DDC's operations at any time with little advance notice, which could result in a material change in our operations and/or the cash flow through our subsidiaries.

As an offshore holding company, we are permitted under PRC laws and regulations to provide funding from the proceeds of our offshore fund-raising activities to SH DDC and our subsidiaries only through loans or capital contributions, subject to the satisfaction of the applicable government registration and approval requirements. Before providing loans to SH DDC and our subsidiaries, we will be required to make filings with details of the loans with the SAFE in accordance with relevant PRC laws and regulations. SH DDC and our subsidiaries that receive the loans are only allowed to use the loans for the purposes set forth in these laws and regulations. Under regulations of the SAFE, Renminbi is not convertible into foreign currencies for capital account items, such as loans, repatriation of investments and investments outside of China, unless the prior approval of the SAFE is obtained and prior registration with the SAFE is made.

Further, subject to the Companies Act and our Tenth Amended and Restated Memorandum and Articles of Association which will take effect immediately prior to the completion of this offering, our board of directors may authorize and declare a dividend to shareholders from time to time out of the profits from DDC Cayman, realized or unrealized, or out of the share premium account, provided that DDC Cayman will remain solvent, meaning DDC Cayman is able to pay its debts as they come due in the ordinary course of business. There is no further Cayman Islands statutory restriction on the amount of funds which may be distributed by us in the form of dividends.

Under the current practice of the Inland Revenue Department of Hong Kong, no tax is payable in Hong Kong in respect of dividends paid by us. The laws and regulations of the PRC do not currently have any material impact on transfer of cash from DDC Cayman to our Hong Kong subsidiaries or from our Hong Kong subsidiaries to DDC Cayman. There are no restrictions or limitation under the laws of Hong Kong imposed on the conversion of HK dollar into foreign currencies and the remittance of currencies out of Hong Kong or across borders and to U.S. investors.

Currently, we do not have specific cash management policies and procedures in place that dictate how funds are transferred through our organization, however, we have been closely monitoring our transfer of funds and will adopt relevant policies and procedures if necessary.

See “*Risk Factors — Risk Related to Our Corporate Structure — We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us could have a material and adverse effect on our ability to conduct our business.*” for more information.

#### **Risk Factor Summary**

Our business and our offering are subject to a number of risks, including risks that may prevent us from achieving our business objectives or may materially and adversely affect our business, financial condition, results of operations, cash flows and prospects that you should consider before making a decision to invest in our Class A Ordinary Shares. These risks are discussed more fully in “Risk Factors” beginning on page 39. These risks include, but are not limited to, the following:

##### *Risks Relating to Our Business and Industry*

- Our business and future growth prospects rely on consumer demand for our products. Any shift in consumer demand, or any unexpected situation with a negative impact on consumer demand may materially and adversely affect our business and results of operations.
- If we fail to retain existing customers, derive revenue from existing customers consistent with historical performance or acquire new customers cost-effectively, our business could be adversely affected.
- The market for RTH, RTC, RTE, plant-based meal products and private-label in China is continuously evolving and may not grow as quickly as expected, or at all, which could negatively affect our business and prospects.

- We are actively expanding our business outside the PRC, where we may be subject to increased business, regulatory, and economic risks that could materially adversely affect our business, financial condition, results of operations, and prospects. A severe or prolonged downturn in the PRC or global economy could also materially and adversely affect our business, results of operations and financial condition.
- If we are unable to expand our business to international markets successfully, our business and results of operations would be adversely affected.
- Changes to the pricing of our products could adversely affect our results of operations.
- Our business and prospects depend on our ability to build our brands and reputation, which could be harmed by negative publicity with respect to us, our products and operations, our management, brand ambassadors, key opinion leaders (“KOLs”), or other business partners.
- Our products are subject to food safety standards and the failure to satisfy such mandated food safety standards would have a material and adverse effect on our business, results of operations and prospects.
- We may be subject to claims under consumer protection laws, including health and safety claims and product liability claims, if people are harmed by the products sold by us.
- We face risks related to instances of food-borne illnesses, health epidemics, natural disasters and other catastrophic events. The outbreak of any severe contagious diseases, if uncontrolled, could adversely affect our business and results of operation.
- We may be liable for improper collection, use or appropriation of personal information provided by our customers.
- If the content we produce and distribute through online social and content platforms, or content available on our website, is deemed to violate PRC laws or regulations, our business and results of operations may be materially and adversely affected.

- We rely in part on third-party distributors to place our products into the market and we may not be able to control our distributors.
- Adverse publicity involving us, our products, our raw materials, our directors, our management team, our competitors or our industry could materially and adversely impact our business and results of operations.
- We operate in a highly competitive industry. Failure to compete effectively could adversely affect our market share, growth and profitability.
- We may not be able to successfully implement our growth strategy.
- We may be unable to manage our growth effectively or efficiently.
- We have incurred net loss in the past, and we may not be able to achieve or maintain profitability in the future.
- Our historical financial conditions and results of operations are not representative of our future performance. We may be unable to effectively manage our future growth and expansion, and may not achieve growth in revenue and profit. If we are unable to manage our growth effectively, we may not be able to capitalize on new business opportunities and our business and financial results may be materially and adversely affected.
- We depend on a stable and adequate supply of raw materials which are subject to price volatility and other risks. Inadequate or interrupted supply and price fluctuation for raw materials and packaging materials could adversely affect our profitability.

- Our online sales depend on the proper operation of third-party online platforms and any serious interruptions of these platforms could adversely affect our operations.
- Our operating results depend on the effectiveness of our marketing and promotional programs. Improper marketing activities may adversely affect our brand image.
- If we fail to obtain and maintain the requisite licenses and approvals required under the complex regulatory environment applicable to our businesses in China, or if we are required to take compliance actions that are time-consuming or costly, our business, results of operations and financial condition may be materially and adversely affected.

- Our acquisition activities and other strategic transactions may present managerial, integration, operational and financial risks, which may prevent us from realizing the full intended benefit of the acquisitions we undertake.
- We rely on third-party logistics companies to deliver our products. If the third-party logistics business is interrupted, we may not have sufficient resources to support our product transportation and face the risk of rising transportation prices.

- We may not be able to detect or prevent fraud, bribery, or other misconduct committed by our employees, customers or other third parties.
- We may be subject to legal proceedings in the ordinary course of our business. Any adverse outcome of these legal proceedings could have a material adverse effect on our business, results of operations and financial condition.

*Risks Related to Our Securities*

- There has been no prior public market for our Ordinary Shares and an active trading market may never develop or be sustained.
- Our share is expected to initially trade under \$5.00 per Class A ordinary share and thus could be known as a penny stock, subject to certain exceptions. Trading in penny stocks has certain restrictions and these restrictions could negatively affect the price and liquidity of our Class A ordinary shares.
- Our share price may be volatile and may fluctuate.
- We intend to grant employee share options and other share-based awards in the future. We will recognize any share-based compensation expenses in our consolidated statements of comprehensive loss. Any additional grant of employee share options and other share-based awards in the future may have a material adverse effect on our results of operation.
- If we fail to meet applicable listing requirements, the NYSE Group may delist our Class A Ordinary Shares from trading, in which case the liquidity and market price of our Class A Ordinary Shares could decline.
- We do not intend to pay cash dividends on our Class A Ordinary Shares in the foreseeable future.
- We are an emerging growth company within the meaning of the Securities Act and may take advantage of certain reduced reporting requirements.
- We qualify as a foreign private issuer and, as a result, we will not be subject to U.S. proxy rules and will be subject to Exchange Act reporting obligations that permit less detailed and less frequent reporting than that of a U.S. domestic public company.
- As a foreign private issuer, we are permitted to adopt certain home country practices in relation to corporate governance matters that differ significantly from NYSE corporate governance listing standards. These practices may afford less protection to shareholders than they would enjoy if we complied fully with corporate governance listing standards.
- There can be no assurance that we will not be a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for any taxable year, which could result in adverse U.S. federal income tax consequences to U.S. holders of our Class A Ordinary Shares.
- We may lose our foreign private issuer status in the future, which could result in significant additional costs and expenses.
- We will have broad discretion in the use of proceeds of this offering designated for working capital and general corporate purposes.
- Our pre-IPO shareholders will be able to sell their shares after the completion of this offering subject to restrictions under Rule 144 under the Securities Act, which could impact the trading price of our Class A Ordinary Shares.
- Failure to comply with anticorruption and anti-money laundering laws, including the FCPA and similar laws associated with activities outside of the United States, could subject us to penalties and other adverse consequences.
- We expect to incur significant additional costs as a result of being a public company, which may materially and adversely affect our business, financial condition and results of operations.
- Securities analysts may not publish favorable research or reports about our business or may publish no information at all, which could cause our stock price or trading volume to decline.
- Recently introduced economic substance legislation of the Cayman Islands may impact us and our operations.

**Implications of Being an Emerging Growth Company and a Foreign Private Issuer***Emerging Growth Company*

As a company with less than \$1.07 billion in revenue during our last fiscal year, we qualify as an “emerging growth company” as defined in the Jumpstart Our Business Startups Act, or JOBS Act, enacted in April 2012, and may take advantage of reduced reporting requirements that are otherwise applicable to public companies. These provisions include, but are not limited to:

- being permitted to present only two years of audited financial statements and only two years of related Management’s Discussion and Analysis of Financial Condition and Results of Operations in our filings with the SEC;
- not being required to comply with the auditor attestation requirements in the assessment of our internal control over financial reporting;
- reduced disclosure obligations regarding executive compensation in periodic reports, proxy statements and registration statements; and
- exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

We may take advantage of these provisions until the last day of our fiscal year following the fifth anniversary of the date of the first sale of our Class A Ordinary Shares pursuant to this offering. However, if certain events occur before the end of such five-year period, including if we become a “large accelerated filer,” our annual gross revenues exceed \$1.07 billion or we issue more than \$1.0 billion of non-convertible debt in any three-year period, we will cease to be an emerging growth company before the end of such five-year period.

In addition, Section 107 of the JOBS Act provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act of 1933, as amended, or the Securities Act, for complying with new or revised accounting standards. We have elected to take advantage of the extended transition period for complying with new or revised accounting standards and acknowledge such election is irrevocable pursuant to Section 107 of the JOBS Act.

*Foreign Private Issuer*

We are a “foreign private issuer,” as defined by the SEC. As a result, in accordance with the rules and regulations of the New York Stock Exchange, or NYSE, we may comply with home country governance requirements and certain exemptions thereunder rather than complying with NYSE corporate governance standards. We may choose to take advantage of the following exemptions afforded to foreign private issuers:

- Exemption from filing quarterly reports on Form 10-Q or provide current reports on Form 8-K disclosing significant events within four (4) days of their occurrence.
- Exemption from Section 16 rules regarding sales of Class A Ordinary Shares by insiders, which will provide less data in this regard than shareholders of U.S. companies that are subject to the Exchange Act.
- Exemption from the NYSE rules applicable to domestic issuers requiring disclosure within four (4) business days of any determination to grant a waiver of the code of business conduct and ethics to directors and officers. Although we will require board approval of any such waiver, we may choose not to disclose the waiver in the manner set forth in the NYSE rules, as permitted by the foreign private issuer exemption.
- Exemption from the requirement that our board of directors have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities.

- Exemption from the requirements that director nominees are selected, or recommended for selection by our board of directors, either by (i) independent directors constituting a majority of our board of directors' independent directors in a vote in which only independent directors participate, or (ii) a committee comprised solely of independent directors, and that a formal written charter or board resolution, as applicable, addressing the nominations process is adopted.

If we rely on our home country corporate governance practices in lieu of certain of the rules of NYSE, our shareholders may not have the same protections afforded to shareholders of companies that are subject to all of the corporate governance requirements of NYSE. If we choose to do so, we may utilize these exemptions for as long as we continue to qualify as a foreign private issuer.

Although we are permitted to follow certain corporate governance rules that conform to Cayman Islands requirements in lieu of many of the NYSE corporate governance rules, we intend to comply with the NYSE corporate governance rules applicable to foreign private issuers.

#### **Our Securities**

Our shareholders will approve (i) the Share Consolidation of our authorized shares at a ratio of 1-for-16 shares, and (ii) an amendment and restatement of our memorandum and articles of association, in order to reflect the foregoing alterations to our share capital, which will be effectuated before the consummation of our initial public offering. The net effect of these corporate actions will be that our authorized share capital will be US\$1,614,000 divided into 100,000,000 Class A Ordinary Shares of a nominal or par value of US\$0.016 each and 875,000 Class B Ordinary Shares of a nominal or par value of US\$0.016 each, with such rights, preferences and privileges as set forth in the Tenth Amended and Restated Memorandum and Articles of Association.

Unless otherwise indicated, all references to Class A Ordinary Shares, options to purchase Class A Ordinary Shares, share data, per share data, and related information (except for pages F-1 through F-137) have been retroactively adjusted, where applicable, in this prospectus to reflect the Share Consolidation as if it had occurred at the beginning of the earlier period presented.

<p>We use earnings before interest expenses and income, income tax expenses and depreciation, and amortization (“EBITDA”) and adjusted EBITDA, non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. EBITDA represents net loss excluding changes in income tax expense, interest expenses, interest income and depreciation and amortization. Adjusted EBITDA represents net loss excluding changes in income tax expense, interest expenses, interest income, foreign currency exchange loss/(gain), net, impairment loss for equity investments accounted for using measurement alternative, impairment loss for equity investments accounted for using measurement alternative, gain from deconsolidation of VIEs, other income, other expenses, net, changes in fair value of financial instruments, depreciation and amortization and share-based compensation.</p> <p>We believe that the adjusted EBITDA helps to identify underlying trends in our business that could otherwise be distorted by the effect of certain expenses that we are included in net loss. We believe that adjusted EBITDA provides useful information about our operating results, enhance the overall understanding of our past performance and future prospect and allow for greater visibility with respect to key metrics used by our management uses in its financial and operational decision making. In additions, the company provides EBITDA because we believe that investors and analysts may find it useful in measuring operating performance without regard to items such as income tax expense, interest expenses and interest income and depreciation and amortization.</p>

## RISK FACTORS

*An investment in our Class A Ordinary Shares involves a high degree of risk. You should carefully consider the following information about these risks, together with the other information appearing elsewhere in this prospectus, before deciding to invest in our Class A Ordinary Shares. The occurrence of any of the following risks could have a material adverse effect on our business, financial condition, results of operations and future growth prospects. In these circumstances, the market price of our Class A Ordinary Shares could decline, and you may lose all or part of your investment.*

### Risks Related to Our Business and Industry

***Our business and future growth prospects rely on consumer demand for our products. Any shift in consumer demand, or any unexpected situation with a negative impact on consumer demand may materially and adversely affect our business and results of operations.***

Our business relies on consumer demand for our products, which depends substantially on factors such as (i) economic growth and increasing disposable income; (ii) diversified consumption scenarios and increasing consumption frequency; (iii) continuous product innovation and upgrade; and (iv) increasing development and improvement of sales channels. Changes in any of the above at any time could result in decline in consumer demand for our products. Our business development will depend partially on our ability to (i) anticipate, identify or adapt to such changes, (ii) introduce new attractive products and marketing strategies in a timely manner, and (iii) develop an effective sales network accordingly.

Although we dedicate substantial resources to consumer-centric market research and data analysis to upgrade our existing products and to develop, design and launch new products, in order to cater to consumer preferences, we cannot assure you that our product portfolio will continuously lead or capture the market trends. Any changes in consumer preferences and tastes, or any of our failure to anticipate, identify or adapt to market trends, may impose downward pressure on sales and pricing of our products or lead to increases in selling and distribution expenses, and therefore materially and adversely affect our business and results of operations.

In order to promptly respond to rapidly developing market trends and changing tastes, preferences and lifestyle of consumers, our sales and development teams regularly observe the changing trends in our target markets and launch new products or different serving sizes and flavors from time to time. While we have in the past successfully developed, promoted and achieved market acceptance of our products, we cannot assure you that we will be able to continuously develop new products or our existing or new products in the future will continue to generate sufficient consumer demand to be profitable.

***If we fail to retain existing customers, derive revenue from existing customers consistent with historical performance or acquire new customers cost-effectively, our business could be adversely affected.***

Our ability to increase revenues depends in part on our ability to retain and keep existing customers engaged so that they continue to purchase products from us, and to acquire new customers cost-effectively. We intend to continue to expand our number of customers as part of our growth strategy. If we fail to retain existing customers and to attract and retain new customers, our business, financial condition and results of our operations could be adversely affected.

Further, if customers do not perceive our product offerings to be of sufficient value, quality, or innovation, or if we fail to offer innovative and relevant product offerings, we may not be able to attract or retain customers or engage existing customers so that they continue to purchase products or increase the amount of products purchased from us. We may lose current customers to competitors if the competitors offer superior products or if we are unable to satisfy its customers' orders in a timely manner.

***The market for RTH, RTC and plant-based meal products in China is continuously evolving and may not grow as quickly as expected, or at all, which could negatively affect our business and prospects.***

Our business and prospects depend on the continuous development and growth of the markets for RTC, RTH, RTE and plant-based meal products in China. The growth and development of these markets are impacted by numerous factors and subject to uncertainties that are beyond our control, such as the macroeconomic environment, per capita spending, consumers' interest, consumers' purchasing frequency, demand for RTH, RTC, RTE and plant-based meal products from consumers in lower tier cities, regulatory changes, technological innovations, cultural influences and

changes in tastes and preferences. We cannot assure you that the market will continue to grow as rapidly as it has in the past, in ways that are consistent with other markets, such as that of the United States, or at all. If the markets for RTH, RTC, RTE and plant-based meal products in China do not grow as quickly as expected or at all, or if we fail to benefit from such growth by successfully implementing our business strategies, our business and prospects may be negatively affected.

***We are actively expanding our business outside the PRC, where we may be subject to increased business, regulatory, and economic risks that could materially adversely affect our business, financial condition, results of operations, and prospects. A severe or prolonged downturn in the PRC or global economy could also materially and adversely affect our business, results of operations and financial condition.***

Currently, we conduct our operations primarily in China, but we expect to continue to expand our business in the U.S. and Southeast Asia in hopes of widening our customer base. Any new markets or countries into which we attempt to expand into and sell our products may not be receptive. For example, we may not be able to expand further in some overseas markets if we are not able to adapt our products to fit the needs of prospective customers in those markets or if we are unable to satisfy certain country- and industry-specific laws or regulations. In addition, future international expansion will also require considerable management attention and the investment of significant resources while subjecting us to new risks and increasing certain risks that we already face, including risks associated with:

- recruiting and retaining talented and capable employees outside the PRC, including employees who speak multiple languages and come from a wide variety of different cultural backgrounds and customs;
- maintaining our company culture across all of our global teams;
- providing our products and solutions in different languages;
- compliance with applicable international laws and regulations, including laws and regulations with respect to employment, construction, privacy, data protection, consumer protection, foreign investment and unsolicited email, and the risk of penalties and fines against us and individual members of management or employees if our practices are deemed to be out of compliance;
- managing an employee base in jurisdictions with differing employment regulations;
- operating in jurisdictions that do not protect intellectual property rights to the same extent as the PRC and navigating the practical enforcement of such intellectual property rights outside of the PRC;
- changes in foreign laws that could restrict our ability to use our intellectual property outside of the foreign jurisdiction in which we developed it;
- compliance by us and our partners with anti-corruption laws, competition laws, import and export control laws, tariffs, trade barriers, economic sanctions, and other regulatory limitations on our ability to provide our products or platform in certain international markets;
- foreign exchange controls that might require significant lead time in setting up operations in certain geographic territories and might prevent us from repatriating cash earned outside the PRC;
- political and economic instability;
- changes in diplomatic and trade relationships, including the imposition of new trade restrictions, trade protection measures, import or export requirements, trade embargoes, and other trade barriers;
- generally longer payment cycles and greater difficulty in collecting accounts receivable;
- potentially adverse tax consequences in the United States or the international jurisdictions in which we operate; and
- higher costs of doing business internationally, including increased accounting, travel, infrastructure, and legal compliance costs.

## [Table of Contents](#)

Compliance with laws and regulations applicable to our global operations substantially increases our cost of doing business. We may be unable to keep current with changes in laws and regulations as they occur. Although we have implemented policies and procedures designed to support compliance with these laws and regulations, there can be no assurance that we or our employees, partners, and agents will always maintain compliance. Any violations could result in enforcement actions, fines, civil and criminal penalties, damages, injunctions, or reputational harm. If we are unable to comply with these laws and regulations or manage the complexity of our global operations successfully, we may need to relocate or cease operations in certain foreign jurisdictions, which could materially adversely impact our business, financial condition, results of operations, and prospects.

Additionally, the global macroeconomic environment is facing challenges. The outbreak of the COVID-19 pandemic in 2020 has brought about an adverse impact on global economies and financial markets. There is considerable uncertainty over the long-term effects of the expansionary monetary and fiscal policies adopted by the central banks and financial authorities of some of the world's leading economies, including the United States and China. There have been concerns over unrest and terrorist threats in the Middle East, Europe and Africa and over the conflicts involving Ukraine, Syria and North Korea. There have also been concerns on the relationship among China and other Asian countries, which may result in or intensify potential conflicts in relation to territorial disputes, and the trade disputes between the United States and China. The ongoing trade tensions between the United States and China may have tremendous negative impact on the economies of not merely the two countries concerned, but the global economy as a whole. It is unclear whether these challenges and uncertainties will be contained or resolved, and what effects they may have on the global political and economic conditions in the long term. Our international market expansion strategy may be hindered if these challenges and uncertainties persist.

***If we are unable to expand our business to international markets successfully, our business and results of operations would be adversely affected.***

To the extent permitted due to our recurring losses from operations and an accumulated deficit, we plan to expand our business internationally in the U.S. and Southeast Asia through online and offline sales channels, including accessing overseas markets through third-party e-commerce platforms and local distributors. However, we may not be able to expand our business as we planned. For example, we may not be able to identify e-commerce platforms or local distributors with sufficient resources and strong local ties to collaborate with us, which would negatively affect our strategy to expand our business to international markets.

Expanding our business internationally also involves certain risks and uncertainties, such as our ability to obtain adequate funding for development and expansion costs, identify strategic markets globally, identify locations with large consumer base and commercial potential, obtain the required licenses, permits and approvals, and recruit and retain talents with sufficient experience. Any risks and uncertainties listed above, either individually or in aggregate, might delay or fail our plan to expand our business overseas at manageable cost levels.

In addition to the above factors, our overseas expansions face additional difficulties and challenges. We have limited experience operating in overseas markets and may face competition from major, established competitors in these markets. These competitors usually have more experience and resources for their business operations in those markets. In addition, the real estate, employment and labor, transportation and logistics, regulatory, and other operating requirements in these markets differ significantly from those in China. Moreover, a number of factors could have an adverse impact on our operating results if our efforts to expand internationally are not successful. These factors include changes in market needs and product trends, economic fluctuations, political and social turbulence, relevant countries or regions' relationships with China, changes in legal regulations or other conditions and difficulties in employing and training appropriate local management and employees. There is no assurance that our international market expansion strategy will succeed in the future.

***Changes to the pricing of our products could adversely affect our results of operations.***

We aim to bring to consumers affordable, healthy, and convenient food products. The pricing of our products is based on multiple factors, including, without limitation, the pricing of the components, ingredients and raw materials, costs of product development, anticipated sales volume, manufacturing costs and logistics service expenditures. Benefiting from our deep engagement with our customers, we are in a good position to analyze consumers' preferences and demands, evaluate the market acceptance and potential sales volume of our new products to be launched, which enables us to price our products at a competitive rate. Nevertheless, we cannot ascertain that we will adopt a competitive

---

pricing strategy for our products at all times. If we price our products too low, our profit margin will suffer. If we price our products higher than consumers' expected price, we may not achieve the sales volume we expect, in which case revenues from the corresponding products may be negatively affected.

Even if we properly price our products at their launch time, we may need to offer substantial discounts, especially during the major shopping festivals such as "618," "Singles' Day" and "Double Twelve," to promote our brand awareness and to drive sales volume, or cut down the price as our products advance in their life cycles to maintain such products' attractiveness to consumers. We may also need to reduce the prices to sell excess inventory in the event that we fail to accurately forecast demands. Any such price cuts may not lead to the sales volume we expect and may negatively impact the demand for our other newly launched or higher-end products, in which case our revenues could be negatively impacted. Furthermore, some customers may purchase our products in bulk when we offer substantially discounted or promotional prices and then re-sell them through their proprietary or third-party channels. The market and pricing for our products may be interrupted by the secondary sale pricing strategies adopted by such resellers and the possible negative shopping experience they provide to consumers, which may negatively impact our brand image and our business.

***Our business and prospects depend on our ability to build our brands and reputation, which could be harmed by negative publicity with respect to us, our products and operations, our management, brand ambassadors, key opinion leaders ("KOLs"), or other business partners.***

We believe that maintaining and enhancing the reputation of our brands is of significant importance to the success of our business and that our financial success is directly dependent on consumer perception of our brands. Well-recognized brands are important to enhancing our attractiveness to consumers. Since we operate in a highly competitive market, brand maintenance and enhancement directly affect our ability to maintain our market position. As a young company, our brand awareness among consumers may not be as strong as the more established food brands, and maintaining and enhancing the recognition and reputation of our brand is critical to our business and future growth.

Our ability to maintain our reputation and brand is affected by many factors, some of which are beyond our control. These factors include our ability to provide a satisfactory consumer experience, which in turn depends on our ability to bring products to the market at competitive prices that respond to consumer demands and preferences, our ability and that of our manufacturing and service partners to comply with ethical and social standards and various and evolving rules and standards related to product quality and safety, labor and environmental protection, our ability to produce safe and healthy products, our ability to provide satisfactory order fulfillment services, and our ability to provide responsive and superior customer services. Failure to succeed in any of these areas could damage our customer experience, our reputation and brand image and our ability to retain and attract customers. The success of our brand may also suffer if our marketing plans or product initiatives do not have the desired impact on our brand's image or its ability to attract consumers. If we are unable to conduct our sales and marketing efforts in a cost-effective and efficient manner, our results of operations and financial conditions may be materially and adversely affected." We cannot assure you, however, that these activities are and will be successful or that we can achieve the brand promotion effect we expect. If we are unable to preserve our reputation, enhance our brand recognition or increase positive awareness of our products, it may be difficult for us to maintain and grow our consumer base, and our business, financial condition and results of operations may be materially and adversely affected.

In addition, any failure by our third-party manufacturers or raw material suppliers to comply with food safety, ethical, social, product, labor and environmental laws, regulations or standards could negatively impact our reputations and lead to various adverse consequences, including decreased sales and consumer boycotts. Also, we may face customer complaints or negative publicity about us, our products, our management, our business partners or the KOLs we collaborate with from time to time, which may adversely affect our brand, reputation and business and diminish the appeal of our brand to consumers. Certain of such negative publicity may come from malicious harassment or unfair acts by third parties or our competitors, which are beyond our control.

Damage to our reputation or the reputations of our business partners or loss of consumer confidence for any of these or other reasons could have a material adverse effect on our results of operations and financial condition, as well as require additional resources to rebuild our brand and reputation.

***Our products are subject to food safety standards and the failure to satisfy such mandated food safety standards would have a material and adverse effect on our business, results of operations and prospects.***

Our products are subject to food safety standards in China. To comply with the applicable food safety laws and regulations, new food product shall be submitted to the applicable PRC regulatory authorities for food safety inspections and sale of product is prohibited if relevant product is uninspected or fails to pass the inspection. Failure to satisfy such mandated food safety standards would delay the launch of our new products and may cost us additional resources in time, capital and human power to modify the product to comply with the food safety standards, which may have a material and adverse effect on our business, results of operations and prospects.

After we launch the products, our products are still subject to those mandated food safety standards. We have adopted internal procedures to run tests on our launched products from time to time to make sure they comply with the mandated food safety standards. However, there can be no assurance that we could satisfy such standards at all times. In the event that our products fail to continue to satisfy the mandated food safety standards, we are required to stop selling such products and may need to initiate callbacks for those products. In addition, we may be subject to negative publicity for such failure. Moreover, as the food safety is crucial to our business, the customers' confidence in our brand may be impaired. As a result, our reputation, brand image, business, results of operations may be materially and adversely affected.

***We may be subject to claims under consumer protection laws, including health and safety claims and product liability claims, if people are harmed by the products sold by us.***

The PRC government, media outlets and public advocacy groups have been increasingly focused on consumer protection in recent years. The products sold by us or may be defectively designed, manufactured or of quality issue, or cause harm and adverse effect to the health of our customers. The offerings of such products by us may expose us to liabilities associated with consumer protection laws. Pursuant to the Law of PRC on the Protection of Rights and Interests of Consumers (the "Consumer Protection Law"), business operators must guarantee that the commodities they sell satisfy the requirements for personal or property safety, provide consumers with authentic information about the commodities, and guarantee the quality, function, usage and term of validity, etc. of the commodities. Failure to comply with the Consumer Protection Law may subject business operators to civil liabilities such as refunding purchase prices, replacement of commodities, repairing, ceasing damages, compensation, and restoring reputation, and even subject the business operators to criminal penalties when personal damages are involved or if the circumstances are severe. Although we would have legal recourse against the manufacturer of such products under PRC law if the liabilities are attributable to the manufacturer, attempting to enforce our rights against the manufacturer may be expensive, time-consuming and ultimately futile.

We do not maintain product liability insurance for products we sold. Even unsuccessful claims could result in significant expenditure of funds and diversion of management time and resources, which could materially and adversely affect our business, financial condition and prospects.

***We face risks related to instances of food-borne illnesses, health epidemics, natural disasters and other catastrophic events. The outbreak of any severe contagious diseases, if uncontrolled, could adversely affect our business and results of operation.***

Our business is susceptible to food-borne illnesses, health epidemics and other outbreaks. We cannot guarantee that our internal controls and trainings will be fully effective in preventing all food-borne illnesses. Furthermore, we rely on third-party suppliers in our operations, which may increase such risk. New illnesses resistant to any precautions or diseases with long incubation periods could arise on a retroactive basis. Reports in the media of instances of food-borne illnesses could, if highly publicized, negatively affect our industry and us. This risk exists even if it were later determined that the illness in fact were not spread by our products. We also face risks related to health epidemics. Past occurrences of epidemics or pandemics, depending on their scale of occurrence, have caused different degrees of damage to the national and local economies in China. An outbreak of any epidemics or pandemics in China may adversely affect the local economy and willingness to spend in local areas and result in a decrease in the number of our customers in such areas. Any of the above may cause material disruptions to our operations, which in turn may materially and adversely affect our financial condition and results of operations, and may continue to affect the demand for our products, our business operations and financial conditions. Our operations are also vulnerable to natural disasters and other catastrophic events, including wars, terrorist attacks, earthquakes, typhoons, fires, floods, extreme high temperature events, power failures and shortages, water shortages, information system failures, and similar events that may or may not be foreseeable.

Our business could be materially and adversely affected by the outbreaks of contagious diseases such as Severe Acute Respiratory Syndrome, or SARS, influenza A (including H1N1, H7N9 and H10N8), Ebola and COVID-19 that spread across China and the world in recent years. In the future, if a contagious disaster occurs in the regions where we operate, our operations may be materially and adversely affected as a result of loss of personnel, damages to property or decreased demand for our products.

In addition, if any of our employees is infected or affected by any severe infectious diseases, it could adversely affect or disrupt our business operations as we may be required to close our production facilities to prevent the spread of the disease. If any of such diseases occur, our ability to operate our facilities may be restricted and we may have to incur substantial additional expenses for the well-being of our employees. The spread of any severe infectious disease in China may also affect the operations of our suppliers, distributors and customers, causing delivery disruptions, which could in turn adversely affect our operating results.

***We may be liable for improper collection, use or appropriation of personal information provided by our customers.***

Our business involves collecting and retaining large volumes of customer data, including personal information as our various information technology systems enter, process, summarize and report such data. We also maintain information about various aspects of our operations. The integrity and protection of our customer and company data is critical to our business. Our customers expect that we will adequately protect their personal information. We are required by applicable laws to keep strictly confidential the personal information that we collect, and to take adequate security measures to safeguard such information.

The PRC Criminal Law, as amended by its Amendment 7 (effective on February 28, 2009) and Amendment 9 (effective on November 1, 2015), prohibits any person from selling or providing a citizen's personal information obtained during the course of performing duties or providing services, or obtaining such information through theft or other illegal ways. On November 7, 2016, the SCNPC issued the Cyber Security Law of the PRC, or the Cyber Security Law, which became effective on June 1, 2017. Pursuant to the Cyber Security Law, network operators must not, without users' consent, collect their personal information, and may only collect users' personal information necessary to provide their services. Providers are also obliged to provide security maintenance for their products and services and shall comply with provisions regarding the protection of personal information as stipulated under the relevant laws and regulations. The Civil Code of the PRC (issued by the PRC National People's Congress on May 28, 2020 and effective from January 1, 2021) provides main legal basis for privacy and personal information infringement claims under the Chinese civil laws. PRC regulators, including the Cyberspace Administration of China, MIIT, and the Ministry of Public Security have been increasingly focusing on regulation in the areas of data security and data protection. The PRC regulatory requirements regarding cybersecurity are constantly evolving. For instance, various regulatory bodies in China, including the Cyberspace Administration of China, the Ministry of Public Security and State Administration for Market Regulation, or the SAMR, have enforced data privacy and protection laws and regulations with varying and evolving standards and interpretations. On November 14, 2021, the Cyberspace Administration of China, or the CAC, issued the Draft Cyber Data Security Regulations for public comments, pursuant to which, data processors carrying out the following activities must, in accordance with the relevant national regulations, apply for a cybersecurity review: (i) the merger, reorganization or spin-off of internet platform operators that possess a large number of data resources related to national security, economic development and public interests that affects or may affect national security; (ii) listing in a foreign country of data processors that process the personal information of more than one million users; (iii) listing in Hong Kong of data processors that affect or may affect national security; and (iv) other data processing activities that affect or may affect national security. The scope of and threshold for determining what "affects or may affect national security" is still subject to uncertainty and further elaboration by the CAC. On December 28, 2021, the CAC, and 12 other relevant PRC government authorities published the amended Cybersecurity Review Measures, which came into effect on February 15, 2022. The final Cybersecurity Review Measures provide that a "network platform operator" that possesses personal information of more than one million users and seeks a listing in a foreign country must apply for a cybersecurity review. Further, the relevant PRC governmental authorities may initiate a cybersecurity review against any company if they determine certain network products, services or data processing activities of such company affect or may affect national security. Through the contractual arrangements with Weishi, DDC SH had collected and possessed personal information of more than one million users. After the contractual arrangements with Weishi were terminated in April 2022, DDC SH still have been possessing this amount of personal information which are stored in mainland China. For purposes of the Cybersecurity Review Measures, we have applied for and completed the cybersecurity review with respect to our proposed overseas listing pursuant to the Cybersecurity Review Measures.

As there remains significant uncertainty in the interpretation and enforcement of relevant PRC cybersecurity laws and regulations, we cannot assure you that we would not become subject to enhanced cybersecurity review or investigations launched by PRC regulators in the future. Any failure or delay in the completion of the cybersecurity review procedures or any other non-compliance with the related laws and regulations may result in rectification, fines or other penalties, including suspension of business, website closure, removal of our app from the relevant app stores, and revocation of prerequisite licenses, as well as reputational damage or legal proceedings or actions against us, which may have material adverse effect on our business, financial condition or results of operations.

On June 10, 2021, the SCNPC promulgated the PRC Data Security Law, which took effect on September 1, 2021. The PRC Data Security Law imposes data security and privacy obligations on entities and individuals carrying out data activities, and introduces a data classification and hierarchical protection system based on the importance of data in economic and social development, as well as the degree of harm it will cause to national security, public interests, or legitimate rights and interests of individuals or organizations when such data is tampered with, destroyed, leaked, or illegally acquired or used. The PRC Data Security Law also provides for a national security review procedure for data activities that may affect national security and imposes export restrictions on certain data and information. As uncertainties remain regarding the interpretation and implementation of these laws and regulations, we cannot assure you that we will comply with such regulations in all respects and we may be ordered to rectify or terminate any actions that are deemed illegal by regulatory authorities. We may also become subject to fines and/or other sanctions which may have material adverse effect on our business, operations and financial condition.

On August 20, 2021, the SCNPC promulgated the PRC Personal Information Protection Law, or the PIPL, which took effect in November 2021. In addition to other rules and principles of personal information processing, the PIPL specifically provides rules for processing sensitive personal information. Sensitive personal information refers to personal information that, once leaked or illegally used, could easily lead to the infringement of human dignity or harm to the personal or property safety of an individual, including biometric recognition, religious belief, specific identity, medical and health, financial account, personal whereabouts and other information of an individual, as well as any personal information of a minor under the age of 14. Only where there is a specific purpose and sufficient necessity, and under circumstances where strict protection measures are taken, may personal information processors process sensitive personal information. A personal information processor shall inform the individual of the necessity of processing such sensitive personal information and the impact thereof on the individual's rights and interests apart from the matters of, including without limitation, name and contact number of the processor, processing purpose and method, type to be processed, preservation period of the information, means and procedures by which individuals exercise the rights provided by the PIPL. As uncertainties remain regarding the interpretation and implementation of the PIPL, we cannot assure you that we will comply with the PIPL in all respects and regulatory authorities may order us to rectify or terminate our current practice of collecting and processing sensitive personal information.

While we take various measures to comply with all applicable data privacy and protection laws and regulations, there is no guarantee that our current security measures and those of our third-party service providers may always be adequate for the protection of our customer or company data. Any failure, or perceived failure to maintain the security of our user data or to comply with applicable PRC or foreign privacy, data security and personal information protection laws and obligations may result in civil or regulatory liability, including governmental or data protection authority enforcement actions and investigations, fines, penalties, enforcement orders requiring us to cease operating in a certain way, litigation, or adverse publicity, and may require us to expend significant resources in responding to and defending allegations and claims, all of which may have material adverse effect on our business, operations and financial condition. In addition, compliance with applicable laws on data privacy requires substantial expenditure and resources, including to continually evaluate our policies and processes and adapt to new requirements that are or become applicable to us on a jurisdiction-by-jurisdiction basis, which would impose significant burdens and costs on our operations or may require us to alter our business practices.

In addition, we may be a particularly attractive target for computer hackers, foreign governments or cyber terrorists. Unauthorized access to our proprietary internal and customer data may be obtained through break-ins, sabotage, breach of our secure network by an unauthorized party, computer viruses, computer denial-of-service attacks, employee theft or misuse, breach of the security of the networks of our third-party service providers, or other misconduct. Because the techniques used by computer programmers who may attempt to penetrate and sabotage our proprietary internal and customer data change frequently and may not be recognized until launched against a target, we may be unable to anticipate these techniques. Unauthorized access to our proprietary internal and customer data may also be obtained through inadequate use of security controls. We may incur significant costs in protecting against cyberattacks, and if an actual or perceived breach of security occurs to our systems or a third party's systems, we could

be required to expend significant resources to mitigate the breach of security and to address matters related to any such breach, including notifying users or regulators. Any of such incidents may also harm our reputation and adversely affect our business and results of operations. In addition, we may be subject to negative publicity about our security and privacy policies, systems, or measurements from time to time.

Any failure to prevent or mitigate security breaches, cyber-attacks or other unauthorized access to our systems or disclosure of our customers' data, including their personal information, could result in loss or misuse of such data, interruptions to our service system, diminished customer experience, loss of customer confidence and trust, impairment of our technology infrastructure, and harm our reputation.

As of the date of this prospectus, on the basis that there exists no outstanding inquiry, notice, warning, or sanctions in relation to our data security and data protection, we believe we are in compliance of PRC laws and regulations in material aspects in relation to data security and data protection.

However, in anticipation of the strengthened implementation of cybersecurity laws and regulations and the continued expansion of our business, we face potential risks of being required to comply with higher cybersecurity standards. If we are not able to comply with the cybersecurity and data privacy requirements in a timely manner, or at all, we may be subject to government enforcement actions and investigations, rectification, fines, penalties, suspension of our non-compliant operations, or removal of our app from the relevant application stores, among other sanctions, which could materially and adversely affect our business and results of operations.

***If the content we produce and distribute through online social and content platforms, or content available on our website, is deemed to violate PRC laws or regulations, our business and results of operations may be materially and adversely affected.***

We produce and distribute professionally generated food and cooking related content on third party online social and content platforms such as Weixin, Kuaishou, Bilibili, and RED to promote healthy lifestyle, to improve our brand awareness and to generate consumers interest in our products. Under PRC laws, we are required to monitor content we produce and distribute for items that are factually incorrect, socially destabilizing, obscene or defamatory, and promptly take actions with respect to such content items. Sometimes, it is arguable as to whether a piece of information is factually incorrect or involved other types of illegality, and it may be difficult to determine the type of content that may result in liability to us. If we are found to be liable, we may be subject to fines, revocation of our relevant licenses and other administrative and civil actions, which may interrupt our business. We have implemented measures to review content in light of the relevant laws and regulations before any of them is published. However, such procedures may not prevent all illegal or inappropriate contents from being distributed, especially content created during living streaming by KOLs we collaborate with.

***We currently utilize third-party suppliers for our products. Loss of these suppliers could harm our business and impede growth.***

The termination of a supplier relationship may leave us with periods during which it has limited or no ability to manufacture certain products. An interruption in, or the loss of operations at, any of these manufacturing facilities, which may be caused by work stoppages, production disruptions, product quality issues, disease outbreaks or pandemics (such as the recent coronavirus (COVID-19) pandemic), acts of war, terrorism, fire, earthquakes, weather, flooding or other natural disasters, could delay, postpone or reduce production of our products, which could adversely affect our business, results of operations and financial condition until the interruption is resolved or an alternate source of production is secured. Moreover, we are exposed to concentration risks of heavy reliance on our major suppliers. There is no assurance that our major suppliers will continue to supply their products in the quantities and within the timeframes required by us to meet the needs of our customers. If our major suppliers terminate their agreement with us, or do not supply products to us in a timely manner or in sufficient quantities, our business and results of operations will be adversely affected.

We believe that there are a limited number of competent, high-quality suppliers in the industry that meet our quality and control standards, and as we seek to obtain additional or alternative supply arrangements in the future, or alternatives to bring this manufacturing capability in-house, there can be no assurance that we would be able to do so on satisfactory terms, in a timely manner, or at all. Therefore, the loss of one or more suppliers, any disruption or delay at a supplier or any failure to identify and engage a supplier for products could delay, postpone or reduce production of products, which could adversely affect our business, results of operations and financial condition.

***Our growth may be limited if we are unable to expand our distribution channels and secure additional retail space for its products.***

Our results will depend on its ability to drive revenue growth, in part, by expanding the distribution channels for its products and the number of products carried by each retailer. Our ability to do so, however, may be limited by an inability to secure additional retail space for its products. Retail space for RTH, RTC, RTE and plant-based meal products is limited and is subject to competitive and other pressures, and there can be no assurance that retail stores will provide sufficient space to enable us to meet its growth objectives.

***We rely in part on third-party distributors to place our products into the market and we may not be able to control our distributors.***

We rely in part on third-party distributors to sell our products. As of June 30, 2023, our distribution and sales network in China consisted of 23 offline distributors. Purchases by distributors accounted for the substantial majority of our sales. For the six months ended June 2023 and for the year ended December 31, 2022, our offline consumer product sales accounted for 81% and 61% of our revenue respectively. As we sell and distribute our products through distributors, any one of the following events could cause fluctuations or declines in our revenue and could have an adverse effect on our financial condition and results of operations:

- reduction, delay or cancelation of orders from one or more of our distributors;
- selection or increased sales by our distributors of our competitors' products;
- failure to renew distribution agreements and maintain relationships with our existing distributors;
- failure to establish relationships with new distributors on favorable terms; and
- inability to timely identify and appoint additional or replacement distributors upon the loss of one or more of our distributors.

We may not be able to compete successfully against larger and better-funded sales and marketing campaigns of some of our current or future competitors, especially if these competitors provide their distributors with more favorable arrangements. We cannot assure you that we will not lose any of our distributors to our competitors, which could cause us to lose some or all of our favorable arrangements with such distributors and may result in the termination of our relationships with other distributors. In addition, we may not be able to successfully manage our distributors and the cost of any consolidation or further expansion of our distribution and sales network may exceed the revenue generated from these efforts. There can be no assurance that we will be successful in detecting any non-compliance by our distributors with the provisions of their distribution agreements. Non-compliance by our distributors could, among other things, negatively affect our brand, demand for our products and our relationships with other distributors. Furthermore, if the sales volumes of our products to consumers are not maintained at a satisfactory level or if distributor orders fail to track consumers demand, our distributors may not place orders for new products from us, or decrease the quantity of their usual orders. The occurrence of any of these factors could result in a significant decrease in the sales volume of our products and therefore adversely affect our financial condition and results of operations.

***Adverse publicity involving us, our products, our raw materials, our directors, our management team, our competitors or our industry could materially and adversely impact our business and results of operations.***

The food industry in China as a whole is particularly sensitive to concerns over food safety and quality related issues and can be materially and adversely affected by negative publicity or news reports, whether accurate or not, regarding food safety and quality and public health concerns. Any such negative publicity on our industry, whether targeting us in particular or not, could materially harm our brand, business and results of operations. Complaints or claims against us, if any, even if without any sufficient evidence, could force us to divert our resources, which may adversely affect our business, operations and financial performance.

***We operate in a highly competitive industry. Failure to compete effectively could adversely affect our market share, growth and profitability.***

We operate in China's food industry, in particular the RTC and RTE food industry, which is highly competitive, and the competition may further intensify. Some of our competitors, may have been in their respective businesses longer than we have and may have substantially greater financial, research and development and other resources than us. We also cannot assure you that our current or potential competitors will not market products comparable or superior to those we

provide or adapt more quickly to evolving industry trends or changing market demand. Our competitors in certain regional markets may also benefit from raw material sources or production facilities that are closer to these markets. It is also possible that there will be a consolidation trend in the RTC, RTE and plant-based food industry, integration of upstream and downstream businesses or alliances among competitors; and as a result, our competitors may rapidly acquire significant market share. Any of these events may cause our market share, business and results of operations to be adversely affected.

Furthermore, competition may cause our competitors to substantially increase their advertising and promotional activities or to engage in irrational or predatory pricing behavior. We cannot guarantee that our marketing efforts will be sufficient to compete with our competitors. An increase in competition could require us to continue to increase our promotion and advertising expenses, which might place pressure on our margins and affect our profitability. Additionally, competition may result in price reductions, reduced margins and loss of market shares for us, any of which could have an adverse impact on our results of operations. We also cannot assure you that our competitors will not actively engage in activities, whether legal or illegal, designed to undermine our brands and product quality or to influence consumer confidence in our products.

The RTH, RTC and RTE industry is intensely competitive with respect to, among other things, brand recognition, flavor, product quality and consistency, services, prices, availability, selection and accessibility. Furthermore, new competitors may emerge from time to time, which may further intensify the competition. In particular, competitors may start to offer products that are similar to our products. There are also many well-established competitors with substantially greater financial, marketing, personnel and other resources than ours.

Our ability to effectively compete will depend on various factors, including the successful implementation of our sales network expansion strategy, and our ability to improve existing products, to develop and launch new products, and to enhance production capacity and efficiency. Failure to successfully compete may prevent us from increasing or sustaining our revenue and profitability and potentially lead to a loss of market share, which could have a material and adverse effect on our business, financial condition, results of operations and cash flows.

***We may not be able to successfully implement our growth strategy.***

Our future growth, profitability and cash flows depend upon our ability to successfully implement our business strategy, which, in turn, is dependent upon a number of factors, including our ability to:

- further penetrate our targeted markets by attracting new consumers and retaining and further engaging our existing customers;
- capture the industry trends and develop and launch new products and expand into relevant adjacencies in answer to such trends;
- integrate offline and online experience to provide a seamless omni-channel environment for our customers;
- effectively manage the quality and efficiency of our ODM/OEM and packaging supply partners and logistics and other third-party service providers' performance;
- continue to broaden and diversify our online and offline distribution channels;
- pursue strategic investments and collaborations to complement our existing capabilities and expand our product portfolio and geographic reach; and
- leverage our high-performance team culture to drive margins.

There can be no assurance that we can successfully achieve any or all of the above initiatives in the manner or time period that we expect. Further, achieving these objectives will require investments which may result in short-term costs without generating any current net sales and therefore may be dilutive to our earnings. We cannot provide any assurance that we will realize, in full or in part, the anticipated benefits we expect our strategy will achieve. The failure to realize those benefits could have a material adverse effect on our business, financial condition and results of operations.

***We may be unable to manage our growth effectively or efficiently.***

Growing our business rapidly will place a strain on our management team, financial and information systems, supply chain and distribution capacity and other resources. To manage growth effectively, we must continue to enhance our operational, financial and management systems, including our warehouse management and inventory control; maintain and improve our internal controls and disclosure controls and procedures; maintain and improve our information technology systems and procedures; and expand, train and manage our employee base.

We may not be able to effectively manage this expansion in any one or more of these areas, and any failure to do so could significantly harm our business, financial condition and results of operations. Growing our business rapidly may make it difficult for us to adequately predict the expenditures we will need to make in the future. If we do not make the necessary overhead expenditures to accommodate our future growth, we may not be successful in executing our growth strategy, and our results of operations would suffer.

***We have incurred net loss in the past, and we may not be able to achieve or maintain profitability in the future.***

For the six months ended June 30, 2023, we incurred net loss of RMB9.0 million (US\$1.2 million) and net loss of RMB83.5 million for the six months ended June 30, 2022. We also had negative cash flows from operating activities of RMB24.7 million (US\$3.4 million) and RMB19.1 million for the six months ended June 30, 2023 and 2022 respectively. Management uses the EBITDA and adjusted EBITDA, non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. For the six months ended June 30, 2023 and June 30, 2022, we incurred an adjusted EBITDA with loss of RMB6.2 million (US\$0.9 million) and RMB32.7 million respectively. For the six months ended June 30, 2023 and June 30, 2022, we incurred an EBITDA of RMB3.7 million (US\$0.5 million) and incurred EBITDA with loss of RMB60.7 million respectively. For details, please refer to section “Non-GAAP Financial Measure”.

We incurred net loss of RMB458.7 million in 2021 and net loss of RMB122.2 million (US\$16.9 million) in 2022. We also had negative cash flows from operating activities of RMB91.4 million and RMB37.1 million (US\$5.1 million) in the fiscal years ended December 31, 2021 and 2022 respectively. Management uses the EBITDA and adjusted EBITDA, non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. For the years ended December 31, 2021 and December 31, 2022, we incurred an adjusted EBITDA with loss of RMB108.5 million and RMB37.5 million (US\$5.2 million) respectively. For the years ended December 31, 2022 and December 31, 2021, we incurred an EBITDA with loss of RMB85.2 million (US\$11.8 million) and RMB429.9 million respectively. For details, please refer to section “Non-GAAP Financial Measure”.

We cannot assure you that we will be able to generate net profits or positive cash flow from operating activities in the future. Our ability to maintain profitability will depend in large part on our ability to maintain or increase our operating margin, either by growing our revenues at a rate faster than our costs and operating expenses increase, or by reducing our costs and operating expenses as a percentage of our net revenues. We also expect to continue to make significant future expenditures related to the continuous development and expansion of our business, including:

- investments in our product development team and research and development team and in the development of new products;
- investments in sales and marketing, enlarging our customer base and promoting market awareness of our brands and products;
- investments in expansion of our online and offline distribution channels in a measured manner;
- investment in enhancing data and information technology and improving operating efficiency, including improving the efficiency in supply chain management, warehouse management and inventory control; and
- incurring costs associated with general administration, including legal, accounting and other expenses related to being a public company.

As a result of these significant expenses, we will have to generate sufficient revenue to remain profitable in future periods. We may not generate sufficient revenue for a number of reasons, including potential lack of demand for our products, increasing competition, challenging macro-economic environment, the ramifications of the COVID-19 pandemic, as well as other risks discussed elsewhere in this prospectus. If we fail to sustain or increase profitability, our business and results of operations could be adversely affected.

***Our historical financial conditions and results of operations are not representative of our future performance. We may be unable to effectively manage our future growth and expansion, and may not achieve growth in revenue and profit. If we are unable to manage our growth effectively, we may not be able to capitalize on new business opportunities and our business and financial results may be materially and adversely affected.***

We have experienced stable growth and plan to further expand in the future. For the six months ended June 30, 2023, we recorded RMB89.4 million (or US\$12.3 million) in total revenue compared to RMB66.8 million for the six months ended June 30, 2022, representing a 33.9% increase. Subsequent to June 30, 2023, we completed two

acquisitions. Assuming these two acquisitions had taken place on 1 January 2023, the unaudited pro forma revenue of the Company for the six months ended June 30, 2023 would be RMB123.6 million (or US\$17.0 million). For the six months ended June 30, 2023, our gross margin increased to 26.2% versus 20.2% for the six months ended June 30, 2022.

For the year ended December 31, 2022, our total revenue decreased from RMB205.2 million in December 31, 2021 to RMB179.6 million in December 31, 2022. This drop in revenue was largely a result of negative impact from extended zero-covid policy in China which led to massive disruptions in the company's e-commerce operations. In the face of this challenge, we completed four acquisitions in 2022 to speed up the diversification of revenue streams as well as aggressive improvement on overall cost structure. Assuming these four acquisitions had taken place on January 1, 2022, the unaudited pro forma revenue of the Company for the year ended December 31, 2022 will be RMB231.9 million (or US\$32.0 million). Equally important, our focus has been on improving the overall cost structure of the business when facing Covid and inflation challenges. For the year ended December 31, 2022, our gross profit margin increased to 24.5% versus 17.8% for the year ended December 31, 2021. Our planned expansion may place substantial demands on our resources. However, historical period-over-period comparisons of our sales and operating results are not necessarily indicative of future quarter-to-quarter and period-over-period results. You should not rely on the results of a single quarter or period as an indication of our annual results or its future performance.

Our ability to further increase our research and development capabilities, selling and marketing capacity is critical to supporting our stable and continuous business growth, which involves additional costs and uncertainties. In addition, to manage and support our growth, we must improve our existing operational and administrative systems as well as our financial and management controls. Our continued success also depends on our ability to recruit, train and retain qualified management personnel as well as other administrative and sales and marketing personnel, particularly when we expand into new markets. We also need to continue to manage our relationships with our suppliers and customers. All of these endeavors will require substantial management resources. As a result, our revenue and results of operations in future may fluctuate significantly and our results for a given fiscal period are not necessarily indicative of results to be expected for our operations in future. We cannot assure you that we will be able to manage any future growth effectively and efficiently, and any failure to do so may materially and adversely affect our ability to capitalize on new business opportunities, which in turn may have a material and adverse effect on our business and financial performance.

Furthermore, we may not be able to achieve our expansion goals or effectively ramp up the sales of our new products. If we encounter any difficulty in expanding our distributors and sales network, our growth prospects may be adversely affected, which could in turn have a material and adverse effect on our business, financial condition and results of operations.

Our future growth may result from improving our research and development capabilities, introducing new products, expanding our sales and distribution network and entering new markets or new sales channels. Our ability to achieve growth will be subject to a range of factors, including:

- expanding our sales network;
- enhancing our research and development capabilities;
- hiring and training qualified personnel;
- controlling our costs and maintaining sufficient liquidity;
- prioritizing our financial and management controls in an efficient and effective manner;
- exercising effective quality control;
- managing our various suppliers and leveraging our purchasing power;
- maintaining our high food-safety standards; and
- strengthening our existing relationships with distributors.

We face increased risks when we enter new markets, or enter new sales channels, including social media and e-commerce channels. New markets and sales channels may have different regulatory requirements, competitive conditions, consumer preferences and different spending patterns from our existing markets and sales channels.

Consumers in new markets and sales channels are likely to be unfamiliar with our brands and products and we may need to build or increase brand awareness in the relevant markets and sales channels by increasing investments in advertising and promotional activities than we originally planned. We may find it more difficult in new markets to hire, train and retain qualified employees who share our business philosophy and culture. In addition, we may have difficulty in finding reliable suppliers with adequate supplies of raw materials meeting our quality standards or distributors with efficient distribution networks. As a result, any products we introduce in new markets may be more expensive to produce and/or distribute and may take longer to reach expected sales and profit levels than in our existing markets, which could affect the viabilities of these new operations or our overall profitability.

We also sell our products to major e-commerce platforms and online distributors. Our development of the e-commerce channel depends on many factors, most of which are beyond our control, including: the trust and confidence level of China's online consumers, as well as changes in consumer consumption patterns, tastes and preferences; the growth of internet usage in China; and the development of fulfillment, payment and other ancillary services associated with e-commerce sales. Any failure to respond to trends and consumer requirements in the e-commerce channel may adversely affect our sales and our business and growth prospects in this sales channel.

Additionally, our expansion plans and business growth could strain our managerial, operational and financial resources. Our ability to manage future growth will depend on our ability to continue to implement and improve operational, financial and management information systems on a timely basis and to expand, train, motivate and manage our workforce. We cannot assure you that our personnel, systems, procedures and controls will be adequate to support our future growth. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects. In addition, as we expand our operations, we may encounter regulatory, personnel and other difficulties that may also increase our costs of operations.

***We depend on a stable and adequate supply of raw materials which are subject to price volatility and other risks. Inadequate or interrupted supply and price fluctuation for raw materials and packaging materials could adversely affect our profitability.***

We source a majority of our products from suppliers located in China, and our suppliers source raw materials and packaging materials within China. Raw materials used within the production process include meat, rice, oil, soy beans, starch and sugar. To date, inflationary pressures have not materially impacted the cost of sourcing our products. However, raw materials and packaging materials are subject to price volatility caused by external factors, such as commodity price fluctuations, changes in supply and demand, logistics and processing costs, our bargaining power with suppliers, inflation, and governmental regulations and policies. Our production volume, quality of products and profit margins may be adversely affected. There is no assurance that raw material costs will not increase significantly in the future. As is customary in our industry, we typically are not able to immediately pass raw material price increases onto our customers. As a result, any significant price increase of raw materials may have an adverse effect on our profitability and results of operations. Also, if we were to increase price, we may not be able to completely pass on the increase in raw materials to consumers. Also, such an increase in price may adversely affect our demand. If all or a significant number of our suppliers are unable or unwilling to meet our requirements, we could suffer shortages or significant cost increases. Our suppliers could fail to meet our needs for various reasons, including fires, natural disasters, weather, manufacturing problems, epidemic, crop failure, strikes, transportation interruptions, or government regulation. A failure of supply could also occur due to suppliers' financial difficulties, including insolvency. Changing suppliers may require long lead time. We may not be able to locate alternative suppliers in sufficient quantities, of suitable quality, or at an acceptable price. Continued supply disruptions could exert pressure on our costs, and we cannot assure you that all or part of any increased costs can be passed along to our customers in a timely manner or at all, which could negatively affect our business, overall profitability and financial performance.

In the second quarter of 2022, nation-wide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant which led to disruption to social and economic activities. As a result, fewer shipping locations were open and our daily logistics volume was adversely affected. As of June 30, 2022, shippings of our products have resumed to normal. In December 2022, the Chinese government announced that it will be downgrading its management of COVID-19 as of January 8, 2023, rolling back some of its stringent anti-COVID-19 restrictions. Those who are infected with mild symptoms and close contacts are now allowed to quarantine at home. Since December 2022, China has been facing a rapid surge in COVID-19 cases. Due to the evolving and uncertain nature of this event, we cannot predict at this time the full extent to which the COVID-19 pandemic and the COVID-19 prevention policy implemented by the Chinese government will adversely impact our business, results, and financial condition. We are staying in close communication with our employees, dealers and suppliers, and acting to mitigate

the impact of this dynamic and evolving situation, but there is no guarantee we will be able to do so. While the short, medium-to-longer term impact of COVID-19 remains unclear, we expect that our business operations and results of operations including revenue, earnings, and cash-flows will not be unduly impacted in the remainder of 2023.

To mitigate the potential impact of COVID-19 (and future pandemics) and other business disruptions (e.g. geopolitical or trade conflicts, natural disasters, or cybercrime etc), we have taken and will continue to take proactive steps to diversify our supply chain, moving away from single-sourcing to a network of diverse, alternative, pre-qualified suppliers of raw materials needed to produce one or more of our products. This approach allows us to secure more favorable commercial terms with our existing suppliers and also reduces the risk of business disruption at one or more stages of the E2E supply chain.

Our business segments, products, lines of service, projects, or operations have not been materially impacted by supply chain disruptions, especially in light of Russia's invasion of Ukraine.

***The development of online sales network and marketing activities may not meet expectations, or we may fail to manage the coordination of our offline and online sales channels, which may adversely affect our operation results.***

Our revenue generated by online sales channels had been growing significantly due to the increasing sales online. However, as online and social media platforms continue to grow in popularity, any significant growth in our sales through online sales channels in the future may give rise to competition between offline and online sale channels. If we fail to balance the marketing efforts or optimize product mix and pricing strategies among our online and offline sales channels, or otherwise fail to effectively manage the integration of these channels, the competition among these channels may adversely affect our business, financial condition and results of operations.

We expect to further enhance our online strategies and increase sales from our online channels. However, we may not be able to maintain a high growth rate of our online sales, and if we fail to manage the continuous development of our online sales, our business, financial condition and results of operations may be adversely affected.

***Our online sales depend on the proper operation of third-party online platforms and any serious interruptions of these platforms could adversely affect our operations.***

The development of sales through third-party online platforms is part of our business strategy. We have launched profile pages and sales channels on our third-party online platforms. However, we do not have control over the operation of third-party online platforms and such platform may be vulnerable to damage or interruptions such as power failure, computer viruses, acts of hacking, vandalism and similar events. Any serious interruption or damage to the online platforms may have an adverse effect on our business, financial condition and results of operations. There is no assurance that our online sales strategy will be implemented in accordance with our plan or at all.

***Our operating results depend on the effectiveness of our marketing and promotional programs. Improper marketing activities may adversely affect our brand image.***

Our operating results are dependent on our brand marketing efforts and advertising activities. We continuously invest in our brands to further raise brand recognition and acceptance and engage in marketing campaigns to promote our products. We utilize tailored and creative branding and marketing strategies, which have achieved positive results. We expect to continue to adopt such strategies in the future. However, if our marketing and advertising strategies do not continue to be successful, our business and operating results may be materially and adversely affected. In addition, we believe marketing trends in China are evolving, which requires us to experiment with new marketing strategies to keep pace with industry developments and consumer preferences. Moreover, as we continue to build up our online platform, we expect our marketing expenses relating to cooperation with online channels to continue to increase.

***If we fail to obtain and maintain the requisite licenses and approvals required under the complex regulatory environment applicable to our businesses in China, or if we are required to take compliance actions that are time-consuming or costly, our business, results of operations and financial condition may be materially and adversely affected.***

Our business is subject to governmental supervision and regulation by the relevant PRC governmental authorities, including but not limited to the State Council, the SAMR, the Ministry of Commerce("MOFCOM"), the State Internet Information Office, the General Administration of Customs and other governmental authorities in

charge of the relevant services provided by us. These government authorities promulgate and enforce regulations that cover various aspects of the operation of food products and e-commerce, etc., including entry into these industries, scope of permitted business activities, licenses and permits for various business activities, and restriction on foreign investments. Violations of regulations may lead to the imposition of significant penalties which may affect our business, operations, reputation and financial prospects. In respect of the food industry, in particular, any violation of the relevant laws, rules and regulations may result in penalties and, under certain circumstances, lead to criminal prosecution.

We have obtained food operation licenses to operate our general business activities currently conducted in China, except for Quanzhou Weishi Food Co., Limited which does not hold any assets or operations for now and we are in the process of applying for relevant food operation licenses for it. In addition, SH Lashu have been filed for record as consignee or consignor of import and export goods. However, we cannot assure you that we can successfully renew these licenses in a timely manner or that these licenses are sufficient to conduct all of our present or future business.

New laws and regulations may be adopted from time to time, and substantial uncertainties exist regarding interpretation and implementation of current and future PRC laws and regulations applicable to our business operations. For example, in August 2018, the SCNPC promulgated the E-Commerce Law, which took effect in January 2019. We have to cooperate with e-commerce platforms and be in full compliance with E-Commerce Law in order to continue to operate on those e-commerce platforms. We cannot assure you that our current business activities will not be found in violation of any future laws and regulations or any of the laws and regulations currently in effect due to changes in the relevant authorities' interpretation of these laws and regulations.

If we fail to adapt to any new regulatory requirement or any competent government authority considers that we operate our business operation without any requisite license, permit or approval, or otherwise fails to comply with applicable regulatory requirements, we may be subject to administrative actions and penalties against us, including fines, confiscation of our incomes, revocation of our licenses or permits, or, in severe cases, cessation of certain business. Any of these actions may have a material and adverse effect on our business, financial condition and results of operations.

As we expand into different business models and introduce new products and services to our customers, we may be required to comply with additional laws and regulations that are yet to be determined. To comply with such additional laws and regulations, we may be required to obtain necessary certificates, licenses or permits, as well as allocate additional resources to monitor regulatory and policy developments. Our failure to adequately comply with such additional laws and regulations may delay, or possibly prevent, some of our products or services from being offered to our customers, which may have a material adverse effect on our business, results of operations and financial condition.

***We are subject to PRC Advertising Law and related regulations, rules and measures applicable to advertising.***

Certain amounts of our revenue are derived from online advertising services. In July 2016, the former State Administration for Industry and Commerce promulgated the Interim Administrative Measures on Internet Advertising, or the Internet Advertising Measures, effective in September 2016, pursuant to which internet advertisements are defined as any commercial advertising that directly or indirectly promotes goods or services through internet media in any form including paid-for search results. Under the Internet Advertising Measures, our online advertising services may constitute internet advertisement. On February 25, 2023, the SAMR issued Administrative Measures for Internet Advertising, or the Internet Advertising Administrative Measures, which became effective on May 1, 2023, and replaced the Interim Measures for the Administration of Internet Advertising which became effective on September 1, 2016. According to the Internet Advertising Administrative Measures, the provisions of the Advertising Law and the Internet Advertising Administrative Measures shall apply to commercial advertising for direct or indirect marketing goods or services in the form of text, image, audio, video, or other means through websites, web pages, Internet apps, or other Internet media within the territory of PRC. Our online advertising may be subject to the Internet Advertising Administrative Measures.

PRC advertising laws, rules and regulations require advertisers, advertising operators and advertising distributors to ensure that the content of the advertisements they prepare or distribute is fair and accurate and is in full compliance with applicable law. For the six months ended June 30, 2022 and 2023 and for the year ended December 31, 2021 and 2022, 0.9%, 0.3%, 1.7% and 0.5% of our revenues were derived from advertising service. Violation of these laws, rules or regulations may result in penalties, including fines, confiscation of advertising fees and orders to cease

dissemination of the advertisements. In circumstances involving three or more illegal acts within two years or other serious violations, a fine of not less than five times but not more than ten times the advertising expense or a fine of not less than RMB1,000,000 but not more than RMB2,000,000 shall be imposed, and the PRC government may revoke a violator's business license and revoke the advertisement examination and approval documents and refuse to accept its application for advertisement examination within one year. Complying with these requirements and any penalties or fines for any failure to comply may significantly reduce the attractiveness of our platform and increase our costs and could have a material adverse effect on our business, financial condition and results of operations.

In addition, for advertising content related to specific types of products and services, advertisers, advertising agencies and advertising distributors must confirm that the advertisers have obtained requisite government approvals, including the advertiser's operating qualifications, proof of quality inspection of the advertised products, and, with respect to certain industries, government approval of the content of the advertisement and filing with the local authorities. Pursuant to the Internet Advertising Administrative Measures, we are required to take steps to monitor the content of advertisements displayed by us. This requires considerable resources and time, and could significantly affect the operation of our business, while at the same time also exposing us to increased liability under the relevant laws, rules and regulations. The costs associated with complying with these laws, rules and regulations, including any penalties or fines for our failure to so comply if required, could have a material adverse effect on our business, financial condition and results of operations. Any further change in the classification of our online advertising and other related services by the PRC government may also significantly disrupt our operations and materially and adversely affect our business and prospects.

***Our acquisition activities and other strategic transactions may present managerial, integration, operational and financial risks, which may prevent us from realizing the full intended benefit of the acquisitions we undertake.***

We have in the past and may continue to seek acquisitions that we believe strengthen our competitive position in our key segments and geographies or accelerate our ability to grow into adjacent product categories and channels and emerging markets or which otherwise fit our strategies.

In addition, investments and acquisitions could result in distraction of management from current operations, greater than expected liabilities and expenses, unidentified issues not discovered in our due diligence, the use of substantial amounts of cash, potentially dilutive issuances of equity securities, significant amortization expenses related to goodwill or intangible assets and exposure to potential unknown liabilities of the acquired business. If the goodwill or intangible assets become impaired, we may be required to record a significant charge to our results of operations.

Further, the assumptions we use to evaluate acquisition opportunities may not prove to be accurate and our investments or acquisitions may not yield the results we expect. Even if our assumption is accurate, the integration of acquired businesses into ours may be costly and disruptive to our existing business operations. The integration process involves certain risks and uncertainties, some of which are outside our control, and there can be no assurance that we will be able to realize the anticipated benefits, synergies, cost savings or efficiencies. In the event that our investments and acquisitions are not successful, our results of operations and financial condition may be materially and adversely affected.

***We rely on third-party logistics companies to deliver our products. Any delivery delay, improper handling of goods or increase in transportation costs of our logistic service providers could adversely affect our business and results of operations. If the third-party logistics business is interrupted, we may not have sufficient resources to support our product transportation and face the risk of rising transportation prices.***

We engage logistics service providers to store and transport products to our customers. For the six months ended June 30, 2022 and 2023, and for the year ended December 31, 2021 and 2022, our fulfilment expenses were RMB7.6 million, RMB3.0 million (US\$0.4 million), RMB24.0 million and RMB10.6 million (US\$1.5 million), respectively, which represented 11.4%, 3.4%, 11.7% and 5.9% of our total revenue, respectively. The vast majority of our products are delivered by trucks or trains. The services provided by our logistics service providers may be suspended or cancelled due to unforeseen events, which could cause interruption to the sales or delivery of our products. In addition, delivery delays may occur for various reasons beyond our control, including improper handling by our logistics service providers, labor disputes or strikes, acts of war or terrorism, outbreaks of epidemics, earthquakes and other natural disasters. For example, we experienced some delay in the transportation of our products due to logistics constraints during the COVID-19 outbreak.

The majority of our product transportation was provided by independent third-party logistics service providers. Disputes with or a termination of our contractual relationships with one or more of our logistics companies could result in delayed delivery of products or increased costs. There can be no assurance that we can continue or extend relationships with our current logistics companies on terms acceptable to us, or that we will be able to establish relationships with new logistics companies or expand our logistics team to ensure accurate, timely and cost-efficient delivery services. If we are unable to maintain or develop good relationships with logistics companies or expand our logistics team to cover new territories, it may inhibit our ability to offer products in sufficient quantities, on a timely basis, or at prices acceptable to our customers. In addition, as we do not have any direct control over these logistics companies, we cannot guarantee their quality of services. If there is any delay in delivery, damage to products or any other issue, our sales and brand image may be affected.

Any improper handling of our products by the logistics service providers could also result in product contamination or damage, which may in turn lead to product recalls, product liabilities, increased costs and damage to our reputation, which may in turn adversely affect our business, financial condition and results of operations.

The transportation costs of our logistics service providers are subject to factors beyond our control, such as the fluctuation in the gasoline price, increases in road tolls and bridge tolls, and changes in transportation regulations. Any increase in the service costs of our logistics service providers may lead to an increase to our fulfillment expenses, which may in turn negatively affect our results of operations.

***We may face the risk of inventory obsolescence.***

As of June 30, 2023 and as of December 31, 2022, we had inventories of RMB6.3 million and RMB6.1 million respectively. Our inventory turnover days were 17 days and 21 days respectively. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Our business relies on consumer demand for our products, which depends substantially on factors such as (i) consumer spending patterns, (ii) consumer preferences and tastes, (iii) consumer income, (iv) consumer perceptions of and confidence in our product quality and food safety, and (v) consumer lifestyle. Any change in consumer demand for our products or the occurrences of catastrophic events may have an adverse impact on our product sales, which may in turn lead to inventory obsolescence, decline in inventory value or inventory write-off.

***We may not be able to adequately protect our intellectual property, which could adversely affect our business and operations.***

We regard our trademarks, copyrights, domain names, know-how, patents, and similar intellectual property as critical to our success, and we rely on a combination of intellectual property laws and contractual arrangements, including confidentiality and non-compete agreements with our employees and others, to protect our proprietary rights. As of June 30, 2023, we had registered 279 trademarks, 1 copyright of works and 5 computer software copyrights in China, including three registered trademarks in Hong Kong. We may fail to own or apply for key trademarks in a timely fashion, or at all. For example, several logos we have used for years cannot be registered as trademarks in certain trademark categories in China because a company unaffiliated to us has pre-emptively registered similar logos as trademarks in such categories. As a result, we have been and will not be able to use such logos in areas covered by such trademark categories. Such company complained to the Market Supervision Bureau for the trademark infringement of SH DDC, and SH DDC has already applied for the invalidations of these trademarks at the State Intellectual Property Office, or the SIPO, as well as indicted a series of related administrative actions which have been already accepted by the court. As the trademarks under the legal proceeding are not relevant to our main business and we have adopted timely steps to make enough adjustments to relevant business, including stopped using them in any public place, the unavailability of these trademarks would not materially and adversely affect our business. If such third party actually use such trademarks in product or service similar to us in the future, consumers may be confused and associate any quality issue on the products and services such third party provides with us, which will have an adverse impact on our brand image. We may become an attractive target for certain copycat websites that attempt to cause confusion or diversion of traffic from us in the future because of our brand recognition as a food-related content-driven lifestyle brand in China. Despite these measures, any of our intellectual property rights could be challenged, invalidated, circumvented or misappropriated, or such intellectual property may not be sufficient to provide us with competitive advantages. In addition, there can be no assurance that (i) our application for registration of trademarks, patents, and other intellectual property rights will be approved, (ii) any intellectual property rights will be adequately protected, or (iii) such intellectual property rights will not be challenged by third parties or found by a judicial authority to be invalid.

or unenforceable. Further, because of the rapid pace of technological changes in our industry, parts of our business rely on technologies developed or licensed by third parties, and we may not be able to obtain or continue to obtain licenses and technologies from these third parties at all or on reasonable terms.

It is often difficult to register, maintain and enforce intellectual property rights in China. Statutory laws and regulations are subject to judicial interpretation and enforcement and may not be applied consistently due to the lack of clear guidance on statutory interpretation. Confidentiality, invention assignment and non-compete agreements may be breached by counterparties, and there may not be adequate remedies available to us for any such breach. Accordingly, we may not be able to effectively protect our intellectual property rights or to enforce our contractual rights in China. Policing any unauthorized use of our intellectual property is difficult and costly and the steps we take may be inadequate to prevent the infringement or misappropriation of our intellectual property. In the event that we resort to litigation to enforce our intellectual property rights, such litigation could result in substantial costs and a diversion of our management and financial resources, and could put our intellectual property at risk of being invalidated or narrowed in scope. We can provide no assurance that we will prevail in such litigation, and even if we do prevail, we may not obtain a meaningful recovery. In addition, our trade secrets may be leaked or otherwise become available to, or be independently discovered by, our competitors. Any failure in maintaining, protecting or enforcing our intellectual property rights could have a material adverse effect on our business, results of operations and financial condition.

***We may be accused of infringing intellectual property rights of others and content restrictions of relevant laws.***

Third parties may claim that the content posted by us or our products and services infringe upon their intellectual property rights. For example, while offering our advertising services, we may be subject to liabilities such as infringement of copyrights or trademarks and to other claims based on the materials and content posted by us or used on our products and services. The possibility of intellectual property claims against us increases as we continue to grow. Such claims, whether or not having merit, may result in our expenditure of significant financial and management resources, injunctions against us or payment of damages. We may need to obtain licenses from third parties who allege that we have infringed their rights, but such licenses may not be available on terms acceptable to us or at all. These risks have been amplified by the increase in the number of third parties whose sole or primary business is to assert such claims.

China has enacted laws and regulations governing internet access and the distribution of products, services, news, information, audio-video programs and other content through the internet. The PRC government has prohibited the distribution of information through the internet that it deems to be in violation of PRC laws and regulations. If any of the information disseminated by us or our user communities were deemed by the PRC government to violate any content restrictions, we would not be able to continue displaying such content and could become subject to penalties, including confiscation of income, fines, suspension of business and revocation of required licenses, which could materially and adversely affect our business, financial condition and results of operations.

The outcome of any claims, investigations and proceedings is inherently uncertain, and in any event, defending against these claims could be both costly and time-consuming and could significantly divert the efforts and resources of our management and other personnel. An adverse determination in any such litigation or proceedings could cause us to pay damages, legal fees and other costs, as well as limit our ability to conduct business or require us to change the manner in which we operate. Even if such assertions against us are unsuccessful, they may cause us to lose existing and future business and incur reputational harm and substantial legal fees.

***Failure to successfully operate our information systems and implement new technology effectively could disrupt our business or reduce our profitability.***

We increasingly rely on information technology systems to process, transmit and store information in relation to our operations. A portion of the communications between our personnel and our suppliers, distributors and consumers depends on information technology. Our information technology systems may be vulnerable to interruption due to a variety of events beyond our control, including but not limited to, natural disasters, telecommunications failures, computer viruses, hackers and other security issues. Any such interruption to our information technology system could disrupt our operations and negatively impact our production and ability to fulfill sales orders, which could have an adverse effect on our business, financial condition and results of operations.

In addition, we may from time to time implement, modify and upgrade our information technology systems and procedures to support our growth and the development of our e-commerce business. These modifications and upgrades could require substantial investment and may not improve our profitability at a level that outweighs their costs, or at all.

***Our success depends on the continuing efforts of our senior management team and key personnel and our business may be harmed if we lose their services and cannot timely find proper candidates for substitution.***

Our current business performance and future success depend substantially on the abilities and contributions of our senior management members, including our founder, Ms. Norma Ka Yin Chu, all of our executive directors and other key personnel with industry expertise, know-how or experience in areas such as research and development, manufacturing, sales, marketing, financial management, human resources and risk management. If any member of our senior management is unable or ceases to serve in his or her present position, we may not be able to find replacement in a timely basis due to local conditions. As a result, our business may be disrupted, our management quality may deteriorate and our results of operations may be materially and adversely affected. In addition, if any member of our senior management team joins a competitor or forms a competing business, we may lose trade secrets and business know-how as a result. Competition for experienced management in our industry is intense, and the pool of qualified candidates is limited. We may not be able to retain the services of our senior management or attract and retain additional high quality senior executives in the future. Moreover, we rely on our sales personnel to effectively operate our retail network. As we expand our operations, we may not be able to retain such skilled sales personnel at a reasonable cost and our business and results of operations may be materially and adversely affected.

***Our performance depends on favorable labor relations with our employees, and any deterioration in labor relations, shortage of labor or material increase in wages may have an adverse effect on our results of operation.***

Our success depends on our ability to hire, train, retain and motivate our employees. We consider favorable labor relations as a significant factor that can affect our performance, and any deterioration of our labor relations could cause labor disputes, which could result in disruption of production and operations.

Since the reform and opening up, China has experienced rapid economic growth, which has resulted in significantly increased labor costs. Average labor wages are expected to increase. In addition, we may need to increase our total compensations to attract and retain experienced personnel required to achieve our business objectives. Any material increase in our labor costs may have an adverse effect on our results of operations.

***We may not be able to detect or prevent fraud, bribery, or other misconduct committed by our employees, customers or other third parties.***

We may be exposed to fraud, bribery, or other misconduct committed by our employees, customers or other third parties, which could subject us to financial losses and penalties from governmental authorities. Although our internal control procedures are designed to monitor our operations and ensure overall compliance, our internal control procedures may be unable to identify all non-compliances, suspicious transactions, fraud, corruption or bribery in a timely manner. If such misconduct occurs, we may suffer from negative publicity and reputation damages.

***We may be subject to legal proceedings in the ordinary course of our business. Any adverse outcome of these legal proceedings could have a material adverse effect on our business, results of operations and financial condition.***

We may from time to time become a party to various litigations, arbitrations, legal disputes, claims or administrative proceedings arising in the ordinary course of our business. For example, we may be required to negotiate with, or institute litigation when negotiation fails, against our suppliers for the losses arising out of contaminated raw materials. The compensation clauses in the supply contract may not be adequate enough to remedy our damages. Such litigation could result in substantial costs and diversion of resources, which could negatively affect our sales, profitability and prospects. Even if any such litigation is resolved in our favor, we may not be able to successfully enforce the judgment and remedies awarded by the court and such remedies may not be adequate to compensate us for our actual or anticipated related losses, whether tangible or intangible. Negative publicity relating to such litigation, arbitrations, legal disputes, claims or administrative proceedings may damage our reputation and adversely affect the image of our brands and services. In addition, ongoing litigation, arbitrations, legal disputes, claims or administrative proceedings may distract our management's attention and consume our time and other resources. Furthermore, any litigations, arbitrations, legal disputes, claims or administrative proceedings which are not of material importance may escalate due to the various factors involved, such as the facts and circumstances of the cases, the likelihood of winning or losing, the monetary amount at stake, and the parties concerned continue to evolve in the future, and such factors may result in these cases becoming of material importance to us. We are subject to several legal proceedings, which, in the opinion of our management, would not have a material and/or adverse effect on our business, financial condition or results of operations. We may continue to subject to legal proceedings in the future. We cannot assure you that

the outcome of the legal proceedings in the future, if any, will be favorable to us. If any verdict or award is rendered against us or if we decide to settle the disputes, we may be required to incur monetary damages or other liabilities. Even if we can successfully defend ourselves, we may have to incur substantial costs and spend substantial time and efforts in these lawsuits. Consequently, any future litigation, legal disputes, claims or administrative proceedings could materially and adversely affect our business, financial condition and results of operations.

***We have limited insurance to cover our potential losses and claims.***

We maintained limited statutory insurance, which we believe is customary for businesses of our size and type and in line with the standard commercial practice in our industry. See “*Our Business — Insurance.*” If we were held liable for uninsured losses, our business and results of operations may be materially and adversely affected. In addition, we are not insured against product liability or business interruptions resulting from natural disasters such as droughts, floods, earthquakes or severe weather conditions, any suspension or cessation in the supply of utilities or other calamities. Any liability claims for damages relating to our products, interruption to our operations, and the resulting losses or damages, could materially and adversely affect our business, results of operations and financial condition.

***We may require additional financing to achieve its goals, and a failure to obtain this necessary capital when needed on acceptable terms, or at all, may force us to delay, limit, reduce or terminate its product manufacturing and development, and other operations.***

We believe that we will continue to expend substantial resources for the foreseeable future as we expand into additional markets that we may choose to pursue. These expenditures are expected to include costs associated with research and development, the acquisition or expansion of manufacturing and supply capabilities, as well as marketing and selling existing and new products. In addition, other unanticipated costs may arise.

Our operating plan may change because of factors currently unknown to us, and we may need to seek additional funds sooner than planned, including through public equity or debt financings or other sources, such as strategic collaborations. Such financing may result in dilution to shareholders, imposition of debt covenants and repayment obligations, or other restrictions that may adversely affect our business. In addition, we may seek additional capital due to favorable market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans.

Our future capital requirements depend on many factors, including:

- the number and characteristics of any additional products or manufacturing processes we develop or acquires to serve new or existing markets;
- the expenses associated with our marketing initiatives;
- the costs required to fund domestic and international growth, including acquisitions;
- the scope, progress, results and costs of researching and developing future products or improvements to existing products;
- any lawsuits related to our products or commenced against us;
- the expenses needed to attract and retain skilled personnel;
- the costs associated with being a public company; and
- the timing, receipt and amount of sales of future products.

Additional funds may not be available when we need them, on terms that are acceptable to us, or at all. If adequate funds are not available on a timely basis, we may be required to:

- delay, limit, reduce or terminate our research and development activities or growth and expansion plans; and
- delay, limit, reduce or terminate the expansion of sales and marketing capabilities or other activities that may be necessary to generate revenue and increase profitability.

## **Risks Relating to Our Corporate Structure**

***We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us could have a material and adverse effect on our ability to conduct our business.***

We are a Cayman Islands holding company and we rely principally on dividends and other distributions on equity from our PRC subsidiaries for our cash and financing requirements, including the funds necessary to pay dividends and other cash distributions to our shareholders for services of any debt we may incur. If any of our PRC subsidiaries incur debt on its own behalf in the future, the instruments governing the debt may restrict its ability to pay dividends or make other distributions to us. Under PRC laws and regulations, our PRC subsidiaries may pay dividends only out of its respective accumulated profits as determined in accordance with PRC accounting standards and regulations. In addition, our PRC subsidiaries are required to set aside at least 10% of their accumulated after-tax profits each year, if any, to fund a certain statutory reserve fund, until the aggregate amount of such fund reaches 50% of their respective registered capital. Such reserve funds cannot be distributed to us as dividends.

Our PRC subsidiaries generate primarily all of their revenue in RMB, which is not freely convertible into other currencies. As a result, any restriction on currency exchange may limit the ability of our applicable PRC subsidiaries to use their RMB revenues to pay dividends to us.

The PRC government may continue to strengthen its capital controls, and more restrictions and substantial vetting process may be put forward by SAFE for cross-border transactions falling under both the current account and the capital account. Any limitation on the ability of our applicable PRC subsidiaries to pay dividends or make other kinds of payments to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends, or otherwise fund and conduct our business.

In addition, the Enterprise Income Tax Law and its implementation rules provide that a withholding tax rate of up to 10% will be applicable to dividends payable by Chinese companies to non-PRC-resident enterprises (having no institution or establishment within China or whose incomes have no actual connection to its institution or establishment within China) unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and governments of other countries or regions where the non-PRC-resident enterprises are incorporated.

***PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from making loans or additional capital contributions to our PRC subsidiaries, which could materially and adversely affect our liquidity and our ability to fund and expand our business.***

We are a Cayman Islands holding company conducting our operations in China through our PRC subsidiaries. We may make loans to our PRC subsidiaries subject to the approval or registration from governmental authorities and limitation of amount, or we may make additional capital contributions to our wholly foreign-owned subsidiaries in China. Any loans to our subsidiaries in China are subject to foreign debt registrations. In addition, the foreign exchange receipts under the capital account of a domestic institution shall be used pursuant to the principle of authenticity and self-use within its business scope. The foreign exchange receipts under the capital account of a domestic institution and the Renminbi funds obtained from foreign exchange settlement may be used by the domestic institution for expenditures under the current account within its business scope or the expenditure under the capital account permitted by laws and regulations. Such receipts and funds of the domestic institutions shall not be used for the following purposes: (i) directly or indirectly used for payment beyond the business scope of the enterprises or the payment prohibited by relevant laws and regulations; (ii) directly or indirectly used for investment in securities or other investments than principal-secured products of banks unless otherwise provided by relevant laws and regulations; (iii) directly or indirectly used for granting of loans to non-affiliated enterprises, with the exception that such granting is expressly permitted in the business license; and (iv) used for construction or purchase of real estate for purpose other than self-use (exception applies for real estate enterprises). Where there is any contractual agreement on the use scope of receipt under the capital account between a domestic institution and other parties involved, the domestic institution shall not use such receipts and funds beyond the scope. On October 23, 2019, SAFE promulgated the Circular Regarding Further Promotion of the Facilitation of Cross-Border Trade and Investment, or SAFE Circular No. 28, under which non-investing foreign-invested enterprises are permitted to make equity investments in the PRC with their capital funds in accordance with applicable PRC laws and regulations under the premise that the domestic

investment projects are true and in compliance with applicable PRC laws and regulations. As the relevant government authorities have broad discretion in interpreting the regulation, it is unclear whether SAFE will permit such capital funds to be used for equity investments in the PRC in actual practice.

In light of the various requirements imposed by PRC regulations on loans to and direct investment in PRC entities by offshore holding companies, we cannot assure you that we will be able to complete the necessary government registrations or filing on a timely basis, if at all, with respect to future loans by us to our PRC subsidiaries or with respect to future capital contributions by us to our PRC subsidiaries. If we fail to complete such registrations or filing, our ability to capitalize or otherwise fund our PRC operations may be negatively affected, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

***If the chops of our PRC subsidiaries are not kept safely, are stolen or are used by unauthorized persons or for unauthorized purposes, the corporate governance of these entities could be severely and adversely compromised.***

In China, a company chop or seal serves as the legal representation of the company towards third parties even when unaccompanied by a signature. Each legally registered company in China is required to maintain a company chop, which must be registered with the local Public Security Bureau. In addition to this mandatory company chop, companies may have several other chops which can be used for specific purposes. The chops of our PRC subsidiaries are generally held securely by personnel designated or approved by us in accordance with our internal control procedures. To the extent those chops are not kept safely, are stolen or are used by unauthorized persons or for unauthorized purposes, the corporate governance of these entities could be severely and adversely compromised and those corporate entities may be bound to abide by the terms of any documents so chopped, even if they were chopped by an individual who lacked the requisite power and authority to do so. In addition, if the chops are misused by unauthorized persons, we could experience disruption to our normal business operations. We may have to take corporate or legal action, which could involve significant time and resources to resolve while distracting management from our operations.

***We face uncertainties with respect to the interpretation and implementation of the newly enacted Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations.***

On March 15, 2019, the National People's Congress approved the Foreign Investment Law (the "FIL"), which took effect on January 1, 2020 (with the Implementation Rules to the FIL come into effect from the same day) and replaced the Sino-Foreign Equity Joint Venture Enterprise Law, the Sino-Foreign Cooperative Joint Venture Enterprise Law and the Foreign-invested Enterprise Law, together with their implementation rules and ancillary regulations, to become the legal foundation for foreign investment in the PRC.

However, uncertainties still exist in relation to interpretation and implementation of the FIL, especially in regard to, including, among other things, and specific rules regulating the organization form of foreign-invested enterprises within the five-year transition period. Under the FIL, foreign investors and foreign-invested enterprises will be subject to legal liabilities if they fail to report investment information in accordance with the FIL. In addition, the FIL provides that foreign-invested enterprises established according to the existing laws regulating foreign investment may maintain their structure and corporate governance within a five-year transition period, which means that we may be required to adjust the structure and corporate governance of certain of our PRC subsidiaries in such transition period. Failure to take timely and appropriate measures to cope with any of these or similar regulatory compliance challenges could materially and adversely affect our current corporate structure, corporate governance and business operations.

#### **Risks Related to Doing Business in China and Hong Kong**

***A downturn in the Hong Kong, China or global economy, and economic and political policies of China could materially and adversely affect our business and financial condition.***

A part of our operations is located in Hong Kong and mainland China. Accordingly, our business, prospects, financial condition and results of operations may be influenced to a significant degree by political, economic and social conditions in Hong Kong and China generally and by continued economic growth in Hong Kong and China as a whole. The Chinese economy differs from the economies of most developed countries in many respects, including the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation

of resources. While the Chinese economy has experienced significant growth over the past decades, growth has been uneven, both geographically and among various sectors of the economy. The Chinese government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures may benefit the overall Chinese economy, but may have a negative effect on us.

Economic conditions in Hong Kong and mainland China are sensitive to global economic conditions. Any prolonged slowdown in the global or Chinese economy may affect potential clients' confidence in financial market as a whole and have a negative impact on our business, results of operations and financial condition. Additionally, continued turbulence in the international markets may adversely affect our ability to access the capital markets to meet liquidity needs.

***The Hong Kong legal system embodies uncertainties which could limit the legal protections available to us.***

Hong Kong is a Special Administrative Region of the PRC. Following British colonial rule from 1842 to 1997, China assumed sovereignty under the "one country, two systems" principle. The Hong Kong Special Administrative Region's constitutional document, the Basic Law, ensures that the current political situation will remain in effect for 50 years. Hong Kong has enjoyed the freedom to function in a high degree of autonomy for its affairs, including currencies, immigration and custom, independent judiciary system and parliamentary system. On July 14, 2020, the United States signed an executive order to end the special status enjoyed by Hong Kong post-1997. As the autonomy currently enjoyed were compromised, it could potentially impact Hong Kong's common law legal system and may in turn bring about uncertainty in, for example, the enforcement of our contractual rights. This could, in turn, materially and adversely affect our business and operation. Additionally, intellectual property rights and confidentiality protections in Hong Kong may not be as effective as in the United States or other countries. Accordingly, we cannot predict the effect of future developments in the Hong Kong legal system, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement thereof, or the pre-emption of local regulations by national laws. These uncertainties could limit the legal protections available to us, including our ability to enforce our agreements with our clients.

***Uncertainties with respect to the PRC legal system, including uncertainties regarding the enforcement of laws, and sudden or unexpected changes in laws and regulations in China could adversely affect us.***

A part of our operations is located in mainland China, and thus, our PRC subsidiaries are governed by PRC laws and regulations. PRC companies are generally subject to laws and regulations applicable to foreign investments in China and, in particular, laws and regulations applicable to wholly foreign-owned enterprises. The PRC legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions may be cited for reference but have limited precedential value.

In 1979, the PRC government began to promulgate a comprehensive system of laws, rules and regulations governing economic matters in general. The overall effect of legislation over the past four decades has significantly enhanced the protections afforded to various forms of foreign investment in China. However, China has not developed a fully integrated legal system, and recently enacted laws, rules and regulations may not sufficiently cover all aspects of economic activities in China or may be subject to significant degrees of interpretation by PRC regulatory agencies. In particular, because these laws, rules and regulations are relatively new, and because of the limited number of published decisions and the nonbinding nature of such decisions, and because the laws, rules and regulations often give the relevant regulator significant discretion in how to enforce them, the interpretation and enforcement of these laws, rules and regulations involve uncertainties and can be inconsistent and unpredictable. In addition, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all, and which may have a retroactive effect. As a result, we may not be aware of our violation of these policies and rules until after the occurrence of the violation.

Any administrative and court proceedings in China may be protracted, resulting in substantial costs and diversion of resources and management attention. Since PRC administrative and court authorities have significant discretion in interpreting and implementing statutory and contractual terms, it may be more difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy than in more developed legal systems. These uncertainties may impede our ability to enforce the contracts we have entered into and could materially and adversely affect our business, financial condition and results of operations.

In addition, the Opinions jointly issued by the General Office of the Central Committee of the Communist Party of China and the General Office of the State Council on July 6, 2021 called for strengthened regulation over illegal securities activities and supervision of overseas listings by China-based companies and propose to take effective measures. As of the date of this prospectus, no official guidance and related implementation rules have been issued in relation to these recently issued opinions and the interpretation and implementation of the Opinions remain unclear at this stage.

On December 28, 2021, the Cyberspace Administration of China (the “CAC”), and 12 other relevant PRC government authorities published the amended Cybersecurity Review Measures, which came into effect on February 15, 2022. The final Cybersecurity Review Measures provide that a “network platform operator” that possesses personal information of more than one million users and seeks a listing in a foreign country must apply for a cybersecurity review. Further, the relevant PRC governmental authorities may initiate a cybersecurity review against any company if they determine certain network products, services or data processing activities of such company affect or may affect national security. Through the contractual arrangements with Weishi, DDC SH had collected and possessed personal information of more than one million users. After the contractual arrangements with Weishi were terminated in April 2022, DDC SH still have been possessing this amount of personal information which are stored in mainland China. For purposes of the Cybersecurity Review Measures, we have applied for and completed the cybersecurity review with respect to our proposed overseas listing pursuant to the Cybersecurity Review Measures.

As there remains significant uncertainty in the interpretation and enforcement of relevant PRC cybersecurity laws and regulations, we cannot assure you that we would not become subject to enhanced cybersecurity review or investigations launched by PRC regulators in the future. Any failure or delay in the completion of the cybersecurity review procedures or any other non-compliance with the related laws and regulations may result in rectification, fines or other penalties, including suspension of business, website closure, removal of our app from the relevant app stores, and revocation of prerequisite licenses, as well as reputational damage or legal proceedings or actions against us, which may have material adverse effect on our business, financial condition or results of operations.

On February 17, 2023, the CSRC issued the Trial Measures which became effective on March 31, 2023. On the same date, the CSRC circulated the Guidance Rules and Notice on the CSRC’s official website which became effective on March 31, 2023. Under the Trial Measures, either direct or indirect overseas offering and listing by domestic companies shall fulfill the filing procedure with the CSRC with submitting relevant materials. Any overseas offering and listing made by an issuer that meets both the following conditions will be determined as indirect: (1) 50% or more of the issuer’s operating revenue, total profit, total assets or net assets as documented in its audited consolidated financial statements for the most recent accounting year is accounted for by domestic companies; and (2) the main parts of the issuer’s business activities are conducted in the Chinese Mainland, or its main places of business are located in the Chinese Mainland, or the senior managers in charge of its business operation and management are mostly Chinese citizens or domiciled in the Chinese Mainland. The determination as to whether or not an overseas offering and listing by domestic companies is indirect, shall be made on a substance over form basis. When certain circumstances happen, overseas offering and listing shall not be made. And If the intended overseas offering and listing necessitates a national security review, relevant security review procedures shall be completed according to law before the application for such offering and listing is submitted to any overseas parties such as securities regulatory agencies and trading venues. Pursuant to the Trial Measures, the Guidance Rules and Notice, initial public offerings or listings in overseas markets shall be filed with the CSRC within 3 working days after the relevant application is submitted overseas, while domestic enterprises that have submitted valid applications for overseas offerings and listings but have not obtained the approval from the relevant overseas regulatory authority or overseas stock exchange shall complete filings with the CSRC prior to their overseas offerings and listings. Our PRC counsel, Grandall Law Firm (Shanghai) has advised us that, based on its understanding of the current PRC laws and regulations, our offering and listing will be identified as an indirect overseas issuance and listing by the CSRC, in view of the fact that the Trial Measures have come into effect on 31 March 2023. We have submitted the filing materials with the CSRC to fulfill the filing procedure with the CSRC as per requirement of the Trial Measures and completed such proceeding in November 2023. However, there is no guarantee that we will continue to comply with the Trial Measures. If we fail to comply with the Trial Measures, we will be required to correct our behaviors, facing warnings and fines which amount will range from RMB1,000,000 to RMB10,000,000, and directly responsible personnel will also be warned and fined which amount will range from RMB500,000 to RMB5,000,000. Any new policies, regulations, rules, actions or laws by the PRC government may subject us to material changes in operations, which could significantly limit or completely hinder our ability to offer or continue to offer securities to investors and cause the value of our securities to significantly decline or become worthless.

On February 24, 2023, the CSRC, together with the MOF, National Administration of State Secrets Protection and National Archives Administration of China, revised the Provisions issued by the CSRC and National Administration of State Secrets Protection and National Archives Administration of China in 2009. The revised Provisions were issued under the title the “Provisions on Strengthening Confidentiality and Archives Administration of Overseas Securities Offering and Listing by Domestic Companies”, and came into effect on March 31, 2023, together with the Trial Measures. One of the major revisions to the revised Provisions is expanding their application to cover indirect overseas offering and listing, as is consistent with the Trial Measures. The revised Provisions require that, among other things, (a) a domestic company that plans to, either directly or indirectly through its overseas listed entity, publicly disclose or provide to relevant individuals or entities including securities companies, securities service providers and overseas regulators, any documents and materials that contain state secrets or working secrets of government agencies, shall first obtain approval from competent authorities according to law, and file with the secrecy administrative department at the same level; and (b) a domestic company that plans to, either directly or indirectly through its overseas listed entity, publicly disclose or provide to relevant individuals and entities including securities companies, securities service providers and overseas regulators, any other documents and materials that, if leaked, will be detrimental to national security or public interest, shall strictly fulfill relevant procedures stipulated by applicable national regulations. Any failure or perceived failure by our Company or our PRC subsidiaries to comply with the above confidentiality and archives administration requirements under the revised Provisions and other PRC laws and regulations may result in the relevant entities being held legally liable by competent authorities and referred to the judicial organ to be investigated for criminal liability if suspected of committing a crime.

The Opinions, the Trial Measures, the Guidance Rules and Notice, the revised Provisions, and any related implementation rules to be enacted may subject us to additional compliance requirement in the future. Any failure of us to complete further filings or any other relevant regulatory procedures regarding the issuance and listing of our securities in a timely manner will completely hinder our ability to offer or continue to offer our Class A Ordinary Shares, cause significant disruption to our business operations, and severely damage our reputation, which would materially and adversely affect our financial condition and results of operations and cause our Class A Ordinary Shares to significantly decline in value or become worthless.

The PRC government has significant oversight and discretion over the conduct of a PRC company’s business and may intervene with or influence its operations at any time as the government deems appropriate to further regulatory, political and societal goals. The PRC government has recently published new policies that significantly affected certain industries such as the education and internet industries, and we cannot rule out the possibility that it will in the future release regulations or policies regarding any industry that could adversely affect the business, financial condition and results of operations of our PRC subsidiaries.

Uncertainties regarding the enforcement of laws and the fact that rules and regulations in China can change quickly with little advance notice, along with the risk that the Chinese government may intervene or influence our operations at any time, could result in a material change in our operations, financial performance and/or the value of our Class A Ordinary Shares or impair our ability to raise money.

***The Chinese government exerts substantial influence over the manner in which we must conduct our business activities, and may intervene or influence our operations at any time, or may exert more oversight and control over offerings conducted overseas. Any actions by the Chinese government to exert more oversight and control over offerings that are conducted overseas and/or foreign investment in China-based issuers could significantly limit or completely hinder our ability to offer or continue to offer our Class A Ordinary Shares to investors and could cause the value of our Class A Ordinary Shares to significantly decline or become worthless.***

The Chinese government has exercised and continues to exercise substantial control over virtually every sector of the Chinese economy through regulation and state ownership. Our ability to operate in China may be harmed by changes in its laws and regulations, including those relating to taxation, environmental regulations, land use rights, property and other matters. We believe that our operations in China are in material compliance with all applicable legal and regulatory requirements. However, the central or local governments of these jurisdictions may impose new, stricter regulations or interpretations of existing regulations that would require additional expenditures and efforts on our part to ensure our compliance with such regulations or interpretations. Accordingly, government actions in the future, including any decision not to continue to support recent economic reforms and to return to a more centrally

planned economy or regional or local variations in the implementation of economic policies, could have a significant effect on economic conditions in China or particular regions thereof, and could require us to divest ourselves of any interest we then hold in Chinese properties.

For example, the Chinese cybersecurity regulator announced on July 2, 2021 that it had begun an investigation of Didi Global Inc. (NYSE: DIDI) and two days later ordered that Didi Global Inc.'s app be removed from smartphone app stores.

As such, our PRC subsidiaries may be subjected to various government and regulatory interference in the provinces in which they operate. Our PRC subsidiaries could be subject to regulations by various political and regulatory entities, including various local and municipal agencies and government sub-divisions. We may incur increased costs necessary to comply with existing and newly adopted laws and regulations or penalties for any failure to comply. If the PRC government initiates an investigation into us at any time alleging us violation of cybersecurity laws, anti-monopoly laws, and securities offering rules in China in connection with this offering, we may have to spend additional resources and incur additional time delays to comply with the applicable rules, and our business operations will be affected materially and any such action could cause the value of our securities to significantly decline or be worthless.

Further, any actions by the PRC government to exert more oversight and control over offerings that are conducted overseas and/or foreign investment in China-based issuers could significantly limit or completely hinder our ability to offer or continue to offer securities to investors and cause the value of such securities to significantly decline or be worthless. We could be subject to regulation by various political and regulatory entities, including various local and municipal agencies and government sub-divisions. The Company may incur increased costs necessary to comply with existing and newly adopted laws and regulations or penalties for any failure to comply.

As at the date of this prospectus, we have been advised by Grandall Law Firm (Shanghai), our PRC legal adviser, that there are no PRC laws and regulations in force explicitly requiring that our Group or our PRC subsidiaries to obtain permission from PRC authorities for this offering or to issue securities to foreign investors (by DDC Cayman), and our Group or our PRC subsidiaries have not received any inquiry, notice, warning, sanction or any regulatory objection to this offering from any relevant PRC authorities, except for the CSRC filing for this issuance and listing which shall be completed before the listing as described in this prospectus. We completed the CSRC filing in November 2023. However, there is no guarantee that we will continue to comply with additional filing requirements, if any, in the future. Any new policies, regulations, rules, actions or laws by the PRC government may subject us to material changes in operations, which could significantly limit or completely hinder our ability to offer or continue to offer securities to investors and cause the value of our securities to significantly decline or become worthless.

***There are significant legal and other obstacles to obtaining information needed for shareholder investigations or litigation outside China or otherwise with respect to foreign entities.***

We conduct most of our business operations in China, and a majority of our directors and senior management are based in China, which is an emerging market. The SEC, U.S. Department of Justice and other authorities often have substantial difficulties in bringing and enforcing actions against non-U.S. companies and non-U.S. persons, including company directors and officers, in certain emerging markets, including China. Additionally, our public shareholders may have limited rights and few practical remedies in emerging markets where we operate, as shareholder claims that are common in the United States, including class action securities law and fraud claims, generally are difficult to pursue as a matter of law or practicality in many emerging markets, including China. For example, in China, there are significant legal and other obstacles to obtaining information needed for shareholder investigations or litigation outside China or otherwise with respect to foreign entities. Although the local authorities in China may establish a regulatory cooperation mechanism with the securities regulatory authorities of another country or region to implement cross-border supervision and administration, the regulatory cooperation with the securities regulatory authorities in the United States has not been efficient in the absence of a mutual and practical cooperation mechanism. According to Article 177 of the PRC Securities Law which became effective in March 2020, no foreign securities regulator is allowed to directly conduct investigation or evidence collection activities within the territory of the PRC. Accordingly, without the consent of the competent PRC securities regulators and relevant authorities, no organization or individual may provide the documents and materials relating to securities business activities to foreign securities regulators.

As a result, our public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a company incorporated in the United States.

***PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident beneficial owners or our PRC subsidiaries to liability or penalties, limit our ability to inject capital into our PRC subsidiaries, limit our PRC subsidiaries' ability to increase their registered capital or distribute profits to us, or may otherwise adversely affect us.***

In July 2014, the SAFE promulgated the Circular on Relevant Issues Concerning Foreign Exchange Control on Domestic Residents' Offshore Investment and Financing and Roundtrip Investment through Special Purpose Vehicles, or SAFE Circular 37. SAFE Circular 37 requires PRC residents (including PRC individuals and PRC entities) to register with SAFE or its local branches in connection with their establishment or control of an offshore entity established for the purpose of overseas investment or financing with such PRC residents' legally owned assets or equity interests in domestic enterprises or offshore assets or interests. SAFE Circular 37 is applicable to our shareholders who are PRC residents and may be applicable to any offshore acquisitions that we make in the future.

Under SAFE Circular 37, PRC residents who make, or have prior to the implementation of SAFE Circular 37 made, direct or indirect investments in offshore special purpose vehicles ("SPV"), will be required to register such investments with the SAFE or its local branches. In addition, any PRC resident who is a direct or indirect shareholder of an SPV, is required to update its filed registration with the local branch of SAFE with respect to that SPV, to reflect any material change. If any PRC shareholder of such SPV fails to make the required registration or to update the previously filed registration, the subsidiary of such SPV in China may be prohibited from distributing its profits or the proceeds from any capital reduction, share transfer or liquidation to the SPV, and the SPV may also be prohibited from making additional capital contributions into its subsidiary in China. On February 13, 2015, the SAFE promulgated a Notice on Further Simplifying and Improving Foreign Exchange Administration Policy on Direct Investment, or SAFE Notice 13, which became effective on June 1, 2015 and was further amended in December 2019. Under SAFE Notice 13, applications for foreign exchange registration of inbound foreign direct investments and outbound overseas direct investments, including those required under SAFE Circular 37, will be registered with qualified banks instead of the SAFE. The qualified banks will directly examine the applications and accept registrations under the supervision of the SAFE or its local branch. Pursuant to SAFE Circular 37, PRC residents who participate in share incentive plans in overseas non-publicly-listed companies due to their position as director, senior management or employees of the PRC subsidiaries of the overseas companies may submit applications to the SAFE or its local branches for the foreign exchange registration with respect to offshore special purpose companies. Our directors, executive officers and other employees who are PRC residents and who were granted options may follow SAFE Circular 37 to apply for the foreign exchange registration before our company became an overseas listed company.

We have taken steps to notify significant beneficial owners of ordinary shares whom we know are PRC residents of their filing obligations. However, we may not be informed of the identities of all the PRC residents holding direct or indirect interest in our company, and we cannot provide any assurance that these PRC residents will comply with our request to make or obtain any applicable registrations or comply with other requirements under SAFE Circular 37 and other applicable laws and regulations or compel all such PRC residents to do so. The failure or inability of our PRC resident shareholders to comply with the registration procedures set forth in such regulations may subject us to fines and legal sanctions, restrict our cross-border investment activities, limit the ability of our wholly foreign-owned subsidiaries in China to distribute dividends and the proceeds from any reduction in capital, share transfer or liquidation to us, and we may also be prohibited from injecting additional capital into these subsidiaries. Moreover, failure to comply with the various foreign exchange registration requirements described above could result in liability under PRC law for circumventing applicable foreign exchange restrictions. As a result, our business operations and prospects and our ability to distribute profits to you could be materially and adversely affected.

Upon listing, we and directors, executive officers and other employees of our PRC subsidiaries and who have been granted options will be subject to the Notice on Issues Concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plan of Overseas Publicly Listed Company, issued by SAFE in February 2012, or SAFE Circular 7, according to which, among others, employees, directors, supervisors and other management members of PRC companies participating in any stock incentive plan of an overseas publicly listed company who are domestic individuals as defined therein are required to register and make regular periodic filings with SAFE through a domestic qualified agent, which could be a PRC subsidiary of such overseas listed company, and complete certain other procedures. Failure to complete the SAFE registrations or meet other requirements may

subject relevant participants in our share incentive plans to fines and legal sanctions and may also limit the ability to make payment under our share incentive plans or receive dividends or sales proceeds related thereto, or our ability to contribute additional capital into our wholly-foreign owned enterprises in China and limit our wholly-foreign owned enterprises' ability to distribute dividends to us. We also face regulatory uncertainties that could restrict our ability to adopt additional share incentive plans for our directors and employees under PRC law.

***We may be exposed to liabilities under the Foreign Corrupt Practices Act and Chinese anti-corruption law.***

In connection with this offering, we will become subject to the U.S. Foreign Corrupt Practices Act (the "FCPA"), and other laws that prohibit improper payments or offers of payments to foreign governments and their officials and political parties by U.S. persons and issuers as defined by the statute for the purpose of obtaining or retaining business. We are also subject to Chinese anti-corruption laws, which strictly prohibit the payment of bribes to government officials. We have operations agreements with third parties, and make sales in China, which may experience corruption. Our activities in China create the risk of unauthorized payments or offers of payments by one of our franchisees and their employees, consultants or distributors, because these parties are not always subject to our control. Our franchisees are independent operators and are not subject to our control regarding to our FCPA practice.

Although we believe, to date, we have complied in all material respects with the provisions of the FCPA and Chinese anti-corruption law, our existing safeguards and any future improvements may prove to be less than effective, and the employees, consultants, franchisees or distributors of our franchisees may engage in conduct for which we might be held responsible. Violations of the FCPA or Chinese anti-corruption law may result in severe criminal or civil sanctions, and we may be subject to other liabilities, which could negatively affect our business, operating results and financial condition. In addition, the government may seek to hold our Company liable for successor liability FCPA violations committed by companies in which we invest or that we acquire.

***Enhanced scrutiny over acquisition transactions by the PRC tax authorities may have a negative impact on potential acquisitions we may pursue in the future.***

The PRC tax authorities have enhanced their scrutiny over the direct or indirect transfer of certain taxable assets, including, in particular, equity interests in a PRC resident enterprise, by a non-resident enterprise by promulgating and implementing Notice 59 with the Ministry of Finance, which was partially amended by Notice 109, and SAT Circular 698, which became effective in January 2008, and SAT Circular 7 in replacement of some of the existing rules in SAT Circular 698, which became effective in February 2015. SAT Circular 698 was fully abolished by SAT Circular 37 in December 2017.

Under SAT Circular 698, where a non-resident enterprise conducts an "indirect transfer" by transferring the equity interests of a PRC "resident enterprise" indirectly by disposing of the equity interests of an overseas holding company, the non-resident enterprise, being the transferor, may be subject to PRC corporate income tax, if the indirect transfer is considered to be an abusive use of company structure without reasonable commercial purposes. As a result, gains derived from such indirect transfer may be subject to PRC tax at a rate of up to 10%. SAT Circular 698 also provides that, where a non-PRC resident enterprise transfers its equity interests in a PRC resident enterprise to its related parties at a price lower than the fair market value, the relevant tax authority has the power to make a reasonable adjustment to the taxable income of the transaction.

In February 2015, the SAT issued SAT Circular 7, Announcement of the State Administration of Taxation on Several Issues Relating to Enterprise Income Tax on Transfer of Assets between Non-resident Enterprises, which took effective on February 3, 2015, to replace the rules relating to indirect transfers in SAT Circular 698. SAT Circular 7 has introduced a new tax regime that is significantly different from that under SAT Circular 698. SAT Circular 7 extends its tax jurisdiction to not only indirect transfers set forth under SAT Circular 698 but also transactions involving transfer of other taxable assets, through the offshore transfer of a foreign intermediate holding company. In addition, SAT Circular 7 provides clearer criteria than SAT Circular 698 on how to assess reasonable commercial purposes and has introduced safe harbors for internal group restructurings and the purchase and sale of equity through a public securities market. SAT Circular 7 also brings challenges to both the foreign transferor and transferee (or other person who is obligated to pay for the transfer) of the taxable assets. Where a non-resident enterprise conducts an "indirect transfer" by transferring the taxable assets indirectly by disposing of the equity interests of an overseas holding company, the non-resident enterprise being the transferor, or the transferee, or the PRC entity which directly owned the taxable assets

may report to the relevant tax authority such indirect transfer. Using a “substance over form” principle, the PRC tax authority may disregard the existence of the overseas holding company if it lacks a reasonable commercial purpose and was established for the purpose of reducing, avoiding or deferring PRC tax. As a result, gains derived from such indirect transfer may be subject to PRC corporate income tax, and the transferee or other person who is obligated to pay for the transfer is obligated to withhold the applicable taxes, currently at a rate of 10% for the transfer of equity interests in a PRC resident enterprise.

According to SAT Circular 37, the Announcement on Issues Relating to Withholding at Source of Income Tax of Non-resident Enterprises, which was issued by the SAT on October 17, 2017 and took effect on December 1, 2017 and was most-recently amended on June 15, 2018, the balance after deducting the equity net value from the equity transfer income shall be the taxable income amount for equity transfer income. Equity transfer income shall mean the consideration collected by the equity transfer or from the equity transfer, including various income in monetary form and non-monetary form. Equity net value shall mean the tax computation basis for obtaining the said equity. The tax computation basis for equity shall be: (i) the capital contribution costs actually paid by the equity transferor to a Chinese resident enterprise at the time of investment and equity participation, or (ii) the equity transfer costs actually paid at the time of acquisition of such equity to the original transferor of the said equity. Where there is reduction or appreciation of value during the equity holding period, and the gains or losses may be confirmed pursuant to the rules of the finance and tax authorities of the State Council, the equity net value shall be adjusted accordingly. When an enterprise computes equity transfer income, it shall not deduct the amount in the shareholders’ retained earnings such as undistributed profits etc., of the investee enterprise, which may be distributed in accordance with the said equity. In the event of partial transfer of equity under multiple investments or acquisitions, the enterprise shall determine the costs corresponding to the transferred equity in accordance with the transfer ratio, out of all costs of the equity.

Under SAT Circular 7 and the Law of the People’s Republic of China on the Administration of Tax Collection promulgated by SCNPC on September 4, 1992 and newly amended on April 24, 2015 (the “Tax Collection Law”), in the case of an indirect transfer, entities or individuals obligated to pay the transfer price to the transferor shall act as withholding agents. According to SAT Circular 7, where the transferee fails to withhold any or sufficient tax, the transferor shall declare and pay such tax to the tax authority by itself within the statutory time limit. SAT Circular 37 further elaborates the relevant implemental rules regarding the calculation, reporting and payment obligations of the withholding tax by the non-resident enterprises. In addition, the tax authority may also hold the withholding agents liable and impose a penalty of ranging from 50% to 300% of the unpaid tax on them. The penalty imposed on the withholding agents may be reduced or waived if the withholding agents have submitted the relevant materials in connection with the indirect transfer to the PRC tax authorities in accordance with SAT Circular 7.

We may face uncertainties on the reporting and consequences on future private equity financing transactions, share exchange or other transactions involving the transfer of shares in our company by investors that are non-PRC resident enterprises. The PRC tax authorities may pursue such non-resident enterprises with respect to a filing or the transferees with respect to withholding obligation, and request our PRC subsidiary to assist in the filing. As a result, we and non-resident enterprises in such transactions may become at risk of being subject to filing obligations or being taxed, under relevant Notices and Circulars, and may be required to expend valuable resources to comply with these Notices and Circulars or to establish that we and our non-resident enterprises should not be taxed under these circulars, which may have a material adverse effect on our financial condition and results of operations.

The PRC tax authorities have the discretion under these Notices and Circulars to make adjustments to the taxable capital gains based on the difference between the fair value of the taxable assets transferred and the cost of investment. We may pursue acquisitions in the future that may involve complex corporate structures. If we are considered a non-resident enterprise under the PRC corporate income tax law and if the PRC tax authorities make adjustments to the taxable income of the transactions under these Notices and Circulars, our income tax costs associated with such potential acquisitions will be increased, which may have an adverse effect on our financial condition and results of operations.

***PRC regulations establish complex procedures for some acquisitions of Chinese companies by foreign investors, which could make it more difficult for us to pursue growth through acquisitions in China.***

PRC regulations and rules concerning mergers and acquisitions including the Regulations on Mergers and Acquisitions of Domestic Companies by Foreign Investors (the “M&A Rules”), established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time consuming and

complex. For example, the M&A Rules require that the MOFCOM be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise, if (i) any important industry is concerned, (ii) such transaction involves factors that have or may have impact on the national economic security, (iii) such transaction will lead to a change in control of a domestic enterprise which holds famous trademarks or PRC time-honored brands, or (iv) such PRC domestic enterprise is an affiliate of the foreign investor as stipulated under the M&A Rules. Moreover, the Anti-Monopoly Law requires that the anti-trust governmental authority shall be notified in advance of any concentration of undertaking if certain thresholds are triggered. In addition, the security review rules issued by the MOFCOM that became effective in September 2011 specify that mergers and acquisitions by foreign investors that raise “national defense and security” concerns and mergers and acquisitions through which foreign investors may acquire de facto control over domestic enterprises that raise “national security” concerns are subject to strict review by the MOFCOM, and the rules prohibit any activities attempting to bypass a security review, including by structuring the transaction through a proxy or contractual control arrangement. In the future, we may grow our business by acquiring complementary businesses. Complying with the requirements of the above-mentioned regulations and other relevant rules to complete such transactions could be time consuming, and any required approval processes, including obtaining approval from the MOFCOM or its local counterparts may delay or inhibit our ability to complete such transactions. It is unclear whether our business would be deemed to be in an industry that raises “national defense and security” or “national security” concerns. However, the MOFCOM or other government agencies may publish explanations in the future determining that our business is in an industry subject to the security review, in which case our future acquisitions in the PRC, including those by way of entering into contractual control arrangements with target entities, may be closely scrutinized or prohibited. Our ability to expand our business or maintain or expand our market share through future acquisitions would as such be materially and adversely affected.

***The approval of the China Securities Regulatory Commission and other PRC governmental authorities provided under the M&A rules are not required in connection with this offering, and, if required, we cannot predict whether we will be able to obtain such approval. Except for the CSRC filing for this issuance and listing, we are not required to obtain any permission or approval from any Chinese authority to issue securities to foreign investors or in connection with this offering. We completed the CSRC filing in November 2023. However, there is no guarantee that we will continue to comply with additional filing requirements, if any, in the future.***

The M&A Rules include, among other things, provisions that purport to require that an offshore special purpose vehicle formed for the purpose of an overseas listing of securities in a PRC company obtain the approval of the CSRC and the MOFCOM, prior to the listing and trading of such special purpose vehicle’s securities on an overseas stock exchange. Substantial uncertainty remains regarding the scope and applicability of the M&A Rules to offshore special purpose vehicles. As at the date of this prospectus, we have been advised by Grandall Law Firm (Shanghai), CSRC’s approval under the M&A Rules is not required for the listing and trading of our Class A Ordinary Shares on the NYSE Group in the context of this offering given that we are an exempted company with limited liability incorporated under the laws of the Cayman Islands controlled by non-PRC citizens and we do not fit into the definition of “overseas special purpose vehicle” under the M&A Rules. As such, we do not fit into the definition of “overseas special purpose vehicle” under the M&A Regulations and we have never conducted any merger or acquisitions of any PRC domestic companies with a related party relationship. MOFCOM’s approval under the M&A Rules is not required as we have never conducted any merger or acquisitions of any PRC domestic companies with a related party relationship as prescribed in the M&A Rules.

There remain some uncertainties as to how the M&A Rules will be interpreted or implemented in the context of an overseas offering and its opinions summarized above are subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules. We cannot assure you that relevant PRC government agencies, including the CSRC, would reach the same conclusion as we do. If it is determined that CSRC approval under the M&A Rules is required for this offering, we may face sanctions by the CSRC or other PRC regulatory agencies for failure to seek CSRC approval for this offering. These sanctions may include fines and penalties on our operations in the PRC, limitations on our operating privileges in the PRC, delays in or restrictions on the repatriation of the proceeds from this offering into the PRC, restrictions on or prohibition of the payments or remittance of dividends by our PRC subsidiary, or other actions that could have a material and adverse effect on our business, financial condition, results of operations, reputation and prospects, as well as the trading price of our securities. Furthermore, the CSRC or other PRC regulatory agencies may also take actions requiring us, or making it advisable for us, to halt this offering before the settlement and delivery of the securities that we are offering. Consequently, if you engage in market trading or other activities in anticipation of and prior to the settlement and delivery of the securities we are offering, you would be doing so at the risk that the settlement and delivery may not occur.

Moreover, except for emphasizing the need to strengthen the administration over illegal securities activities, and the need to strengthen the supervision over overseas listings by Chinese companies, the Opinions, which was made available to the public on July 6, 2021, also provides that the State Council will revise provisions regarding the overseas issuance and listing of shares by companies limited by shares and will clarify the duties of domestic regulatory authorities.

On February 17, 2023, the CSRC issued the Trial Measures which became effective on March 31, 2023. On the same date, the CSRC circulated the Guidance Rules and Notice on the CSRC's official website which became effective on March 31, 2023. Under the Trial Measures, either direct or indirect overseas offering and listing by domestic companies shall fulfill the filing procedure with the CSRC with submitting relevant materials. Any overseas offering and listing made by an issuer that meets both the following conditions will be determined as indirect: (1) 50% or more of the issuer's operating revenue, total profit, total assets or net assets as documented in its audited consolidated financial statements for the most recent accounting year is accounted for by domestic companies; and (2) the main parts of the issuer's business activities are conducted in the Chinese Mainland, or its main places of business are located in the Chinese Mainland, or the senior managers in charge of its business operation and management are mostly Chinese citizens or domiciled in the Chinese Mainland. The determination as to whether or not an overseas offering and listing by domestic companies is indirect, shall be made on a substance over form basis. When certain circumstances happen, overseas offering and listing shall not be made. And If the intended overseas offering and listing necessitates a national security review, relevant security review procedures shall be completed according to law before the application for such offering and listing is submitted to any overseas parties such as securities regulatory agencies and trading venues. Pursuant to the Trial Measures, the Guidance Rules and Notice, initial public offerings or listings in overseas markets shall be filed with the CSRC within 3 working days after the relevant application is submitted overseas, while domestic enterprises that have submitted valid applications for overseas offerings and listings but have not obtained the approval from the relevant overseas regulatory authority or overseas stock exchange shall complete filings with the CSRC prior to their overseas offerings and listings. Our PRC counsel, Grandall Law Firm (Shanghai) has advised us that, based on its understanding of the current PRC laws and regulations, our offering and listing will be identified as an indirect overseas issuance and listing by the CSRC, in view of the fact that the Trial Measures have come into effect on 31 March 2023. We have submitted the filing materials with the CSRC to fulfill the filing procedure with the CSRC as per requirement of the Trial Measures, and completed such proceeding in November 2023. However, there is no guarantee that we will continue to comply with the Trial Measures. If we fail to comply with the Trial Measures, we will be required to correct our behaviors, facing warnings and fines which amount will range from RMB1,000,000 to RMB10,000,000, and directly responsible personnel will also be warned and fined which amount will range from RMB500,000 to RMB5,000,000. Any new policies, regulations, rules, actions or laws by the PRC government may subject us to material changes in operations, which could significantly limit or completely hinder our ability to offer or continue to offer securities to investors and cause the value of our securities to significantly decline or become worthless.

On February 24, 2023, the CSRC, together with the MOF, National Administration of State Secrets Protection and National Archives Administration of China, revised the Provisions issued by the CSRC and National Administration of State Secrets Protection and National Archives Administration of China in 2009. The revised Provisions were issued under the title the "Provisions on Strengthening Confidentiality and Archives Administration of Overseas Securities Offering and Listing by Domestic Companies", and came into effect on March 31, 2023, together with the Trial Measures. One of the major revisions to the revised Provisions is expanding their application to cover indirect overseas offering and listing, as is consistent with the Trial Measures. The revised Provisions require that, among other things, (a) a domestic company that plans to, either directly or indirectly through its overseas listed entity, publicly disclose or provide to relevant individuals or entities including securities companies, securities service providers and overseas regulators, any documents and materials that contain state secrets or working secrets of government agencies, shall first obtain approval from competent authorities according to law, and file with the secrecy administrative department at the same level; and (b) a domestic company that plans to, either directly or indirectly through its overseas listed entity, publicly disclose or provide to relevant individuals and entities including securities companies, securities service providers and overseas regulators, any other documents and materials that, if leaked, will be detrimental to national security or public interest, shall strictly fulfill relevant procedures stipulated by applicable national regulations. Any failure or perceived failure by our Company or our PRC subsidiaries to comply with the above confidentiality and archives administration requirements under the revised Provisions and other PRC laws and regulations may result in the relevant entities being held legally liable by competent authorities and referred to the judicial organ to be investigated for criminal liability if suspected of committing a crime.

The Opinions, the Trial Measures, the Guidance Rules and Notice, the revised Provisions, and any related implementation rules to be enacted may subject us to additional compliance requirement in the future. Any failure of us to complete further filings or any other relevant regulatory procedures regarding the issuance and listing of our securities in a timely manner will completely hinder our ability to offer or continue to offer our Class A Ordinary Shares, cause significant disruption to our business operations, and severely damage our reputation, which would materially and adversely affect our financial condition and results of operations and cause our Class A Ordinary Shares to significantly decline in value or become worthless.

As of the date of this prospectus, we have been advised by Grandall Law Firm (Shanghai) that except for the CSRC filing procedure which we have completed according to the Trial Measures as described in this prospectus, no prior permission is required under the M&A Rules, the Opinions or other PRC laws and regulations from any PRC governmental authorities for the listing and trading of our securities on the NYSE Group in the context of this offering, given that: (a) the CSRC currently has not issued any definitive rule or interpretation concerning whether offerings like ours under this prospectus are subject to the M&A Rules; (b) DDC Cayman is a company incorporated under the laws of the Cayman Islands controlled by non-PRC citizens, and we do not fit into the definition of “overseas special purpose vehicle” under the M&A Rules and (c) we have never conducted any merger or acquisitions of any PRC domestic companies with a related party relationship as prescribed in the M&A Rules. We also believe that MOFCOM’s approval under the M&A Rules is not required as we have never conducted any merger or acquisitions of any PRC domestic companies with a related party relationship as prescribed in the M&A Rules. However, we cannot assure you that relevant PRC governmental agencies, including the CSRC, would reach the same conclusion as we do. If we or our subsidiaries inadvertently conclude that such permissions or approvals are not required, our ability to offer or continue to offer our Class A Ordinary Shares to investors could be significantly limited or completely hindered, which could cause the value of our Class A Ordinary Shares to significantly decline or become worthless. We may also face sanctions by the CSRC, the MOFCOM or other PRC regulatory agencies. These regulatory agencies may impose fines and penalties on our operations in China, limit our ability to pay dividends outside of China, limit our operations in China, delay or restrict the repatriation of the proceeds from this offering into China or take other actions that could have a material adverse effect on our business, financial condition, results of operations and prospects, as well as the trading price of our securities.

We have been further advised by Grandall Law Firm (Shanghai), our PRC legal adviser, that (i) our PRC subsidiaries have obtained all necessary permissions or approvals and authorizations in the PRC in all material aspects in relation to conducting its current business operations in China, except for Quanzhou Weishi Food Co., Limited which does not hold any assets or operations for now and we are in the process of applying for relevant food operation license for it; and (ii) we are not required to obtain any permission or approval from any Chinese authority to issue securities to foreign investors (by DDC Cayman) or in connection with this offering under Chinese laws or regulations in effect, except for the CSRC filing for this issuance and listing which was completed in November 2023. However, there is no guarantee that such completed proceedings will not be denied or rescinded. We (including DDC Cayman and all its subsidiaries) have not received any inquiry, notice, warning, sanctions or regulatory objection to this offering from the CSRC or any other PRC governmental authorities.

However, we cannot assure you that relevant PRC government agencies, including the CSRC, would reach the same conclusion as we do. If it is determined that CSRC approval under the M&A rules is required for this offering, we may face sanctions by the CSRC or other PRC regulatory agencies for failure to seek CSRC approval for this offering. These sanctions may include fines and penalties on our operations in the PRC, limitations on our operating privileges in the PRC, delays in or restrictions on the repatriation of the proceeds from this offering into the PRC, restrictions on or prohibition of the payments or remittance of dividends by our PRC subsidiary, or other actions that could have a material and adverse effect on our business, financial condition, results of operations, reputation and prospects, as well as the trading price of our securities. Furthermore, the CSRC or other PRC regulatory agencies may also take actions requiring us, or making it advisable for us, to halt this offering before the settlement and delivery of the securities that we are offering. Consequently, if you engage in market trading or other activities in anticipation of and prior to the settlement and delivery of the securities we are offering, you would be doing so at the risk that the settlement and delivery may not occur. Besides, any failure of us to fully comply with any new regulatory requirements may significantly limit or completely hinder our ability to offer or continue to offer our Class A Ordinary Shares, cause significant disruption to our business operations, and severely damage our reputation, which would materially and adversely affect our financial condition and results of operations and cause our Class A Ordinary Shares to significantly decline in value or become worthless.

***Changes in China's economic, political or social conditions or government policies could have a material adverse effect on our Company's business and results of operations we may pursue in the future.***

A part of our operations is located in mainland China and Hong Kong, and thus, our business, prospects, financial condition and results of operations may be influenced to a significant degree by political, economic and social conditions in China generally and by continued economic growth in China as a whole. Policies, regulations, rules, and the enforcement of laws of the PRC government can have significant effects on economic conditions in the PRC and the ability of businesses to operate profitably. Our ability to operate profitably in the PRC and Hong Kong may be adversely affected by changes in policies by the PRC government, including changes in laws, regulations or their interpretation, particularly those dealing with the Internet, including censorship and other restriction on material which can be transmitted over the Internet, security, intellectual property, money laundering, taxation and other laws that affect our PRC and Hong Kong subsidiaries' ability to operate its business.

Any actions by the PRC government to exert more oversight and control over offerings (including businesses whose primary operations are in Hong Kong) that are conducted overseas and/or foreign investments in Hong Kong- or PRC-based issuers could significantly limit or completely hinder our ability to offer or continue to offer securities to investors and cause the value of our securities to significantly decline or be worthless.

***PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay us from using part of the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiary, which could materially and adversely affect our liquidity and our ability to fund and expand our business.***

Any funds our Group transfers to our PRC subsidiaries, either as a shareholder loan or as an increase in registered capital, are subject to approval by or registration with relevant governmental authorities in China. According to the relevant PRC regulations on FIEs in China, capital contributions to our PRC subsidiary are subject to registration with the SAMR (or its local branches) and filing with the Ministry of Commerce of the PRC, or the MOFCOM, or its local branches and (if applicable) registration with other relevant governmental authorities in China. In addition, (a) any foreign loan procured by our PRC subsidiary is required to be registered with SAFE or its local branches, and (b) our PRC subsidiary may not procure loans which exceed the statutory amount as approved by the MOFCOM or its local branches. We may not complete such registrations on a timely basis, with respect to future capital contributions or foreign loans by us to our PRC subsidiary. If we fail to complete such registration, our ability to use part of the proceeds of this offering and to capitalize our PRC operations may be negatively affected, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

In 2008, SAFE promulgated the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises, or SAFE Circular 142. SAFE Circular 142 regulated the conversion by foreign-invested enterprises, or FIEs, of foreign currency into Renminbi by restricting the usage of converted Renminbi. SAFE Circular 142 provided that any Renminbi capital converted from registered capitals in foreign currency of FIEs might only be used for purposes within the business scopes approved by PRC governmental authority and such Renminbi capital might not be used for equity investments within China unless otherwise permitted by PRC law. In addition, the SAFE strengthened its oversight of the flow and use of Renminbi capital converted from registered capital in foreign currency of FIEs. The use of such Renminbi capital might not be changed without SAFE approval, and such Renminbi capital might not in any case be used to repay Renminbi loans if the proceeds of such loans had not been utilized. On July 4, 2014, SAFE issued the Circular of the SAFE on Relevant Issues Concerning the Pilot Reform in Certain Areas of the Administrative Method of the Conversion of Foreign Exchange Funds by Foreign-invested Enterprises, or SAFE Circular 36, which launched the pilot reform of administration regarding conversion of foreign currency registered capitals of FIEs in 16 pilot areas. According to SAFE Circular 36, some of the restrictions under SAFE Circular 142 would not apply to the settlement of the foreign exchange capitals of an ordinary FIE in the pilot areas, and such FIE was permitted to use Renminbi converted from its foreign-currency registered capital to make equity investments in the PRC within and in accordance with the authorized business scope of such FIEs, subject to certain registration and settlement procedure as set forth in SAFE Circular 36. On March 30, 2015, the SAFE promulgated the Circular on Reforming the Management Approach Regarding the Foreign Exchange Capital Settlement of Foreign-Invested Enterprises, or SAFE Circular 19. SAFE Circular 19 took effect as of June 1, 2015 and superseded SAFE Circular 36 and SAFE Circular 142 on the same date. SAFE Circular 19 launched a nationwide reform of the administration of the settlement of the foreign exchange capitals of FIEs and allows FIEs to settle their foreign exchange capital at their discretion, but continued to prohibit FIEs from using the Renminbi fund converted from their foreign exchange capitals for

(i) expenditure beyond their business scopes or prohibited by the laws and regulations of the state, (ii) directly or indirectly investing in securities unless otherwise provided by laws and regulations, (iii) providing entrusted loans in RMB (except where the business scope permits), repaying loans between non-financial enterprises (including advances from third parties) or repaying RMB loans from bank that have been transferred to third parties, (iv) paying the related expenses of purchasing real estate not for self-use except for foreign-invested real estate enterprises. Violations of these Circulars could result in severe monetary or other penalties. These restrictions were reiterated and replaced by SAFE Circular 16, the Circular on Policies for Reforming and Regulating the Control over Foreign Exchange Settlement under the Capital Account, which was promulgated and implemented by the SAFE on June 9, 2016. According to SAFE Circular 16, the foreign exchange receipts under the capital account of a domestic institution shall be used pursuant to the principle of authenticity and self-use within its business scope. The foreign exchange receipts under the capital account of a domestic institution and the Renminbi funds obtained from foreign exchange settlement may be used by the domestic institution for expenditures under the current account within its business scope or the expenditure under the capital account permitted by laws and regulations. Such receipts and funds of the domestic institutions shall not be used for the following purposes: (i) directly or indirectly used for payment beyond the business scope of the enterprises or the payment prohibited by relevant laws and regulations; (ii) directly or indirectly used for investment in securities or other investments than principal-secured products of banks unless otherwise provided by relevant laws and regulations; (iii) directly or indirectly used for granting the granting of loans to non-affiliated enterprises, with the exception that such granting is expressly permitted in the business license; and (iv) used for construction or purchase of real estate for purpose other than self-use (exception applies for real estate enterprises). Where there is any contractual agreement on the use scope of receipt under the capital account between a domestic institution and other parties involved, the domestic institution shall not use such receipts and funds beyond the scope.

SAFE Circular 19 and SAFE Circular 16 may significantly limit our ability to use Renminbi converted from part of the net proceeds of this offering to fund the establishment of new entities in China by our subsidiary, to invest in or acquire any other PRC companies through our PRC subsidiary, or to establish variable interest entities in the PRC, which may materially and adversely affect our business, financial condition and results of operations. In light of the various requirements imposed by PRC regulations on loans to and direct investment in PRC entities by offshore holding companies, we cannot assure you that we will be able to complete the necessary registration or obtain the necessary approval on a timely basis, or at all. If we fail to complete the necessary registration or obtain the necessary approval, our ability to make loans or equity contributions to our PRC subsidiary may be negatively affected, which could materially and adversely affect our PRC subsidiary's liquidity and its ability to fund its working capital and expansion projects and meet its obligations and commitments.

***Our business may be materially and adversely affected if any of our PRC subsidiaries declare bankruptcy or become subject to a dissolution or liquidation proceeding.***

The Enterprise Bankruptcy Law of the PRC, or the Bankruptcy Law, came into effect on June 1, 2007. The Bankruptcy Law provides that an enterprise will be liquidated if the enterprise fails to settle its debts as and when they fall due, but its assets are insufficient to clear such debts or it becomes demonstrably insolvent.

Our PRC subsidiary holds certain assets that are important to our business operations. If our PRC subsidiary undergoes a voluntary or involuntary liquidation proceeding, unrelated third-party creditors may claim rights to some or all of these assets, thereby hindering our ability to operate our business, which could materially and adversely affect our business, financial condition and results of operations.

According to SAFE's Notice on Further Improving and Adjusting Foreign Exchange Administration Policies for Direct Investment, effective on December 17, 2012, and the Provisions for Administration of Foreign Exchange Relating to Inbound Direct Investment by Foreign Investors, effective on May 13, 2013, if any of our PRC subsidiaries undergoes a liquidation proceeding, prior approval from SAFE for remittance of foreign exchange to our shareholders abroad is no longer required, but we still need to conduct a registration process with the SAFE local branch. It is not clear whether "registration" is a mere formality or involves the kind of substantive review process undertaken by SAFE and its relevant branches in the past.

***Fluctuations in exchange rates could adversely affect our business and the value of our securities.***

Changes in the value of the RMB against the U.S. dollar, Euro and other foreign currencies are affected by, among other things, changes in China's political and economic conditions. Any significant revaluation of the RMB may have a material adverse effect on our revenues and financial condition, and the value of, and any dividends payable on our shares in U.S. dollar terms. For example, to the extent that we need to convert U.S. dollars we receive

from our public offering into RMB for our operations, appreciation of the RMB against the U.S. dollar would have an adverse effect on RMB amount we would receive from the conversion. Conversely, if we decide to convert our RMB into U.S. dollars for the purpose of paying dividends on our Class A ordinary shares or for other business purposes, appreciation of the U.S. dollar against the RMB would have a negative effect on the U.S. dollar amount available to us. In addition, fluctuations of the RMB against other currencies may increase or decrease the cost of imports and exports, and thus affect the price-competitiveness of our products against products of foreign manufacturers or products relying on foreign inputs.

Since July 2005, the RMB is no longer pegged to the U.S. dollar. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the RMB may appreciate or depreciate significantly in value against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future PRC authorities may lift restrictions on fluctuations in the RMB exchange rate and lessen intervention in the foreign exchange market.

***Restrictions on currency exchange may limit our ability to utilize our revenues effectively.***

Some of our cash are denominated in Renminbi. The Renminbi is currently convertible under the “current account,” which includes dividends, trade and service-related foreign exchange transactions, but not under the “capital account,” which includes foreign direct investment and loans, including loans we may secure from our PRC subsidiaries. Currently, our Shanghai subsidiary may purchase foreign currency for settlement of “current account transactions,” including payment of dividends to us, without the approval of SAFE by complying with certain procedural requirements. However, the relevant PRC governmental authorities may limit or eliminate our ability to purchase foreign currencies in the future for current account transactions. As we have some operations in PRC, we expect a portion of our cash will be denominated in Renminbi, any existing and future restrictions on currency exchange may limit our ability to utilize our Renminbi to fund our business activities outside of the PRC or pay dividends in foreign currencies to our shareholders. Foreign exchange transactions under the capital account remain subject to limitations and require approvals from, or registration with, SAFE and other relevant PRC governmental authorities. This could affect our ability to obtain foreign currency through debt or equity financing for our subsidiary.

***Dividends paid to our foreign investors and gains on the sale of the Class A Ordinary Shares by our foreign investors may become subject to PRC tax.***

Under the Enterprise Income Tax Law and its implementation regulations issued by the State Council, a 10% PRC withholding tax is applicable to dividends paid to investors that are non-resident enterprises, which do not have an establishment or place of business in the PRC or which have such establishment or place of business but the dividends are not effectively connected with such establishment or place of business, to the extent such dividends are derived from sources within the PRC. Any gain realized on the transfer of Class A Ordinary Shares by such investors is also subject to PRC tax at a current rate of 10%, if such gain is regarded as income derived from sources within the PRC. If we are deemed a PRC resident enterprise, dividends paid on our Class A Ordinary Shares, and any gain realized from the transfer of our Class A Ordinary Shares, would be treated as income derived from sources within the PRC and would as a result be subject to PRC taxation. Furthermore, if we are deemed a PRC resident enterprise, dividends paid to individual investors who are non-PRC residents and any gain realized on the transfer of Class A Ordinary Shares by such investors may be subject to PRC tax (which in the case of dividends may be withheld at source) at a rate of 20%. Any PRC tax liability may be reduced by an applicable tax treaty. However, if we or our subsidiary established outside China are considered a PRC resident enterprise, it is unclear whether holders of the Class A Ordinary Shares would be able to claim the benefit of income tax treaties or agreements entered into between China and other countries or areas. If dividends paid to our non-PRC investors, or gains from the transfer of the Class A Ordinary Shares by such investors, are deemed as income derived from sources within the PRC and thus are subject to PRC tax, the value of your investment in the Class A Ordinary Shares may decline significantly.

***We are a holding company and we rely on our subsidiaries for funding dividend payments, which are subject to restrictions under PRC laws.***

We are a holding company incorporated in the Cayman Islands, and we operate our core businesses through our subsidiaries in the PRC and Hong Kong. Therefore, the availability of funds for us to pay dividends to our shareholders and to service our indebtedness depends upon dividends received from our subsidiaries. If our subsidiaries incur debt or losses, their ability to pay dividends or other distributions to us may be impaired. As a result, our ability to pay

dividends and to repay our indebtedness will be restricted. Our PRC subsidiaries are required to set aside at least 10% of its accumulated after-tax profits each year, if any, to fund a certain statutory reserve fund, until the aggregate amount of such fund reaches 50% of its registered capital. Such reserve funds cannot be distributed to us as dividends. In addition, restrictive covenants in bank credit facilities or other agreements that we or our Affiliated Entities may enter into in the future may also restrict the ability of our Affiliated Entities to pay dividends to us. These restrictions on the availability of our funding may impact our ability to pay dividends to our shareholders and to service our indebtedness.

***Increases in labor costs in the PRC may adversely affect our business and results of operations.***

The currently effective PRC Labor Contract Law, or the Labor Contract Law, was first adopted on June 29, 2007 and later amended on December 28, 2012. The PRC Labor Contract Law has reinforced the protection of employees who, under the Labor Contract Law, have the right, among others, to have written employment contracts, to enter into employment contracts with no fixed term under certain circumstances, to receive overtime wages and to terminate or alter terms in labor contracts. Furthermore, the Labor Contract Law sets forth additional restrictions and increases the costs involved with dismissing employees. To the extent that we need to significantly reduce our workforce, the Labor Contract Law could adversely affect our ability to do so in a timely and cost-effective manner, and our results of operations could be adversely affected. In addition, for employees whose employment contracts include noncompetition terms, the Labor Contract Law requires us to pay monthly compensation after such employment is terminated, which will increase our operating expenses.

We expect that our labor costs, including wages and employee benefits, will continue to increase. Unless we are able to pass on these increased labor costs to our buyers by increasing the prices of our products and services, our financial condition and results of operations would be materially and adversely affected.

***We are a Cayman Islands corporation and all of our business is conducted in the PRC. Moreover, all of our directors and officers are located outside of the United States and except for Mr. Matthew Gene Mouw, are all nationals or residents of jurisdictions other than the United States, and all or a substantial portion of their assets are located outside of the United States. As a result, you may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. Federal or state courts may be limited.***

We are a company incorporated under the laws of the Cayman Islands, we conduct most of our operations in China, and most of our assets are located in China. All of our directors and officers are located outside of the United States and except for Mr. Matthew Gene Mouw, are all nationals or residents of jurisdictions other than the United States, and all or a substantial portion of their assets are located outside of the United States. Ms. Norma Ka Yin Chu, our Chief Executive Officer and Chairwoman, Ms. Katherine Shuk Kwan Lui, our Chief Financial Officer and director, and Mr. Chia Hung Yang, our independent director, are permanent residents of Hong Kong; and Samuel Chun Kong Shih, our independent director, is a permanent resident of Canada.

As a result, it may be difficult for investors to effect service of process within the United States upon us or these persons in the Cayman Islands or in China, or to enforce judgments obtained in U.S. courts against us or them, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States. A judgment of a United States court for civil liabilities predicated upon the federal securities laws of the United States may not be enforceable in or recognized by the courts of the jurisdictions where our directors and officers reside, and the judicial recognition process may be time-consuming. It may be difficult for you to enforce judgments obtained in U.S. courts based on the civil liability provisions of the U.S. federal securities laws against us and our officers and directors.

In addition, China does not have treaties providing for the reciprocal recognition and enforcement of judgments of courts with the Cayman Islands and many other countries and regions. Therefore, recognition and enforcement in China of judgments of a court in any of these non-PRC jurisdictions in relation to any matter not subject to a binding arbitration provision may be difficult or impossible.

Shareholder claims that are common in the United States, including securities law class actions and fraud claims, generally are difficult to pursue as a matter of law or practicality in China. For example, in China, there are significant legal and other obstacles to obtaining information needed for shareholder investigations or litigation outside China or otherwise with respect to foreign entities. Although the local authorities in China may establish a regulatory cooperation mechanism with the securities regulatory authorities of another country or region to implement cross-border supervision and administration, such regulatory cooperation with the securities regulatory authorities in

the United States has not been efficient in the absence of mutual and practical cooperation mechanism. According to Article 177 of the PRC Securities Law which became effective in March 2020, no overseas securities regulator is allowed to directly conduct investigation or evidence collection activities within the territory of the PRC.

In addition, our corporate affairs are governed by our amended and restated memorandum and articles of association, the Companies Act (Revised) and the common law of the Cayman Islands. The rights of shareholders to take action against the directors, actions by minority shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, the decisions of whose courts are of persuasive authority, but are not binding on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are different from statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a different body of securities laws as compared to the United States. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action in a Federal court of the United States.

The Cayman Islands are unlikely (i) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, and or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a United States company.

***Given the rapidly expanding nature of the COVID-19 pandemic, and because most of our business operations and our workforce are concentrated in China, we believe there is a risk that our business, results of operations, and financial condition will be adversely affected.***

Recently, there is an ongoing outbreak of a novel strain of coronavirus (COVID-19) first identified in China and has since spread rapidly globally. The pandemic has resulted in quarantines, travel restrictions, and the temporary closure of stores and business facilities globally for the past year. In March 2020, the World Health Organization declared the COVID-19 to be a pandemic. Given the rapidly expanding nature of the COVID-19 pandemic, and because substantially all of our business operations and our workforce are concentrated in China, we believe there is a risk that our business, results of operations, and financial condition will be adversely affected. Potential impact to our results of operations will also depend on future developments and new information that may emerge regarding the duration and severity of the COVID-19 and the actions taken by government authorities and other entities to contain the COVID-19 or mitigate its impact, almost all of which are beyond our control.

The outbreak of COVID-19 has had certain negative impact on the overall economy of the regions where we deliver our products or services. Due to the prolonged closure of our offline retail locations which impacted sales volume for our experience store, fresh products and our advertising services. We have taken various measures to mitigate the COVID-19 risk to our business, including, from a supply-chain standpoint, we have taken proactive steps to move away from single-sourcing to a network of diverse, alternative, pre-qualified suppliers of finished goods.

As of June 2023, we had 20 supply chain partners and 13 active and reserve suppliers responsible for distributing and producing our products to customers. While the short, medium-to-longer term impact of COVID-19 remains unclear, we expect that our business operations and results of operations including revenue, earnings, and cash-flows will not be unduly impacted in the remainder of 2023. To date, there has been no material impact to our liquidity position and we have not had to raise additional capital, reduce our capital expenditures, or modify any terms or contractual arrangements in response to COVID-19.

In December 2022, the Chinese government announced that it will be downgrading its management of COVID-19 as of January 8, 2023, rolling back some of its stringent anti-COVID-19 restrictions. Those who are infected with mild symptoms and close contacts are now allowed to quarantine at home. Since December 2022, China has been facing a rapid surge in COVID-19 cases. Due to the evolving and uncertain nature of this event, we cannot predict at this time the full extent to which the COVID-19 pandemic and the COVID-19 prevention policy implemented by the Chinese government will adversely impact our business, results, and financial condition. We are staying in close communication with our employees, dealers and suppliers, and acting to mitigate the impact of this dynamic and evolving situation, but there is no guarantee we will be able to do so.

***Risks related to required contributions to various employee benefit plans and individual income tax withholdings on employees' salaries as required by PRC regulations.***

Companies operating in China are required to participate in various government-mandated employee benefit contribution plans, including certain social insurance, housing funds and other welfare-oriented payment obligations, and contribute to the plans in amounts equal to certain percentages of salaries, including bonuses and allowances, of our employees up to a maximum amount specified by the local government from time to time at locations where we operate our businesses. Companies operating in China are also required to withhold individual income tax on employees' salaries based on the actual salary of each employee upon payment. We may be subject to late fees and fines in relation to the underpaid employee benefits and under-withheld individual income tax, our financial condition and results of operations may be adversely affected.

***Our legal rights to lease certain properties could be challenged, which could prevent us from continuing to use these leased properties or increase the costs for relocating our business premises.***

We leased our business premises from third parties who either own the properties or lease the properties from the ultimate property owner. Some of our lessors were unable to provide us with copies of title certificates or documents evidencing the authorization or consent of the owners of such properties. Where the lessors do not have the proper legal right to lease the properties, the corresponding lease agreements may be deemed invalid. Furthermore, some properties may not be designated for commercial use. If we are not adequately indemnified by the lessors for our related losses, our business may be adversely affected. Some of the properties we lease from the third parties have been mortgaged by the owners prior to leasing to us. We may not be able to continue using such properties if the mortgage is foreclosed. In addition, under the PRC law, failure to register a lease agreement with the local housing bureau may result in the risk that we may not be able to continue to occupy the relevant properties if the lease is challenged by third parties. Our lease agreements generally require the lessor to make such registrations, however, as of the date of this Prospectus, the lease agreements relating to certain of our business premises had not been duly registered by the relevant lessors. Accordingly, if these lessors do not have the appropriate titles to the properties or necessary approvals from the ultimate owners or fail to make the requisite registrations, or if the mortgage over the leased properties is foreclosed, we may be unable to continue to operate the affected properties or incur additional costs for relocating our business premises.

***The recent enactment of the Holding Foreign Companies Accountable Act may result in de-listing of our securities.***

Over the past decade, U.S. SEC and PCAOB and the Chinese counterparts, namely, the China Securities Regulatory Commission, or the CSRC, and PRC Ministry of Finance have been in an impasse over the ability of the PCAOB to have access to the audit work papers and inspect the audit work of China based accounting firms, including our auditor. In May 2013, the PCAOB entered into a Memorandum of Understanding on Enforcement Cooperation (the "MOU") with the CSRC, and the PRC Ministry of Finance, which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to investigations undertaken by the PCAOB, the CSRC or the PRC Ministry of Finance in the United States and the PRC, respectively. Despite the MOU, on December 7, 2018, the SEC and the PCAOB issued a joint statement highlighting continued challenges faced by the

U.S. regulators in their oversight of financial statement audits of U.S.-listed companies with significant operations in China. On April 21, 2020, the SEC and the PCAOB reiterated in another joint statement the greater risk associated with the PCAOB's inability to inspect audit work paper and practices of accounting firms in China, with respect to their audit work of U.S. reporting companies.

As part of a continued regulatory focus in the United States on access to audit and other information currently protected by laws in China, on December 2, 2020, U.S. Congress passed S. 945, the Holding Foreign Companies Accountable Act. The HFCAA has been signed by the President into law. Pursuant to the HFCAA, the SEC is required to propose rules to prohibit the securities of any registrant from being listed on any of the U.S. securities exchanges or traded "over the counter" if the PCAOB is unable to inspect the work of the accounting firm for three consecutive years. On March 24, 2021, the SEC issued amendments to Form 20 and sought public comment in response to the HFCAA. Consistent with the HFCAA, these amendments require the submission of documentation to the SEC establishing that a "commission-identified registrant" (as defined in the amendments) is not owned or controlled by a governmental entity in that foreign jurisdiction and also require disclosure in a foreign issuer's annual report regarding the audit arrangements of, and governmental influence on, such registrant. We will be required to comply with these rules if the SEC identifies us as having a 'non-inspection' year under a process to be subsequently established by the SEC.

On December 23, 2022, the Accelerating Holding Foreign Companies Accountable Act, was signed into law, which reduced the number of consecutive non-inspection years required for triggering the prohibitions under the HFCAA from three years to two years, thus reducing the time period before which our securities may be prohibited from trading or delisted. The enactment of the HFCAA and other efforts to increase U.S. regulatory access to audit work papers could cause investor uncertainty for affected issuers, including us, and the market price of the share could be adversely affected as uncertainty remains over whether there will be a compromise solution. In the worst case, our Class A ordinary shares could be delisted if we were unable to cure the situation to meet the PCAOB inspection requirement in time.

On December 2, 2021, the SEC adopted final rules implementing the HFCAA. On a rolling basis, the SEC will identify issuers with auditors that the PCAOB is unable to inspect or investigate completely because of non-US governmental restrictions. If an issuer is identified for three consecutive years, the SEC will publish an order prohibiting the trading of the issuer's securities on a U.S. stock exchange and the U.S. over-the-counter market. If, after completion of this offering, the SEC identifies us for three consecutive years as an issuer with auditors that the PCAOB is unable to inspect or investigate completely because of non-US governmental restrictions, under the HFCAA, our securities may be prohibited from being traded on a national securities exchange or in the over-the-counter trading market in the United States. Pursuant to the HFCAA, the PCAOB issued a Determination Report on December 16, 2021, which found that the PCAOB is unable to inspect or investigate completely registered public accounting firms headquartered in mainland China or Hong Kong, a Special Administrative Region of the PRC, because of a position taken by one or more authorities in the PRC or Hong Kong. In addition, the PCAOB's report identified the specific registered public accounting firms which are subject to these determinations. Our registered public accounting firm, KPMG Huazhen LLP, is headquartered in mainland China or Hong Kong and was identified in this report as a firm subject to the PCAOB's determination.

On Aug. 26, 2022, the PCAOB signed a Statement of Protocol with the CSRC and the Ministry of Finance of the PRC governing inspections and investigations of audit firms based in China and Hong Kong, and stated the cooperation will be launched soon. The Statement scheduled several important issues including the purpose, scope and form of the cooperation, use of information and specific data protection during the cooperation, etc. In particular, Chinese authorities have committed to four critical items: First, in accordance with the Sarbanes-Oxley Act, the PCAOB has independent discretion to select any issuer audits for inspection or investigation; Second, the PCAOB gets direct access to interview or take testimony from all personnel of the audit firms whose issuer engagements are being inspected or investigated; Third, the PCAOB has the unfettered ability to transfer information to the SEC, in accordance with the Sarbanes-Oxley Act; and Fourth, PCAOB inspectors can see complete audit work papers without any redactions. On the last item, the PCAOB was able to establish view only procedures — as it has done in the past with certain other jurisdictions — for targeted pieces of information (for example, personally identifiable information). As uncertainties remain regarding the details of the cooperation and the implementation by the authorities of the two sides, the risks we faced regarding the de-listing of our securities because of non-compliance to the laws and regulations adopted by the US authorities will still exist.

On December 15, 2022, the PCAOB Board determined that the PCAOB was able to secure complete access to inspect and investigate registered public accounting firms headquartered in mainland China and Hong Kong and voted to vacate its previous determinations to the contrary. However, whether the PCAOB will continue to be able to satisfactorily conduct inspections of PCAOB-registered public accounting firms headquartered in mainland China and Hong Kong is subject to uncertainties and depends on a number of factors out of our and our auditor's control. The PCAOB continues to demand complete access in mainland China and Hong Kong moving forward and is making plans to resume regular inspections in early 2023 and beyond, as well as to continue pursuing ongoing investigations and initiate new investigations as needed. The PCAOB has also indicated that it will act immediately to consider the need to issue new determinations with the HFCAA if needed. If the PCAOB is unable to inspect and investigate completely registered public accounting firms located in China and we fail to retain another registered public accounting firm that the PCAOB is able to inspect and investigate completely in 2023 and beyond, or if we otherwise fail to meet the PCAOB's requirements, our Class A ordinary Shares will be delisted from the NYSE Group and will not be permitted for trading over the counter in the United States under the HFCAA and related regulations.

Our ability to retain an auditor subject to the PCAOB inspection and investigation, including but not limited to inspection of the audit working papers related to our operations, may depend on the relevant positions of U.S. and Chinese regulators. Our auditor's audit working papers related to our operations are located in China. With respect to audits of companies with operations in China, there are uncertainties about the ability of its auditor to fully cooperate with a request by the PCAOB for audit working papers in China without the approval of Chinese authorities. If the PCAOB is unable to inspect or investigate completely our auditor because of a position taken by an authority in a foreign jurisdiction, or the PCAOB re-evaluates its determination as a result of any obstruction with the implementation of the Statement of Protocol, then such lack of inspection or re-evaluation could cause trading in the Company's securities to be prohibited under the HFCAA, and ultimately result in a determination by a securities exchange to delist our securities. Accordingly, the HFCAA calls for additional and more stringent criteria to be applied to emerging market companies upon assessing the qualification of their auditors, especially the non-U.S. auditors who are not inspected by the PCAOB. These developments could add uncertainties to our offering.

If in the future the PCAOB is unable to conduct full inspections of auditors in China, it will become more difficult to evaluate the effectiveness of our auditors' audit procedures and quality control procedures as compared to auditors who primarily work in jurisdictions where the PCAOB has full inspection access. As a result, investors may be deprived of the benefits of PCAOB inspections. In addition, the SEC may initiate proceedings against our independent registered public accounting firm, which could result in the imposition of penalties against such accounting firm, such as suspension of its ability to practice before the SEC. If we are required to engage a new audit firm, we may incur significant expense and management time. All of these could cause our investors and potential investors in our securities to lose confidence in our audit procedures, reported financial information and the quality of our financial statements. The market price of our Class A ordinary shares could be adversely affected. Further, if the PCAOB determines that it cannot inspect or investigate completely independent registered public accounting firm for a period of two consecutive years, trading in our securities may be prohibited under the HFCAA and an exchange may determine to delist our securities. The delisting of our securities, or the threat of such securities being delisted, may materially and adversely affect the value of your investment.

In addition, on August 6, 2020, the President's Working Group on Financial Markets, or PWG, released a report recommending that the SEC take steps to implement the five recommendations, including enhanced listing standards on U.S. stock exchanges with respect to PCAOB inspection of accounting firms. This would require, as a condition to initial and continued listing on a U.S. stock exchange, PCAOB access to work papers of the principal audit firm for the audit of the listed company. The report permits the new listing standards to provide for a transition period until January 1, 2022 for listed companies, but would apply immediately to new listings once the necessary rulemakings and/or standard-setting are effective. It is unclear if and when the SEC will make rules to implement the recommendations proposed in the PWG report, especially in light of its ongoing rulemaking pursuant to the HFCAA. Any of these factors and developments could potentially lead to a material adverse effect on our business, prospects, financial condition and results of operations.

Proceedings instituted by the SEC against Chinese affiliates of the "big four" accounting firms, including our independent registered public accounting firm, could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act. In December 2012, the SEC instituted administrative proceedings against the "big four" PRC-based accounting firms, including our independent registered public

accounting firm, alleging that these firms had violated U.S. securities laws and the SEC's rules and regulations thereunder by failing to provide to the SEC the firms' audit work papers with respect to certain PRC-based companies that are publicly traded in the United States. On January 22, 2014, the administrative law judge, or the ALJ, presiding over the matter rendered an initial decision that each of the firms had violated the SEC's rules of practice by failing to produce audit papers and other documents to the SEC. The initial decision censured each of the firms and barred them from practicing before the SEC for a period of six months. On February 6, 2015, the four China-based accounting firms each agreed to a censure and to pay a fine to the SEC to settle the dispute and avoid suspension of their ability to practice before the SEC and audit U.S.-listed companies. The settlement required the firms to follow detailed procedures and to seek to provide the SEC with access to Chinese firms' audit documents via the CSRC. Under the terms of the settlement, the underlying proceeding against the four China-based accounting firms was deemed dismissed with prejudice four years after entry of the settlement. The four-year mark occurred on February 6, 2019.

While we cannot predict if the SEC will further challenge the four China-based accounting firms' compliance with U.S. law in connection with U.S. regulatory requests for audit work papers or if the results of such a challenge would result in the SEC imposing penalties such as suspensions, if the accounting firms are subject to additional remedial measures, our ability to file our financial statements in compliance with SEC requirements could be impacted. A determination that we have not timely filed financial statements in compliance with the SEC requirements could ultimately lead to the delisting of our securities from the NYSE Group or the termination of the registration of our securities under the Securities Exchange Act of 1934, or both, which would substantially reduce or effectively terminate the trading of our in the United States.

### **Risks Related to Our Securities**

***There has been no prior public market for our Ordinary Shares and an active trading market may never develop or be sustained.***

Prior to this offering, there has been no public market for our Ordinary Shares, including our Class A Ordinary Shares. An active trading market for our Class A Ordinary Shares may never develop following completion of this offering or, if developed, may not be sustained. The lack of an active trading market may impair the value of your shares and your ability to sell your shares at the time you wish to sell them. An inactive trading market may also impair our ability to raise capital by selling our Class A Ordinary Shares and entering into strategic partnerships or acquiring other complementary products, technologies or businesses by using our Class A Ordinary Shares as consideration. In addition, if we fail to satisfy exchange listing standards, we could be delisted, which would have a negative effect on the price of our securities.

We expect that the price of our Class A Ordinary Shares will fluctuate substantially and you may not be able to sell the shares you purchase in this offering at or above the initial public offering price.

The initial public offering price for our Class A Ordinary Shares sold in this offering is determined by negotiation between the representative of the underwriters and us. This price may not reflect the market price of our Class A Ordinary Shares following this offering. In addition, the market price of our Class A Ordinary Shares is likely to be highly volatile and may fluctuate substantially due to many factors, including:

- the volume and timing of sales of our products;
- the introduction of new products or product enhancements by us or others in our industry;
- disputes or other developments with respect to our or others' intellectual property rights;
- our ability to develop, obtain regulatory clearance or approval for, and market new and enhanced products on a timely basis;
- product liability claims or other litigation;
- quarterly variations in our results of operations or those of others in our industry;
- media exposure of our products or of those of others in our industry;

## [Table of Contents](#)

- changes in governmental regulations;
- changes in earnings estimates or recommendations by securities analysts; and
- general market conditions and other factors, including factors unrelated to our operating performance or the operating performance of our competitors

In recent years, the stock markets generally have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. Broad market and industry factors may significantly affect the market price of our Class A Ordinary Shares, regardless of our actual operating performance. These fluctuations may be even more pronounced in the trading market for our Class A Ordinary Shares shortly following this offering. If the market price of our Class A Ordinary Shares after this offering does not ever exceed the initial public offering price, you may not realize any return on your investment in us and may lose some or all of your investment.

In addition, in the past, class action litigation has often been instituted against companies whose securities have experienced periods of volatility in market price. Securities litigation brought against us following volatility in our stock price, regardless of the merit or ultimate results of such litigation, could result in substantial costs, which would hurt our financial condition and operating results and divert management's attention and resources from our business.

***Our dual-class share structure with different voting rights will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A Ordinary Shares may view as beneficial.***

We will adopt a dual-class share structure such that our ordinary shares will consist of Class A Ordinary Shares and Class B Ordinary Shares effective immediately prior to the completion of this offering. In respect of matters requiring the votes of shareholders, each Class A Ordinary Share is entitled to one vote and each Class B Ordinary Share is entitled to ten votes. Under our Articles, Class B Ordinary Shares are not convertible into Class A Ordinary Shares. Class A Ordinary Shares are not convertible into Class B Ordinary Shares. Only Class A Ordinary Shares are tradable on the market immediately after consummation of this offering.

After this offering, the holder of Class B ordinary shares will have the ability to control matters requiring shareholders' approval, including any amendment of our memorandum and articles of association. Any future issuances of Class B ordinary shares may be dilutive to the voting power of holders of Class A ordinary shares. As a result of the dual-class share structure and the concentration of ownership, the holder of the Class B ordinary shares has and will continue to have considerable influence over matters such as decisions regarding mergers and consolidations, election of directors and other significant corporate actions. The holder may take actions that are not in the best interest of us or our other shareholders. This concentration of ownership may discourage, delay or prevent a change in control of our company, which could have the effect of depriving our other shareholders of the opportunity to receive a premium for their shares as part of a sale of our company and may reduce the price of our Class A Ordinary Shares. This concentrated control will limit your ability to influence corporate matters and could discourage others from pursuing any potential merger, takeover or other change of control transactions that holders of Class A Ordinary Shares may view as beneficial.

***Our share is expected to initially trade under \$5.00 per Class A Ordinary Share and thus could be known as a penny stock, subject to certain exceptions. Trading in penny stocks has certain restrictions and these restrictions could negatively affect the price and liquidity of our Class A Ordinary Shares.***

Our stock is expected to initially trade below \$5.00 per share. As a result, our stock could be known as a "penny stock", subject to certain exceptions, which is subject to various regulations involving disclosures to be given to you prior to the purchase of any penny stock. The SEC has adopted regulations which generally define a "penny stock" to be any equity security that has a market price of less than \$5.00 per share, subject to certain exceptions. Depending on market fluctuations, our Class A Ordinary Shares could be considered to be a "penny stock", subject to certain exceptions. A penny stock is subject to rules that impose additional sales practice requirements on broker/dealers who sell these securities to persons other than established members and accredited investors. For transactions covered by these rules, the broker/dealer must make a special suitability determination for the purchase of these securities. In addition, a broker/dealer must receive the purchaser's written consent to the transaction prior to the purchase and must also provide certain written disclosures to the purchaser. Consequently,

[Table of Contents](#)

the “penny stock” rules may restrict the ability of broker/dealers to sell our Class A Ordinary Shares, and may negatively affect the ability of holders of shares of our Class A Ordinary Shares to resell them, if the “penny stock” rules apply. These disclosures require you to acknowledge that you understand the risks associated with buying penny stocks and that you can absorb the loss of your entire investment. Penny stocks generally do not have a very high trading volume. Consequently, the price of the stock is often volatile and you may not be able to buy or sell the stock when you want to.

***Our share price may be volatile and may fluctuate.***

The factors below may also have a material adverse effect on the market price of our Class A Ordinary Shares:

- fluctuations in our results of operations;
- our ability to enter new markets;
- negative publicity;
- changes in securities or industry analyst recommendations regarding our company, the sectors in which we operate, the securities market generally and conditions in the financial markets;
- regulatory developments affecting our industry;
- announcements of studies and reports relating to our products or those of our competitors;
- changes in economic performance or market valuations of our competitors;
- actual or anticipated fluctuations in our quarterly results;
- conditions in the industries in which we operate;
- announcements by us or our competitors of new products, acquisitions, strategic relations, joint ventures or capital commitments;
- additions to or departures of our key executives and employees;
- fluctuations of exchange rates;
- release or expiry of lock-up or other transfer restrictions on our outstanding Class A Ordinary Shares; and
- sales or perceived sales of additional shares of our Class A Ordinary Shares.

In addition, in the past, when the market price of a stock has been volatile, holders of that stock have instituted securities class action litigation against the issuer that issued the stock. If any of our shareholders brought a lawsuit against us, we could incur substantial costs defending the lawsuit and divert the time and attention of our management, which could seriously harm our business.

***We intend to grant employee share options and other share-based awards in the future. We will recognize any share-based compensation expenses in our consolidated statements of comprehensive loss. Any additional grant of employee share options and other share-based awards in the future may have a material adverse effect on our results of operation.***

In connection with this offering, we intend to adopt an employee share option plan in 2023, or the 2023 ESOP, for the purpose of granting share-based compensation awards to our employees, directors and consultants to incentivize their performance and align their interests with ours. Options may be granted under the 2023 ESOP for up to such number of Class A Ordinary Shares as is equal to the sum of (a) 1,000,000 Class A Ordinary Shares; and (b) commencing on January 1, 2024, an annual increase, to be added on January 1 of each year, of up to 10% of the Company’s issued and outstanding Class A Ordinary Shares as of December 31 of the prior year; provided that the total number of Class A Ordinary Shares which may be issued upon exercise of all options to be granted to all participants under the 2023 ESOP and any other employee share option plan shall not in aggregate exceed 15% of the Company’s issued and outstanding Class A Ordinary Shares. As of the date of this prospectus, no options to purchase Class A ordinary shares have been granted or exercised and no Class A ordinary shares have been issued upon exercised vested options, in each case under the 2023 ESOP. As a result of these grants and potential future grants, we expect to continue to incur significant share-based compensation expenses in the future. The amount of these expenses is based on the fair value of the share-based awards. We account

for compensation costs for all share options using a fair-value based method and recognize expenses in our consolidated statements of profit or loss and other comprehensive income. The expenses associated with share-based compensation will decrease our profitability, perhaps materially, and the additional securities issued under share-based compensation plans will dilute the ownership interests of our shareholders. However, if we limit the scope of our share-based compensation plan, we may not be able to attract or retain key personnel who expect to be compensated by options.

***If we fail to meet applicable listing requirements, the NYSE Group may delist our Class A Ordinary Shares from trading, in which case the liquidity and market price of our Class A Ordinary Shares could decline.***

Assuming our Class A Ordinary Shares are listed on the NYSE Group, we cannot assure you that we will be able to meet the continued listing standards of NYSE in the future. If we fail to comply with the applicable listing standards and NYSE delists our Class A Ordinary Shares, we and our shareholders could face significant material adverse consequences, including:

- a limited availability of market quotations for our Class A Ordinary Shares;
- reduced liquidity for our Class A Ordinary Shares;
- a determination that our Class A Ordinary Shares are “penny stock”, which would require brokers trading in our Class A Ordinary Shares to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our Class A Ordinary Shares;
- a limited amount of news about us and analyst coverage of us; and
- a decreased ability for us to issue additional equity securities or obtain additional equity or debt financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as “covered securities.” Because we expect that our Class A Ordinary Shares will be listed on the NYSE Group, such securities will be covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. Further, if we were no longer listed on the NYSE Group, our securities would not be covered securities and we would be subject to regulations in each state in which we offer our securities.

***We have identified one material weakness in our internal control over financial reporting. If we are unable to remediate the material weakness, or if our remediation of the material weakness is not effective, or if we experience additional material weaknesses in the future or otherwise fail to maintain proper and effective internal control over financial reporting, our ability to produce accurate and timely consolidated financial statements could be impaired, investors may lose confidence in our financial reporting and the trading price of our Class A ordinary shares may decline.***

Pursuant to Section 404 of Sarbanes-Oxley Act of 2002, our management will be required to report upon the effectiveness of our internal control over financial reporting beginning with the annual report for our fiscal year ending December 31, 2024. When we lose our status as an “emerging growth company” and reach an accelerated filer threshold, our independent registered public accounting firm will be required to attest to the effectiveness of our internal control over financial reporting. The rules governing the standards that must be met for management to assess our internal control over financial reporting are complex and require significant documentation, testing and possible remediation. To comply with the requirements of being a reporting company under the Exchange Act, we will need to upgrade our information technology systems, implement additional financial and management controls, reporting systems and procedures and hire additional accounting and finance staff. If we or, if required, our auditor is unable to conclude that our internal control over financial reporting is effective, investors may lose confidence in our financial reporting and the trading price of our Class A ordinary shares may decline.

We and our independent registered public accounting firm identified one material weakness in our internal control over financial reporting as of December 31, 2022. The material weakness identified is our lack of sufficient accounting personnel with appropriate U.S. GAAP knowledge to prepare financial statements in accordance with U.S. GAAP and SEC reporting requirements. Neither we nor our independent registered public accounting firm undertook a comprehensive assessment of our internal control under the Sarbanes-Oxley Act of 2002 for purposes of identifying and reporting any weakness in our internal control over financial reporting. Had we performed a formal assessment of

our internal control over financial reporting or had our independent registered public accounting firm performed an audit of our internal control over financial reporting, additional material weaknesses or control deficiencies may have been identified.

We are working to remediate the material weakness and are taking steps to strengthen our internal control over financial reporting through the development and implementation of processes and controls over the financial reporting process. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Internal Control Over Financial Reporting.” However, we cannot assure you that these measures will significantly improve or remediate the material weakness described above.

We cannot assure you that there will not be additional material weaknesses or any significant deficiencies in our internal control over financial reporting in the future. Any failure to maintain internal control over financial reporting could severely inhibit our ability to accurately report our financial condition, results of operations or cash flows. If we are unable to conclude that our internal control over financial reporting is effective, or if our independent registered public accounting firm determines we have a material weakness or significant deficiency in our internal control over financial reporting once that firm begins its reviews under Section 404 of the Sarbanes-Oxley Act of 2002, investors may lose confidence in the accuracy and completeness of our financial reports, the market price of our Class A ordinary shares could decline, and we could be subject to sanctions or investigations by the NYSE, the SEC or other regulatory authorities. Failure to remedy any material weakness in our internal control over financial reporting, or to implement or maintain other effective control systems required of public companies, could also restrict our future access to the capital markets.

***We face the potential risk of violating rules of the SEC relating to pre-IPO publicity. Non-compliance with these rules could lead to regulatory scrutiny, delays in the process of this offering, legal liabilities and fines.***

On June 21, 2023, we published a news update (the “News Update”) to announce that the Company has publicly filed with the SEC a registration statement in relation to this offering. Subsequently, upon careful analysis of Rule 134 of the Securities Act, the Company acknowledges that the News Update did not contain, as required by Rule 134, a legend that states the communication is not an offer to sell or a solicitation of an offer to buy securities, as well as additional information about where to copies of the registration statement and the preliminary prospectus included therein. This oversight resulted in potential non-compliance with the requirements of Rule 134. In this particular instance, the Company did not consult with its legal advisor prior to publishing the News Update. However, the Company recognizes the significance of seeking legal guidance in such matters and ensuring that all necessary precautions are taken to comply with SEC regulations. Rule 134 is designed to ensure investors have accurate and complete information. The Company has taken immediate steps to review and enhance its internal processes to ensure that any future public disclosures, including press releases, are in full compliance with SEC requirements. However, any future non-compliance with SEC rules in relation to publicity could lead to regulatory scrutiny, delays in the process of this offering, legal liabilities and fines.

***We do not intend to pay cash dividends on our Ordinary Shares in the foreseeable future.***

We have never paid dividends on Ordinary Shares and do not currently anticipate paying any cash dividends on our Ordinary Shares in the foreseeable future. Under Cayman Islands law, any payment of dividends would be subject to relevant legislation and our articles of association, which provide that all dividends must be approved by our board of directors and, in some cases, our shareholders, and may only be paid from our distributable profits available for the purpose, determined on an unconsolidated basis.

***We are an emerging growth company within the meaning of the Securities Act and may take advantage of certain reduced reporting requirements.***

We are an “emerging growth company,” as defined in the JOBS Act, and we may take advantage of certain exemptions from requirements applicable to other public companies that are not emerging growth companies, including, most significantly, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 for so long as we remain an emerging growth company. As a result, if we elect not to comply with such auditor attestation requirements, our investors may not have access to certain information they may deem important.

The JOBS Act also provides that an emerging growth company does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards. We do not plan to “opt out” of such exemptions afforded to an emerging growth company. As a result of this election, our financial statements may not be comparable to those of companies that comply with public company effective dates.

***We qualify as a foreign private issuer and, as a result, we will not be subject to U.S. proxy rules and will be subject to Exchange Act reporting obligations that permit less detailed and less frequent reporting than that of a U.S. domestic public company.***

Upon the closing of this offering, we will report under the Exchange Act as a non-U.S. company with foreign private issuer status. Because we qualify as a foreign private issuer under the Exchange Act, we are exempt from certain provisions of the Exchange Act that are applicable to U.S. domestic public companies, including (i) the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act; (ii) the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and liability for insiders who profit from trades made in a short period of time; and (iii) the rules under the Exchange Act requiring the filing with the SEC of quarterly reports on Form 10-Q containing unaudited financial and other specified information, or current reports on Form 8-K upon the occurrence of specified significant events. In addition, our officers, directors and principal shareholders are exempt from the reporting and “short-swing” profit recovery provisions of Section 16 of the Exchange Act and the rules thereunder. Therefore, our shareholders may not know on a timely basis when our officers, directors and principal shareholders purchase or sell our Class A Ordinary Shares. In addition, foreign private issuers are not required to file their annual report on Form 20-F until one hundred twenty (120) days after the end of each fiscal year, while U.S. domestic issuers that are accelerated filers are required to file their annual report on Form 10-K within seventy-five (75) days after the end of each fiscal year. Foreign private issuers also are exempt from Regulation Fair Disclosure, aimed at preventing issuers from making selective disclosures of material information. As a result of the above, you may not have the same protections afforded to shareholders of companies that are not foreign private issuers.

If we lose our status as a foreign private issuer, we would be required to comply with the Exchange Act reporting and other requirements applicable to U.S. domestic issuers, which are more detailed and extensive than the requirements for foreign private issuers. We may also be required to make changes in our corporate governance practices in accordance with various SEC and NYSE rules. The regulatory and compliance costs to us under U.S. securities laws if we are required to comply with the reporting requirements applicable to a U.S. domestic issuer may be significantly higher than the cost we would incur as a foreign private issuer. As a result, we expect that a loss of foreign private issuer status would increase our legal and financial compliance costs and would make some activities highly time consuming and costly. We also expect that if we were required to comply with the rules and regulations applicable to U.S. domestic issuers, it would make it more difficult and expensive for us to obtain and maintain directors’ and officers’ liability insurance, and we may be required to accept reduced coverage or incur substantially higher costs to obtain coverage. These rules and regulations could also make it more difficult for us to attract and retain qualified members of our board of directors.

***As a foreign private issuer, we are permitted to adopt certain home country practices in relation to corporate governance matters that differ significantly from NYSE corporate governance listing standards. These practices may afford less protection to shareholders than they would enjoy if we complied fully with corporate governance listing standards.***

As a foreign private issuer, we are permitted to take advantage of certain provisions in the NYSE rules that allow us to follow our home country law for certain governance matters. Certain corporate governance practices in our home country, the Cayman Islands, may differ significantly from corporate governance listing standards. Currently, we do not plan to rely on home country practices with respect to our corporate governance after we complete this offering. If we choose to follow home country practices in the future, our shareholders may be afforded less protection than they would otherwise enjoy under the NYSE corporate governance listing standards applicable to U.S. domestic issuers.

***There can be no assurance that we will not be a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for any taxable year, which could result in adverse U.S. federal income tax consequences to U.S. holders of our Class A Ordinary Shares.***

We will be classified as a passive foreign investment company, or PFIC, for any taxable year if either (a) 75% or more of our gross income for such year consists of certain types of “passive” income or (b) 50% or more of the value of our assets (determined on the basis of a quarterly average) during such year produce or are held for the production of passive income (the “asset test”). Based upon our current and expected income and assets, including goodwill (taking into account the expected proceeds from this offering) and projections as to the market price of our Class A Ordinary Shares following the completion of this offering, we do not presently expect to be classified as a PFIC for the current taxable year or the foreseeable future.

While we do not expect to be treated as a PFIC, because the value of our assets for purposes of the asset test may be determined by reference to the market price of our Class A Ordinary Shares, fluctuations in the market price of our Shares may cause us to become a PFIC for the current or subsequent taxable years. The determination of whether we will be or become a PFIC will also depend, in part, on the composition and classification of our income, including the relative amounts of income generated by and the value of assets of our strategic investment business as compared to our other businesses. Because there are uncertainties in the application of the relevant rules, it is possible that the Internal Revenue Service, or the IRS, may challenge our classification of certain income and assets as non-passive which may result in our being or becoming a PFIC in the current or subsequent years. In addition, the composition of our income and assets will also be affected by how, and how quickly, we use our liquid assets and the cash raised in this offering. If we determine not to deploy significant amounts of cash for active purposes, our risk of being a PFIC may substantially increase. Because there are uncertainties in the application of the relevant rules and PFIC status is a factual determination made annually after the close of each taxable year, there can be no assurance that we will not be a PFIC for the current taxable year or any future taxable year.

If we are a PFIC in any taxable year, a U.S. Holder (as defined in “*Taxation — United States Federal Income Tax Considerations*”) may incur significantly increased United States income tax on gain recognized on the sale or other disposition of our Class A Ordinary Shares and on the receipt of distributions on our Class A Ordinary Shares to the extent such gain or distribution is treated as an “excess distribution” under the United States federal income tax rules and such holder may be subject to burdensome reporting requirements. Further, if we are a PFIC for any year during which a U.S. Holder holds our Class A Ordinary Shares, we will generally continue to be treated as a PFIC for all succeeding years during which such U.S. Holder holds our Class A Ordinary Shares. For more information see “*Taxation — United States Federal Income Tax Considerations — Passive Foreign Investment Company Rules.*”

Investors should consult their own tax advisors regarding all aspects of the application of the PFIC rules to the Class A Ordinary Shares.

***We may lose our foreign private issuer status in the future, which could result in significant additional costs and expenses.***

As discussed above, we are a foreign private issuer, and therefore, we are not required to comply with all of the periodic disclosure and current reporting requirements of the Exchange Act. The determination of foreign private issuer status is made annually on the last business day of an issuer’s most recently completed second fiscal quarter. We would lose our foreign private issuer status if, for example, more than 50% of our Ordinary Shares are directly or indirectly held by residents of the United States and we fail to meet additional requirements necessary to maintain our foreign private issuer status. If we lose our foreign private issuer status on this date, we will be required to file with the SEC periodic reports and registration statements on U.S. domestic issuer forms, which are more detailed and extensive than the forms available to a foreign private issuer. We will also have to mandatorily comply with U.S. federal proxy requirements, and our officers, directors and principal shareholders will become subject to the short-swing profit disclosure and recovery provisions of Section 16 of the Exchange Act. In addition, we will lose our ability to rely upon exemptions from certain corporate governance requirements under the NYSE rules. As a U.S. listed public company that is not a foreign private issuer, we will incur significant additional legal, accounting and other expenses that we will not incur as a foreign private issuer, and accounting, reporting and other expenses in order to maintain a listing on a U.S. securities exchange.

***We will have broad discretion in the use of proceeds of this offering designated for working capital and general corporate purposes.***

We intend to use the net proceeds from this offering for strengthening sales and marketing, research and development, and working capital and general corporate purposes, including future capital expenditures and increasing our liquidity. Within those categories, we have not determined the specific allocation of the net proceeds of this offering. Our management will have broad discretion over the use and investment of the net proceeds of this offering within those categories. Accordingly, investors in this offering have only limited information concerning management's specific intentions and will need to rely upon the judgment of our management with respect to the use of proceeds.

***Our pre-IPO shareholders will be able to sell their shares after the completion of this offering subject to restrictions under Rule 144 under the Securities Act, which could impact the trading price of our Class A Ordinary Shares.***

15,033,176 Class A Ordinary Shares, 875,000 Class B Ordinary Shares and no preference shares are issued and outstanding as of the date of this prospectus (including conversion of Preferred Shares and convertible notes upon completion of this offering). Our pre-IPO shareholders may be able to sell their Ordinary Shares under Rule 144 after the completion of this offering. See "Shares Eligible for Future Sale" below. Because these shareholders have paid a lower price per Ordinary Share than participants in this offering, when they are able to sell their pre-IPO shares under Rule 144, they may be more willing to accept a lower sales price than the IPO price, which could impact the trading price of our Class A Ordinary Shares following the completion of the offering, to the detriment of participants in this offering. Under Rule 144, before our pre-IPO shareholders can sell their shares, in addition to meeting other requirements, they must meet the required holding period. We do not expect any of the Ordinary Shares to be sold pursuant to Rule 144 during the pendency of this offering.

***Failure to comply with anticorruption and anti-money laundering laws, including the FCPA and similar laws associated with activities outside of the United States, could subject us to penalties and other adverse consequences.***

We are subject to the Foreign Corrupt Practices Act of 1977, as amended, 15 U.S.C. §§ 78dd-1, et seq., referred to as the FCPA, the U.S. domestic bribery statute contained in 18 U.S.C. § 201, the U.S. Travel Act, the USA PATRIOT Act, the UK Bribery Act, and possibly other anti-bribery and anti-money laundering laws in countries in which we conduct activities. We face significant risks if we fail to comply with the FCPA and other anti-corruption laws that prohibit companies and their employees and third-party intermediaries from promising, authorizing, offering, or providing, directly or indirectly, improper payments or benefits to foreign government officials, political parties, and private-sector recipients for the purpose of obtaining or retaining business, directing business to any person, or securing any advantage. Any violation of the FCPA, other applicable anti-corruption laws, and anti-money laundering laws could result in whistleblower complaints, adverse media coverage, investigations, loss of export privileges, or severe criminal or civil sanctions, which could have a material adverse effect on our reputation, business, operating results, and prospects. In addition, responding to any enforcement action may result in a significant diversion of management's attention and resources, significant defense costs, and other professional fees.

***We expect to incur significant additional costs as a result of being a public company, which may materially and adversely affect our business, financial condition and results of operations.***

Upon completion of this offering, we expect to incur costs associated with corporate governance requirements that will become applicable to us as a public company, including rules and regulations of the SEC, under the Sarbanes-Oxley Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, and the Exchange Act, as well as the rules of the NYSE. These rules and regulations are expected to significantly increase our accounting, legal and financial compliance costs and make some activities more time-consuming. We also expect these rules and regulations to make it more expensive for us to obtain and maintain directors' and officers' liability insurance. As a result, it may be more difficult for us to attract and retain qualified persons to serve on our board of directors or as executive officers. Accordingly, increases in costs incurred as a result of becoming a publicly traded company may materially and adversely affect our business, financial condition and results of operations.

***Securities analysts may not publish favorable research or reports about our business or may publish no information at all, which could cause our stock price or trading volume to decline.***

If a trading market for our securities develops, the trading market will be influenced to some extent by the research and reports that industry or financial analysts publish about us and our business. We do not control these analysts. As a newly public company, we may be slow to attract research coverage and the analysts who publish information about our securities will have had relatively little experience with us or our industry, which could affect their ability to accurately forecast our results and could make it more likely that we fail to meet their estimates. In the event we obtain securities or industry analyst coverage, if any of the analysts who cover us provide inaccurate or unfavorable research or issue an adverse opinion regarding our stock price, our stock price could decline. If one or more of these analysts cease coverage of us or fail to publish reports covering us regularly, we could lose visibility in the market, which in turn could cause our stock price or trading volume to decline and result in the loss of all or a part of your investment in us.

***Recently introduced economic substance legislation of the Cayman Islands may impact us and our operations.***

The Cayman Islands, together with several other non-European Union jurisdictions, has recently introduced legislation aimed at addressing concerns raised by the Council of the European Union as to offshore structures engaged in certain activities which attract profits without real economic activity. With effect from January 1, 2019, the International Tax Co-operation (Economic Substance) Act (Revised), or the Substance Law, and issued Regulations and Guidance Notes came into force in the Cayman Islands introducing certain economic substance requirements for “relevant entities” which are engaged in certain “relevant activities,” which in the case of exempted companies incorporated before January 1, 2019, will apply in respect of financial years commencing July 1, 2019 and onwards. A “relevant entity” includes an exempted company incorporated in the Cayman Islands, as is DDC Cayman; however, it is anticipated that our Company may remain out of scope of the legislation or else be subject to more limited substance requirements. Although it is presently anticipated that the Substance Law will have little material impact on us and our operations, as the legislation is new and remains subject to further clarification and interpretation, it is not currently possible to ascertain the precise impact of these legislative changes on us and our operations.

## **INDUSTRY AND MARKET DATA**

We are responsible for the information contained in this prospectus and any free writing prospectus we prepare or authorize. This prospectus includes statistical and other industry and market data that we obtained from industry publications and research, surveys and studies conducted by third parties, as well estimates by our management based on such data. The market data and estimates used in this prospectus involve a number of assumptions and limitations, and you are cautioned not to give undue weight to such data and estimates. While we believe that the information from these industry publications, surveys and studies is reliable, the industry in which we operate is subject to a high degree of uncertainty and risk due to a variety of important factors, including those described in the section titled “Risk Factors.” These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

## USE OF PROCEEDS

After deducting the estimated underwriter's discount and offering expenses payable by us, we expect to receive net proceeds of approximately \$38,981,216 (or \$45,172,935, in the aggregate if the underwriter exercises its over-allotment option in full) from this offering.

We plan to use the net proceeds of this offering as follows:

- 50% for working capital to fund business expansion;
- 25% for acquiring suitable targets that operate RTC/RTE brands that complement our current sales channels and customer base, have gross profit margins that are comparable to our Group and are expected to be accretive and profitable. We are still identifying acquisition targets or within negotiations with the sellers, and have not signed Term Sheets or Sales and Purchase Agreements relating to acquisition of targets that require the use of proceeds from the offering;
- 15% for repayment of loan from shareholders and related parties. We plan to repay and restructure our C-1 shareholder loans, incurred on January 22, 2021, which have a total principal amount of USD9,010,736, accruing 8% interest per annum. The C-1 shareholder loans will be due on January 1, 2024. We plan to use our proceeds to repay part of this shareholder loan balance, and for the remaining, restructure into convertible debt or renegotiate loan terms; and
- 10% for cash reserve.

The precise amounts and percentage of proceeds we devote to particular categories of activity, and their priority of use, will depend on prevailing market and business conditions as well as on the nature of particular opportunities that may arise from time to time. Accordingly, we reserve the right to change the use of proceeds that we presently anticipate and describe herein.

The foregoing is set forth based on the order of priority of each purpose and represents our current intentions based upon our present plans and business conditions to use and allocate the net proceeds of this offering. Our management, however, will have significant flexibility and discretion to apply the net proceeds of this offering. If an unforeseen event occurs or business conditions change, we may use the proceeds of this offering differently than as described in this prospectus.

We have agreed with the underwriters in this offering to establish an escrow account in the United States and to fund such account with the cash portion of any fees due and payable to the underwriters from this offering. The escrow account will be interest bearing, and we will be free to invest the assets in securities. All funds that are not subject to an indemnification claim will be returned to us after the applicable period expires.

## **DIVIDEND POLICY**

For the years ended December 31, 2022 and 2021, we have not declared any dividend. We do not anticipate declaring or paying dividends in the foreseeable future. We intend to retain all available funds and any future earnings to fund the development and expansion of our business.

## DILUTION

If you invest in our Class A Ordinary Shares, your interest will be diluted to the extent of the difference between the initial public offering price per Class A Ordinary Share and our net tangible book value per Class A Ordinary Share after this offering. Dilution results from the fact that the initial public offering price per Class A Ordinary Share is substantially in excess of the book value per Ordinary Share attributable to the existing shareholders for our presently outstanding Ordinary Shares and holders of our convertible preference shares and convertible loans which will automatically convert into our Class A Ordinary Shares concurrently with the completion of this offering.

The net tangible book value of our Ordinary Shares as of June 30, 2023 was approximately with a negative value of US\$23,053,069, or negative value of US\$4.1 per Ordinary Shares. Net tangible book value represents the amount of our total assets, less the amount of our intangible assets, goodwill, total liabilities.

Pro forma net tangible book value per Ordinary Share is calculated after giving effect to (i) the vest of share options; (ii) the automatic conversion of our outstanding preferred shares as of June 30, 2023; and (iii) the automatic conversion of the outstanding convertible loans as of June 30, 2023 into Class A ordinary shares upon our initial public offering all of issued and convertible preference and and,. Pro forma as adjusted net tangible book value per Ordinary Share is calculated after giving effect to (i) the vest of share options; (ii) the automatic conversion of our outstanding preferred shares as of June 30, 2023; and (iii) the automatic conversion of the outstanding convertible loans as of June 30, 2023 (iv) the vest of share options granted after June 30, 2023 and up to as of the date of prospectus; (v) the issuance of Class A ordinary shares as the purchase consideration in connection with the acquisition of 100% interest of Cook San Francisco, LLC; (vi) the surrender of Class A ordinary shares by one of our registered members and the concurrent issuance of the same number of share options to this person; (vii) the automatic conversion of preferred shares issued after June 30, 2023; (viii) the automatic conversion of convertible loans issued after June 30, 2023 and (ix) our initial public offering. Dilution is determined by subtracting pro forma as adjusted net tangible book value per Ordinary Share from the public offering price per Ordinary Share.

Without taking into account any other changes in net tangible book value after June 30, 2023, upon our initial public offering, our Class A Ordinary Shares would be 19,283,176 included the issuance and sale by us of 4,250,000 Class A Ordinary Shares in this initial public offering at an assumed initial public offering price of US\$10.5 per Class A Ordinary Share, which is the mid-point of initial public offering price from US\$9.5 — US\$11.5, after deduction of the estimated underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of June 30, 2023 would have been US\$17,326,623, or US\$0.9 per outstanding Class A Ordinary Share. This represents an immediate increase in pro forma net tangible book value of US\$2.3 per Class A Ordinary Share to the existing shareholders and an immediate dilution in net tangible book value of US\$9.6 per Class A Ordinary Share to investors purchasing in this offering. The following table illustrates such dilution:

	Per ordinary share			
	Without exercise of over-allotment option		Full exercise of over-allotment option	
Actual net tangible book value per Ordinary Share as of June 30, 2023	US\$	(4.1)	US\$	(4.1)
Pro forma net tangible book value per Ordinary Share after giving effect to (i) the vest of share options; (ii) the automatic conversion of our outstanding preferred shares as of June 30, 2023; and (iii) the automatic conversion of the outstanding convertible loans as of June 30, 2023 into Class A ordinary shares upon our initial public offering	US\$	(1.4)	US\$	(1.4)
Pro forma as adjusted net tangible book value per Ordinary Share after giving effect to (i) the vest of share options; (ii) the automatic conversion of our outstanding preferred shares as of June 30, 2023; and (iii) the automatic conversion of the outstanding convertible loans as of June 30, 2023 (iv) the vest of share options granted after June 30, 2023 and up to as of the date of prospectus; (v) the issuance of Class A ordinary shares as the purchase consideration in connection with the acquisition of 100% interest of Cook San Francisco, LLC; (vi) the surrender of Class A ordinary shares by one of our registered members and the concurrent issuance of the same number of share options to this person; (vii) the automatic conversion of preferred shares issued after June 30, 2023; (viii) the automatic conversion of convertible loans issued after June 30, 2023 and (ix) our initial public offering	US\$	1.0	US\$	1.3
Assumed initial public offering price	US\$	10.5	US\$	10.5
Dilution in net tangible book value per Ordinary Shares to new investors in our initial public offering	US\$	9.5	US\$	9.2

[Table of Contents](#)

A US\$1.00 increase (decrease) in the assumed public offering price of US\$10.5 per Ordinary Shares would increase (decrease) our pro forma net tangible book value per share after this offering by nil, and increase the pro forma net tangible book value per ordinary share after giving effect to the automatic conversion of our convertible preference shares, convertible loans and this offering by US\$0.2 per Ordinary Share and the dilution in pro forma net tangible book value per Ordinary Share to new investors in this offering by US\$2.6 per Ordinary Share, assuming no change to the number of Ordinary Share offered by us as set forth on the cover page of this prospectus, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

The following table sets forth, on a pro forma as adjusted basis as of June 30, 2023, the differences between existing shareholders, including holders of our convertible preference shares, convertible loans and new investors with respect to the number of Ordinary Shares purchased from us, the total consideration paid and the average price per Ordinary Share paid before deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

	Ordinary Shares Purchased		Total Consideration		Average Price per Ordinary Share

	(in thousand of US\$, except number of shares and percentages)

Total	19,283,176	100%	US\$	266,767,067	100%	US\$	13.8

The pro forma as adjusted information discussed above is illustrative only. Our net tangible book value following the completion of this offering is subject to adjustment based on the actual initial public offering price of our Class A Ordinary Shares and other terms of this offering determined at pricing.

## CORPORATE HISTORY AND STRUCTURE

### Our History

DDC Enterprise Limited is a Cayman Islands holding company and conducts its operations primarily in China through its wholly-owned or controlled subsidiaries. We were founded in Hong Kong in 2012 by Ms. Norma Ka Yin Chu as an online platform which distributed food recipes and culinary content. Subsequently, we further expanded our business to provide advertising services to brands that wish to place advertisements on our platform or video content. In 2015, we entered the Mainland China market through the establishment of Shanghai DayDayCook Information Technology Co., Ltd. (“SH DDC”) and Shanghai Weishi Information Technology Co., Ltd. (“Weishi”). In 2017, we expanded our business from content creation to content commerce. Later in 2019, we extended our business to include the production and sale of, among others, own-branded RTH, RTC convenient meal solution products.

### Our Corporate Structure

During the periods covered by the financial statements included elsewhere in this prospectus, SH DDC had entered into a series of contractual arrangement with Weishi and Shanghai City Modern Agriculture Development Co., Ltd. (“City Modern”), in 2016 and 2019 respectively, which allows SH DDC to exercise effective control over Weishi and City Modern and receive substantially all the economic benefits of Weishi, City Modern and their consolidated entities via variable interest entity structures. As of the date of this prospectus, such contractual arrangements with the Weishi and City Modern VIEs have been terminated. After the termination of the contractual arrangements with Weishi, we will continue cooperation with it in certain online service areas. For instance, Weishi will develop and maintain the WeChat mini-program related to our business, ensure the ordinary operation of our official websites, make sure the cyber security of the systems and maintain our IT systems and servers. As advised by the PRC legal adviser, our continued cooperation with Weishi does not constitute a VIE because that, since the termination of the contractual arrangements with Weishi, (i) we have no longer enjoyed any controlling rights or decision-making power over the operation of Weishi; (ii) Weishi has independently operated its assets and properties and conducted its businesses, and its shareholder, instead of us, has enjoyed its residual interests and born the loss (if any); (iii) we and Weishi have no contractual relations other than the service contract to be signed between SH DDC and Weishi; (iv) we have not enjoyed any interests or benefits, or any other transfers, contributed by Weishi, or offered any financial assistance for Weishi.

DDC Cayman directly and wholly owns (a) DDC OpenStudio Limited (“DDC OpenStudio”), a Cayman Islands company incorporated in May 2017, (b) Perfect Foods Inc. (“Perfect Foods Inc.”), a Cayman Islands company incorporated in September 2019 and (c) Grand Leader Technology Limited (“Grand Leader”), a Hong Kong company incorporated in January 2011. DDC OpenStudio in turn holds all the share capital of DDC OpenStudio Media Limited (“DDC OpenStudio Media”), which was incorporated in July 2018 in Hong Kong. Perfect Foods Inc. in turns holds all the share capital of Good Foods HK Limited (“Good Foods HK”), which was incorporated in September 2019 in Hong Kong.

Through its wholly-owned subsidiary Grand Leader, which was incorporated for the purpose of handling advertising, business-to-consumer e-commerce and cooking classes in Hong Kong, DDC Cayman owns a direct equity interest in SH DDC and Shanghai Lashu Import and Export Trading Co., Ltd. (“SH Lashu”). SH DDC was established in January 2015 in China for the purpose of engaging in technology development of computer hardware and software, food circulation and advertising production in China, whilst SH Lashu was established in August 2017 in China as an import and export vehicle in China.

As of December, 2017, Shanghai Youlong Industrial Co., Ltd. (“SH Youlong”), a wholly owned subsidiary of SH DDC, was established for the purpose of engaging in cooking class services, food and beverage and retail business in China. SH Youlong owns a direct equity interest in Guangzhou Youlong DayDayCook Food and Beverage Co., Ltd., which was established in March 2018 with its main business of engaging in cooking class services, food and beverage and retail business in China.

As of June 2019, Shanghai Juxiang Culture Media Co., Ltd. (“SH Juxiang”), a wholly owned subsidiary of SH DDC, was established for the purpose of engaging in e-commerce business in China. In June 2023, we sold a 33% equity interest in SH Juxiang to Haosheng Fan, and after giving effect to such sale, we hold a 67% equity interest in SH Juxiang. SH Juxiang’s name was changed to Hangzhou Jushi Culture Media Co., Ltd. (“HZ Jushi”) in September 2023.

As of January 2019, SH DDC acquired 60% equity interest in Fujian Jinjiang Yunmao Electronic Commerce Co., Ltd. (“Yunmao”), a limited liability company incorporated under the Laws of the PRC, for a combination of a share option consideration equivalent to a value of RMB10.2 million, and a cash consideration of RMB10.2 million, to engage in food and beverage retail and e-commerce. Yunmao owns a direct equity interest in Hangzhou Damao Technology Co., Ltd., which was established in June 2020 with a main business of e-commerce.

In January 2021, SH DDC acquired a number of online stores from Chongqing Mengwei Technology Co., Ltd. (“CQ MW”), Liao Xuefeng, Chongqing Changshou District Weibang Network Co., Ltd. and Chongqing Yizhichan Snack Food Electronic Commerce Service Department (the “Transferors”). In July 2021, SH DDC and Chongqing Mengwei Technology Co., Ltd. set up a joint venture named Chongqing DayDayCook E-commerce Co., Ltd. (“CQ DDC”) which is established for operating newly set-up online stores, in which, SH DDC holds 51% equity interest. CQ DDC was established for the purpose of engaging in online food retail business in China. However, due to certain limitations from the policies of third party online platforms, such eight online stores currently could not be transferred to CQ DDC and the operation of the eight online stores were delegated to the Transferors as nominal holders through relevant contractual agreements. In April 2023, CQ MW sold its 49% equity interest to SH DDC, upon which CQ DDC became SH DDC’s wholly owned subsidiary. Also in April 2023, SH DDC acquired more Pinduoduo online stores from CQ MW, Weibang, Yizhichan and Ningqi, and operated these online stores in the same way. These online stores were considered VIEs and SH DDC was the primary beneficiary. These contractual arrangements enabled us to control those online stores and provided us the right to obtain substantially all of the economic benefits from such online stores.

On July 1, 2021, the Company, through its wholly owned subsidiary, SH DDC, entered into a purchase agreement (“the SPA”) with Mr. Zheng Dongfang and Mr. Han Min (“collectively the YJW Seller”), the shareholders of Fujian Yujiaweng Food Co., Ltd. (“Yujiaweng”) to acquire 60% interests of Yujiaweng’s product sales business, primarily including distribution contracts, the sales and marketing team, procurement team and other supporting function personnel (“the YJW Target Assets”). Yujiaweng is principally engaged in manufacturing and the distribution of snack foods. This acquisition allows the company to optimize cost structure for the RTC meal kits in the Hong Kong market. It also enables the company to expand its product offerings with its own production facility.

As of April 1, 2022, all contractual arrangements with Weishi and City Modern, have been terminated. As a result of the termination of the contractual arrangements with the Weishi and City Modern VIEs, we expect to be able to focus our capital and efforts on selling our products through online e-commerce platforms and offline distributors and retailers. On May 1, 2022, the Company, through its wholly owned subsidiary, entered into a purchase agreement with Mr. Gao Xiaomin, Mr. Zhang Yi and Ms Chen Di, to acquire 51% shares of Shanghai Lishang Trading Ltd, (“Lishang”). Lishang is principally engaged in distribution of private label products. This acquisition was completed during the nation-wide lock down when the company expedited its strategy to diversify revenue streams and improve overall margin structure. Lishang has strong sales channel access into the corporate gifting channel which carries higher margin compared to the company’s existing e-commerce and offline distribution channels. By acquiring Lishang, the company now has healthier gross margins as well as access to sales and distribution partnerships with global FMCG brands such as Pepsi Co (Lays brand.) These partnerships in turn can help the company secure better traffic and overall sales conversion on social commerce platforms to drive higher sales for its own branded product business.

As a result of the termination of the contractual arrangements of the Mengwei VIE, we expect to be able to focus our capital and efforts on selling our products through online e-commerce platforms and offline distributors and retailers to overseas markets. We intend for the termination and discontinuation of business streams to reduce the company’s overall net losses, and free up capital to be allocated into our other fast growing RTC, RTE and plant based product businesses.

The following diagram illustrates our corporate structure as of the date of this prospectus. Unless otherwise indicated, equity interests depicted in this diagram are held 100%.

#### Non-GAAP Financial Measure

We use earnings before interest expenses and income, income tax expenses and depreciation, and amortization ("EBITDA") and adjusted EBITDA, non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. EBITDA represents net loss excluding changes in income tax expense, interest expenses, interest income and depreciation and amortization. Adjusted EBITDA represents net loss excluding changes in income tax expense, interest expenses, interest income, foreign currency exchange loss/(gain), net, impairment loss for equity investments accounted for using measurement alternative, gain from deconsolidation of VIEs, other income, other expenses, net, changes in fair value of financial instruments, depreciation and amortization and share-based compensation.

We believe that the adjusted EBITDA helps to identify underlying trends in our business that could otherwise be distorted by the effect of certain expenses that we are included in net loss. We believe that adjusted EBITDA provides useful information about our operating results, enhance the overall understanding of our past performance and future prospect and allow for greater visibility with respect to key metrics used by our management uses in its financial and operational decision making. In additions, the company provides EBITDA because we believe that investors and analysts may find it useful in measuring operating performance without regard to items such as income tax expense, interest expenses and interest income and depreciation and amortization.

### **Overview**

We are a food innovator with leading content driven consumer brands in China. We offer easy, convenient ready-to-heat ("RTH"), ready-to-cook ("RTC"), ready-to-eat ("RTE") (i.e. meal products are typically portioned with only the servings you actually need, which can reduce waste! Convenience is at an all-time high with ready-to-eat prepared food. They reduce the time and energy needed to prepare a meal at home while never compromising on food safety, variety, and selection. We also offer plant-based meal products promoting healthier lifestyle choices to our predominately Millennial and Generation Z ("GenZ") customer-base. We are also engaged in the provision of advertising services.

We have an omni-channel (online and offline) sales, end-to-end ("E2E") product development and distribution strategy. We have partnered with (i) large China-based e-commerce platforms, (ii) leading livestreaming, video-sharing, content-marketing platforms, and (iii) online-merged-offline ("OmO") group-buy platforms to drive online sales. We have access to a network of direct-to-consumer ("D2C") retail, wholesale Point-of-Sales ("POS"), and other corporate partnerships for the offline sale and distribution of our products. We continue to engage and grow our customer-base through curated and relevant video-content, product placement, and a customer-feedback informed product development and distribution strategy.

For the six months ended June 30, 2023, we recorded RMB89.4 million (or US\$12.3 million) in total revenue compared to RMB66.8 million for the six months ended June 30, 2022, representing a 33.9% increase. Subsequent to June 30, 2023, we completed two acquisitions. Assuming these two acquisitions had taken place on 1 January 2023, the unaudited pro forma revenue of the Company for the six months ended June 30, 2023 would be RMB123.6 million (or US\$17.0 million).

The increase in total revenue was due to the increase in offline consumer product sales of RMB54.3 million, net off with the decrease in online consumer product sales of RMB29.1 million. In the second quarter of 2022, nationwide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant, which led to disruption to all social and economic activities. As a result, fewer shipping locations were open, and our e-commerce operations were adversely affected. As a result, we decided to expand DayDayCook's brand portfolio via acquisition of target companies with more scope of offline distributors.

For the six months ended June 30, 2023, we incurred net loss of RMB9.0 million (US\$1.2 million) and net loss of RMB83.5 million for the six months ended June 30, 2022. We also had negative cash flows from operating activities of RMB24.7 million (US\$3.4 million) and RMB19.1 million for the six months ended June 30, 2023 and 2022 respectively. Management uses the EBITDA and adjusted EBITDA, non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. For the six months ended June 30, 2023 and June 30, 2022, we incurred an adjusted EBITDA with loss of RMB6.2 million (US\$0.9 million) and RMB32.7 million respectively. For the six months ended June 30, 2023 and June 30, 2022, we incurred an EBITDA of RMB3.7 million (US\$0.5 million) and EBITDA with loss of RMB60.7 million respectively. For details, please refer to section "Non-GAAP Financial Measure".

For the years ended December 31, 2021 and 2022, our total revenues were RMB205.2 million and RMB179.6 million (US\$24.8 million) respectively. This drop in revenue was largely a result of negative impact from extended zero-covid policy in China which led to massive disruptions in the company's e-commerce operations. In the face of this challenge, we completed four acquisitions in 2022 to speed up the diversification of revenue streams as well as aggressive improvement on overall cost structure. Assuming these four acquisitions had taken place on 1 January 2022, the unaudited pro forma revenue of the Company for the year ended December 31, 2022 will be RMB231.9 million (or US\$32.0 million).

## [Table of Contents](#)

This decrease in total revenue was due to the decrease in online consumer product sales of RMB81.6 million. During the second quarter of 2022, nation-wide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant which led to disruption to traffic and economic activities. As a result, fewer shipping locations were open and our daily logistics volume was adversely affected. The decrease in online consumer product sales were offset by the increase in revenues from offline consumer product sales of RMB66.6 million from (1) YJW Newco with YJW Target Assets which principally engaged in the distribution of snack foods, (2) KeKe Newco with Keke Target Assets which principally engaged in the distribution of candy products, (3) new acquisition Shanghai Lishang Trading Ltd, (“Lishang”) which principally engaged in the distribution of private label products in high margin sales channels.

For the years ended December 31, 2021 and December 31, 2022, we incurred a net loss of RMB458.7 million and RMB122.2 million (US\$16.9 million) respectively. The decrease in net loss was mainly attributable from (i) a decrease of general and administrative expenses by RMB13.1 million from RMB66.6 million for the year ended December 31, 2021 to RMB53.5 million (US\$7.4 million) for the year ended December 31, 2022, attributable to the streamlining of costs in 2022, (ii) a decrease in fulfillment and sales and marketing expenses of RMB51.8 million, (iii) a decrease in changes in fair value of financial instruments of RMB58.9 million, and (iv) a decrease in other expenses for the year ended December 31, 2022 of RMB266.1 million, due to the extinguishment losses of RMB229.6 million attributed from the extinguishment of January 2019 shareholder loans, July 2019 convertible loans, 2020 convertible loans and May 2021 convertible loans during the issuance of Series C-1 redeemable convertible preference shares, and a loss of RMB36.5 million was recognized from the excess of fair value of instruments granted over proceeds received during the issuance of Series C-1 redeemable convertible preference shares for the year ended 31 December 2021. Management uses the EBITDA and adjusted EBITDA, non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. For the years ended December 31, 2021 and December 31, 2022, we incurred an adjusted EBITDA with loss of RMB108.5 million and RMB37.5 million (US\$5.2 million) respectively. For the years ended December 31, 2021 and December 31, 2022, we incurred an EBITDA with loss of RMB429.9 million and RMB85.2 million (US\$11.8 million) respectively. For details, please refer to section “Non-GAAP Financial Measure”.

DDC Cayman was incorporated under the laws of the British Virgin Islands on April 30, 2012. The Company then registered by way of continuation in the Cayman Islands on November 10, 2015, and deregistered in the British Virgin Islands as of that date. We have 1,000,000,000 authorized shares at a par value of \$0.001 by December 31, 2021. We mainly operate our business in the PRC through our wholly-owned subsidiary, Shanghai DayDayCook Information Technology Co., Ltd (“SH DDC”), and under a contractual arrangement with Shanghai Weishi Information Technology Co., Ltd (“Weishi”), which held the necessary PRC operating licenses for the online businesses in the years ended December 31, 2021 and 2022.

No revenue was contributed by Weishi in the years ended December 31, 2021 and 2022. SH DDC was also under a contractual arrangement with Shanghai City Modern Agriculture Development Co., Ltd (“City Modern”), which controlled three separate entities in the PRC (collectively “Farm Entities”), producing, marketing and selling premium quality vegetable products in PRC. Farm Entities contributed 6.8% and 1.0% of our total revenue in the years ended December 31, 2021 and 2022. As of April 2022, all contractual arrangements with the Weishi and City Modern VIEs had been terminated. SH DDC entered into contractual arrangement with Chongqing Mengwei, which controlled several online stores (“Mengwei Stores”) and contributed 25.5% and 5.5% of our total revenue in the years ended December 31, 2021 and 2022.

As a result of the termination of the contractual arrangements with the Weishi and City Modern VIEs, and the discontinuation of our experience stores in 2022, we expect to be able to focus our capital and efforts on selling our products through online e-commerce platforms and offline distributors and retailers. We believe such strategy of not owning physical stores and fresh produce supply to be more resilient to recent negative trends such as COVID-19 in China. We intend for the termination and discontinuation of business streams to reduce the company’s overall net losses, and to free up capital to be allocated into our other fast growing RTC, RTH, RTE and plant-based product sales businesses. Moreover, we are continually expanding through acquisitions, and we expect our new acquisitions to bolster our customer reach, generate revenue from cross-selling of our products, and enhance our overall cashflows, profitability, and liquidity.

## **Key Factors Affecting Our Results of Operations**

There are several macro and microeconomic factors that contributed to the growth of our business, specifically the RTC, RTH, RTE and plant-based product and service markets in China. These include (but are not limited to):

- China’s rapid economic growth and urbanization, which has resulted in an increase in per capita annual disposable income;

## [Table of Contents](#)

- China's investments in its technological infrastructure and increase in internet and mobile subscriber penetration rates induced by COVID-19;
- Favorable domestic social, governmental, and economic reforms centered on promoting a healthier lifestyle and life-choices; and
- Broader shift in consumer preferences, trends, and purchasing behavior to convenience without compromising on quality and/or nutritional value.

Unfavorable changes in any of the above factors could adversely affect demand for our products and/or services and impact our results of operations.

There are specific internal and external factors that could impact our results of operations. These include (but are not limited to):

**Sales Strategy** — We rely on both growing our own “DayDayCook” branded product sales and private label product sales. This combined strategy was prompted by the need to (i) improve our competitiveness in the RTC, RTH, RTE and plant-based meat food sectors, (ii) to expand DayDayCook own-branded in the market by new acquisition with more scope of offline distributors and (iii) improve the overall margin profile of the business. Sales from RTC, RTH, RTE and plant-based product has decreased from 60.3% of our revenue for the six months ended June 30, 2022 to 59.7% of our revenue for the six months ended June 30, 2023. This was a result of acquisitions of companies focusing on offline distribution of both DayDayCook own-branded and private label products, which generated higher net margins.

Sales from RTC, RTH, RTE and plant-based product has decreased from 47.4% of our revenue in the year ended December 31, 2021 to 29.5% of our revenue in the year ended December 31, 2022. The decrease was mainly due to the second quarter of 2022, during which nationwide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant, and had led to disruption to traffic and economic activities. As a result, fewer shipping locations were open, and our daily logistics volume was adversely affected.

We expect growth for the DayDayCook own-branded product to outpace private-label product sales. This shift will require us to plan, develop, and successfully execute on multi-channel sales, marketing, and distribution strategy.

**Long-Term Consumer Trends and Demand** — Based on a 2022 independent report prepared by Frost & Sullivan, the China RTC market grew from RMB94.3 billion (US\$13.9 billion) in 2017 to approximately RMB254.8 billion (US\$37.7 billion) in 2021, at a Compound Annual Growth Rate (“CAGR”) (2017-2021) of 28.2%. As the China RTC market is expected to benefit from a shift in customer taste and preferences to convenient cooking and meal options, the RTC market is expected to grow to RMB564.5 billion (US\$83.5 billion) by 2026, a CAGR (2021-2026) of 17.2%. While plant-based products are a nascent Fast-Moving Consumer Goods (“FMCG”) category in China, there is significant demand from younger customer segments for plant-based substitutes/alternatives. According to the same 2022 report, the China market for plant-based products increased from RMB2.8 billion (US\$415.6 million) in 2018 to RMB5.1 billion (US\$757.3 million) in 2021; a CAGR (2018-2021) of 22.1%. Demand for food products that are more environmentally friendly and viable alternatives to/substitutes for traditional protein sources is expected to increase. As a result, the market for plant-based products is expected to experience a CAGR (2021-2026) of 11.0%. Total revenue is projected to increase from RMB5.1 billion (US\$703.3 million) in 2021 to RMB8.6 billion (US\$1.2 billion) in 2026. As a leader in the RTC/RTH space, given the recent partnership with PFI Foods, a leading China-based alternative meat manufacturer, and a Board of Directors and advisory network with significant operating and domain expertise, we should be able to identify and pivot to cater to evolving customer trends and consumption behavior.

**Competition** — The food and e-commerce industries in China are highly competitive. We compete with different competitors in each of our business lines. Our current and potential competitors can be divided into different categories: (i) traditional RTH, emerging RTC, and RTC food companies (domestic and international) in China, (ii) major plant-based food companies in China, (iii) major content providers in China focused on food, and (iv) other major internet companies in China that may enter the food-related content distribution or e-commerce business area. There are certain barriers to entry that have limited the number and success of foreign entrants, emerging, and traditional-cum-emerging brands, including our (i) brand awareness, (ii) E2E supply-chain visibility, (iii) strategic and preferred service agreements with product and distribution partners, (iv) product R&D and go-to-market capabilities, and (v) board of directors and advisory network.

**Regulatory Environment** — As we are an (i) omni-channel B2B and B2C and (ii) food distribution business, we are subject to various customer data, food safety and quality control, and employer-employee related regulations and policy frameworks. We work with the Cyberspace Administration of China (CAC), the State Administration for Market Regulation (SAMR), the Ministry of Commerce (the “MOFCOM”), the State Internet Information Office, the General Administration of Customs, All-China Federation of Trade Unions (ACFTU) and other governmental authorities in charge of the relevant services provided by us to ensure we are compliant with evolving laws, regulations, and standards.

**Operating Costs** — Our operating costs include packaged product costs, direct labor, other wages and related benefits, selling, distribution, and other general and administrative expenses. We proactively manage and look for opportunities to reduce our operating expenses as a percentage (%) of revenues by negotiating preferred or renegotiating existing purchasing agreements with one or more vendors/service providers. We do, however expect operating expenses to increase due to the fees, costs, and compensation expenses related to share options of RMB84.3 million (USD11.6 million) are expected to be recognized upon being a publicly-traded entity.

**Sales and Marketing Costs** — We expect costs associated with sales and marketing to increase in 2023 to support our revenue growth continually. However, we expect to be more efficient in utilizing our sales and marketing budget to generate better customer conversion rates through (i) stronger brand awareness, (ii) our plan to leverage more content and social media marketing providers and platforms to drive repeat purchases, an increase in Average Order Value (“AOV”), and attract net-new users to our platform, and (iii) improvements in referral rates.

**Debt Obligations** — our debt obligations primarily consist of shareholder loans and convertible loans used to finance our ongoing working capital requirements. As of June 30, 2023 and December 31, 2022, the outstanding balance on the shareholder loan was RMB99.2 million and RMB95.6 million respectively. The outstanding balances of convertible loans as of June 30, 2023 and December 31, 2022 were RMB47.1 million and RMB37.8 million, respectively.

**Mergers and Acquisitions (“M&A”)** — M&A is a key growth strategy going forward. To the extent permitted due to our recurring losses from operations and an accumulated deficit, we will evaluate and opportunistically execute strategic joint ventures (JV), potential investments, and acquisition opportunities with a focus on supplementing and/or complementing our existing products, sales channels, customer-base and/or allow us to optimise our existing supply-chain management capabilities. The M&A strategy will continue to evolve with our changing needs and requirements. M&A is an important part of our strategy to establish our footprint and sales channel internationally. We are actively looking at potential targets with revenues in the US, Europe, Australia, SE Asia, and Middle East. As a group, we are targeting to have international sales to account for 20 – 30% of total revenue in 2024 and around 50% in 2025. However, historically, virtually all of our sales have been in China. For example, our international (meaning outside of China) sales were zero in 2022 and accounted for 0.17% of our total revenue for the six months ended June 30, 2023. There can be no assurances that we will be successful in generating revenues internationally. For example, our M&A strategy may not identify M&A candidates and acquisitions that are completed may not be successfully integrated into our operations and may not produce significant international revenues.

**COVID-19** — The World Health Organization (“WHO”) declared that COVID-19 was a “Public Health Emergency of International Concern” on January 30, 2020 and a “pandemic” on March 11, 2020. COVID-19 has the potential to adversely affect our business. We are in constant communication with the relevant local, national, and international health agencies and governing bodies to ensure we are and remain compliant with evolving requirements and policy frameworks. To mitigate the COVID-19 risk to our business, we instituted specific measures from a workplace, distribution strategy, and supply-chain integrity standpoint and are executing on several initiatives to enable us to benefit through and post-COVID. From a workplace measures standpoint, we are taking the necessary preventative actions and implementing additional measures to protect our employees, including (but not limited to) physical distances and hygienic practices, including (but not limited to) mandatory face coverings, increased hand-washing, and more frequent sanitization of hard surfaces in-compliance with suggested Personal Protective Equipment guidelines published by the United States Centers for Disease Control and World Health Organization and WHO. We continue to explore and execute on one or more strategic partnerships to reduce and/or limit our counterparty risk and exposure. From a supply-chain standpoint, we have taken proactive steps to move away from single-sourcing to a network of diverse, alternative, pre-qualified suppliers of raw materials.

As of June 30, 2023, we had 20 supply chain partners and 36 active and reserve suppliers responsible for distributing and producing our products to customers. In the second quarter of 2022, the Chinese government imposed nation-wide strict lockdown measures in response to the outbreak of the COVID-19 Omicron variant which led to disruption to traffic and economic activities. As a result, fewer shipping locations were open and our daily logistics volume was adversely affected. In December 2022, the Chinese government announced that it would be downgrading its management of COVID-19 as of January 8, 2023, rolling back some of its

stringent anti-COVID-19 restrictions. Those who are infected with mild symptoms and close contacts are now allowed to quarantine at home. Since December 2022, China has been facing a rapid surge in COVID-19 cases. Due to the evolving and uncertain nature of this event, we cannot predict at this time the full extent to which the COVID-19 pandemic and the COVID-19 prevention policy implemented by the Chinese government will adversely impact our business, results, and financial condition. We are staying in close communication with our employees, dealers, and suppliers, and acting to mitigate the impact of this dynamic and evolving situation, but there is no guarantee we will be able to do so. While the short, medium-to-longer term impact of COVID-19 remains to be determined, we expect that our business operations and results of operations including revenue, earnings, and cash-flows will not be unduly impacted in the remainder of 2023. To date, there has been no material impact to our liquidity position, and we have not had to raise additional capital, reduce our capital expenditures, or modify any terms or contractual arrangements in response to COVID-19.

To mitigate the potential impact of COVID-19 (and future pandemics) and other business disruptions (e.g. geopolitical or trade conflicts, natural disasters, or cybercrime etc.), we have taken and will continue to take proactive steps to diversify our supply chain, moving away from single-sourcing to a network of diverse, alternative, pre-qualified suppliers of raw materials needed to produce one or more of our products. This approach allows us to secure more favorable commercial terms with our existing suppliers and also reduces the risk of business disruption at one or more stages of the E2E supply chain. To ensure food safety and quality of products produced by our OEM supplier-partners, we also request our suppliers to engage third party audit specialist to perform factory audit and to assess, among other things, the quality systems, workplace environment, record keeping, and hygiene situations of our supplier-partners' factories.

## **Revenues**

We are primarily focused on selling and distributing RTC, RTH, RTE, plant-based, and private-label products to individual customers through (i) popular large e-commerce channel e.g. Tmall, JD.com, Pinduoduo, (ii) leading livestreaming, video-sharing, content-marketing platforms e.g. TikTok (Douyin), Bilibili, Weibo, Little Red Book (小红书), Kuaishou etc., (iii) community group buying platforms e.g. Meituan-Dianping, and (iv) a network (through partnership) of offline mixed retail locations. We generate most of our revenue from online and offline to-business and to-customer product sales. The online consumer products and offline consumer products business represented 95.7%, 99.7%, 93.3% and 98.2% of total revenue for the six months ended June 30, 2022 and 2023 and for the years ended December 31, 2021 and 2022 respectively. As we plan to expand our online network in e-commerce platforms and content-marketing platforms, we expect total revenue via the online channel to continue to grow.

In the second quarter of 2022, nationwide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant, which led to disruption to all social and economic activities. As a result, fewer shipping locations were open, and our e-commerce operations were adversely affected. As a result of the financial year ending 2022, we decided to expand DayDayCook's brand portfolio via acquisition of target companies with more scope of offline distributors.

We also recognized revenues from collaborative arrangements. On July 1, 2021, we entered into purchase agreements with the selling shareholders of Yujiaweng and KeKe to acquire the respective 60% interests of Yujiaweng and KeKe's product sales business, which primarily included distribution contracts, their sales and marketing teams, procurement team and other supporting function personnel ("the Target Assets"). We and the selling shareholders agree to form an entity specific to each purchase agreement, in which we holding 60% and the selling shareholder holding 40% equity interests respectively, that will acquire the Target Assets. During the period from July 1, 2021 until the date when the new entities are formed ("the transition period"), we manage and operate the Target Assets and are entitled to 60% of the net profit arising from the operation of the Target Assets. We have determined that the arrangements during the transition period are collaborative arrangements between us and Yujiaweng and KeKe to jointly operate the product distribution activities. We recognized 60% of the net profit arising from the operation of the Target Assets as revenue of RMB8.2 million during the period from the acquisition date of July 1, 2021 up to December 31, 2021. The revenues from collaborative arrangements represented 4% of total revenue for the year ended December 31, 2021.

On June 17, 2022, YJW and KeKe Newcos, Quanzhou DayDayCook Food Co., Limited and Quanzhou Weishi Food Co., Limited were formed. The collaborative arrangements between us and Yujiaweng and KeKe were terminated. The revenues from collaborative arrangements decreased from 4% to 1% of total revenue for the year ended December 31, 2022. For the six months ended June 30, 2023, there were no revenue recognized from collaborative arrangements.

We also provide advertising, principally customized promotional videos, offline promotion, and store exhibition-related services to our customers, which are published through channels including our website, APP, WeChat mini-program, Facebook, and YouTube etc.. Advertising revenue accounted for 0.9%, 0.3%, 1.7% and 0.5% of group level total revenue for the six months ended June 30, 2022 and 2023, and for the years ended December 31, 2021 and 2022 respectively. The decrease is mainly due to our focus on growing as a consumer product brand operating online and offline food product sales.

As of June 30, 2023, we do not operate any experience stores. Revenue from experience stores accounted for 0.5%, 0%, 1.0% and 0.2% of our total revenue for the six months ended June 30, 2022 and 2023, and for the years ended December 31, 2021 and 2022 respectively. As of the date of this prospectus, we have permanently closed down all our experience stores due to the prolonged impact of the pandemic.

The following table sets forth types of our revenue for the periods indicated:

For the six months ended June 30, 2023, we recorded RMB89.4 million (or US\$12.3 million) in total revenue compared to RMB66.8 million for the six months ended June 30, 2022, representing a 33.9% increase. Subsequent to June 30, 2023, we completed two acquisitions. Assuming these two acquisitions had taken place on 1 January 2023, the unaudited pro forma revenue of the Company for the six months ended June 30, 2023 would be RMB123.6 million (or US\$17.0 million).

The increase in total revenue was due to the increase in offline consumer product sales of RMB54.3 million, net off with the decrease in online consumer product sales of RMB29.1 million. In the second quarter of 2022, nationwide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant, which led to disruption to all social and economic activities. As a result, fewer shipping locations were open, and our e-commerce operations were adversely affected. As a result, we decided to expand DayDayCook's brand portfolio via acquisition of target companies with more scope of offline distributors.

Our revenue decreased to RMB179.6 million (US\$24.8 million) for the year ended December 31, 2022 from RMB205.2 million for the year ended December 31, 2021. This drop in revenue was primarily a result of the negative impact from the extended zero-covid policy in China, which led to massive disruptions in the company's e-commerce operations. In the face of this challenge, we completed four acquisitions in 2022 to speed up the diversification of revenue streams as well as aggressive improvement on overall cost structure. Assuming these four acquisitions had taken place on 1 January 2022, the unaudited pro forma revenue of the Company for the year ended December 31, 2022 will be RMB231.9 million (or US\$32.0 million).

For the year ended December 31, 2022, the decrease in total revenue was due to the decline in online consumer product sales of RMB81.6 million offset by an increase in revenues from offline consumer product sales of RMB66.6 million. As of the second quarter of 2022, nationwide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant, which led to disruption to social and economic activities. As a result, fewer shipping locations were open, and our daily logistics volume was adversely affected. As the Company proactively shifted towards an acquisition mode to diversify revenue streams and to optimize cost structure. The overall decrease in online revenues were partially offset by an increase in revenues from offline consumer product sales of RMB66.6 million from (1) YJW Target Assets which principally engaged in the distribution of RTE products, (2) Keke Target Assets which principally engaged in distribution of RTE products, and (3) New acquisition Shanghai Lishang Trading Ltd, ("Lishang") which principally engaged in distribution of private-label products into high margin sales channels for food related products.

Our products and services offering included RTH, RTC, RTE, plant-based, private label products, revenues from collaborative arrangements, fresh products, advertisement services, and experience stores. Total revenues from RTH decreased by 77.0% from RMB13.7 million for the six months ended June 30, 2022 to RMB3.2 million for the six months ended June 30, 2023, and decreased by 71.2% from RMB56.8 million in the year ended December 31, 2021 to RMB16.4 million (US\$2.3 million) in the year ended December 31, 2022. The decrease was mainly due to management’s decision to shift away from overly packaged products in the RTH category in order to reduce the use of single-use plastic in our product packaging. Second, the shift in strategy was prompted by the need to improve the company’s level gross margin, as RTH product carry lower margins than RTC and RTE product categories. The focus is to grow our RTC, RTE, and plant-based meat food product as a percentage (%) of total revenues.

Also, amidst the lockdown of Shanghai in the second quarter of 2022, the company shifted its focus to strengthen its offline distribution networks in order to reduce its reliance on e-commerce channels to generate revenue in the face of the challenging environment. As a result, total revenues from private-label products increased by 62.6% from RMB22.0 million to RMB35.7 million (US\$4.9 million) for the six months ended June 30, 2022 and 2023 respectively, and increased by 51.9% from RMB80.1 million to RMB121.7 million (US\$16.8 million) for the year ended December 31, 2021 and 2022 respectively. Over time, we plan to execute a well-balanced distribution strategy where the contribution of revenue from online sales channel and offline distributors will each make up 50% of the total revenue.

### **Cost of Revenues**

Our cost of revenues primarily consists of (i) product costs, (ii) personnel costs, (iii) lease expenses, (iv) costs of advertising service; (v) costs of experience stores, and (vi) other costs. The table below shows the cost of revenues in absolute amounts for the periods indicated.

	For the Year Ended December 31,			For the Six Months Ended June 30,

**Product Costs:**

“Product Costs” represents costs of consumer products sold online and offline. The product cost increased by 32.4% from RMB49.7 million for the six months ended June 30, 2022 to RMB65.7 million for the six months ended June 30, 2023. The product cost reduced by 17.3% from RMB158.9 million for the year ended December 31, 2021 to RMB131.4 million (US\$18.1 million) for the year ended December 31, 2022. The increase in product cost for the six months ended June 30, 2022 and 2023 was mainly due to SH DDC has obtained control over Quanzhou DDC and Quanzhou Weishi Food Co on June 17, 2022. Quanzhou DDC principally engaged in distribution of snack foods and Quanzhou Weishi Food Co principally engaged in distribution of candy products. The increase in product cost was in line with increase in offline consumer product sales of private label products.

The decrease in product cost for the year ended December 31, 2021 and 2022. The decrease in product cost was in line with management’s focus on improving the overall cost structure of the business.

Product costs were 77.7%, 73.8%, 77.5% and 73.2% of consumer product sales revenues (including both online & offline) for the six months ended June 30, 2022 and 2023, and for the years ended December 31, 2021 and 2022 respectively. Due to an increase in competitors during COVID-19, the fierce competition affected our online sales during the period of early 2022. The Group offered discounts to customers to maintain and grow its market share, but at the same time was able to transfer part of that cost to suppliers who offered more competitive product costs.

**Personnel Costs:**

“Personnel Costs” represents the costs directly related to the revenue such as operation employee of experience store and retail shops. Due to COVID-19, we had to close all our experience stores in 2022. This resulted in a reduction in personnel costs by 86.5% from RMB2.0 million to RMB0.3 million for the six months ended June 30, 2022 and 2023, and reduction by 51.7% from RMB5.0 million in 2021 to RMB2.4 million (US\$0.3 million) in 2022. The closure of all retail locations also corresponded to a decrease in the revenue from experience stores.

**Lease expenses:**

“Lease expenses” represents (i) the lease expenses associated with the farm land located near Shanghai, and (ii) the experience store lease expenses. Our total lease expenses for the six months ended June 30, 2022 and 2023 were RMB0.4 million and Nil respectively, and for the year ended December 31, 2021 and 2022 were RMB3.4 million and RMB0.6 million (US\$0.1 million) respectively. The decrease was mainly attributable to the closure of all experience store during the year, and the termination of all contractual arrangements with City Modern.

**Others:**

“Others” primarily includes depreciation and amortization expenses for equipment directly related to revenue. For the six months ended June 30, 2022 and 2023, other costs represented 2.3% and less than 1% of total costs. For the years ended December 31, 2021 and 2022, other costs represented less than 1% of total costs.

**Operating Expenses**

Fulfilment expenses:

“Fulfilment expenses” mainly consists of (i) logistics and shipping costs for delivering the goods to the customers, and (ii) packaging costs for the products sales. The fulfilment expenses decreased from RMB7.6 million to RMB3.0 million (US\$0.4 million) for the six months ended June 30, 2022 and 2023, and RMB24.0 million to RMB10.6 million (US\$1.5 million) for the year ended December 31, 2021 and 2022. The cost reduction was a result of the decline in online consumer product sales since the second quarter of 2022. During that period, nationwide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant, which led to disruption to social and economic activities. As a result, fewer shipping locations were open and our daily logistics volume was adversely affected.

Sales and marketing expenses:

“Sales and marketing expenses” mainly consists of (i) salaries and benefits for sales and marketing employees, and (ii) branding and advertisement expenses paid to the online platform providers and third-party marketing partners.

The sales and marketing expenses were RMB11.3 million and RMB7.3 million (US\$1.0 million) for the six months ended June 30, 2022 and 2023, and RMB59.2 million and RMB20.8 million (US\$2.9 million) for the years ended December 31, 2021 and 2022. The decrease in sales and marketing expenses was due to a renewed focus on improving return-on-marketing investment by optimizing marketing spend across one or more customer acquisition, and/or sales distribution channels.

General and administrative expenses:

“General and administrative expenses” primarily consists of (i) salaries and benefits for its general and administrative staff, (ii) consulting fees, (iii) other expenses primarily including general office expenses, (iv) research and development expenses, and (iv) office rental expenses.

The general and administrative expenses decreased by 29.3% from RMB29.4 million to RMB20.8 million (US\$2.9 million) for the six months ended June 30, 2022 and 2023. The decrease was mainly due to the deferred professional service fee. The general and administrative expenses decreased by 19.9%, from RMB66.9 million for the year ended December 31, 2021, to RMB53.5 million (US\$7.4 million) for the year ended December 31, 2022. The decrease in general and administrative expenses was attributed to management’s efforts to streamline costs.

We expect that general and administrative expenses to increase when we become a public company and incur additional costs of share-based compensation of RMB84.3 million for the six months ended June 30, 2023 to comply with its reporting obligations under the U.S. securities laws.

Share-based compensation:

Certain share options became fully vested as the performance condition of occurrence of a qualified IPO was removed upon the Company’s modification of these share options for some senior management members. Therefore, for the year ended December 31, 2022, we recognized compensation cost of RMB33.5million (US\$5.1 million) on the modification dates based on the modification date fair values of these awards. In October 2022, we granted 311,177 share options to one senior management member which does not include the performance condition of occurrence of a qualified IPO and we recognized compensation costs of RMB1,345,156 (US\$190,067) for those vested awards. The Company has not recognized any share-based compensation expenses for 18,021,317 and 17,248,678 share options granted and outstanding as at December 31, 2022 and June 30, 2023 respectively, because the Company considers it is not probable that the performance conditions will be satisfied until the event occurs. As a result, the share-based compensation expenses for these options that are only exercisable upon the occurrence of the Company’s qualified IPO and will be recognized using the graded-vesting method upon the consummation of the qualified IPO.

In addition, the Company may be required to grant share options to the Seller at the end of each performance period, adjusted based on the achievement of Lishang's revenue, gross profit and net profit for each of the four performance periods during May 1, 2022 to December 31, 2024, over the target performance. If the qualified IPO does not occur by January 1, 2024, the Company is obliged to pay RMB3.5million cash corresponding to 495,751 number of share options out of the total base number of 702,969 share options to be issued for the third performance period. If the qualified IPO does not occur by January 1, 2025, the Company is obligated to deliver a fixed amount of RMB12.4million cash in addition to the previous payment of RMB3.5million, with all previously issued share options, if any, cancelled.

As of December 31, 2022 and June 30, 2023, the Company has not issued any share options to the Seller as the financial information of Lishang for the first two performance periods up to December 31, 2022 was still under preparation and was subject to audit. As the Seller is required to continuously provide services to Lishang for no less than three years after the acquisition, and as the Company is obligated to deliver cash unless a qualified IPO takes place, these share-based arrangements are accounted for as liability-classified award and were amortized over the service period of the Seller based on the cash amount to be paid the qualified IPO does not occur. The compensation cost recognized in connection with this liability-classified award for the six months ended June 30, 2023 amounted to RMB3.1 million.

## Results of Operations

### Six Months Ended June 30, 2023 Compared to Six Months Ended June 30, 2022

**Revenue:** For the six months ended June 30, 2023, we recorded RMB89.4 million (or US\$12.3 million) in total revenue compared to RMB66.8 million for the six months ended June 30, 2022, representing a 33.9% increase. Subsequent to June 30, 2023, we completed two acquisitions. Assuming these two acquisitions had taken place on January 1, 2023, the unaudited pro forma revenue of the Company for the six months ended June 30, 2023 would be RMB123.6 million (or US\$17.0 million).

The Increase in total revenue was due to the increase in offline consumer product sales of RMB54.3 million, net off with the decrease in online consumer product sales of RMB29.1 million. In the second quarter of 2022, nationwide strict lockdown measures were imposed by the Chinese government in response to the outbreak of the COVID-19 Omicron variant, which led to disruption to all social and economic activities. Quanzhou DDC principally engaged in distribution of snack foods and Quanzhou Weishi Food Co principally engaged in distribution of candy products. The increase in product cost was in line with increase in offline consumer product sales of private label products.

**Gross profit:** Our gross profit increased by 73.5% from RMB13.5 million for the six months ended June 30, 2022 to RMB23.4 million (US\$3.2 million) for the six months ended June 30, 2023. As a result, fewer shipping locations were open and our daily logistics volume was adversely affected.
- **Sales and marketing expenses:** our sales and marketing expenses decreased by 35.5%, from RMB11.3 million for the six months ended June 30, 2022 to RMB7.3 million (US\$1.0 million) for the six months ended June 30, 2023. ### **Critical Accounting Policies and Estimates**

We prepare our financial statements in conformity with U.S. GAAP, which requires us to make judgments, estimates and assumptions. We continually evaluate these estimates and assumptions based on the most recently available information, its own historical experience and various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from our expectations as a result of changes in its estimates. Some of our accounting policies require a higher degree of judgment than others in their application and require us to make significant accounting estimates.

The following descriptions of critical accounting policies, judgments and estimates should be read in conjunction with our combined and consolidated financial statements and accompanying notes and other disclosures included in this proxy statement.

### **Share-based compensation**

We measure our employee share-based awards that are subject to both service conditions and the occurrence of an initial public offering (“IPO”) as performance condition, at the fair value on grant date. Cumulative share-based compensation expenses for the awards that have satisfied the service condition will be recorded upon the completion of the IPO, using the graded-vesting method.

In 2022, we modified certain employees’ share-based awards to remove the performance condition conditional upon the occurrence of IPO. Such employee share-based awards were measured at the fair value on modification dates and are recorded as compensation expense based on the vesting conditions.

The fair value of share options at the time of grant are determined using the binomial-lattice option pricing model with the following key assumptions used.

	For the Year Ended December 31,		For the Six Months Ended June 30,	
	2021	2022	2022	2023
Risk-free rate of return	1.37% – 1.65%	1.65% – 3.90%	1.65% – 2.47%	
Volatility	37.3% – 37.85%	36.92% – 39.48%	37.11% – 37.32%	
Expected dividend yield	—	—	—	
Exercise multiple	2.2 – 2.8	2.2 – 2.8	2.2	
Fair value of underlying ordinary share	US\$0.94 – US\$1.06	US\$0.81 – US\$0.94	US\$0.94	
Expected terms	10 years	10 years	10 years	Nil

The expected volatility was estimated based on the historical volatility of comparable peer public companies with a time horizon close to the expected term of the Company’s options. The risk-free interest rate was estimated based on the yield to maturity of U.S. treasury bonds denominated in US\$ for a term consistent with the expected term of the Company’s options in effect at the option valuation date. Expected dividend yield is zero as the Company

does not anticipate any dividend payments in the foreseeable future. The expected exercise multiple was estimated as the average ratio of the stock price to the exercise price of when employees would decide to voluntarily exercise their vested options. Expected term is the contract life of the option.

#### **Fair value of Class A ordinary shares**

Prior to this offering, we have been a private company with no quoted market prices for our Class A ordinary shares. We therefore need to make estimates of the fair value of our Class A ordinary shares at various dates for the purposes of:

- the initial recognition of the fair value of ordinary shares issued to our investors during the recent financing activity in February 2021;
- at the date of grant of a share-based award as one of the inputs in determining the grant date fair value of the award;
- at the date of issuance of freestanding financial instruments including warrant liabilities and option liabilities as one of the inputs in determining the fair value of the underlying instruments
- at the date of issuance of convertible instruments for which the Company was required to determine if a beneficial conversion feature existed by comparing the respective effective conversion prices with the fair value of ordinary shares at the respective commitment dates.

In determining the fair value of our Class A ordinary shares, we applied the income approach as the primary approach based on our discounted future cash flow using our best estimate as of the valuation date. The determination of the fair value of our Class A ordinary shares requires complex and subjective judgments to be made regarding our future financial and operating results, our unique business risks, the liquidity of our shares and our operating history and prospects at the time of valuation.

The option-pricing method was used to allocate equity value of our company to preferred and ordinary shares, taking into account the guidance prescribed by the AICPA Audit and Accounting Practice Aid. This method requires making estimates of the anticipated timing of a potential liquidity event, such as a sale of our company or an initial public offering, and estimates of the volatility of our equity securities. The anticipated timing is based on the plans of our board and management.

The assumptions used in the valuation model are based on future expectations combined with management judgment, with inputs of numerous objective and subjective factors, to determine the fair value of the ordinary shares, including:

- operating and financial performance
- current business conditions and projections
- the likelihood of achieving a liquidity event
- WACC, lack of marketability discount (“LoMD”)

#### **Impairment of equity investment in PFI Food Industries Limited (“PFI”) accounted for using Measurement alternative**

We acquired an investment in the equity interests of PFI Food Industries Limited by issuing our own financial instruments including redeemable convertible preferred shares and warrants to acquire those redeemable convertible preferred shares. These financial instruments were issued in August 2021 before we obtained the equity investment in PFI and were determined as non-derivative forward contracts measured at fair value. As of December 31, 2022, we made a qualitative assessment and considered there to be impairment indicators that investment in PFI was impaired as it was significantly behind the forecasted revenue growth target and there was a declining trend of the plant-based meat industry performance. As a result, the investment in PFI was written down to its fair value. In determining the fair value of the PFI investment, we made estimates and judgments in determining the fair value regarding the cash flow forecasts of PFI, the weighted average cost of capital and the discount for lack of marketability applied to the projected cash flows. As we do not have significant influence over PFI, we elected to measure investment in PFI, without a readily determinable fair value, subsequently at cost adjusted for changes resulting from impairments, if any, and observable price changes in orderly transactions for the identical or similar securities of the same issuer.

Recent Accounting Pronouncements

**Recently Adopted Accounting Standards**

In February 2016, the FASB issued Accounting Standards Update (“ASU”) No. 2016-02, Leases (ASC 842). ASU 2016-02 specifies the accounting for leases. For operating leases, ASU 2016-02 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheets. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. ASU 2016-02 was further amended in June 2020 by ASU 2020-05. Revenue from Contracts with Customers (ASC 606) and Leases (ASC 842), ASU 2020-05 deferred the effective date of new leases standard. As a result, ASC 842, Leases, is effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2018. For all other entities, it is effective for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. Early adoption is permitted. As the Company is an “emerging growth company” and elects to apply for the new and revised accounting standards at the effective date for a private company, the Company adopted ASU 2016-02 for the fiscal year ended December 31, 2022.

In January 2017, the FASB issued ASU 2017-04, Intangibles — Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, to simplify the goodwill impairment test by eliminating Step 2 from the goodwill impairment test. Under the new guidance, goodwill impairment will be measured by the amount by which the carrying value of a reporting unit exceeds its fair value, without exceeding the carrying amount of goodwill allocated to that reporting unit. As a result, ASU 2017-04 is effective for public companies for annual and interim impairment tests for periods beginning after December 15, 2019. For other entities, it is effective for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. This guidance is effective January 1, 2022 and is required to be adopted on a prospective basis, with early adoption permitted. As the Company is an “emerging growth company” and elects to apply for the new and revised accounting standards at the effective date for a private company, the Company adopted this standard for the year ended December 31, 2022.

In November 2021, the FASB issued ASU 2021-10, Government Assistance (Topic 832) — Disclosures by Business Entities about Government Assistance (“ASU 2021-10”). It requires issuers to make annual disclosures about government assistance, including the nature of the transaction, the related accounting policy, the financial statement line items affected and the amounts applicable to each financial statement line item, as well as any significant terms and conditions, including commitments and contingencies. The amendments in ASU 2021-10 are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2021. The Company adopted the standard for the year ended December 31, 2022 and the adoption of this standard did not have a material impact on its consolidated financial statements.

In August 2020, the Financial Accounting Standards Board (“FASB”) issued ASU 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”), which eliminates two of the three models in ASC 470-20 that require separate accounting for embedded conversion features and eliminates some of the conditions for equity classification in ASC 815-40 for contracts in an entity’s own equity. The guidance also requires entities to use the if-converted method for all convertible instruments in the diluted earnings per share calculation and generally requires them to include the effect of share settlement for instruments that may be settled in cash or shares. The Company adopted this standard on January 1, 2022, and such adoption did not impact on the consolidated financial statements.

In June 2016, the FASB amended ASU 2016-13, Financial Instruments — Credit Losses (ASC 326), Measurement of Credit Losses on Financial Instruments. ASU 2016-13 was further amended in November 2019 by ASU 2019-09, Financial Instruments — Credit Losses (ASC 326), Derivatives and Hedging (ASC 815), and Leases (ASC 842). As a result, ASC 326, Financial Instruments — Credit Losses is effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2019. For all other entities, it is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted. The Company adopted this standard on January 1, 2023, and such adoption did not have a material impact on our financial statements.

In October 2021, the FASB issued ASU 2021-08 Business Combinations (Topic 805), Accounting for Contract Assets and Contract Liabilities from Contracts with Customers, which requires contract assets and contract liabilities acquired in a business combination to be recognized and measured by the acquirer on the acquisition date in accordance with ASC 606, Revenue from Contracts with Customers. The guidance will result in the acquirer recognizing contract assets and contract liabilities at the same amounts recorded by the acquiree. The guidance is applied prospectively

[Table of Contents](#)

to acquisitions occurring on or after the effective date. The guidance is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted, including in interim periods, for any financial statements that have not yet been issued. The Company adopted this standard on January 1, 2023, and such adoption did not have a material impact on our financial statements.

### Non-GAAP Financial Measure

We use earnings before interest expenses and income, income tax expenses and depreciation, and amortization (“EBITDA”) and adjusted EBITDA, non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. EBITDA represents net loss excluding changes in income tax expense, interest expenses, interest income and depreciation and amortization. Adjusted EBITDA represents net loss excluding changes in income tax expense, interest expenses, interest income, foreign currency exchange loss/(gain), net, impairment loss for equity investments accounted for using measurement alternative, gain from deconsolidation of VIEs, other income, other expenses, net, changes in fair value of financial instruments, depreciation and amortization and share-based compensation.

We believe that the adjusted EBITDA helps to identify underlying trends in our business that could otherwise be distorted by the effect of certain expenses that we are included in net loss. We believe that adjusted EBITDA provides useful information about our operating results, enhance the overall understanding of our past performance and future prospect and allow for greater visibility with respect to key metrics used by our management uses in its financial and operational decision making. In additions, the company provides EBITDA because we believe that investors and analysts may find it useful in measuring operating performance without regard to items such as income tax expense, interest expenses and interest income and depreciation and amortization.

### Liquidity and Capital Resources

#### Cash Flows and Working Capital

Our sources of liquidity are primarily from the cash earned from operating activities and cash by financing activities. Financial instruments that potentially subject us to significant concentrations of credit risk are cash and cash equivalents. Our cash and cash equivalents consist of cash on-hand and demand deposits placed with banks or other financial institutions which are unrestricted as to withdrawal and use and have original maturities less than three months.

As of December 31, 2022 and June 30, 2023, RMB26.8 million and RMB22.3 million (US\$3.1 million), respectively was deposited with financial institutions located in the Chinese mainland and Hong Kong.

A majority of our expense transactions are denominated in RMB and a significant portion of our (and our subsidiaries) assets and liabilities (including the VIEs) are denominated in RMB. RMB is not freely convertible into foreign currencies. In the PRC certain foreign exchange transactions are required by law to be transacted only by authorized financial institutions at exchange rates set by the PBOC. Remittances in currencies other than RMB by us in China must be processed through the PBOC or other PRC foreign exchange regulatory bodies which require certain supporting documentation in order to effect the remittance.

The financial institutions that we use include Bank of China, Industrial and Commercial Bank of China and Agriculture Bank of China, which are Listed Banks in PRC capital markets. In China, banks are endorsed by the government. While we believe that these financial institutions are of high credit quality, we continue to monitor their credit worthiness.

We actively manage our cash conversion cycle to improve working capital, and our cash conversion cycle has increased from 12.43 days for the year ended December 31, 2022 to 17.80 days for the six months ended June 30, 2023. This was mainly a result of the change in sales mix from online sales to offline sales resulting in a longer cash conversion cycle. Days sales outstanding increased from 39.10 days for the year ended December 31, 2022 to 50.84 days for the six months ended June 30, 2023 and net inventory turnover days decreased from 21.15 days for the year ended December 31, 2022 to 17.13 days for the six months ended June 30, 2023. Also, there is a decrease in net days payables outstanding of 47.82 days to 50.17 days from the year ended December 31, 2022 to the six months ended June 30, 2023.

We intend to finance our future working capital requirements and capital expenditures from cash generated from operating activities and funds raised from financing activities. We believe that our current cash and cash equivalents, together with our cash generated from operating activities and new financing activities, will be sufficient to meet our present and anticipated working capital requirements and capital expenditures. However, we may decide to enhance our liquidity position or increase our cash reserve for future investments or operations through additional capital and finance funding. Issuance of additional equity securities, including convertible debt securities, would dilute our earnings per share. The incurrence of debt would divert cash for working capital and capital expenditures to service debt obligations and could result in operating and financial covenants that restrict our operations and our ability to pay dividends to our shareholders.

We also utilise short-term and long-term banking facilities to fund our listing expenses, and to manage our working capital requirements. Short-term banking facilities are mainly drawn from financial institutions such as Hang Seng Bank (“HSB”) and Hong Kong and Shanghai Banking Corporation (“HSBC”), while we utilise long-term

banking facilities from Bank of China (“BOC”) and Industrial and Commercial Bank of China (“ICBC”). As at June 30, 2023, short-term bank loans amount to RMB53.5 million (US\$7.4 million), current portion of long-term bank loans amount to RMB1.3 million (US\$0.2 million), and long-term bank loans amount to RMB1.6 million (US\$0.2 million). As at December 31, 2022, short-term bank loans amount to RMB54.8 million (US\$8.0 million), current portion of long-term bank loans amount to RMB2.0 million (US\$0.3 million), and long-term bank loans amount to RMB1.7 million (US\$0.2 million).

## Internal Control Over Financial Reporting

Prior to this offering, we have been a private company with limited accounting personnel and other resources with which we address our internal control over financial reporting. We and our independent registered public accounting firm identified one material weakness in our internal control over financial reporting as of December 31, 2022. As defined in the standards established by the PCAOB, a “material weakness” is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

The material weakness that has been identified relates to our lack of sufficient financial reporting and accounting personnel with appropriate understanding of accounting principles generally accepted in the United States of America (“U.S. GAAP”) and financial reporting requirements set forth by the Securities and Exchange Commission (“SEC”) to formalize, design, implement and operate key controls over financial reporting process to address complex U.S. GAAP accounting issues and related disclosures, in accordance with U.S. GAAP and SEC financial reporting requirements. We are in the process of implementing a number of measures to address the material weakness identified, including: (1) hiring additional accounting and financial reporting personnel with U.S. GAAP and SEC financial reporting experience, (2) expanding the capabilities of existing accounting and financial reporting personnel through continuous training and education in the accounting and financial reporting requirements under U.S. GAAP, and SEC rules and regulations, (3) establishing clear roles and responsibilities to develop and implement formal comprehensive financial period-end closing policies and procedures to ensure all transactions are properly recorded and disclosed, and (4) establishing effective monitoring and oversight controls for non-recurring and complex transactions to ensure the accuracy and completeness of our consolidated financial statements and related disclosures. We are in the process of sourcing for additional personnel suitable for the role, but we do not expect a material cash requirement to arise from the remediation efforts.

The process of designing and implementing an effective financial reporting system is a continuous effort that requires us to anticipate and react to changes in our business and the economic and regulatory environments and to expend significant resources to maintain a financial reporting system that is adequate to satisfy our reporting obligation. See “Risk Factors — Risks Related to Our Securities — We have identified one material weakness in our internal control over financial reporting. If our remediation of the material weakness is not effective, or if we experience additional material weaknesses in the future or otherwise fail to maintain proper and effective internal control over financial reporting, our ability to produce accurate and timely consolidated financial statements could be impaired, investors may lose confidence in our financial reporting and the trading price of our Class A ordinary shares may decline.”

## **Quantitative and Qualitative Disclosure about Market**

### Risk Interest Rate Risk

Our exposure to interest rate risk primarily relates to the interest income generated by excess cash, which is mostly held in interest bearing bank deposits. We have not used derivative financial instruments to manage our interest risk exposure. Interest earning instruments carry a degree of interest rate risk. We have not been exposed to nor do we anticipate that we will be exposed to, material risks due to changes in market interest rates.

### Credit Risk

Financial instruments that potentially subject us to significant concentrations of credit risk consist primarily of cash and cash equivalents, accounts receivable, other receivables included in prepaid expenses, other current assets, and amounts due from related parties. As of December 31, 2022 and June 30, 2023, RMB26.8 million and RMB22.3 million (US\$3.1 million), respectively, were deposited with major financial institutions located in the Chinese mainland and Hong Kong. Management believes that these financial institutions are of high credit quality and continually monitor the credit worthiness of these financial institutions. Historically, deposits in Chinese banks are secure due to the state policy on protecting depositors’ interests.

For the credit risk related to accounts receivable, we perform ongoing credit evaluations of customers. we establish an allowance for doubtful accounts based upon estimates, factors surrounding the credit risk of specific customers and other information. The allowance amounts were immaterial for all periods presented.

### Foreign Exchange Risk

Substantially all of our businesses are transacted in RMB, which is not freely convertible into foreign currencies. On January 1, 1994, the PRC government abolished the dual rate system and introduced a single rate of exchange as quoted daily by the People’s Bank of China. However, the unification of the exchange rates does not imply the convertibility of RMB into USD or other foreign currencies. All foreign exchange transactions continue to take place either through the People’s Bank of China or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the People’s Bank of China. Approval of foreign currency payments by the People’s Bank of China or other institutions requires submitting a payment application form together with suppliers’ invoices, shipping documents and signed contracts.

## **New Acquisitions**

M&A is part of the company’s growth strategy. In 2022 and 2023, the company completed several acquisitions which marked the beginning of its multi-brand strategy. A multi-brand strategy puts the company in a good position to serve a wider spectrum of consumers across different pricing segmentations. It also allows the company to provide a wider and more representative range of Asian Food products to global customers. The company’s M&A strategy focuses on acquisition complimentary brands in the Asian Food category and also targets that can expand and strengthen the company’s sales network globally. M&A is an important part of our strategy to establish our footprint and sales channel internationally. We are actively looking at potential targets in the US, Europe, Australia, SE Asia, and Middle East. Historically, virtually all of our sales have been in China. For example, our international sales were zero in 2022 and .17% of our total revenue for the six months ended June 30, 2023. As a group, we are targeting to have international sales to account for 20 – 30% of total revenue in 2024 and around 50% in 2025. There can be no assurances that we will be successful in generating revenues internationally. For example, our M&A strategy may not identify M&A candidates and acquisitions that are completed may not be successfully integrated into our operations and may not produce significant international revenues.

On February 1, 2022, the Company, through its wholly owned subsidiary, entered into a purchase agreement with Mr. LIN Kai Hang, Mr. SIO Leng Kit and Mr. Tang Wai Cheung, to acquire 51% shares of Lin's Group Limited ("Lin's Group"). Lin's Group have its own brand "Deliverz" and principally engaged in manufacturing and distribution of RTC products with its major online sales channel. This was an upstream integration where Lin's Group is the major supplier of RTC meal kits for the company's Hong Kong operations. This acquisition allows the company to optimize cost structure for the RTC meal kits in the Hong Kong market. It also enables the company to expand its product offerings with its own production facility.

On May 1, 2022, the Company, through its wholly owned subsidiary, entered into a purchase agreement with Mr. Gao Xiaomin, Mr. Zhang Yi and Ms Chen Di, to acquire 51% shares of Shanghai Lishang Trading Ltd, ("Lishang"). Lishang is principally engaged in distribution of private label products. This acquisition was completed during the nation-wide lock down when the company expedited its strategy to diversify revenue streams and improve overall margin structure. Lishang has strong sales channel access into the corporate gifting channel which carries higher margin compared to the company's existing e-commerce and offline distribution channels. By acquiring Lishang, the company now has healthier gross margins as well as access to sales and distribution partnerships with global FMCG brands such as Pepsi Co (Lays brand.) These partnerships in turn can help the company secure better traffic and overall sales conversion on social commerce platforms to drive higher sales for its own branded product business.

("Yujiaweng"), Mr. Zheng Dongfang and Ms. Han Min, acquire 60% interests of Yujiaweng's product sales business, primarily including distribution contracts, the sales and marketing team, procurement team and other supporting function personnel ("the YJW Target Assets"); and a purchase agreement with Keke (Fujian) Food Co., Ltd. On June 17, 2022, SH DDC and Mr. Zheng Dongfang set up QZ DDC to transfer the YJW Target Assets and Keke Target Assets. On the same day, SH DDC has obtained control over the Target Assets, and the results were consolidated into the Group. Whereas before the completion of the transferring of the target assets, SH DDC would have the right to receive 60% of the net profits generated by the target business and participate in the management.

On April 1, 2023, SH DDC and the Company entered into a purchase agreement with Mr. Zhang Yi, Ms. Shen Zhouzhou and Ms. Chen Di, to acquire 51% equity interest of Shanghai Yuli Development Limited ("Yuli") for cash of RMB4.1 million. In addition, the Company will issue share options of DDC equivalent to a value of approximately RMB24.5 million. The number of share options is subject to adjustments, based on certain performance targets to be achieved during the performance period. Yuli is principally engaged in sales of RTC and RTE product giftboxes. The acquisition of Yuli is expected to give the Company access to a wide range of new offline enterprise customers. The acquisition of 51% equity interest of Yuli was completed in the third quarter of 2023.

On April 30, 2023, SH DDC entered into a purchase agreement with four entities controlled by Mr. Liao Xuefeng, (together as "the Sellers") to acquire 100% interest in four online stores on Pinduoduo platform ("collectively referred to as PDD Stores"), for cash of approximately RMB402,755, subject to adjustments during the subsequent performance periods. PDD Stores are principally engaged in online sales of self-heated hotpots. This acquisition enables the Company to expand its custom traffic through a wide range of online channels and broadens the source of income of the Company. As of 30 June 2023, the Company has completed the transaction. As of August 19, 2023, the Company terminated the purchase agreement signed on April 30, 2023, to acquire 100% interest in PDD Stores. As a result of the termination of purchase agreement with the PDD Stores, we expect to be able to focus our capital and efforts on selling our products through online e-commerce platforms and offline distributors and retailers to overseas markets. We intend for the termination of business streams to reduce the company's overall net losses, and free up capital to be allocated into our other fast growing RTC, RTE and plant based product businesses.

On May 26, 2023, the Company entered into a purchase agreement with Ms. Nona Lim and other selling shareholders to acquire 100% interest in Cook San Francisco, LLC., for cash of US\$1,977,516, and shares of DDC equivalent to a value of approximately US\$1,318,374. Cook San Francisco, LLC. operates the brand "Nona Lim", an Asian food brand sells RTC product based in USA. This acquisition enables the Company to expand its customer base into the US market. As of 30 June 2023, the Company had signed the transaction documents, and was in the process of obtaining control of Cook San Francisco, LLC, which has subsequently been completed in July 2023.

## INDUSTRY OVERVIEW

*We are responsible for the information contained in this prospectus and any free writing prospectus we prepare or authorize. Unless otherwise indicated, all information and data provided in the section is cited from the industry report issued by Frost & Sullivan. Although we believe the data and information included in the Frost & Sullivan report to be reliable, we have not independently verified the accuracy or completeness of the information and data included therein. This section also includes projections based on a number of assumptions. The RTC and plant-based products industries may not grow at the rate projected by market data, or at all. Failure of these markets to grow at the projected rate may have a material and adverse effect on our business and the market price of the Class A Ordinary Shares.*

China's rapid economic growth and urbanization has resulted in (i) an increase in per capita annual disposable income and (ii) a shift in consumption patterns and behavior across multiple spend categories. According to an independent report published by Frost & Sullivan in 2022, China's per capita annual disposable income of urban residents increased by 6.8% YoY from RMB36,400 (US\$5,384)<sup>1</sup> in 2017 to RMB47,400 (US\$7,013) in 2021. Per capita annual disposable income is projected to grow by 6.1% YoY to RMB63,700 (US\$9,418) in 2026. Consumer confidence in China also continues to improve. According to the same report, per capita annual expenditures increased by 5.5% YoY from RMB24,400 (US\$3,616) in 2017 to RMB30,300 (US\$4,483) in 2021. China's per capita annual expenditures are expected to continue to grow, at 4.3% YoY to RMB37,500 (US\$5,541) by 2026. In terms of spend categories, food, tobacco, and alcohol is expected to remain the largest category, constituting over 23% of total annualized spending during the forecast period (2022-2026).

China's infrastructure investments will also serve to further democratize access to products and services. This is best illustrated by improving internet and mobile subscriber penetration rates. According to the same Frost & Sullivan report, the total number of internet users in China increased from 772.0 million in 2017 (or 55.5% penetration rate) to 1,032.0 million in 2021 (or 73.1% penetration rate). Internet penetration is expected to grow by 3.6% YoY and reach 86.3% (or 1.2 billion) by 2026. During the same time period, the number of mobile internet user increased from 752.7 million (or 97.5% penetration) in 2017 to 1,028.7 million (or 99.7% penetration rate) in 2021 and is expected to grow by 3.7 % YoY and reach 99.9% (or 1.2 billion) by 2026.

Increased disposable income, a willingness, and an interest to spend, favorable domestic social and economic reforms promoting a healthier lifestyle, life-choices, a shift in consumer preferences to convenience without compromising on quality and/or nutritional value coupled with improvements in China's physical and technological infrastructure will continue to create tailwinds for the food industry. We are well placed to benefit from these favorable market conditions now and going forward.

### Ready-to-Cook (RTC)

*Note: the revenues generated from RTH products have been incorporated in the market*

**Source:** Frost & Sullivan

<sup>1</sup> RMB-to-USD FX spot-rate conversion of 0.15 (as of September 23, 2021)

According to an independent report published by Frost & Sullivan in 2022, the China RTC market grew from RMB94.3 billion (US\$13.9 billion) in 2017 to approximately RMB254.8 billion (US\$37.7 billion) in 2021, at a Compound Annual Growth Rate (“CAGR”) (2017 – 2021) of 28.2%. As the China RTC market is expected to benefit from a shift in customer taste and preferences to convenient cooking and meal options, the RTC market is expected to grow to RMB564.5 billion (US\$83.5 billion) by 2026, a CAGR (2021 – 2026) of 17.2%.

Source: Frost & Sullivan

The frozen ready-to-cook (“FRTC”) sub-category has historically contributed more than 55% of total RTC revenue. It is expected to contribute an outsized portion of the future revenue during the forecast period. Of the three sub-categories, Chilled Ready-to-Cook (“CRTC”) has grown the fastest with a CAGR (2017 – 2021) of 30.9%. The CRTC category is expected to continue to experience double-digit growth, CAGR (2021 – 2026) of 18.6% during the forecast period. Total revenue for CRTC is expected to increase from RMB15.5 billion (US\$2.3 billion) in 2021 to RMB36.3 billion (US\$5.4 billion) by 2026.

The significant growth in the FRTC and CRTC sub-categories is attributable to a shift in consumer preferences and behavior from cooking a meal from scratch to meals at the intersection of short preparation time, convenience and perceived to be relatively more healthy (fewer preservatives etc.) when compared to the shelf-stable options.

Source: Frost & Sullivan

The other sub-category, Shelf Stable Ready-to-Cook (“SSRTC”) is also expected to experience double-digit growth, CAGR (2021 – 2026) of 17.8% during the forecast period. Total revenue for SSRTC is expected to increase from RMB93.0 billion (US\$13.8 billion) in 2021 to RMB211.2 billion (US\$31.2 billion) by 2026.

Both traditional and emerging consumer brands operate within SSRTC two sub-categories. Both types of companies are expected to experience double-digit growth, 12.1% and 26.0% respectively during the forecast period. This is primarily due to broader RTC industry tailwinds and the shift in customer preference to meal options that are convenient. As a leader in the emerging brand category with agile product R&D capabilities and proven product and go-to-market execution capabilities, we are well placed to benefit from the expected growth in demand.

With (i) the proliferation of food delivery service options, (ii) a shift in customer preference and behavior away from home-cooked to convenience, and (iii) an increase in GDP per capita/overall disposable income (both in our target demographic and in-general) the demand for RTC/RTH products has increased significantly. Customers have also become more discerning and expect RTC/RTH products to be of a high quality, have a higher nutritional value, and taste better when compared with other processed or semi-processed food product categories. Typically, RTC meals are made using high-quality and seasonal ingredients with full traceability at every stage of the food chain and a focus on nutritional value and maintaining a balanced diet is factored into the recipe and product R&D process.

COVID-19 has accelerated the shift to e-commerce and the need to develop and professionalize China's cold chain transport infrastructure. The logistics industry is benefiting from the proliferation of professional third-party logistics service providers as well as improvements in preservation/storage, information logistics, analysis, and distribution technology. As a result of improvements in logistical infrastructure and the scale of the distribution network, the RTC industry has been able to expand its geographical reach, improve product delivery efficiency, and guarantee food safety and maintain quality over larger distances.

### Plant-based products

Plant-based meal products are meal products consisting largely or solely of vegetables, fruits, grains and other foods derived from plant-based protein, rather than animal protein. Plant-based products are a nascent FMCG category in China. Some Chinese brands have recently emerged as strong competitors to the more international incumbents. Younger individuals are the target demographic of companies offering plant-based substitutes/alternatives. Many new brands have been able to penetrate the younger customer segment by adopting an omnichannel strategy and by offering good quality, varied product offerings at a reasonable price-point.

According to Frost & Sullivan, plant-based products have experienced relatively fast growth in China, increasing from RMB2.8 billion (US\$415.6 million) in 2018 to RMB5.1 billion (US\$757.3 million) in 2021; a CAGR (2018 – 2021) of 22.1%. Demand for food products that are more environmentally friendly and viable alternatives to/substitutes for traditional protein sources is expected to increase. As a result, the market for plant-based products is expected to experience a CAGR (2021 – 2026) of 11.0%. Total revenue to projected to increase from RMB5.1 billion (US\$757.3 million) to RMB8.6 billion (US\$1.3 billion) during the forecast period.

Source: Frost & Sullivan

The technology and production supply-chain for plant-based products has improved markedly in the last few years to the point where plant-based and animal-based meat products are comparable from a taste, texture, and flavor standpoint. Leading plant-based meat companies e.g., Beyond Meat, Impossible Burgers etc., continue to spend heavily on R&D to accelerate product development and technological innovation within the space.

## BUSINESS

### Our Mission

Our mission is to inspire others to enjoy cooking as part of a quality lifestyle and culture. We are driven to improve lives by creating easy-to-cook, delicious, and healthy meal solutions. It is our vision to create fun experiences and inspirations in every kitchen.

### Overview

We are a food innovator with leading content driven (i.e. using content to reach and engage target customers) consumer brands offering easy, convenient ready-to-heat (“RTH”), ready-to-cook (“RTC”) and plant-based meal products (i.e. meal products consisting largely or solely of vegetables, fruits, grains and other foods derived from plant-based protein, rather than animal protein) while promoting healthier lifestyle choices to our predominately Millennial and Generation Z (“GenZ”) customer-base. We are also engaged in the provision of advertising services.

We were founded in Hong Kong in 2012 by Ms. Norma Ka Yin Chu, a highly regarded entrepreneur and a true cooking enthusiast, as an online platform which distributed food recipes and culinary content. Subsequently, we further expanded our business to provide advertising services to brands that wish to place advertisements on our platform or video content. In 2015, we entered the Mainland China market through the establishment of Shanghai DayDayCook Information Technology Co., Ltd (“SH DDC”) to engage in technology development of computer software, food circulation and advertising production in China. In 2017, we expanded our business from content creation to content commerce. Later in 2019, we extended our business to include the production and sale of, among others, own-branded RTH, RTC convenient meal solution products.

As of June 30, 2023, our main product categories include (i) own-branded RTH products — typically pre-or-semi-cooked meals with some but minimal preparation required ahead of serving, (ii) own-branded RTC products — ready to be consumed within 15 to 20 minutes with some additional cooking preparation, and (iii) plant-based meal products localized for the palate of a Chinese consumer, and (iv) private label products (i.e. third party branded food products).

### Business Model

Our omni-channel (online and offline) sales, end-to-end (“E2E”) product development and distribution strategy, and data analytics capabilities enable us to successfully identify, assess, and pivot to cater to changing consumer preferences and trends across multiple customer segments and price-points. From a product distribution standpoint, we have created a network of direct-to-customer (“D2C”), retailer, and wholesaler sale options.

- We leverage (i) large China-based e-commerce platforms e.g., Tmall, JD.com, Pinduoduo, (ii) leading livestreaming, video-sharing, content-marketing platforms e.g., ByteDance (TikTok and sister-app Douyin), Bilibili, Weibo, Little Red Book (小红书), Kuaishou etc., and (iii) online-merged-offline (OmO) group-buy platforms e.g., Meituan-Dianping to drive online sales. We would cooperate with third-party online distributors on these e-commerce platforms to promote and sell our products.

- We have access to a network of offline point-of-sales (“POS”) through partnerships with (i) convenience stores e.g., 7/11, Lawson etc., (ii) multi-national retail corporations e.g., Carrefour, Hema etc., (iii) boutique supermarket chains e.g., Ole’, G-Super etc., and (iv) various corporate partnerships e.g., Towngas to distribute and sell our products.

As of June 30, 2023, we had 24.5 million paid customers. Around 69% of our followers on social media & video platforms are GenZ. 50% of customers are from the Eastern & Southern parts of China, and 86% are female. In particular, we believe that our products appeal to GenZ because (1) when compared to older age groups, GenZ generally do not want to spend a long time cooking at home and they value cost effective options like RTC, RTH and RTE meals due to the ease of cooking that RTC, RTH and RTE products provide; (2) we promote our products mainly through social media, the audience of which are mainly the GenZ population; (3) we mainly sell our products through e-commerce platforms, including livestreaming e-commerce, the customers demographics of which are dominated by GenZ; (4) plant-based diets have progressed from a food trend to a globally recognized lifestyle which GenZ is more willing to embrace. The average age of a viewer engaging with our products or marketplace is younger than 30 years old. From 2018 to June 2023, we have a content library with more than 247,874 minutes of in-house created content.

For the six months ended June 30, 2023, we recorded RMB89.4 million (or US\$12.3 million) in total revenue compared to RMB66.8 million for the six months ended June 30, 2022, representing a 33.9% increase. Subsequent to June 30, 2023, we completed two acquisitions. Assuming these two acquisitions had taken place on January 1, 2023, the unaudited pro forma revenue of the Company for the six months ended June 30, 2023 would be RMB123.6 million (or US\$17.0 million).

For the year ended December 31, 2022, we recorded RMB179.6 million (or US\$24.8 million) in total revenue. This drop in revenue was largely a result of negative impact from extended zero-covid policy in China which led to massive disruptions in the company’s e-commerce operations. In the face of this challenge, we completed four acquisitions in 2022 to speed up the diversification of revenue streams as well as aggressive improvement on overall cost structure. Equally important, our focus has been on improving the overall cost structure of the business when facing Covid and inflation challenges. As a result, for the year ended December 31, 2022, our gross profit margin increased to 24.5% versus 17.8% for the year ended December 31, 2021. Assuming these four acquisitions had taken place on January 1, 2022, the unaudited pro forma revenue of the Company for the year ended December 31, 2022 will be RMB231.9 million (or US\$32.0 million).

Please refer to “*Management’s Discussion and Analysis of Financial Condition and Results of Operations — New Acquisitions*” for details.

## **OUR COMPETITIVE STRENGTHS**

### ***Innovative, Leading Content Driven Consumer Brand in China that Possess Loyal Customer Base, and Clear Alignment with Consumer Trends***

We are a food innovator with leading content-driven lifestyle brands for young food lovers, especially GenZ customers in China. We believe that our RTH, RTC, RTE, and plant-based meal products portfolio aligns with broader Fast-Moving-Consumer-Goods trends and shifts in consumer behavior. Our products, brand, and mission resonate strongly with our GenZ customer base who seek high quality and nutritional food products that are sustainably and ethically sourced. As of June 30, 2023, more than 24.5 million consumers had purchased our products via one or more e-commerce platforms.

#### ***Track Record of Innovation***

We allocated and will continue to allocate significant resources to product innovation for our RTC and RTE products. We typically launch new products on a quarterly basis. To position us as a leader in the convenient RTC and RTE categories, we partnered with PFI Foods in the third quarter of 2020, cooperated with Meta Meat in 2021, both companies being leading plant-based meat manufacturers in mainland China, to develop a line of plant-based food products. In 2023, we have also launched a partnership with Nestle China using their Harvest Gourmet brand of plant based meat to bring the first-ever ambient RTC products to market.

In addition, the company is building a library of new product concepts and recipes, ready for further development and testing. We believe that we excel at identifying ingredient combinations, and flavor profiles that appeal to the palate of young Asian consumers. Leveraging our innovation capabilities, our experience in the Chinese markets and our deep understanding of the palate of Asian consumers, we are confident that when executing our international market expansion plan, we can introduce new product innovation and develop food products that appeal to other Asian communities and potentially an even wider audience on the global stage.

#### ***Omni-Channel and Multi-Faceted Sales & Distribution Strategy***

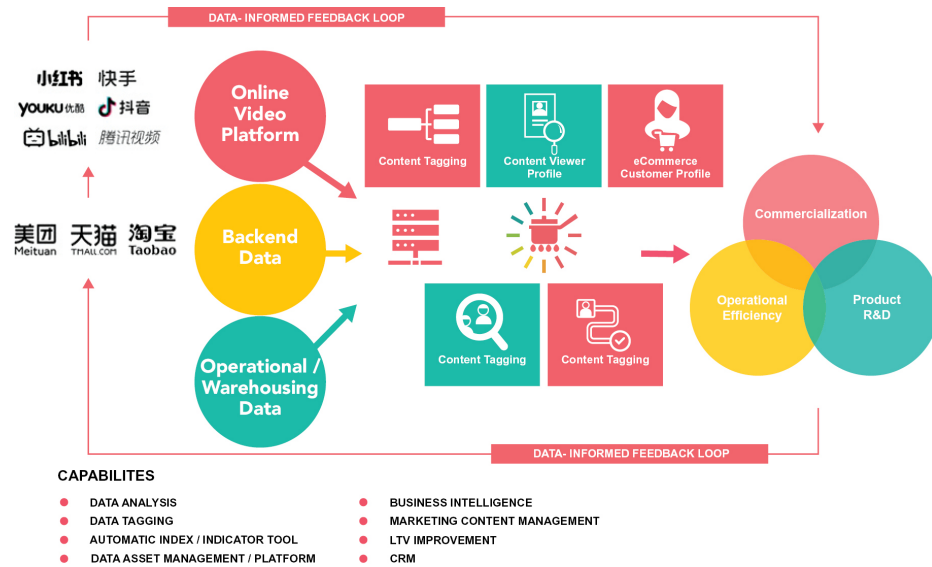

The company's core distribution strategy is to balance the revenue mix of online sales and offline sales. By leveraging the power of e-commerce, we tap into the growing digital market while providing various meal solutions to our consumers all around in mainland China. Simultaneously, we maintain a strong presence in physical retail through distributors, ensuring accessibility and brand visibility. This balanced distribution strategy enables us to capture diverse customer segments, optimize sales channels, and mitigate risks associated with concentration on a single distribution channel. In 2022, due to the impact of Covid outbreak in mainland China, we have encountered difficulties in meeting our customers' need online. As a result, about 60.9% of our revenue is contributing from offline consumer product sales for the year ended December 31, 2022. This trend continued, and for the six months ended June 30, 2023, 81.3% of our revenue is contributing from offline consumer product sales.

Our omni-channel (both offline and online) strategy spans (i) popular e-commerce channels e.g., Taobao and JD.com, (ii) social and content platforms e.g., TikTok, Kuaishou, Bilibili, and WeChat, and (iii) community group buying platforms e.g., Meituan-Dianping. From 2019 to March 2023, our online sales network included, among others, Tmall, JD.com, China Pinduoduo have attracted 107.18 million visitors and for the six months ended June 30, 2023, generated online consumer product sales of RMB16.4 million (US\$2.3 million), and for the year ended December 31, 2022, we have generated online consumer product sales of RMB67.0 million (or US\$9.2 million).

We will continue focus on bringing our customer best quality Asian meal solution, by implementing balanced distributing strategy. In 2023, the company's forecasted online sales will account for 50% of total sales, while offline sales will account for the remaining half.

#### ***Customer Engagement Analytics, Customer Service, and Real-Time ("RT") Feedback Capabilities***

We analyze transaction data, collect customer feedbacks through one or more channels, and engage in customer engagement analytics. This helps to (i) streamline the product development lifecycle and reduce the risk of a customer-product mismatch, (ii) uncover new (sub) product categories and/or potential bundling and/or up and cross-sell opportunities within the existing product portfolio, (iii) strengthen our brand image, and (iv) improve customer "stickiness" by providing customers with a forum.

### *E2E Supply Chain Visibility, Agile Product Development and Go-to-Market (“GTM”) Capabilities*

On average, we can deliver a new product to-market within 8 weeks. Our E2E supply chain visibility and strong product execution i.e., product concept, prototyping, product validation and recalibration, commercial manufacturing, product marketing and placement capabilities mean we can react almost real-time to changes in customer needs and preferences. As part of our more proactive new product development strategy, we leverage our deep industry and cross-disciplinary expertise to uncover potential market and product opportunities. We have an in-house content development team which focuses on building interest and demand pre product launch. They will keep abreast of latest market developments and identify latest potential trends and consumers interests. To promote our new products, we also collaborate with key opinion leaders (“KOLs” or “KOL”). We are well placed to continue to grow our market share and become the dominant player in the RTH, RTC, RTE, and plant-based meal products industry in mainland China.

### ***Experienced Management Team, Board of Directors, and Advisory Network***

We have an experienced management team. Members of our management team have significant experience across the FMCG, e-commerce, and IT services/technology, media, and telecommunications industries/sectors. More importantly, our management team comprises of a few selected individuals that offer strong understanding of the Chinese market as well as have extensive experiences in operating and expanding FMCG businesses in international markets.

## **OUR GROWTH STRATEGIES**

### ***International market expansion***

Internationally, the development history of mature overseas RTC and RTE markets nurtures an extensive customer base of RTC and RTE products. The COVID-19 pandemic further stimulates such demands in overseas markets as it alters people's lifestyle and arouse health consciousness, especially in Southeast Asia, to a great extent. Chinese companies in the RTC and RTE industry, attributable to their well-established value chains, are able to offer RTC and RTE products of competitive prices in markets like North America and Europe despite the additional logistic expenses. Thus, Chinese companies that are actively seeking international expansion opportunities are well positioned to further gain share in the global RTC and RTE market.

Moreover, around the globe, the public has been paying more attention to environmental and natural resources protection over the past decades. Compared to foreign brands, domestic Chinese brands pay more attention to the recipe R&D and introduce various plant-based meat food products into the market, covering from Western cuisine to Chinese cuisine, including but not limited to Panini, pizza, hamburgers, braised rice, pies, noodles, and other products to cater consumers. The processed volume of soybean protein and pea protein in China contributes nearly half of the global volume every year, which provides a significant advantage in raw materials for Chinese plant-based meat food products companies.

In view of the above and to the extent permitted due to our recurring losses from operations and an accumulated deficit, we are raising funds from investors for the purpose of expanding our business in the U.S. and Southeast Asia in hope of widening our customer base.

For the U.S., we have devised a three-fold strategy: (1) to launch our products through major Asian-focused online and offline sales channels, (2) to launch our direct-to-consumer stores on Amazon and our U.S. website, and (3) to grow through acquisitions.

Since July 2022, we have successfully gained access to the U.S. market through sales on Yamibuy.com, one of the largest Asia food e-commerce platforms headquartered in the U.S.. In 2023, we have negotiated with major online Asia food e-commerce platforms and selected major Asian supermarket chains for our DayDayCook U.S. launch. As for the Southeast Asian market, we are currently negotiating with local companies that would give us instant access to a growing customer base in the RTC and RTE meal markets.

We expect that 10%-15% of 2023 revenue will be derived outside of China. We expect that in three years 30% of our revenue will be from outside of China, and in five years 50% of our revenue will be from outside of China.

### ***Enhance our sales and marketing capabilities, as well as our sphere of influence***

We will continue to monitor the performance of our e-commerce partners and platforms, adapt our product pricing strategy and offerings, and expand our fulfillment capabilities to support our revenue targets. We are raising funds from investors to deepen and broaden our existing partnerships and continue to expand cooperation with a wider network of influencers and KOLs to build our brand awareness. Also, we plan to engage more up-and-coming social e-commerce platforms to (i) drive higher traffic to our stores through more and closer collaborations; (ii) improve our ability to aggressively penetrate non-tier 1 cities and (iii) accelerate the growth of our paid customer base. In addition, we will continue to improve our sales and marketing capabilities and leverage the internet and various social media platforms to build brand awareness in non-Tier 1 cities in China. We will also engage content and social media marketing providers and platforms to drive an increase in average order value ("AOV"), repeat purchases, and to attract net-new users to our platform.

As of June 30, 2023, we had 24.5 million paid customers.

### ***Continue to innovate and expand product offerings***

We expect consumer demand for RTH, RTC, RTE and plant-based meal products to not only persist, but to grow at an accelerated rate. We plan to leverage our deep industry expertise, data-informed consumer insights, and predictive analytics to identify meaningful consumer trends and then partner with and solicit product feedback from our customers to optimize and expand on our existing product portfolio. We are committed to strengthening our R&D and product development capabilities to improve our ability to innovate more effectively within our core product categories.

### ***Mergers and Acquisitions (“M&A”) Rollup***

M&A is a key growth strategy going forward for the company in order for us to execute on the multi-brand strategy and also further diversify away from brand concentration risks and into markets outside of China. Historically, virtually all of our sales have been in China. For example, our international (meaning outside of China) sales were zero in 2022 and accounted for 0.17% of our total revenue for the six months ended June 30, 2023. We have already identified several targets but to the extent permitted due to our recurring losses from operations and an accumulated deficit, we will evaluate and opportunistically execute on strategic joint ventures (JV), potential investments and acquisition opportunities across the value-chain with a focus on supplementing and/or complementing our existing products, sales channels, customer-base and/or allow us to optimize our existing brand marketing and sales channel management capabilities. Examples of our acquisition criteria include: authentic founder story/brand positioning, quality product portfolio (clean label), good sales momentum (20% year over year growth), greater than \$10M to \$20M in sales, more than 30% gross margin and EBITDA accretive. Examples of synergies we hope to achieve include: R&D innovation at lower cost, G&A and logistics efficiencies, sales channel synergies, cross selling opportunities and improved marketing capabilities.

As a group, we are targeting to have international sales to account for 20 – 30% of total revenue in 2024 and around 50% in 2025. There can be no assurances that we will be successful in generating revenues internationally. For example, our M&A strategy may not identify M&A candidates and acquisitions that are completed may not be successfully integrated into our operations and may not produce significant international revenues. Apart from executing acquisitions with considerations paid through share exchanges, we are also raising funds from investors to have an option to acquire companies through a mixture of cash and shares.

**Ready-to-Heat (“RTH”)**

We offer a variety of affordable and convenient RTH products to our consumers, including self-heating hot pot and mixed rice. Our RTH products are meant to be convenient, simple, and designed to be consumed anywhere, anytime. We first launched our RTH product line in the fourth quarter of 2019. For the six months ended June 30, 2022 and 2023, the revenue from RTH products represents 20.6% and 3.5% of our overall sales, respectively. For the years ended December 31, 2021 and 2022, the revenue from RTH products represents 27.7% and 9.1% of our overall sales, respectively.

**Ready-to-Cook (“RTC”)**

RTC is a food category that eliminates the need for a consumer to purchase, wash, or prepare different ingredients for a given meal. Our RTC product line allows people without little to no cooking experience to enjoy high-quality food developed by famous chefs in as few as 15 minutes. For the six months ended June 30, 2022 and 2023, the revenue from RTC products represents 1.5% and 18.4% and of our overall sales, respectively. For the years ended December 31, 2021 and 2022, the revenue from RTC products represents 0.4% and 1.4% and of our overall sales, respectively.

**Ready-to-Eat (“RTE”)/Plant-based Meal Products**

Ready-to-Eat and our plant-based meal products are meal products consisting largely or solely of vegetables, fruits, grains and other foods derived from plant-based protein, rather than animal protein. We first launched our plant-based meal products in October 2020 in partnership with leading China-based alternative meat manufacturer PFI Foods to cater to growing demand for viable, Chinese cooking style and cuisine inspired alternatives to traditional meat products. Our products are high in protein and fiber, low in saturated and unsaturated fat, and cholesterol free. The purpose of our plant-based products is to provide our customers with an alternative to traditional meat products and a pathway to learn and try a more plant-based diet and lifestyle. For the six months ended June 30, 2022 and 2023, our RTE and plant-based products accounted for 38.2% and 37.8% of our overall sales, respectively. For the years ended December 31, 2021 and 2022, our RTE and plant-based products accounted for 19.3% and 19% of our overall sales, respectively.

### ***Private-Label Products***

We provide a marketplace, advertising, and content distribution and placement services to selected third-party brands and products. For the six months ended June 30, 2022 and 2023, private label products accounted for 32.9% and 39.9% of our overall sales, respectively. For the years ended December 31, 2021 and 2022, private label products accounted for 39.0% and 67.7% of our overall sales, respectively.

### ***Advertising Service***

Businesses may choose to promote their products by purchasing advertising services from us due to the popularity of our platform and video content. We mainly provide two types of advertising services to our clients: (1) customized promotional videos produced by our in-house content creation team; and (2) offline promotion and store exhibition which take the form of, for example, product display and placement at our pop-up stores and experience stores, the use of products during live cooking class instruction, etc.

Many of our advertising service clients are global brands from lifestyle-related industries, and they contract with us either directly or through agents. Advertising services accounted for a decreasing portion of our revenue. For the six months ended June 30, 2022 and 2023, advertising service contribute 0.9% and 0.3% of our total revenue, respectively. For the years ended December 31, 2021 and 2022, advertising service contribute 1.7% and 0.5% of our total revenue, respectively.

### ***Experience Stores***

The purposes of experience stores are to (i) build brand awareness, (ii) offer organized cooking classes to our users, and (iii) build our online-to-offline retail capabilities.

Revenues from experience stores also include sponsorship revenue from third-party brands that choose to advertise in our experience stores, and revenue from product sales at the experience stores. For the six months ended June 30, 2022 and 2023, revenues from experience stores contribute 0.5% and 0% of our total revenue, respectively. For the years ended December 31, 2021 and 2022, revenues from experience stores contribute 1.0% and 0.2% of our total revenue, respectively. As of the date of this prospectus, we have permanently closed down all experience stores.

## **Marketing Strategy**

### ***Content Marketing***

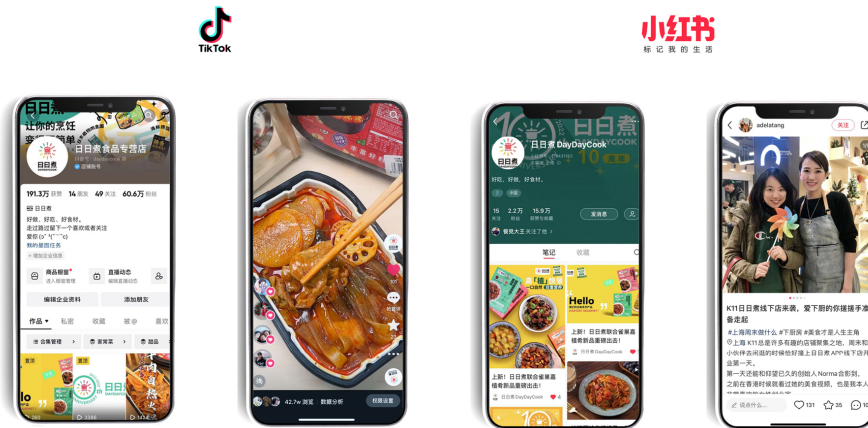

Our content marketing efforts start before and continue beyond product launch. For pre-launch, we create original multi-media content to educate users on the product(s) and to create user interest. At and after product launch, we shift to live streaming to promote our products, engaging KOL partners to live-stream product launches or special sales events on their personal online channels or inviting them to our branded experience stores to live-stream the product launches or special sales events on-site. For special occasions or festivals, we may invite top KOL partners to our headquarters or other corporate locations, such as factories of supply chain partners, to live-stream special sales events, which usually lead to record sales numbers during the livestream. We would also leverage the capabilities of our in-house content creation. For example, in our cooperation with KOLs, our in-house content creation team may provide the KOLs with our own marketing materials, such as video scripts and photos, for the KOLs to publish on their own platform. This can ensure that the marketing information would be accurate and at the same time reduces our costs as we do not need to rely on third party to produce the relevant marketing material for us.

### ***Social Media Marketing and Use of Micro-Influencers***

To expand our user and customer base, we regularly run promotional activities through official accounts on social media platforms such as WeChat, Weibo, TikTok, Kuaishou, including lightning deals, product giveaway lottery of user comments, free online cooking class videos, and store points for merchandise from our DayDayCook online shop, among others.

### **COMPETITION**

The food and e-commerce industries in China are highly competitive. We compete with different competitors in each of our business lines. Our current and potential competitors can be divided into different categories: (i) traditional RTH and emerging RTC food companies in China, (ii) major plant-based food companies in China, (iii) major content providers in China focused on food and (iv) other major internet companies in China that may enter the food-related content distribution or e-commerce business area.

When it comes to traditional versus emerging RTC companies, the main differences are emerging RTC companies (i) operate more of an asset-light model, (ii) tend to focus on R&D, (iii) engage in more sophisticated customer segmentation and predictive analytics, and (iv) primarily engage their target customer through one or more livestreaming, video-sharing, and/or content-marketing platforms.

When it comes to plant-based products, while foreign entrants have historically benefited from mature production technology for plant-based meat, many have struggled to (i) establish an E2E integrated supply chain and distribution network in China, (ii) localize product formulas including identifying the appropriate flavor, spice, and ingredient combinations that mesh with the fast-evolving tastes and preferences of the Chinese consumer, and (iii) offer one or more products at an affordable price-point. When compared with foreign entrants, local players, as included have a better pulse on customer preferences, the correct product pricing strategy, and GTM approach, which significantly de-risks/reduces the likelihood of a customer-product mismatch.

There are several key barriers-to-entry that have limited the number and success of foreign entrants, emerging, and traditional-cum-emerging brands that can and do compete directly with us. These include (i) brand awareness — we have a significant offline sales network (i.e. supermarkets, key local/national key accounts, convenience stores etc.,) in non-tier 1 cities in China and key partnerships with multiple online social commerce/live and video-streaming/content marketing platforms, (ii) strategic & preferred service agreements with product & distribution partners; (iii) E2E supply-chain visibility and predictive analytics capabilities that allow for real-time optimization of one or multiple aspects of the supply-chain, (iv) an agile, data-driven product R&D (8 weeks from concept-to-shelf) process — faster GTM when compared with both traditional & emerging players, and (v) a Board of Directors and Advisory Council with deep domain, relevant market and operator expertise, and network for partnership/M&A origination purposes.

### Supply Chain Management Strategy

We do not have our own supply chain and therefore we would actively look for suppliers who manage our manufacturing partners network efficiently. As of June 30, 2023, our PRC suppliers network comprises 20 supply chain partners and 36 active reserve suppliers for our existing products portfolio. Sometimes we would co-develop products with our selected suppliers — our product innovation team is responsible for recipe innovation which will then be passed to our partner-suppliers for recipe standardization in preparation for mass production. Upon our confirmation, our partner-suppliers will then proceed to production. We have also established warehouses and strategic co-manufacturers at a number of locations in the US and Singapore.

### Supply Chain Management

We have a centralized Enterprise Resource Planning (“ERP”) system to help manage our entire supply chain and fulfilment process. To improve coordination with supply chain partners and to streamline the process, supply chain partners have access to our ERP system. We implement varied supply chain management practices and processes for (i) B2C and (ii) B2B business models.

### Supply Chain Process for Products Sold to Individual Customers

For products sold to individual customers, we typically employ an order-driven drop shipping model, where our various supply-chain partners are responsible for producing, storing, and delivering our products. We typically engage, at our own cost, third-party logistics companies to handle logistics. We manage other aspects of the supply chain process, including customer service, refunds, and exchanges. This model (i) reduces the need for us to store inventory, which reduces fulfilment costs and inventory obsolescence risk, (ii) reduces turnaround and shipment response time, and (iii) guarantees the freshness of products shipped to our customers, which are often perishable.

As of June 30, 2023 we had a total of 36 active and reserved suppliers responsible for producing and distributing our products to customers. Based on usual framework agreements with supply chain partners, normally they are obligated to observe national health and quality standards for comparable products when producing our products. Our supply chain partners are also contractually obligated to complete a given order within ten (10) business days of receipt of our prepayment for the order and must adhere to contractual shipment timeliness requirements.

#### ***Supply Chain Process for Products Sold to Businesses***

For products sold to businesses, which are often our distribution partners e.g., offline retail chains and supermarkets, we typically adopt a bulk shipment model, under which supply chain partners are engaged to produce our products in bulk. We manage parts of inventory storage and delivery of these products to the distribution partners. We typically engage, at our own costs, third-party inventory management companies and logistics companies to manage our inventory and handle logistics. We ship bulk orders of our products to distribution partners. These products are then sold to end customers. Customer service and quality assurance responsibilities for these products typically fall on the businesses selling the products to end customers, with refunds and returns handled by the businesses directly.

We also contract with logistics partners for shipment of product to businesses and our experience stores. As of June 30, 2023 we had partnered with 709 distribution partners to sell our products in their stores and use four (4) logistics partners in Yiwu, Zigong, Chongqing, and Shanghai to deliver our products to businesses and our experience stores.

#### ***Supply Chain Disruption***

To mitigate the potential impact of COVID-19 (and future pandemics) and other business disruptions (e.g. geopolitical or trade conflicts, natural disasters, or cybercrime etc), we have taken and will continue to take proactive steps to diversify our supply chain, moving away from single-sourcing to a network of diverse, alternative, pre-qualified suppliers of raw materials needed to produce one or more of our products. This approach allows us to secure more favorable commercial terms with our existing suppliers and also reduces the risk of business disruption at one or more stages of the E2E supply chain.

#### ***Food Safety and Quality Control***

Selling food for human consumption poses inherent legal and regulatory challenges and there is growing government oversight and public awareness regarding food safety regulations and practices in China. Our internal processes, training, quality control, food safety measures and processes may not be effective in preventing the contamination of our food products, which could lead to instances of food-borne illness (e.g., E. coli, listeria, or salmonella). Unexpected side-effects, illness, injury, or death related to allergens, food-borne illnesses, voluntary or forced recall of one or more products and/or lapses in food safety could result in a loss of consumer confidence in the safety and quality of our products, which could materially impact our financial position, lead to the discontinuation of our business, or cause irreparable reputational damage. If we or any one of our suppliers or distribution partners are found to be or are considered non-compliant with food safety regulations, the State Administration for Market Regulation (SAMR) could institute enforcement and/or require a remediation framework and timeline, which could result in additional cost and/or an extended disruption to the manufacturing of our products. The shipment of adulterated or mislabelled products, even if inadvertent could result in criminal or civil liability. Food companies are also periodically targeted by large-scale tampering as well as opportunistic individual product tampering. This type of tampering may include product substitution and/or the introduction of foreign materials, objects, chemical contaminants, or pathogens into one or more consumer products.

Food safety, quality assurance, and maintaining high quality control standards are our top priorities. We utilize a comprehensive food safety and quality management program and have implemented strict manufacturing procedures. We employ individuals with expert technical knowledge in food safety science, conduct employee training on a quarterly basis, engage in continuous process review and improvement, prescribe the use of the highest quality ingredients, and conduct internal audits regularly. Our food safety and quality assurance process and system cover the entire production process from production to sales, providing guarantees for every step from procurement, production, storage, distribution to sales. Moreover, to ensure food safety and quality of products produced by our OEM supplier-partners, we would request our suppliers to engage third party audit specialist to perform factory audit and assess, among other things, the quality systems, workplace environment, record keeping and hygiene situations of our supplier-partners' factories.

## Technology and Infrastructure

We do not have our own technology and infrastructure development team. Instead, we engage third party system providers for our enterprise resource planning (“ERP”) systems. Currently we are using Wangdiantong and Jushuitan, which are both e-commerce ERP system software that covers purchase order management, inventory management, online platform order management and shipping, product costing management, customer information management, etc. Partnering with these professional ERP system providers will help us become an even more technology enabled company, improve our ability to identify fast-changing customer trends, and inform pivots in one or multiple aspects of our supply-chain management process, as well as our sales, and marketing efforts.

## Employees

As of June 30, 2023 we had 104 employees. All employees are based in China. The following table sets forth the number of employees by function as of June 30, 2023:

Function	Number of Employees	Percentage

Supply Chain Management	7	6.7%
Legal, Compliance, and Finance	20	19.2%
Technology & Product Design & Development	3	2.9%

Content Development	7	6.8%
<b>Total</b>	<b>104</b>	<b>100%</b>

Our success depends on our ability to attract, retain, and motivate employees. We offer employees competitive salaries, performance-based cash bonuses, equity-based incentives, comprehensive training and development programs, and other fringe benefits and incentives. We have maintained a good working relationship with its employees, and the Company has not experienced any material labor disputes or work stoppages.

As per PRC law, we participate in various government statutory employee benefit plans, including social insurance funds, namely, medical insurance, maternity insurance, workplace injury insurance, unemployment insurance, and pension benefits, as well as a housing provident fund. We are required under PRC law and from time-to-time by the local government to contribute to employee benefit plans. As of June 30, 2023, we have not experienced any significant disputes with our employees. None of our employees was represented by any labor union that engages in collective bargaining. We have also made provision on the respective under-payment of individual income tax of RMB526,788 and potential late charges levied by the government of RMB881,830.

We enter standard labor contracts with our employees. All employees sign a standard confidentiality agreement and certain key employees have signed non-compete agreements.

## Intellectual Property

We own domestic copyrights, trademarks, trademark applications, registrations, know-how, trade secrets, and other proprietary rights that are critical to our business and success. Our trademarks and their corresponding registrations are valid if they are used in the regular course of trade and/or their registrations are properly maintained. Our primary trademarks include DayDayCook (“日日煮”), Guomei (“锅妹”), Lashu (“辣叔”).

We proactively protect our proprietary rights by relying on trademark, copyright, trade dress and trade secret laws as well as confidentiality and non-compete agreements with our employees. We consider our marketing, promotions and products to be trade secrets. In addition, we consider any formulas, processes, know-how, and methods used in the production and manufacturing of one or more of our products to be proprietary. As such, we keep this information confidential.

As of June 30, 2023, we owned 279 trademarks, 1 copyright of works and 5 computer software copyrights in China, including three registered trademarks in Hong Kong, relating to various aspects of our operations.

Several logos we have used for years cannot be registered as trademarks in certain trademark categories in China because a company unaffiliated to us has pre-emptively registered similar logos as trademarks in such categories. As a result, we have been and will not be able to use such logos in areas covered by such trademark categories. Such company complained to the Market Supervision Bureau for the trademark infringement of SH DDC, and SH DDC has already applied for the invalidations of these trademarks at the State Intellectual Property Office, the SIPO, as well as indicted a serious of related administrative actions which have been already accepted by the court. As the trademarks under the legal proceeding are not relevant to our main business and we have adopted timely steps to make enough adjustments to relevant business, including stopped using them in any public place, the unavailability of these trademarks would not materially and adversely affect our business.

#### **Insurance**

We maintain various insurance policies to safeguard against risks and unexpected events. We also provide social security insurance to our employees as required by PRC law. We do not maintain business interruption insurance, nor do we have or maintain product liability insurance or key-man life insurance.

#### **Legal Proceedings and Compliance**

Several logos we have used for years cannot be registered as trademarks in certain trademark categories in China because a company unaffiliated to us has pre-emptively registered similar logos as trademarks in such categories. The principal regulation governing foreign currency exchange in China is the Foreign Exchange Administration Regulations, most recently amended on August 5, 2008. Under the Foreign Exchange Administration Regulations, payments of current account items, such as profit distributions and trade and service-related foreign exchange transactions, can be made in foreign currencies without a prior approval from the State Administration of Foreign Exchange, or the SAFE, saving the compliance cost in satisfying certain procedural requirements. However, approval from or registration with appropriate government authorities is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of foreign currency-denominated loans.

On August 29, 2008, the SAFE issued the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises, or the SAFE Circular 142, which regulated the conversion of foreign currency-registered capital into RMB by foreign-invested enterprises by restricting how the converted Renminbi may be used. The SAFE Circular 142 provided the registered capital of a foreign-invested enterprise, converted into Renminbi from foreign currencies, might only be used for purposes within the business scope approved by the applicable government authority, and such Renminbi capital might not be used for equity investments within China unless otherwise permitted by PRC law. The SAFE also strengthened its oversight of the flow and use of the Renminbi capital converted from foreign currency registered capital of foreign-invested enterprises. The use of such Renminbi capital might not be changed without SAFE's approval, and such Renminbi capital might not in any case be used to repay Renminbi loans if the proceeds of such loans had not been used. On March 30, 2015, the SAFE issued the Notice of the State Administration of Foreign Exchange on Reforming the Administration of Foreign Exchange Settlement of Capital of Foreign-invested Enterprises, or the SAFE Circular 19, which took effective and replaced the SAFE Circular 142 on June 1, 2015. Although the SAFE Circular 19 allows for the use of Renminbi converted from the foreign currency-denominated capital for equity investments in China, prohibitions continued to apply as to foreign-invested enterprises' use of the

converted Renminbi for (i) purposes beyond the business scope or expenditures prohibited by the laws and regulations of the state, (ii) directly or indirectly investing in securities unless otherwise provided by laws and regulations, (iii) providing entrusted loans in RMB (except where the business scope permits), repaying intercompany RMB loans (including advances from third parties) or repaying RMB loans from bank that have been transferred to third parties, (iv) paying the related expenses of purchasing real estate not for self-use except for foreign-invested real estate enterprises. The SAFE later promulgated the Notice of the State Administration of Foreign Exchange on Reforming and Standardizing the Foreign Exchange Settlement Management Policy of Capital Account, or Circular 16, which became effective on June 9, 2016, reiterates and replaces some of the rules set forth in Circular 19. For instance, Circular 16 alleviates the restrictions on using Renminbi capital converted from foreign currency-denominated registered capital of a foreign-invested company to issue Renminbi entrusted loans, replacing it with a prohibition against using such capital to issue loans to non-associated enterprises. According to SAFE Circular 16, the foreign exchange receipts under the capital account of a domestic institution shall be used pursuant to the principle of authenticity and self-use within its business scope. The foreign exchange receipts under the capital account of a domestic institution and the Renminbi funds obtained from foreign exchange settlement may be used by the domestic institution for expenditures under the current account within its business scope or the expenditure under the capital account permitted by laws and regulations. Such receipts and funds of the domestic institutions shall not be used for the following purposes: (i) directly or indirectly used for payment beyond the business scope of the enterprises or the payment prohibited by relevant laws and regulations; (ii) directly or indirectly used for investment in securities or other investments than principal-secured products of banks unless otherwise provided by relevant laws and regulations; (iii) directly or indirectly used for granting the granting of loans to non-affiliated enterprises, with the exception that such granting is expressly permitted in the business license; and (iv) used for construction or purchase of real estate for purpose other than self-use (exception applies for real estate enterprises). Where there is any contractual agreement on the use scope of receipt under the capital account between a domestic institution and other parties involved, the domestic institution shall not use such receipts and funds beyond the scope. Violations of the SAFE Circular 19 or Circular 16 could result in administrative penalties.

On October 23, 2019, the SAFE issued the Circular Regarding Further Promotion of the Facilitation of Cross-Border Trade and Investment, pursuant to which all foreign-invested enterprises can make domestic equity investments with their capital funds in accordance with the law. On April 10, 2020, the SAFE promulgated the Notice of the SAFE on Optimizing Foreign Exchange Administration to Support the Development of Foreign-related Business, according to which, under the prerequisite of ensuring true and compliant use of funds and compliance with the prevailing administrative provisions on use of income under the capital account, enterprises which satisfy the criteria are allowed to use income under the capital account, such as capital funds, foreign debt and overseas listing, etc. for domestic payment, without prior provision of proof materials for veracity to the bank for each transaction.

On November 19, 2012, the SAFE promulgated the Circular of Further Improving and Adjusting Foreign Exchange Administration Policies on Foreign Direct Investment which substantially amends and simplifies the current foreign exchange procedure. Pursuant to this circular, the opening of various special purpose foreign exchange accounts (e.g., pre-establishment expenses accounts, foreign exchange capital accounts and guarantee accounts), the reinvestment of lawful incomes derived by foreign investors in China (e.g. profit, proceeds of equity transfer, capital reduction, liquidation and early repatriation of investment), and purchase and remittance of foreign exchange as a result of capital reduction, liquidation, early repatriation or share transfer in a foreign-invested enterprise no longer require the SAFE approval, and multiple capital accounts for the same entity may be opened in different provinces, which was not possible before. In addition, the SAFE promulgated the Circular on Printing and Distributing the Provisions on Foreign Exchange Administration over Domestic Direct Investment by Foreign Investors and the Supporting Documents in May 2013, which specifies that the administration by the SAFE or its local branches over direct investment by foreign investors in the PRC shall be conducted by way of registration and banks shall process foreign exchange business relating to the direct investment in China based on the registration information provided by the SAFE and its branches.

On February 13, 2015, the SAFE promulgated the Circular on Further Simplifying and Improving the Policies Concerning Foreign Exchange Control on Direct Investment, or the SAFE Circular 13, which took effect on June 1, 2015 and was further amended on December 30, 2019. The SAFE Circular 13 delegates to certain banks the authority to enforce the foreign exchange registration requirements in connection with the inbound and outbound direct investment under relevant SAFE rules, therefore further simplifying the foreign exchange registration procedures for inbound and outbound direct investment.

## **Regulations on Foreign Exchange Registration of Offshore Investment by PRC Residents**

SAFE issued the Circular on Relevant Issues Concerning Foreign Exchange Control on Domestic Residents' Offshore Investment and Financing and Roundtrip Investment through Special Purpose Vehicles, or the SAFE Circular 37, which became effective on July 4, 2014. The SAFE Circular 37 requires PRC residents (including PRC institutions and individuals) to register with local branches of the SAFE in connection with their direct or indirect offshore investments in overseas SPVs. Under the SAFE Circular 37, a SPV refers to an offshore entity, directly established or indirectly controlled by PRC residents, for the purpose of offshore investment and financing, using their legitimate domestic or offshore assets or interests. Such PRC residents also required to amend their registrations with the SAFE when the basic information of registered SPVs changes (including change of the PRC residents, name and operating period of the SPV), or when such change is a significant (including PRC residents' increase or decrease of capital contribution in the SPV, transfer or exchange of shares, and merger or division of the SPV). Failure to comply with the registration procedures set forth in the SAFE Circular 37 may result in restrictions on the relevant onshore company's ability to conduct foreign exchange activities. Such restrictions include limiting payment of dividends and other distributions to an onshore company's offshore parent or affiliate, restricting capital inflow from the offshore entities and settlement of foreign exchange capital, and may subject relevant onshore company or PRC residents to penalties under PRC foreign exchange administration regulations.

Under SAFE Circular 13, applications for foreign exchange registration of inbound foreign direct investments and outbound overseas direct investments, including those required under SAFE Circular 37, will be registered with qualified banks instead of the SAFE. The qualified banks will directly examine the applications and accept registrations under the supervision of the SAFE or its local branch.

## **Regulation on Employee Share Options**

On December 25, 2006, the People's Bank of China promulgated the Administrative Measures for Individual Foreign Exchange, and on January 5, 2007, the SAFE promulgated Implementation Regulations for the Administrative Measures for Individual Foreign Exchange. On February 15, 2012, the SAFE issued the Notices on Issues concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plans of Overseas Publicly-Listed Companies, or the Stock Option Rules, which replaced the Application Procedures of Foreign Exchange Administration for Domestic Individuals Participating in Employee Stock Ownership Plans or Stock Option Plans of Overseas Publicly-Listed Companies issued by the SAFE on March 28, 2007. Pursuant to the Stock Option Rules, if PRC residents are granted shares or stock options by companies listed on overseas stock exchanges according to certain stock incentive plans, such residents are required to register with the SAFE or its local branches. PRC residents participating in the stock incentive plans of overseas listed companies shall retain a qualified PRC agent, which could be a PRC subsidiary of such overseas publicly-listed company or another qualified institution selected by such PRC subsidiary, to conduct the SAFE registration and other procedures with respect to the stock incentive plans on behalf of these participants. Such participants must also retain an overseas entrusted institution to handle matters relating to exercise of stock options, purchase and sale of corresponding stocks or interests, and fund transfer. The PRC agent must amend the SAFE registration with respect to the stock incentive plan if there is any material change to the stock incentive plan, the PRC agents or the overseas entrusted institution, or other material changes. The PRC agents shall, on behalf of the PRC residents who have the right to exercise the employee share options, apply to the SAFE or its local branches for an annual quota for the payment of foreign currencies in connection with the PRC residents' exercise of the employee share options. The foreign exchange proceeds received by the PRC residents from the sale of shares under the stock incentive plans granted and dividends distributed by the overseas listed companies must be remitted into the bank accounts in the PRC opened by the PRC agents before distribution to such PRC residents. In addition, the PRC agents shall file each quarter the form for record-filing of information of the Domestic Individuals Participating in the Stock Incentive Plans of Overseas Listed Companies with the SAFE or its local branches.

In addition, SAT has issued certain circulars concerning employee share awards. Under these circulars, for employees working in China, exercising share options or holding vested restricted shares will subject them to PRC individual income tax. The PRC subsidiaries of overseas publicly-listed companies have the obligations to file documents related to employee share awards with relevant tax authorities and withhold individual income taxes of those employees who exercise their share options or hold the vested restricted shares. If the employees

fail to pay their income taxes, or if such PRC subsidiaries fail to withhold such taxes, the PRC subsidiaries may face sanctions imposed by the tax authorities or other PRC government authorities according to relevant laws and regulations.

#### **Regulations on Dividend Distributions**

As the Foreign Investment Law came into effect on January 1, 2020 and replaced the Old FIE Laws, the principal regulations governing distribution of dividends paid by wholly foreign-owned enterprises include the Company Law, the EIT Law and its implementation rules.

Under the current regulatory regime in the PRC, foreign-invested enterprises in the PRC may pay dividends only out of their retained earnings, if any, determined in accordance with PRC accounting standards and regulations. A PRC company is required to set aside as statutory reserve funds at least 10% of its after-tax profit, until the cumulative amount of such reserve funds reaches 50% of its registered capital unless laws regarding foreign investment provide otherwise. A PRC company shall not distribute any profits until any losses from prior fiscal years have been offset. Profits retained from prior fiscal years may be distributed together with distributable profits from the current fiscal year.

#### **Regulations on Overseas Listings**

On August 8, 2006, six PRC regulatory agencies, namely, the MOFCOM, the State Assets Supervision and Administration Commission, the SAT, the former State Administration of Industry and Commerce, the China Securities Regulatory Commission, or the CSRC and the SAFE, jointly adopted the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rules, which became effective on September 8, 2006 and were amended on June 22, 2009. The M&A Rules purport, among other things, to require that offshore SPVs that are controlled by PRC companies or individuals and that have been formed for overseas listing purposes through acquisitions of PRC domestic interest held by such PRC companies or individuals, to obtain the approval of the CSRC prior to publicly listing their securities on an overseas stock exchange.

On July 6, 2021, the General Office of the Central Committee of the Communist Party of China and the General Office of the State Council jointly issued the Opinions on Strictly Cracking Down on Illegal Securities Activities According to Law (the “Opinions”), which called for strengthened regulation over illegal securities activities and supervision on overseas listings by China-based companies and propose to take effective measures.

On February 17, 2023, the CSRC issued the Trial Measures which became effective on March 31, 2023. On the same date, the CSRC circulated the Guidance Rules and Notice on the CSRC’s official website which became effective on March 31, 2023. Under the Trial Measures, either direct or indirect overseas offering and listing by domestic companies shall fulfill the filing procedure with the CSRC with submitting relevant materials. Any overseas offering and listing made by an issuer that meets both the following conditions will be determined as indirect: (1) 50% or more of the issuer’s operating revenue, total profit, total assets or net assets as documented in its audited consolidated financial statements for the most recent accounting year is accounted for by domestic companies; and (2) the main parts of the issuer’s business activities are conducted in the Chinese Mainland, or its main places of business are located in the Chinese Mainland, or the senior managers in charge of its business operation and management are mostly Chinese citizens or domiciled in the Chinese Mainland. The determination as to whether or not an overseas offering and listing by domestic companies is indirect, shall be made on a substance over form basis. When certain circumstances happen, overseas offering and listing shall not be made. And If the intended overseas offering and listing necessitates a national security review, relevant security review procedures shall be completed according to law before the application for such offering and listing is submitted to any overseas parties such as securities regulatory agencies and trading venues. Pursuant to the Trial Measures, the Guidance Rules and Notice, initial public offerings or listings in overseas markets shall be filed with the CSRC within 3 working days after the relevant application is submitted overseas, while domestic enterprises that have submitted valid applications for overseas offerings and listings but have not obtained the approval from the relevant overseas regulatory authority or overseas stock exchange shall complete filings with the CSRC prior to their overseas offerings and listings. If domestic enterprises fail to comply with the Trial Measures, they will be required to correct their behaviors, facing warnings and fines which amount will range from RMB1,000,000 to RMB10,000,000, and directly responsible personnel will also be warned and fined which amount will range from RMB500,000 to RMB5,000,000.

On February 24, 2023, the CSRC, together with the MOF, National Administration of State Secrets Protection and National Archives Administration of China, revised the Provisions on Strengthening Confidentiality and Archives Administration for Overseas Securities Offering and Listing, which were issued by the CSRC and National Administration of State Secrets Protection and National Archives Administration of China in 2009, or the “Provisions.” The revised Provisions were issued under the title the “Provisions on Strengthening Confidentiality and Archives Administration of Overseas Securities Offering and Listing by Domestic Companies”, and came into effect on March 31, 2023, together with the Trial Measures. One of the major revisions to the revised Provisions is expanding their application to cover indirect overseas offering and listing, as is consistent with the Trial Measures. The revised Provisions require that, among other things, (a) a domestic company that plans to, either directly or indirectly through its overseas listed entity, publicly disclose or provide to relevant individuals or entities including securities companies, securities service providers and overseas regulators, any documents and materials that contain state secrets or working secrets of government agencies, shall first obtain approval from competent authorities according to law, and file with the secrecy administrative department at the same level; and (b) a domestic company that plans to, either directly or indirectly through its overseas listed entity, publicly disclose or provide to relevant individuals and entities including securities companies, securities service providers and overseas regulators, any other documents and materials that, if leaked, will be detrimental to national security or public interest, shall strictly fulfill relevant procedures stipulated by applicable national regulations.

*Compensation Committee.*

Our compensation committee will consist of our three independent directors and is chaired by Mr. Samuel Chun Kong Shih. We have determined that he satisfies the “independence” requirements of Section 303A of the NYSE Corporate Governance Rules. The compensation committee assists the board in reviewing and approving the compensation structure, including all forms of compensation, relating to our directors and executive officers. Our chief executive officer may not be present at any committee meeting during which their compensation is deliberated upon. The compensation committee is responsible for, among other things:

- overseeing the development and implementation of compensation programs in consultation with our management;
- at least annually, reviewing and approving, or recommending to the board for its approval, the compensation for our executive officers;
- at least annually, reviewing and recommending to the board for determination with respect to the compensation of our non-executive directors;
- at least annually, reviewing periodically and approving any incentive compensation or equity plans, programs or other similar arrangements;
- reviewing executive officer and director indemnification and insurance matters; and
- overseeing our regulatory compliance with respect to compensation matters, including our policies on restrictions on compensation plans and loans to directors and executive officers.

*Nominating and Corporate Governance Committee.*

Our nominating and corporate governance committee will consist of our three independent directors, and is chaired by Mr. Matthew Gene Mouw. We have determined that he satisfies the “independence” requirements of Section 303A of the NYSE Corporate Governance Rules. The nominating and corporate governance committee assists the board in selecting individuals qualified to become our directors and in determining the composition of the board and its committees. The nominating and corporate governance committee is responsible for, among other things:

- recommending nominees to the board for election or re-election to the board, or for appointment to fill any vacancy on the board;
- reviewing annually with the board the current composition of the board with regards to characteristics such as independence, knowledge, skills, experience, expertise, diversity and availability of service to us;
- developing and recommending to our board such policies and procedures with respect to nomination or appointment of members of our board and chairs and members of its committees or other corporate governance matters as may be required pursuant to any SEC or NYSE rules, or otherwise considered desirable and appropriate;
- selecting and recommending to the board the names of directors to serve as members of the audit committee and the compensation committee, as well as of the nominating and corporate governance committee itself; and
- evaluating the performance and effectiveness of the board as a whole.

*Code of Business Conduct and Ethics*

In connection with this offering, we have adopted a code of business conduct and ethics, which is applicable to all of our directors, executive officers and employees and is publicly available.

### **Duties of Directors**

Under Cayman Islands law, our board of directors has the powers necessary for managing, and for directing and supervising, our business affairs. The functions and powers of our board of directors include, among others:

- convening shareholders' annual and extraordinary general meetings and reporting its work to shareholders at such meetings;
- declaring dividends and distributions;
- appointing officers and determining the term of office of the officers;
- exercising the borrowing powers of our company and mortgaging the property of our company; and
- approving the transfer of shares in our company, including the registration of such shares in our share register.

Under Cayman Islands law, directors owe the following fiduciary duties: (i) duty to act in good faith in what the director believes to be in the best interests of the company; (ii) duty to exercise powers for the purposes for which those powers were conferred and not for a collateral purpose; (iii) directors should not improperly fetter the exercise of future discretion; (iv) duty not to put themselves in a position in which there is a conflict between their duty to the company and their personal interests; and (v) duty to exercise independent judgment. In addition to the above, directors also owe a duty to act with skill, care and diligence. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth Courts have moved toward an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.

### **Risk Management**

One of the key functions of our board of directors is informed oversight of our risk management process. Our board of directors does not have a standing risk management committee, but rather administers this oversight function directly through our board of directors as a whole, as well as through various standing committees of our board of directors that address risks inherent in their respective areas of oversight. In particular, our board of directors is responsible for monitoring and assessing strategic and regulatory risk exposure, including monitoring the Company's compliance with cybersecurity and data protection rules and regulations, approving the Company's budget after considering various risks such as risks associated with supply chain, suppliers and key service provider, if any. Our board receives periodic reporting from our chief executive officer on cybersecurity and any other business operational risks.

### **Interested Transactions**

A director may, subject to any separate requirement for audit and risk committee approval under applicable law or applicable NYSE rules, vote in respect of any contract or transaction in which he or she is interested, provided that the nature of the interest of any directors in such contract or transaction is disclosed by him or her at or prior to its consideration and any vote in that matter.

### **Foreign Private Issuer Exemption**

We are a "foreign private issuer," as defined by the SEC. As a result, in accordance with the rules and regulations of NYSE, we may choose to comply with home country governance requirements and certain exemptions thereunder rather than complying with NYSE corporate governance standards. We may choose to take advantage of the following exemptions afforded to foreign private issuers:

- Exemption from filing quarterly reports on Form 10-Q, from filing proxy solicitation materials on Schedule 14A or 14C in connection with annual or special meetings of shareholders, from providing current reports on Form 8-K disclosing significant events within four (4) days of their occurrence, and from the disclosure requirements of Regulation FD.
- Exemption from Section 16 rules regarding sales of Ordinary Shares by insiders, which will provide less data in this regard than shareholders of U.S. companies that are subject to the Exchange Act.
- Exemption from the NYSE rules applicable to domestic issuers requiring disclosure within four (4) business days of any determination to grant a waiver of the code of business conduct and ethics to directors and officers. Although we will require board approval of any such waiver, we may choose not to disclose the waiver in the manner set forth in the NYSE rules, as permitted by the foreign private issuer exemption.

[Table of Contents](#)

- Exemption from the requirement that our board of directors have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities.
- Exemption from the requirements that director nominees are selected, or recommended for selection by our board of directors, either by (i) independent directors constituting a majority of our board of directors' independent directors in a vote in which only independent directors participate, or (ii) a committee comprised solely of independent directors, and that a formal written charter or board resolution, as applicable, addressing the nominations process is adopted.

If we rely on our home country corporate governance practices in lieu of certain of the rules of NYSE, our shareholders may not have the same protections afforded to shareholders of companies that are subject to all of the corporate governance requirements of NYSE. If we choose to do so, we may utilize these exemptions for as long as we continue to qualify as a foreign private issuer.

Although we are permitted to follow certain corporate governance rules that conform to Cayman Islands requirements in lieu of many of the NYSE corporate governance rules, we intend to comply with the NYSE corporate governance rules applicable to foreign private issuers, including the requirement to hold annual meetings of shareholders.

#### **Other Corporate Governance Matters**

The Sarbanes-Oxley Act of 2002, as well as related rules subsequently implemented by the SEC, requires foreign private issuers, including us, to comply with various corporate governance practices. In addition, NYSE rules provide that foreign private issuers may follow home country practices in lieu of the NYSE corporate governance standards, subject to certain exceptions and except to the extent that such exemptions would be contrary to U.S. federal securities laws.

Because we are a foreign private issuer, our members of our board of directors, executive board members and senior management are not subject to short-swing profit and insider trading reporting obligations under section 16 of the Exchange Act. They will, however, be subject to the obligations to report changes in share ownership under section 13 of the Exchange Act and related SEC rules.

#### **Compensation of Directors and Executive Officers**

Except as set forth in the table below, no executive officer has received any cash compensation for services rendered to us. We have not set aside or accrued any amount to provide pension, retirement or other similar benefits to our directors and executive officers.

None of our directors and executive directors have service contracts with DDC Cayman or any of its subsidiaries providing for benefits upon termination of employment.

#### Existing Employee Share Option Plan

We approved an employee option plan from 2014 to 2022 in order to provide incentives and rewards to our directors, senior management and employees (the “Existing ESOP”). Share options awarded under the Existing ESOP are vested based on the service conditions up to four years agreed with each of the participants in their grant letters, with exercise prices ranging from US\$0.0016 to US\$30.40. In addition, the share options can only be exercised and converted into shares upon the completion of our initial public offering. Each share option has a contractual life of 10 years. As of the date of this prospectus and immediately prior to the completion of this offering, a total of 1,822,714 shares were authorized under the Existing ESOP. Upon completion of this offering, outstanding options granted under the Existing ESOP will be exercisable for our Class A ordinary shares, and no further awards will be made under the Existing ESOP.

#### 2023 Employee Share Option Plan

Prior to the completion of this offering, we intend to adopt a new employee share purchase plan, or 2023 ESOP, which will be effective upon the completion of this offering, for the purpose of granting share-based compensation awards to our employees, directors and consultants to incentivize their performance and align their interests with ours. The following discussion is qualified in its entirety by the full text of the 2023 ESOP.

Options may be granted under the 2023 ESOP for up to such number of Class A Ordinary Shares as is equal to the sum of (a) 1,000,000 Class A Ordinary Shares; and (b) commencing on January 1, 2024, an annual increase, to be added on January 1 of each year, of up to 10% of the Company’s issued and outstanding Class A Ordinary Shares as of December 31 of the prior year; provided that the total number of Class A Ordinary Shares which may be issued upon exercise of all options to be granted to all participants under the 2023 ESOP and any other employee share option plan shall not in aggregate exceed 15% of the Company’s issued and outstanding Class A Ordinary Shares. As of the date of this prospectus, no options to purchase ordinary shares have been granted or exercised and no ordinary shares have been issued upon exercised vested options, in each case under the 2023 ESOP. Unless otherwise determined by our board of directors, participation in the 2023 ESOP will be open to all our employees. Participation in the ESOP will be voluntary. The 2023 ESOP will be administered by our board of directors, which may delegate its authority thereunder as contemplated by the 2023 ESOP. Our board of directors will have the authority, in the case of special dividends or distributions, specified reorganizations and other transactions, to determine appropriate equitable adjustments, if any, to be made under the 2023 ESOP, including adjustments to the number of shares which have been authorized for issuance under the 2023 ESOP. Our board of directors will have the right to suspend or terminate the 2023 ESOP, in whole or in part, at any time, subject to applicable laws and requirements of any stock exchange or governmental or regulatory body (including any requirement for shareholder approval). No amendment or variation of the 2023 ESOP shall be effective unless entered into in writing and executed by the Company and participants of the plan representing no less than three quarters of the total number of vested options following which such amendment shall be binding on all participants.

## PRINCIPAL SHAREHOLDERS

The following tables set forth information regarding the beneficial ownership of our ordinary shares as of the date of this prospectus by our officers, directors, and 5% or greater beneficial owners of ordinary shares. There is no other person or group of affiliated persons known by us to beneficially own more than 5% of our ordinary shares. The following tables assume that none of our officers, directors or 5% or greater beneficial owners of our ordinary shares will purchase shares in this offering. In addition, the following tables assume that the over-allotment option has not been exercised and reflecting a 1-for-16 Share Consolidation of our shares which will be effectuated upon shareholder approval before our initial public offering.

We have determined beneficial ownership in accordance with the rules of the SEC. These rules generally attribute beneficial ownership of securities to persons who possess sole or shared voting power or investment power with respect to those securities. The person is also deemed to be a beneficial owner of any security of which that person has a right to acquire beneficial ownership within 60 days. Unless otherwise indicated, the person identified in this table has sole voting and investment power with respect to all shares shown as beneficially owned by him, subject to applicable community property laws.

The calculations in the table below assume there were 17,208,140 ordinary shares (comprising 16,333,140 Class A Ordinary Shares and 875,000 Class B Ordinary Shares) outstanding immediately prior to this offering, including 10,875,670 Class A Ordinary Shares into which our outstanding convertible preference shares, warrants and options would convert concurrently with the completion of this offering, as well as shares issuable pursuant to anti-dilution arrangements. For purposes of computing percentage ownership after our initial public offering, we have also assumed that 4,250,000 Class A ordinary shares will be issued by us pursuant to this offering.

The summaries do not purport to be complete and are qualified in their entirety by reference to our Memorandum and Articles, which is filed as an exhibit to the registration statement of which this prospectus forms a part.

### Class A Ordinary Shares and Class B Ordinary Shares

*General.* Immediately prior to the completion of this offering, our authorized share capital will be changed into US\$1,614,000 divided into 100,000,000 Class A Ordinary Shares of par value US\$0.016 each and 875,000 Class B Ordinary Shares of US\$0.016 par value each. All of our outstanding Class A Ordinary Shares and Class B Ordinary Shares will be fully paid and non-assessable. Certificates representing the Class A Ordinary Shares will be issued in registered form. Our shareholders who are non-residents of the Cayman Islands, may freely hold and transfer their Class A Ordinary Shares in accordance with our Memorandum and Articles and applicable law.

*Dividends.* The holders of our Class A Ordinary Shares are entitled to such dividends as may be declared by our board of directors. Our Articles provide that our board of directors may declare and pay dividends if justified by our financial position and permitted by law.

*Voting Rights.* Holders of our Class A Ordinary Shares and Class B Ordinary Shares vote on all matters submitted to a vote of our shareholders, except as may otherwise be required by law. In respect of matters requiring shareholders’ vote, each Class A ordinary share is entitled to one vote, and each Class B ordinary share is entitled to ten votes. At any general meeting a resolution put to the vote of the meeting shall be decided on a show of hands unless voting by poll is required by NYSE rules or demanded by the chairman of the meeting, by at least two shareholders having the right to vote on the resolutions, or by shareholder(s) together holding at least 10% of the total voting rights of all our shareholders having the right to vote at such general meeting. A quorum required for a meeting of shareholders consists of one or more shareholders who holds at least one-third of our issued voting shares. Shareholders’ meetings may be held annually. Each general meeting, other than an annual general meeting, shall be an extraordinary general meeting. Extraordinary general meetings may be called by a majority of our board of directors or upon a requisition of any one or more shareholders holding at the deposit of the requisition at least 10% of the aggregate share capital of our company that carries the right to vote at a general meeting, in which case on advance notice of at least 7 calendar days is required for the convening of our annual general meetings and extraordinary general meetings.

Any ordinary resolution to be made by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the Class A Ordinary Shares and Class B Ordinary Shares cast in a meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes attaching to the Class A Ordinary Shares and Class B Ordinary Shares cast in a meeting.

A special resolution will be required for important matters such as amending our memorandum and articles of association or changing the name of the Company.

There are no limitations on non-residents or foreign shareholders in the memorandum and articles of association to hold or exercise voting rights on the Class A Ordinary Shares imposed by foreign law or by the charter or other constituent document of our company. However, no person will be entitled to vote at any general meeting or at any separate meeting of the holders of the Class A Ordinary Shares and Class B Ordinary Shares unless the person is registered as of the record date for such meeting and unless all calls or other sums presently payable by the person in respect of their shares in the Company have been paid.

*General Meetings of Shareholders.* As a Cayman Islands exempted company, we are not obliged by the Companies Act to call shareholders' annual general meetings. Our Memorandum and Articles provide that we may (but are not obliged to, unless as required by applicable law or the NYSE rules in each year hold a general meeting as our annual general meeting in which case we will specify the meeting as such in the notices calling it, and the annual general meeting will be held at such time and place as may be determined by our directors.

Shareholders' general meetings may be convened by a majority of our directors (acting by a resolution of our board). Advance notice of at least seven calendar days is required for the convening of our annual general shareholders' meeting (if any) and any other general meeting of our shareholders. A quorum required for any general meeting of shareholders consists of one or more of our shareholders holding shares which carry in aggregate (or representing by proxy) not less than one-third of all votes attaching to the issued and outstanding shares in our company entitled to vote at such general meeting.

The Companies Act does not provide the shareholders with the right to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our Memorandum and Articles provide that upon the requisition of any one or more of our shareholders holding shares which carry in aggregate not less than ten percent of the share capital of our company entitled to vote at general meetings, our board will be required to convene an extraordinary general meeting and put the resolutions so requisitioned to a vote at such meeting. However, our Memorandum and Articles do not provide our shareholders with any right to put any proposals before annual general meetings or extraordinary general meetings not called by such shareholders.

*Variation of Rights of Shares.* Whenever the capital of our company is divided into different classes or series, the rights attached to any such class or series may, subject to any rights or restrictions for the time being attached to any class or series, only be materially adversely varied or abrogated with the consent in writing of the holders of not less than two thirds of the issued shares of that class, or with the approval of a resolution passed by a majority of not less than two thirds of the votes cast at a separate meeting of the holders of the Shares of that class. The rights conferred upon the holders of the shares of any class issued will not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied or abrogated by the creation, allotment, or issue of further shares ranking *pari passu* with or subsequent to such existing class of shares, or the redemption or purchase of any shares of any class by our company. The rights of the holders of shares shall not be deemed to be varied or abrogated by the creation or issue of shares with preferred or other rights including, without limitation, the creation of shares with enhanced or weighted voting rights.

*Winding Up; Liquidation.* Subject to any special rights, privileges or restrictions as to the distribution of available surplus assets on liquidation applicable to any class or classes of shares (1) if we are wound up and the assets available for distribution among our shareholders are more than sufficient to repay the whole of the capital paid up at the commencement of the winding up, the excess shall be distributed *pari passu* among our shareholders in proportion to the amount paid up at the commencement of the winding up on the shares held by them, respectively, and (2) if we are wound up and the assets available for distribution among our shareholders as such are insufficient to repay the whole of the paid-up capital, those assets shall be distributed so that, as nearly as may be, the losses shall be borne by our shareholders in proportion to the capital paid up, or which ought to have been paid up, at the commencement of the winding up on the shares held by them, respectively.

*Transfer of Class A Ordinary Shares.* Subject to the restrictions set out below, any of our shareholders may transfer all or any of his or her Class A Ordinary Shares by an instrument of transfer in the usual or common form or any other form approved by our board of directors. The Class B Ordinary Shares are not transferable.

## [Table of Contents](#)

Our board of directors may, in its absolute discretion, decline to register any transfer of any ordinary share which is not fully paid up or on which we have a lien. Our board of directors may also decline to register any transfer of any ordinary share unless:

- the instrument of transfer is lodged with us, accompanied by the certificate for the ordinary shares to which it relates and such other evidence as our board of directors may reasonably require to show the right of the transferor to make the transfer;
- the instrument of transfer is in respect of only one class of shares;
- the instrument of transfer is properly stamped, if required;
- the shares conceded are free of any lien in favor of the Company;
- in the case of a transfer to joint holders, the number of joint holders to whom the ordinary share is to be transferred does not exceed four; and
- a fee of such maximum sum as NYSE may determine to be payable or such lesser sum as our directors may from time to time require is paid to us in respect thereof.

If our directors refuse to register a transfer they must, within two months after the date on which the instrument of transfer was lodged, send to each of the transferor and the transferee notice of such refusal.

The registration of transfers may, after compliance with any notice required of the NYSE, be suspended and the register closed at such times and for such periods as our board of directors may from time to time determine; provided, however, that the registration of transfers may not be suspended nor the register closed for more than 30 days in any year.

*Calls on Shares and Forfeiture of Shares.* Our directors may from time to time make calls on our shareholders in respect of any moneys unpaid on their shares including any premium in a notice served to such shareholders at least 14 calendar days prior to the specified time of payment. Any Class A Ordinary Shares and Class B Ordinary Shares that have been called upon and remain unpaid are subject to forfeiture.

*Redemption of Shares.* The Companies Act and our Memorandum and Articles permit us to purchase our own shares. In accordance with our Articles, provided the necessary shareholders or board approval have been obtained and requirements under the Companies Act have been satisfied, we may issue shares on terms that are subject to redemption at our option on such terms and in such manner as may be determined by our board of directors.

*Conversion of Shares.* Under our Articles, Class B Ordinary Shares are not convertible into Class A Ordinary Shares. Class A Ordinary Shares are not convertible into Class B Ordinary Shares.

*Inspection of Books and Records.* Holders of our shares have no general right under our Articles to inspect or obtain copies of our list of shareholders or our corporate records. However, we will provide our shareholders with annual audited financial statements. See “Where You Can Find Additional Information.”

*Issuance of Additional Shares.* Our Memorandum and Articles authorize our board of directors to issue additional Class A Ordinary Shares and Class B Ordinary Shares from time to time as our board of directors shall determine, to the extent of available authorized but unissued shares. Issuance of these shares may dilute the voting power of holders of Class A Ordinary Shares.

*Anti-Takeover Provisions.* Some provisions of our Memorandum and Articles may discourage, delay or prevent a change of control of our company or management that shareholders may consider favorable. Our authorized, but unissued Class A Ordinary Shares and Class B Ordinary Shares are available for future issuance without shareholders’ approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans, or such other purposes as our directors may determine. The existence of authorized but unissued and unreserved Class A Ordinary Shares and Class B Ordinary Shares could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Our Memorandum and Articles also authorize our board of directors to establish from time to time one or more series of preferred shares and to determine, with respect to any series of preferred shares, the terms and rights of that series, including:

- the designation of the series;
- the number of shares of the series;
- the dividend rights, dividend rates, conversion rights, voting rights;
- the rights and terms of redemption and liquidation preferences; and
- any other powers, preferences and relative, participating, optional and other special rights.

Our board of directors may issue preferred shares without action by our shareholders to the extent authorized but unissued. Issuance of these shares may dilute the voting power of holders of Class A Ordinary Shares.

*Exempted Company.* We are an exempted company with limited liability under the Companies Act. The Companies Act distinguishes between ordinary resident companies and exempted companies. Any company that is registered in the Cayman Islands but conducts business mainly outside of the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted company are essentially the same as for an ordinary company except that an exempted company:

- does not have to file an annual return of its shareholders with the Registrar of Companies;
- is not required to open its register of members for inspection;
- does not have to hold an annual general meeting;
- may not issue negotiable or bearer shares, but may issue shares with no par value;
- may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 20 years in the first instance);
- may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;
- may register as a limited duration company; and
- may register as a segregated portfolio company.

“Limited liability” means that the liability of each shareholder is limited to the amount unpaid by the shareholder on the shares of the company.

If any person in the Cayman Islands knows or suspects or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or money laundering or is involved with terrorism or terrorist financing and property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector, or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (i) the Financial Reporting Authority (“FRA”) of the Cayman Islands, pursuant to the Proceeds of Crime Act (Revised) of the Cayman Islands if the disclosure relates to criminal conduct or money laundering, or (ii) a police officer of the rank of constable or higher, or the FRA, pursuant to the Terrorism Act (Revised) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property. ## Comparison of Cayman Islands Corporate Law and U.S. Corporate Law

The Cayman Islands Companies Act is modeled after the corporate legislation of the United Kingdom but does not follow recent United Kingdom statutory enactments, and differs from laws applicable to United States corporations and their shareholders. Set forth below is a summary of the significant differences between the provisions of the Companies Act applicable to us and the laws applicable to companies incorporated in the United States (particularly Delaware) and their shareholders.

	Delaware	Cayman Islands
<i>Title of Organizational Documents</i>	Certificate of Incorporation and Bylaws	Certificate of Incorporation and Memorandum and Articles of Association
<i>Duties of Directors</i>	<p>Under Delaware law, the business and affairs of a corporation are managed by or under the direction of its board of directors. In exercising their powers, directors owe fiduciary duties of care and loyalty to the corporation and its shareholders. The duty of care requires that directors act in an informed and deliberative manner and inform themselves, prior to making a business decision, of all material information reasonably available to them. The duty of care also requires that directors exercise care in all of their responsibilities, including overseeing and investigating the conduct of the corporation's employees. The duty of loyalty requires that a director act in good faith, not out of self-interest, and in a manner that the director reasonably believes to be in the best interests of the shareholders and the corporation.</p>	<p>As a matter of Cayman Islands law, a director of a Cayman Islands company is in the position of a fiduciary with respect to the company and therefore it is considered that he owes the following duties to the company — a duty to act bona fide in the best interests of the company, a duty not to make a profit based on his position as director (unless the company permits him to do so), a duty not to put himself in a position where the interests of the company conflict with his personal interest or his duty to a third party, and a duty to exercise powers for the purpose for which such powers were intended. A director of a Cayman Islands company owes to the company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.</p>

	Delaware	Cayman Islands
<b><i>Limitations on Personal Liability of Directors</i></b>	<p>Subject to the limitations described below, a certificate of incorporation may provide for the elimination or limitation of the personal liability of a director to the corporation or its shareholders for monetary damages for a breach of fiduciary duty as a director. Such a provision cannot eliminate or limit liability for breach of the fiduciary duty of loyalty, bad faith, intentional misconduct, a knowing violation of law, a transaction from which the director derived an improper personal benefit, an unlawful payment of dividends or an unlawful share purchase or redemption. In addition, the certificate of incorporation cannot limit liability for any act or omission occurring prior to the date when such provision becomes effective.</p>	<p>The Companies Act does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of directors and officers. However, as a matter of public policy, Cayman Islands law will not allow the limitation of a director's liability to the extent that the liability is a consequence of the director committing a crime or of the director's own fraud, dishonesty or willful default.</p>
<b><i>Indemnification of Directors, Officers, Agents, and Others</i></b>	<p>A corporation has the power to indemnify any director, officer, employee, or agent of corporation who was, is, or is threatened to be made a party to a proceeding (other than a derivative proceeding), by reason of the fact that such person is or was a director, officer, employee or agent of the corporation against all reasonably incurred expenses, judgments and amounts paid in settlement so long as the person acted in good faith and in a manner the person believed to be in, or not opposed to, the best interests of the corporation, and if with respect to a criminal proceeding, the person had no reasonable cause to believe that his or her conduct would be unlawful.</p>	<p>Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of directors and officers, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against the consequences of committing a crime, or against the indemnified person's own fraud or dishonesty.</p>

	Delaware	Cayman Islands
	<p>A corporation has the power to indemnify a director, officer, employee or agent in connection with the defense or settlement of a derivative action against expenses reasonable and actually incurred provided such person acted in good faith and in a manner he or she reasonably believe to be in, or not opposed to, the corporation's best interest and if such person has been adjudged liable only if a court determines that the person is fairly and reasonably entitled to indemnification. To the extent a present or former director or officer of a corporation has been successful on the merits or otherwise in defense of any proceeding, such person shall be indemnified against expenses actually and reasonably incurred.</p>	
<p><b><i>Interested Directors</i></b></p>	<p>Under Delaware law, a transaction between a corporation and a director or with another organization in which a director has a financial interest shall not be void or voidable solely for that reason, solely because the director participates in the meeting at which the board authorizes the transaction, or solely because any such director's votes are counted for such purpose, if (i) the material facts as to such interested director's relationship or interests are disclosed or are known to the board of directors and the board in good faith authorizes the transaction by the affirmative vote of a majority of the disinterested directors, even though the disinterested directors are less than a quorum, (ii) such material facts are disclosed or are known to the shareholders entitled to vote on such transaction and the transaction is specifically approved in good faith by vote of the shareholders, or (iii) the transaction is fair as to the corporation as of the time it is authorized, approved or ratified. Under Delaware law, a director could be held liable for any transaction in which such director derived an improper personal benefit.</p>	<p>Interested director transactions are governed by the terms of a company's memorandum and articles of association.</p>

	Delaware	Cayman Islands
<b><i>Voting Requirements</i></b>	<p>Delaware’s default rule is that the affirmative vote of the majority of shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter is needed for corporate action (other than the election of directors). Certain actions, such as charter amendments, most mergers, dissolution and sales of all or substantially all of the corporation’s assets, require the affirmative vote of the majority of the outstanding voting power of the shares of the corporation entitled to vote. The certificate of incorporation may include a provision requiring supermajority approval by the directors or shareholders for any corporate action.</p> <p>In addition, under Delaware law, certain business combinations involving interested shareholders require approval by a supermajority of the non-interested shareholders unless the corporation’s board of directors approves the business combination or the transaction that resulted in the shareholder becoming an interested shareholder prior to the time the shareholder became an interested shareholder or another exemption applies.</p>	<p>For the protection of shareholders, certain matters must be approved by special resolution of the shareholders as a matter of Cayman Islands law, including alteration of the memorandum or articles of association, appointment of inspectors to examine company affairs, reduction of share capital (subject, in relevant circumstances, to court approval), change of name, authorization of a plan of merger or transfer by way of continuation to another jurisdiction or consolidation or voluntary winding up of the company.</p> <p>The Companies Act requires that a special resolution be passed by a super majority of at least two-thirds or such higher percentage as set forth in the memorandum and articles of association, of shareholders being entitled to vote and do vote in person or by proxy at a general meeting, or by unanimous written consent of shareholders entitled to vote at a general meeting.</p> <p>The Companies Act defines “special resolutions” only. A company’s memorandum and articles of association can therefore tailor the definition of “ordinary resolutions” as a whole, or with respect to specific provisions.</p>
<b><i>Voting for Directors</i></b>	<p>Under Delaware law, unless otherwise specified in the certificate of incorporation or bylaws of the corporation, directors are elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.</p>	<p>Directors are appointed in accordance with the terms of the memorandum and articles of association of the company.</p>
<b><i>Cumulative Voting</i></b>	<p>There is no cumulative voting for the election of directors unless the corporation’s certificate of incorporation provides for cumulative voting.</p>	<p>No cumulative voting for the election of directors unless so provided in the memorandum and articles of association.</p>
<b><i>Directors’ Powers Regarding Bylaws</i></b>	<p>The certificate of incorporation may grant the directors the power to adopt, amend or repeal the corporation’s bylaws. The shareholders of the corporation possess the inherent right to adopt, amend or repeal the bylaws.</p>	<p>The memorandum and articles of association may only be amended by a special resolution of the shareholders.</p>

	Delaware	Cayman Islands
<b><i>Nomination and Removal of Directors and Filling Vacancies on Board</i></b>	Shareholders may generally nominate directors if they comply with advance notice provisions and other procedural requirements in company bylaws (if any). Holders of a majority of the shares then entitled to vote at an election of directors may remove a director with or without cause, except in certain cases involving a classified board or if the company uses cumulative voting. Unless otherwise provided for in the certificate of incorporation or bylaws, the directors or the shareholders may fill board vacancies or newly created directorships.	Nomination and removal of directors and filling of board vacancies are governed by the terms of the memorandum and articles of association.
<b><i>Mergers and Similar Arrangements</i></b>	<p>Under Delaware law, with certain exceptions, a merger, consolidation, or sale of all or substantially all of the assets of a corporation must be approved by the board of directors and by a majority of the outstanding voting power of the shares entitled to vote thereon. Under Delaware law, a shareholder of a corporation participating in certain mergers are entitled to appraisal rights pursuant to which such shareholder may receive cash in the amount of the fair value (as determined by the Delaware Court of Chancery) of the shares held by such shareholder in lieu of the consideration such shareholder would otherwise receive in the transaction.</p> <p>Delaware law also provides that a parent entity, by resolution of its board of directors, may merge with any subsidiary corporation, of which it owns at least 90% of each class of capital stock without a vote by shareholders of such subsidiary. Upon any such merger, dissenting shareholders of the subsidiary would have appraisal rights unless the subsidiary is wholly owned.</p>	<p>The Companies Act provides for the merger or consolidation of two or more companies into a single entity. The legislation makes a distinction between a “consolidation” and a “merger.” In a consolidation, a new entity is formed from the combination of each participating company, and the separate consolidating parties, as a consequence, cease to exist and are each stricken by the Registrar of Companies. In a merger, one company remains as the surviving entity, having in effect absorbed the other merging parties that are then stricken and cease to exist.</p> <p>Two or more Cayman-registered companies may merge or consolidate. Cayman-registered companies may also merge or consolidate with foreign companies provided that the laws of the foreign jurisdiction permit such merger or consolidation.</p> <p>Under the Companies Act, a plan of merger or consolidation shall be authorized by each constituent company by way of (i) a special resolution of the members of each such constituent company; and (ii) such other authorization, if any, as may be specified in such constituent company’s memorandum and articles of association.</p>

Delaware	Cayman Islands
	<p data-bbox="967 163 1286 493">A merger between a Cayman parent company and its Cayman subsidiary or subsidiaries does not require authorization by a resolution of shareholders of that Cayman subsidiary if a copy of the plan of merger is given to every member of that Cayman subsidiary to be merged unless that member agrees otherwise. For this purpose a subsidiary is a company of which at least ninety percent (90%) of the votes are owned by the parent company.</p> <p data-bbox="967 510 1286 636">The consent of each holder of a fixed or floating security interest over a constituent company is required unless this requirement is waived by a court in the Cayman Islands.</p> <p data-bbox="967 653 1286 930">Save in certain circumstances, a dissentient shareholder of a Cayman constituent company is entitled to payment of the fair value of his shares upon dissenting to a merger or consolidation. The exercise of appraisal rights will preclude the exercise of any other rights save for the right to seek relief on the grounds that the merger or consolidation is void or unlawful.</p> <p data-bbox="967 940 1286 1497">In addition, there are statutory provisions that facilitate the reconstruction and amalgamation of companies, provided that the arrangement is approved by (a) 75% in value of the shareholders or class of shareholders, or (b) a majority in number representing 75% in value of the creditors or class of creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meetings, convened for that purpose. The convening of the meetings and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved, the court can be expected to approve the arrangement if it determines that:</p> <ul data-bbox="995 1514 1286 1591" style="list-style-type: none"><li>• the statutory provisions as to the required majority vote have been met;</li></ul>

Delaware	Cayman Islands
	<ul style="list-style-type: none"><li>• the shareholders have been fairly represented at the meeting in question;</li><li>• the arrangement is such that may be reasonably approved by an intelligent and honest man of that class acting in respect of his interest; and</li><li>• the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Act or that would amount to a “fraud on the minority”.</li></ul> <p>When a takeover offer is made and accepted by holders of not less than 90.0% of the shares affected within four (4) months, the offeror may, within a two (2) month period commencing on the expiration of such four (4) month period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands, but this is unlikely to succeed in the case of an offer which has been so approved unless there is evidence of fraud, bad faith or collusion.</p> <p>If an arrangement and reconstruction is thus approved, the dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of Delaware corporations, providing rights to receive payment in cash for the judicially determined value of the shares.</p>

	Delaware	Cayman Islands
<b><i>Shareholder Suits</i></b>	<p>Class actions and derivative actions generally are available to shareholders under Delaware law for, among other things, breach of fiduciary duty, corporate waste and actions not taken in accordance with applicable law. In such actions, the court generally has discretion to permit the winning party to recover attorneys' fees incurred in connection with such action but such discretion is rarely used. Generally, Delaware follows the American rule under which each party bears its own costs.</p>	<p>In principle, we will normally be the proper plaintiff and as a general rule a derivative action may not be brought by a minority shareholder. However, based on English authorities, which would in all likelihood be of persuasive authority in the Cayman Islands, there are exceptions to the foregoing principle, including when:</p> <ul style="list-style-type: none"> <li>• a company acts or proposes to act illegally or ultra vires;</li> <li>• the act complained of, although not ultra vires, could only be effected duly if authorized by more than a simple majority vote that has not been obtained; and</li> <li>• those who control the company are perpetrating a "fraud on the minority."</li> </ul>
<b><i>Inspection of Corporate Records</i></b>	<p>Under Delaware law, shareholders of a corporation, upon written demand under oath stating the purpose thereof, have the right during normal business hours to inspect for any proper purpose, and to make copies and extracts of the list(s) of shareholders and other books and records of the corporation and its subsidiaries, if any, to the extent the books and records of such subsidiaries are available to the corporation.</p>	<p>Shareholders of a Cayman Islands exempted company have no general right under Cayman Islands law to inspect or obtain copies of a list of shareholders or other corporate records (other than copies of our memorandum and articles, the register of mortgages or charges, and any special resolutions passed by our shareholders) of the company. However, these rights may be provided in the company's memorandum and articles of association.</p>
<b><i>Shareholder Proposals</i></b>	<p>Under Delaware law, a shareholder has the right to put any proposal before the annual meeting of shareholders, provided it complies with the notice provisions in the corporation's governing documents. A special meeting may be called by the board of directors or any other person authorized to do so in the corporation's governing documents, but shareholders may be precluded from calling special meetings.</p>	<p>The Companies Act does not provide shareholders any right to bring business before a meeting or requisition a general meeting. However, these rights may be provided in the company's memorandum and articles of association.</p>

	Delaware	Cayman Islands
<i>Approval of Corporate Matters by Written Consent</i>	Delaware law permits shareholders to take action by written consent signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting of shareholders unless otherwise provided in the corporation's certificate of incorporation. A corporation must send prompt notice of the taking of the corporate action approved by shareholders without a meeting by less than unanimous written consent to those shareholders who have not consented in writing and who would have otherwise been entitled to notice of the meeting at which such action would have been taken.	The Companies Act allows a special resolution to be passed in writing if signed by all the voting shareholders (if authorized by the memorandum and articles of association).
<i>Calling of Special Shareholders Meetings</i>	Delaware law permits the board of directors or any person who is authorized under a corporation's certificate of incorporation or bylaws to call a special meeting of shareholders.	The Companies Act does not have provisions governing the proceedings of shareholders meetings which are usually provided in the memorandum and articles of association.
<i>Dissolution; Winding Up</i>	Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporation's outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board of directors.	Under the Companies Act, a company may be wound up voluntarily (a) by virtue of a special resolution, (b) because the period, if any, fixed for the duration of the company by its articles of association has expired, or (c) because the event, if any, has occurred, on the occurrence of which its articles of association provide that the company shall be wound up. Our articles of association contain no fixed period for the duration of our Company and no provisions for the winding up of our Company on the occurrence of any particular event. Under the Companies Act, a company may also be wound up compulsorily by order of the Grand Court of the Cayman Islands, including if the company is unable to pay its debts as they fall due or the Grand Court of the Cayman Islands is of the opinion that it is just and equitable that the company should be wound up.

Before this offering, there was no established public market for our Class A Ordinary Shares, and while we intend to apply for approval to have our Class A Ordinary Shares listed on the NYSE Group, we cannot assure you that a liquid trading market for the Class A Ordinary Shares will develop or be sustained after this offering. As described below, only a limited number of our Class A Ordinary Shares currently outstanding will be available for sale immediately after this offering due to contractual and legal restrictions on resale. Nevertheless, after these restrictions lapse, future sales of substantial amounts of our Class A Ordinary Shares, including Class A Ordinary Shares issued upon exercise of outstanding options, in the public market in the United States, or the possibility of such sales, could negatively affect the market price in the United States of our Class A Ordinary Shares and our ability to raise equity capital in the future.

Upon the closing of this offering, we will have 21,071,442 outstanding Class A Ordinary Shares and 875,000 Class B Ordinary Shares, assuming no exercise of the underwriters' over-allotment option. Under the PRC EIT Law and its implementation rules, an enterprise established outside the PRC with a "de facto management body" within the PRC is considered a resident enterprise and will be subject to the enterprise income tax at the rate of 25% on its global income. The implementation rules define the term "de facto management body" as the body that exercises full and substantial control over and overall management of the business, production, personnel, accounts and properties of an enterprise. In April 2009, the SAT issued the Circular of the SAT on Issues Relating to Identification of PRC-Controlled Overseas Registered Enterprises as Resident Enterprises in Accordance With the De Facto Standards of Organizational Management, or SAT Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners, the criteria set forth in the circular may reflect the SAT's general position on how the "de facto management body" test should be applied in determining the tax resident status of all offshore enterprises. According to SAT Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its "de facto management body" in the PRC only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprise's financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprise's primary assets, accounting books and records, company seals, and board and shareholder resolutions, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

Further to SAT Circular 82, the SAT issued the SAT Bulletin 45, which took effect in September 2011, to provide more guidance on the implementation of SAT Circular 82. SAT Bulletin 45 provides for procedures and administration details of determination on resident status and administration on post-determination matters. Although SAT Circular 82 and SAT Bulletin 45 only apply to offshore incorporated enterprises controlled by PRC enterprises or PRC enterprise groups and not those controlled by PRC individuals or foreigners, and we are not controlled by a PRC enterprise or PRC enterprise group, the determination criteria set forth therein may reflect the SAT's general position on how the term "de facto management body" could be applied in determining the tax resident status of offshore enterprises, regardless of whether they are controlled by PRC enterprises, individuals or foreigners.

In addition, our Company is a company incorporated outside the PRC. As a holding company, its sole assets are share ownerships of its direct subsidiaries incorporated in Hong Kong, the Cayman Islands and the United States, and its key assets are located, and its records (including the resolutions of its board of directors and the resolutions of its shareholders) are maintained, outside the PRC. As such, we do not believe that our Company meets all of the conditions above or is a PRC resident enterprise for PRC tax purposes. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term "de facto management body." There can be no assurance that the PRC government will ultimately take a view that is consistent with us.

If the PRC tax authorities determine that our Cayman Islands holding company or any of our subsidiaries outside of China is a PRC resident enterprise for PRC enterprise income tax purposes, a number of unfavorable PRC tax consequences could follow. For example, first, a 25% PRC enterprise income tax would be imposed on our worldwide income. Second, a 10% withholding tax would be imposed on dividends we pay to our non-PRC enterprise shareholders. In addition, non-resident enterprise shareholders may be subject to PRC tax on gains realized on the sale or other disposition of Class A Ordinary Shares, as if such income is treated as sourced from within the PRC. Furthermore, if we are deemed a PRC resident enterprise, dividends paid to our non-PRC individual shareholders and any gain realized on the transfer of ordinary shares by such shareholders may be subject to PRC tax at a rate of 20% (which, in the case of dividends, may be withheld at source by us).

If we are considered a "non-resident enterprise" by the PRC tax authorities, the dividends we receive from our PRC subsidiaries will be subject to a 10% withholding tax. The EIT Law also imposes a withholding income tax of 10% on dividends distributed by a foreign invested enterprise to its immediate holding company outside of China, if such immediate holding company is considered as a non-resident enterprise without any establishment or place within China or if the received dividends have no connection with the establishment or place of such immediate holding company within China, unless such immediate holding company's jurisdiction of incorporation has a tax treaty with China that provides for a different withholding arrangement.

These rates may be reduced by an applicable tax treaty, but it is unclear whether in practice non-PRC shareholders of our Company would be able to obtain the benefits of any tax treaties between their country of tax residence and the PRC in the event that we are treated as a PRC resident enterprise. See "Risk Factors — Risks Related to Doing Business in China and Hong Kong — Dividends paid to our foreign investors and gains on the sale of the Class A Ordinary Shares by our foreign investors may become subject to PRC tax."

#### **Certain United States Federal Income Tax Considerations**

The following discussion is a summary of U.S. federal income tax considerations generally applicable to U.S. Holders (as defined below) of the ownership and disposition of our ordinary shares. This summary applies only to U.S. Holders that hold our Class A Ordinary Shares as capital assets (generally, property held for investment) and that have the U.S. dollar as their functional currency. This summary is based on U.S. federal tax laws in effect as of the date of this prospectus, on U.S. Treasury regulations in effect or, in some cases, proposed as of the date of this prospectus, and judicial and administrative interpretations thereof available on or before such date. All of the foregoing authorities are subject to change, which could apply retroactively and could affect the tax consequences described below. No ruling has been sought from the Internal Revenue Service ("IRS") with respect to any U.S. federal income tax considerations described below, and there can be no assurance that the IRS or a court will not take a contrary position. Moreover, this summary does not address the U.S. federal estate, gift, backup withholding, and alternative minimum tax considerations, or any state, local, and non-U.S. tax considerations,

relating to the ownership and disposition of our ordinary shares. The following summary does not address all aspects of U.S. federal income taxation that may be important to particular investors in light of their individual circumstances or to persons in special tax situations such as:

- financial institutions or financial services entities;
- insurance companies;
- pension plans;
- cooperatives;
- regulated investment companies;
- real estate investment trusts;
- broker-dealers;
- traders that elect to use a mark-to-market method of accounting;
- governments or agencies or instrumentalities thereof;
- certain former U.S. citizens or long-term residents;
- tax-exempt entities (including private foundations);
- persons liable for alternative minimum tax;
- persons holding stock as part of a straddle, hedging, conversion or other integrated transaction;
- persons whose functional currency is not the U.S. dollar;
- passive foreign investment companies;
- controlled foreign corporations;
- persons that actually or constructively own 5% or more of the total combined voting power of all classes of our voting stock; or
- partnerships or other entities taxable as partnerships for U.S. federal income tax purposes, or persons holding Class A Ordinary Shares through such entities.

**PROSPECTIVE INVESTORS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF U.S. FEDERAL TAXATION TO THEIR PARTICULAR CIRCUMSTANCES, AND THE STATE, LOCAL, NON-U.S., OR OTHER TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF OUR CLASS A ORDINARY SHARES.**

For purposes of this discussion, a “U.S. Holder” is a beneficial owner of our Class A Ordinary Shares that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust that (1) is subject to the primary supervision of a court within the United States and the control of one or more U.S. persons for all substantial decisions, or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership (or other entity treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of our Class A Ordinary Shares, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. Partnerships holding our Class A Ordinary Shares and their partners are urged to consult their tax advisors regarding an investment in our Class A Ordinary Shares.

***Taxation of Dividends and Other Distributions on Our Class A Ordinary Shares***

Subject to the discussion below under “Passive Foreign Investment Company Rules,” any cash distributions (including the amount of any PRC tax withheld) paid on our Class A Ordinary Shares out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles, will generally be includible in the gross income of a U.S. Holder as dividend income on the day actually or constructively received by the U.S. Holder. Because we do not intend to determine our earnings and profits on the basis of U.S. federal income tax principles, any distribution we pay will generally be treated as a “dividend” for U.S. federal income tax purposes. A non-corporate U.S. Holder will be subject to tax on dividend income from a “qualified foreign corporation” at a lower applicable capital gains rate rather than the marginal tax rates generally applicable to ordinary income provided that certain holding period requirements are met. A non-U.S. corporation (other than a corporation that is classified as a PFIC for the taxable year in which the dividend is paid or the preceding taxable year) will generally be considered to be a qualified foreign corporation (i) if it is eligible for the benefits of a comprehensive tax treaty with the United States that the U.S. Secretary of Treasury determines is satisfactory for purposes of this provision and includes an exchange of information program, or (ii) with respect to any dividend it pays on stock that is readily tradable on an established securities market in the United States, including NYSE. It is unclear whether dividends that we pay on our Class A Ordinary Shares will meet the conditions required for the reduced tax rate. However, in the event that we are deemed to be a PRC resident enterprise under the PRC Enterprise Income Tax Law, we may be eligible for the benefits of the United States-PRC income tax treaty. If we are eligible for such benefits, dividends we pay on our Class A Ordinary Shares, would be eligible for the reduced rates of taxation described in this paragraph. You are urged to consult your tax advisor regarding the availability of the lower rate for dividends paid with respect to our Class A Ordinary Shares. Dividends received on our Class A Ordinary Shares will not be eligible for the dividends-received deduction allowed to corporations.

Dividends will generally be treated as income from foreign sources for U.S. foreign tax credit purposes and will generally constitute passive category income. Depending on the U.S. Holder’s individual facts and circumstances, a U.S. Holder may be eligible, subject to a number of complex limitations, to claim a foreign tax credit not in excess of any applicable treaty rate in respect of any foreign withholding taxes imposed on dividends received on our Class A Ordinary Shares. A U.S. Holder who does not elect to claim a foreign tax credit for foreign tax withheld may instead claim a deduction, for U.S. federal income tax purposes, in respect of such withholding, but only for a year in which such U.S. Holder elects to do so for all creditable foreign income taxes. The rules governing the foreign tax credit are complex and their outcome depends in large part on the U.S. Holder’s individual facts and circumstances. Accordingly, U.S. Holders are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

***Taxation of Sale or Other Disposition of Class A Ordinary Shares***

Subject to the discussion below under “Passive Foreign Investment Company Rules,” a U.S. Holder will generally recognize capital gain or loss upon the sale or other disposition of Class A Ordinary Shares in an amount equal to the difference between the amount realized upon the disposition and the U.S. Holder’s adjusted tax basis in such Class A Ordinary Shares. Any capital gain or loss will be long term if the Class A Ordinary Shares have been held for more than one year and will generally be U.S.-source gain or loss for U.S. foreign tax credit purposes. Long-term capital gains of non-corporate taxpayers are currently eligible for reduced rates of taxation. In the event that gain from the disposition of the Class A Ordinary Shares is subject to tax in the PRC, such gain may be treated as PRC-source gain under the United States-PRC income tax treaty. The deductibility of a capital loss may be subject to limitations. U.S. Holders are urged to consult their tax advisors regarding the tax consequences if a foreign tax is imposed on a disposition of our Class A Ordinary Shares, including the availability of the foreign tax credit under their particular circumstances.

***Passive Foreign Investment Company Rules***

A non-U.S. corporation, such as our company, will be classified as a PFIC, for U.S. federal income tax purposes for any taxable year, if either (i) 75% or more of its gross income for such year consists of certain types of “passive” income or (ii) 50% or more of the value of its assets (determined on the basis of a quarterly average) during such year is attributable to assets that produce or are held for the production of passive income. For this purpose, cash and cash equivalents are categorized as passive assets and the company’s goodwill and other unbooked intangibles are taken into account as non-passive assets. Passive income generally includes, among other things, dividends, interest, rents, royalties, and gains from the disposition of passive assets. We will be treated as owning a proportionate share of the assets and earning a proportionate share of the income of any other corporation in which we own, directly or indirectly, more than 25% (by value) of the stock.

Based on our current composition of assets, subsidiaries and market capitalization (which will fluctuate from time to time), we do not expect to be or become a PFIC for U.S. federal income tax purposes. However, no assurance can be given in this regard because the determination of whether we will be or become a PFIC is a factual determination made annually that will depend, in part, upon the composition of our income and assets. Furthermore, the composition of our income and assets may also be affected by how, and how quickly, we use our liquid assets and the cash raised in this offering. Under circumstances where our revenue from activities that produce passive income significantly increase relative to our revenue from activities that produce non-passive income, or where we determine not to deploy significant amounts of cash for active purposes, our risk of becoming classified as a PFIC may substantially increase. In addition, because there are uncertainties in the application of the relevant rules, it is possible that the Internal Revenue Service may challenge our classification of certain income and assets as non-passive or our valuation of our tangible and intangible assets, each of which may result in our becoming a PFIC for the current or subsequent taxable years. If we were classified as a PFIC for any year during which a U.S. Holder held our Class A Ordinary Shares, we generally would continue to be treated as a PFIC for all succeeding years during which such U.S. Holder held our Class A Ordinary Shares even if we cease to be a PFIC in subsequent years, unless certain elections are made.

If we are classified as a PFIC for any taxable year during which a U.S. Holder holds our Class A Ordinary Shares, and unless the U.S. Holder makes a mark-to-market election (as described below), the U.S. Holder will generally be subject to special tax rules that have a penalizing effect, regardless of whether we remain a PFIC, on (i) any excess distribution that we make to the U.S. Holder (which generally means any distribution paid during a taxable year to a U.S. Holder that is greater than 125 percent of the average annual distributions paid in the three preceding taxable years or, if shorter, the U.S. Holder’s holding period for the Class A Ordinary Shares), and (ii) any gain realized on the sale or other disposition of Class A Ordinary Shares. Under these rules,

- the U.S. Holder’s gain or excess distribution will be allocated ratably over the U.S. Holder’s holding period for the Class A Ordinary Shares;
- the amount allocated to the current taxable year and any taxable years in the U.S. Holder’s holding period prior to the first taxable year in which we are classified as a PFIC (each, a “pre-PFIC year”), will be taxable as ordinary income;
- the amount allocated to each prior taxable year, other than a pre-PFIC year, will be subject to tax at the highest tax rate in effect for individuals or corporations, as appropriate, for that year; and
- an additional tax equal to the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each prior taxable year, other than a pre-PFIC year, of the U.S. Holder.

If we are treated as a PFIC for any taxable year during which a U.S. Holder holds our Class A Ordinary Shares, or if any of our subsidiaries is also a PFIC, such U.S. Holder would be treated as owning a proportionate amount (by value) of the shares of any lower-tier PFICs for purposes of the application of these rules. U.S. Holders are urged to consult their tax advisors regarding the application of the PFIC rules to any of our subsidiaries.

As an alternative to the foregoing rules, a U.S. Holder of “marketable stock” in a PFIC may make a mark-to-market election with respect to such stock, provided that such stock is “regularly traded” within the meaning of applicable U.S. Treasury regulations. If our Class A Ordinary Shares qualify as being regularly traded, and an election is made, the U.S. Holder will generally (i) include as ordinary income for each taxable year that we are a PFIC the excess, if any, of the fair market value of Class A Ordinary Shares held at the end of the taxable year over the adjusted tax basis of such Class A Ordinary Shares and (ii) deduct as an ordinary loss the excess, if any, of the adjusted tax basis of the

## [Table of Contents](#)

Class A Ordinary Shares over the fair market value of such Class A Ordinary Shares held at the end of the taxable year, but such deduction will only be allowed to the extent of the amount previously included in income as a result of the mark-to-market election. The U.S. Holder's adjusted tax basis in the Class A Ordinary Shares would be adjusted to reflect any income or loss resulting from the mark-to-market election. If a U.S. Holder makes a mark-to-market election in respect of a corporation classified as a PFIC and such corporation ceases to be classified as a PFIC, the U.S. Holder will not be required to take into account the gain or loss described above during any period that such corporation is not classified as a PFIC. If a U.S. Holder makes a mark-to-market election, any gain such U.S. Holder recognizes upon the sale or other disposition of our Class A Ordinary Shares in a year when we are a PFIC will be treated as ordinary income and any loss will be treated as ordinary loss, but such loss will only be treated as ordinary loss to the extent of the net amount previously included in income as a result of the mark-to-market election.

Because a mark-to-market election cannot be made for any lower-tier PFICs that we may own, a U.S. Holder may continue to be subject to the PFIC rules with respect to such U.S. Holder's indirect interest in any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes.

Furthermore, as an alternative to the foregoing rules, a U.S. Holder that owns stock of a PFIC generally may make a "qualified electing fund" election regarding such corporation to elect out of the PFIC rules described above regarding excess distributions and recognized gains. However, we do not intend to provide information necessary for U.S. Holders to make qualified electing fund elections which, if available, would result in tax treatment different from the general tax treatment for PFICs described above.

If a U.S. Holder owns our Class A Ordinary Shares during any taxable year that we are a PFIC, the U.S. Holder must generally file an annual Internal Revenue Service Form 8621 and provide such other information as may be required by the U.S. Treasury Department, whether or not a mark-to-market election is or has been made. If we are or become a PFIC, you should consult your tax advisor regarding any reporting requirements that may apply to you.

You should consult your tax advisors regarding how the PFIC rules apply to your investment in our Class A Ordinary Shares.

### ***Non-U.S. Holders***

Cash dividends paid or deemed paid to a Non-U.S. Holder with respect to the Class A Ordinary Shares generally will not be subject to U.S. federal income tax unless such dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base that such holder maintains or maintained in the United States).

In addition, a Non-U.S. Holder generally will not be subject to U.S. federal income tax on any gain attributable to a sale or other taxable disposition of the Class A Ordinary Shares unless such gain is effectively connected with its conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base that such holder maintains or maintained in the United States) or the Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of such sale or other disposition and certain other conditions are met (in which case, such gain from U.S. sources generally is subject to U.S. federal income tax at a 30% rate or a lower applicable tax treaty rate).

Cash dividends and gains that are effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base that such holder maintains or maintained in the United States) generally will be subject to regular U.S. federal income tax at the same regular U.S. federal income tax rates as applicable to a comparable U.S. Holder and, in the case of a Non-U.S. Holder that is a corporation for U.S. federal income tax purposes, may also be subject to an additional branch profits tax at a 30% rate or a lower applicable tax treaty rate.

### ***Information Reporting and Backup Withholding***

Certain U.S. Holders are required to report information to the Internal Revenue Service relating to an interest in "specified foreign financial assets," including shares issued by a non-United States corporation, for any year in which the aggregate value of all specified foreign financial assets exceeds \$50,000 (or a higher dollar amount prescribed

by the Internal Revenue Service), subject to certain exceptions (including an exception for shares held in custodial accounts maintained with a U.S. financial institution). These rules also impose penalties if a U.S. Holder is required to submit such information to the Internal Revenue Service and fails to do so.

In addition, dividend payments with respect to our Class A Ordinary Shares and proceeds from the sale, exchange or redemption of our Class A Ordinary Shares may be subject to additional information reporting to the IRS and possible U.S. backup withholding. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes any other required certification on IRS Form W-9 or who is otherwise exempt from backup withholding. U.S. Holders who are required to establish their exempt status generally must provide such certification on IRS Form W-9. U.S. Holders are urged to consult their tax advisors regarding the application of the U.S. information reporting and backup withholding rules.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against your U.S. federal income tax liability, and you may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the IRS and furnishing any required information. We do not intend to withhold taxes for individual shareholders. However, transactions effected through certain brokers or other intermediaries may be subject to withholding taxes (including backup withholding), and such brokers or intermediaries may be required by law to withhold such taxes.

EACH PROSPECTIVE INVESTOR SHOULD CONSULT ITS OWN TAX ADVISOR REGARDING THE PARTICULAR U.S. FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES OF PURCHASING, HOLDING AND DISPOSING OF OUR CLASS A ORDINARY SHARES, INCLUDING THE CONSEQUENCES OF ANY PROPOSED CHANGE IN APPLICABLE LAWS.**

Certain of the underwriters are expected to make offers and sales both inside and outside the United States through their respective selling agents. Any offers or sales in the United States will be conducted by broker-dealers registered with the SEC. CMB International Capital Limited is not a broker-dealer registered with the SEC and may not make sales in the United States or to U.S. persons. ## Option to Purchase Additional Class A Ordinary Shares

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase, from time to time, in whole or in part, up to an aggregate of 637,500 Class A Ordinary Shares from us at the public offering price set forth on the cover page of this prospectus, less underwriting discounts and commissions. If the underwriters exercise this option, each underwriter will be severally and not jointly obligated, subject to specified conditions, to purchase a number of additional Class A Ordinary Shares proportionate to that underwriter's initial purchase commitment as indicated in the table above. This option may be exercised only if the underwriters sell more Class A Ordinary Shares than the total number set forth on the cover page of this prospectus.

## Commission and Expenses

The underwriters have advised us that they propose to offer the Class A Ordinary Shares to the public at the initial public offering price set forth on the cover page of this prospectus and to certain dealers, which may include the underwriters, at that price less a concession not in excess of US\$[•] per Class A Ordinary Share. After the offering, the initial public offering price and concession to dealers may be reduced by the representatives. No such reduction will change the amount of proceeds to be received by us as set forth on the cover page of this prospectus.

The following table shows the public offering price, the underwriting discounts and commissions that we are to pay the underwriters in cash in an amount equal to six and one-half percent (6.5%) of the gross proceeds from the sale of the Class A Ordinary Shares in this offering, and the proceeds, before expenses, to us in connection with this offering. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional Class A Ordinary Shares.

	Per Class A Ordinary Share		Total			
			No Exercise		Full Exercise	
Public offering price	US\$	[ ]	US\$	[ ]	US\$	[ ]
Underwriting discounts and commissions paid by us	US\$	[ ]	US\$	[ ]	US\$	[ ]
Proceeds to us, before expenses	US\$	[ ]	US\$	[ ]	US\$	[ ]

We have agreed to pay the underwriters, upon closing of this offering, an incentive bonus equal to one percent (1.0%) of the gross proceeds from the sale of the Class A Ordinary Shares in this offering in our sole discretion. Additionally, we have agreed to reimburse the underwriters for certain out-of-pocket expenses for "road show," diligence, and reasonable legal fees, not to exceed US\$803,000 in the aggregate.

We estimate expenses payable by us in connection with this offering, other than the underwriting discounts, commissions, will be approximately US\$2,296,909. Expenses include the SEC registration fees, FINRA filing fees, the NYSE entry and listing fee, and legal, accounting, printing and miscellaneous expenses.

## Underwriter Warrants

Upon the closing of this offering, we have agreed to issue to the representatives the warrants to purchase five per cent (5%) of the Class A Ordinary Shares sold in this offering (including any Class A Ordinary Shares sold pursuant to the exercise of the over-allotment option). The Underwriter Warrants will be exercisable at any time after the closing of this offering subject to the lock-up described below, in whole or in part, and will be exercisable for five (5) years from the commencement of sales of this offering. The Underwriter Warrants are exercisable via cashless exercise at a price equal to one hundred and fifty-seven percent (157%) of the offering price of the Class A Ordinary Shares offered hereby. The Underwriter Warrants and the Class A Ordinary Shares underlying the Underwriter Warrants have been deemed compensation by FINRA and are therefore subject to a 180-day lock-up pursuant to FINRA Rule 5110(e)(1), except as permitted under FINRA Rule 5110(e)(2). In accordance with FINRA Rule 5110(e)(1), and except as otherwise permitted by FINRA rules, neither the Underwriter Warrants nor any of our Class A Ordinary Shares issued upon exercise of the Underwriter Warrants may be sold, transferred, assigned, pledged, or hypothecated, or be the subject of any hedging, short sale, derivative, put, or call transaction that would result in the effective economic disposition of such securities for a period of 180 days beginning on the date of commencement of sales of this offering.

### **Lock Up Agreements**

We have agreed that we will not offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, or enter into any transaction or device that is designed to, or could be expected to, result in the disposition, directly or indirectly, any ordinary shares or securities convertible into or exchangeable or exercisable for any ordinary shares, enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the ordinary shares or securities convertible into or exercisable or exchangeable for any ordinary shares, whether any of these transactions is to be settled by delivery of the ordinary shares or other securities, in cash or otherwise, make any demand for or exercise any right or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any ordinary shares or securities convertible into or exercisable or exchangeable for any ordinary shares or any other securities of us, or publicly disclose the intention to do any of the foregoing, without the prior written consent of the representatives of the underwriters for a period of 180 days after the date of this prospectus, subject to certain exceptions and applicable notice requirements.

Our directors and executive officers and our existing shareholders have agreed that they will not offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, or enter into any transaction or device that is designed to, or could be expected to, result in the disposition, directly or indirectly, of any ordinary shares or securities convertible into or exchangeable or exercisable for any ordinary shares, or enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the ordinary shares or securities convertible into or exercisable or exchangeable for any ordinary shares, whether any of these transactions is to be settled by delivery of the ordinary shares or other securities, in cash or otherwise, make any demand for or exercise any right or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any ordinary shares or

securities convertible into or exercisable or exchangeable for any ordinary shares or any other securities of us, or publicly disclose the intention to do any of the foregoing, without the prior written consent of the representatives of the underwriters for a period of 180 days after the date of this prospectus, subject to certain exceptions and applicable notice requirements.

### **Stabilization**

The underwriters have advised us that they, pursuant to Regulation M under the Securities Exchange Act of 1934, as amended, and certain persons participating in the offering may engage in short sale transactions, stabilizing transactions, syndicate covering transactions or the imposition of penalty bids in connection with this offering. These activities may have the effect of stabilizing or maintaining the market price of the Class A Ordinary Shares at a level above that which might otherwise prevail in the open market. Establishing short sales positions may involve either “covered” short sales or “naked” short sales.

“Covered” short sales are sales made in an amount not greater than the underwriters’ option to purchase additional Class A Ordinary Shares in this offering. The underwriters may close out any covered short position by either exercising their option to purchase additional Class A Ordinary Shares or purchasing the Class A Ordinary Shares in the open market. In determining the source of the Class A Ordinary Shares to close out the covered short position, the underwriters will consider, among other things, the price of the Class A Ordinary Shares available for purchase in the open market as compared to the price at which they may purchase the Class A Ordinary Shares through the option to purchase additional Class A Ordinary Shares.

“Naked” short sales are sales in excess of the option to purchase additional Class A Ordinary Shares. The underwriters must close out any naked short position by purchasing the Class A Ordinary Shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Class A Ordinary Shares in the open market after pricing that could adversely affect investors who purchase in this offering.

A stabilizing bid is a bid for the purchase of the Class A Ordinary Shares on behalf of the underwriters for the purpose of fixing or maintaining the price of the Class A Ordinary Shares. A syndicate covering transaction is the bid for or the purchase of the Class A Ordinary Shares on behalf of the underwriters to reduce a short position incurred by the underwriters in connection with the offering. Similar to other purchase transactions, the underwriters’ purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our Class A Ordinary Shares or preventing or retarding a decline in the market price of our Class A Ordinary Shares. As a result, the price of our Class A Ordinary Shares may be higher than the price that might otherwise exist in the open market. A penalty bid is an arrangement permitting the underwriters to reclaim the selling concession otherwise accruing to a syndicate member in connection with the offering if the Class A Ordinary Shares originally sold by such syndicate member are purchased in a syndicate covering transaction and therefore have not been effectively placed by such syndicate member.

None of us, or any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Class A Ordinary Shares. The underwriters are not obligated to engage in these activities and, if commenced, any of the activities may be discontinued at any time.

### **Electronic Distribution**

A prospectus in electronic format may be made available by e-mail or on the websites or through online services maintained by one or more of the underwriters or their affiliates. In those cases, prospective investors may view offering terms online and may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of the Class A Ordinary Shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriters on the same basis as other allocations. Other than the prospectus in electronic format, the information on the underwriters’ websites and any information contained in any other website maintained by any of the underwriters is not part of this prospectus, has not been approved and/or endorsed by us or the underwriters and should not be relied upon by investors.

## **Relationships**

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for us and our affiliates, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and certain of their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments issued by us and our affiliates. If the underwriters or their respective affiliates have a lending relationship with us, they routinely hedge their credit exposure to us consistent with their customary risk management policies. The underwriters and their respective affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the Class A Ordinary Shares offered hereby. Any such short positions could adversely affect future trading prices of the Class A Ordinary Shares offered hereby. The underwriters and certain of their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

## **EXPERTS**

The consolidated financial statements of DDC Enterprise Limited as of December 31, 2021 and 2022, and for the years then ended have been included herein and in the registration statement in reliance upon the report of KPMG Huazhen LLP, an independent registered public accounting firm, appearing elsewhere herein, and upon the authority of said firm as experts in accounting and auditing.

The audit report covering the December 31, 2022 consolidated financial statements contains an explanatory paragraph that states that the Company has incurred a loss from operations, had net cash used in operating activities, net current liabilities and an accumulated deficit, that raise substantial doubt about its ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of that uncertainty.

The audit report covering the December 31, 2022 financial statements refers to a change to the method of accounting for leases as of January 1, 2022 due to the adoption of Accounting Standards Codification Topic 842, Leases.

## ENFORCEMENT OF CIVIL LIABILITIES

We are an exempted company with limited liability incorporated under the laws of the Cayman Islands and our affairs are governed by our Tenth Memorandum and Articles of Association and the Companies Act, and the common law of the Cayman Islands. We are incorporated in the Cayman Islands because of certain benefits associated with being a Cayman Islands company, such as political and economic stability, an effective judicial system, a favorable tax system, the absence of foreign exchange control or currency restrictions and the availability of professional and support services. However, certain disadvantages accompany incorporation in the Cayman Islands. These disadvantages include, but are not limited to, the following: (i) the Cayman Islands has a less developed body of securities laws as compared to the United States and provides less protection for investors; and (ii) Cayman Islands companies may not have standing to sue before the federal courts of the United States.

Substantially all of our assets are located outside the United States. In addition, most of our directors and executive officers are nationals or residents of jurisdictions other than the United States and substantially all of their assets are located outside the United States. As a result, it may be difficult or impossible for you to effect service of process within the United States upon us or these persons, or to enforce judgments obtained in U.S. courts against us or them, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States. It may also be difficult for you to enforce judgments obtained in U.S. courts based on the civil liability provisions of the U.S. federal securities laws against us and our executive officers and directors.

We have appointed Cogency Global Inc. as our agent to receive service of process with respect to any action brought against us in the United States in connection with this offering under the federal securities laws of the United States or of any State in the United States.

### Cayman Islands

We have been advised by Travers Thorp Alberga, our counsel as to Cayman Islands law, there is uncertainty as to whether the courts of the Cayman Islands would:

- recognize or enforce judgments of U.S. courts obtained against us or our directors or officers predicated upon the civil liability provisions of securities laws of the United States or any state in the United States; or
- entertain original actions brought in each respective jurisdiction against us or our directors or officers predicated upon the securities laws of the United States or any state in the United States.

We have also been advised by Travers Thorp Alberga that it is uncertain whether the courts of the Cayman Islands will allow shareholders of our company to originate actions in the Cayman Islands based upon securities laws of the United States. In addition, there is uncertainty with regard to Cayman Islands law related to whether a judgment obtained from the U.S. courts under civil liability provisions of U.S. securities laws will be determined by the courts of the Cayman Islands as penal or punitive in nature. If such a determination is made, the courts of the Cayman Islands will not recognize or enforce the judgment against a Cayman Islands company, such as our company. As the courts of the Cayman Islands have yet to rule on making such a determination in relation to judgments obtained from U.S. courts under civil liability provisions of U.S. securities laws, it is uncertain whether such judgments would be enforceable in the Cayman Islands. Travers Thorp Alberga has further advised us that although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign judgement, without any re-examination or re-litigation of matters adjudicated upon, provided such judgment:

- (a) is given by a foreign court of competent jurisdiction;
- (b) imposes on the judgment debtor a liability to pay a liquidated sum for which the judgment has been given;
- (c) is final;
- (d) is not in respect of taxes, a fine or a penalty;
- (e) was not obtained by fraud; and
- (f) is not of a kind the enforcement of which is contrary to natural justice or the public policy of the Cayman Islands.

As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a U.S. company.

### **Hong Kong**

There is uncertainty as to whether the courts of Hong Kong would (i) recognize or enforce judgments of United States courts obtained against us or our directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States or (ii) entertain original actions brought in Hong Kong against us or our directors or officers predicated upon the securities laws of the United States or any state in the United States.

A judgment of a court in the United States predicated upon U.S. federal or state securities laws may be enforced in Hong Kong at common law by bringing an action in a Hong Kong court on that judgment for the amount due thereunder, and then seeking summary judgment on the strength of the foreign judgment, provided that the foreign judgment, among other things, is (1) for a debt or a definite sum of money (not being taxes or similar charges to a foreign government taxing authority or a fine or other penalty) and (2) final and conclusive on the merits of the claim, but not otherwise. Such a judgment may not, in any event, be so enforced in Hong Kong if (a) it was obtained by fraud; (b) the proceedings in which the judgment was obtained were opposed to natural justice; (c) its enforcement or recognition would be contrary to the public policy of Hong Kong; (d) the court of the United States was not jurisdictionally competent; or (e) the judgment was in conflict with a prior Hong Kong judgment.

Hong Kong has no arrangement for the reciprocal enforcement of judgments with the United States. As a result, there is uncertainty as to the enforceability in Hong Kong, in original actions or in actions for enforcement, of judgments of United States courts of civil liabilities predicated solely upon the federal securities laws of the United States or the securities laws of any State or territory within the United States.

### **China**

There is uncertainty as to whether the courts of China would (1) recognize or enforce judgments of United States courts obtained against us or such persons predicated upon the civil liability provisions of the securities laws of the United States or any state thereof, or (2) be competent to hear original actions brought in each respective jurisdiction, against us or such persons predicated upon the securities laws of the United States or any state thereof.

The recognition and enforcement of foreign judgments are mainly provided for under the Chinese Civil Procedure Law. Chinese courts may recognize and enforce foreign judgments in accordance with the requirements of the Chinese Civil Procedure Law and other applicable laws and regulations based either on treaties between China and the country where the judgment is made or in reciprocity between jurisdictions. Accordingly, there is uncertainty whether China courts will recognize or enforce judgments of United States or Cayman Islands Courts because China does not have any treaties or other agreements with the Cayman Islands or the United States that provide for the reciprocal recognition and enforcement of foreign judgments as of the date of this prospectus. Further, under Chinese Civil Procedure Law, Chinese courts will not enforce a foreign judgment against us or our officers and directors if the court decides that such judgment violates the basic principles of PRC law or national sovereignty, security or social public interest. As a result, it is uncertain whether and on what basis a PRC court would enforce a judgment rendered by a court in the United States or in the Cayman Islands.

Under the PRC Civil Procedure Law, foreign shareholders may originate actions based on PRC law against a company in China for disputes if they can establish sufficient nexus to the PRC for a PRC court to have jurisdiction, and meet other procedural requirements, including, among others, the plaintiff must have a direct interest in the case, and there must be a concrete claim, a factual basis and a cause for the suit. However, it will be difficult for U.S. shareholders to originate actions against us in the PRC in accordance with PRC laws because we are incorporated under the laws of the Cayman Islands and it will be difficult for U.S. shareholders, by virtue only of holding our ordinary shares, to establish a connection to the PRC for a PRC court to have jurisdiction as required under the PRC Civil Procedure Law.

As at the date of this prospectus, Ms. Norma Ka Yin Chu, our Chief Executive Officer and Chairwoman, Ms. Katherine Shuk Kwan Lui, our Chief Financial Officer and director, and Mr. Chia Hung Yang, our independent director, are permanent residents of Hong Kong; and Samuel Chun Kong Shih, our independent director, is a permanent resident of Canada. As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a U.S. company.

**Report of Independent Registered Public Accounting Firm**

To the Shareholders and Board of Directors  
DDC Enterprise Limited:

*Opinion on the Consolidated Financial Statements*

We have audited the accompanying consolidated balance sheets of DDC Enterprise Limited and subsidiaries (the Company) as of December 31, 2021 and 2022, the related consolidated statements of comprehensive loss, changes in shareholders' deficit, and cash flows for the years then ended and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2022, and the results of its operations and its cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

*Going Concern*

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in note 2(a) to the consolidated financial statements, the Company has incurred a loss from operations, had net cash used in operating activities, net current liabilities and an accumulated deficit, that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in note 2(a). The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

*Change in Accounting Principle*

As discussed in note 2(p) to the consolidated financial statements, the Company has changed its method of accounting for leases as of January 1, 2022 due to the adoption of Accounting Standards Codification Topic 842, Leases.

*Basis for Opinion*

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

**Description of Business**

DDC Enterprise Limited (“DDC” or the “Parent”) was incorporated in the Cayman Islands on April 30, 2012 under the Cayman Islands Companies Law as an exempted company with limited liability. The Parent with its subsidiaries and consolidated variable interest entities (“VIEs”) (collectively referred to as the “Company”) is a China-based Business-to-Business (“B2B”) and Business-to-Consumer (“B2C”) content streaming and product marketplace offering easy, convenient ready-to-cook (“RTC”), ready-to-heat (“RTH”) and ready-to-eat (“RTE”) meals while promoting healthier lifestyle choices to its predominately Millennial and Generation Z (“GenZ”) customer base. The Company’s principal operations and geographic markets are mainly in the People’s Republic of China (“PRC”).

**The VIE arrangements with Weishi**

Prior to April 1, 2022, the Company operated its internet-based business in the PRC through Shanghai Weishi Information Technology Co., Ltd. (“Weishi”), a limited liability company established under the laws of the PRC in February 2015. Weishi holds the necessary PRC operating licenses for the online businesses. The equity interests of Weishi are legally held by Ms. Wang Xiaoxiao, (Co-founder and executive assistant of the CEO) who acts as a nominee equity holder of Weishi on behalf of Shanghai DayDayCook Information Technology Co., Ltd. (“Shanghai DayDayCook” or “WFOE”), the Company’s wholly-owned subsidiary. A series of contractual agreements, including Exclusive Consultancy and Service Agreement, Exclusive Purchase Agreement, Proxy Agreement, Equity Pledge Agreement and Loan Agreement (collectively, the “Weishi VIE Agreements”), were entered among Shanghai DayDayCook, Weishi and its nominee equity holder and were effective until April 1, 2022, when the Company decided to terminate the VIE agreements.

Pursuant to these contractual agreements, the Company is able to exercise effective control over, bear the risks of, and enjoy substantially all of the economic benefits of Weishi, and has an exclusive option to purchase all of the equity interests in Weishi when and to the extent permitted by the PRC law at the lowest price possible. The Company’s management concluded that Weishi is a VIE and WFOE is its primary beneficiary. As such, the financial statements of Weishi are included in the consolidated financial statements of the Company.

The Weishi VIE agreements between WFOE and Weishi have been updated with the principal terms effective until March 31, 2022 summarized as follows:

*1) Exclusive Consultancy and Service Agreement*

WFOE and Weishi entered into an Exclusive Consultancy and Service Agreement whereby WFOE is appointed as the exclusive service provider for the provision of management consulting, technical support, intellectual property licensing and other relevant services to Weishi during the service period, which is 20 years and will be automatically renewed for 20 years upon each expiration.

It is agreed that the WFOE shall be entitled to substantially all of the economic benefits and bear all the risks of Weishi. Weishi shall pay WFOE on a quarterly basis a service fee, which shall be equal to all the quarterly profit before tax and before the service fee after covering the deficit for prior years, if any. WFOE has the discretion to adjust the basis of calculation of the service fee amount according to service provided to Weishi.

Weishi and its nominee shareholder shall accept the service provided by the WFOE, cannot receive services from other third parties directly or indirectly, and shall not enter into any transaction that may cause conflict with the agreement or negatively affect the interests under the agreement.

*2) Exclusive Option Agreement*

The WFOE has exclusive right to purchase the equity interests and assets in Weishi from the nominee shareholder and assets from Weishi, once or at multiple times at any time in part or in whole, at the Company’s sole discretion.

**Termination of the VIE agreements with Weishi**

On April 1, 2022, the WFOE, Weishi and the nominee shareholder entered into an agreement to terminate the VIE arrangements with Weishi for nil consideration. Upon the termination, the Company recognized a gain of RMB426,690, which is the difference between (i) net liabilities of RMB63,362,821 of Weishi as of March 31, 2022, and (ii) a net payable of RMB62,936,131 due to the Company, after the Company waiving the net receivables due from Weishi. **The VIE arrangements with Farm Entities**

The Company acquired a business for planting fresh vegetables (“Farm”) in January 2019. The acquired Farm business was operated through Shanghai City Modern Agriculture Development Co., Ltd. (“City Modern”), a limited liability company controlled by Mr. Cui Yixiong and Shanghai City Vegetable Production and Distribution Co-op (“City Vegetable”), Shanghai Jiapin Vegetable Planting Co-op (“Jiapin Vegetable”) and Shanghai Jiapin Ecological Agriculture Co-op (“Jiapin Ecological”), incorporated in the PRC, collectively referred to as “Farm Entities” thereafter.

Prior to the acquisition, the Farm Entities operate agricultural greenhouse facilities in the PRC, where it produces, markets, and sells premium-quality vegetable products. City Vegetables, Jiapin Vegetables and Jiapin Ecological are farmers’ specialized cooperatives (together the “FSCs”) in China. Legal members of FSCs shall consist of no less than 80% qualified farmers. Mr. Cui Yixiong controlled these FSCs since their establishment, and the formal contractual agreements, including Exclusive Consultancy and Service Agreement and Exclusive Option Agreement (collectively, the “FSC VIE Agreements”), were entered into among City Modern, and the nominee equity holders, i.e. the qualified farmers of the FSCs in January 2019.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. DESCRIPTION OF BUSINESS AND ORGANISATION (cont.)**

The principal terms of the FSC VIE arrangements are as follows:

*1) Exclusive Consultancy and Service Agreement*

City Modern shall provide management consulting, technical support, intellectual property licensing and other relevant services to the FSCs during the service period, which is 20 years and will be automatically renewed for 20 years upon each expiration. The FSCs shall pay to City Modern 100% of their net profit as service fees for the consultancy services provided by City Modern.

The FSCs and their nominee equity holders shall accept the services provided by City Modern, cannot receive services from other third parties directly or indirectly, and shall not enter into any transaction that may cause conflict with the agreement or negatively affect the interests under the agreement unless with the prior written consent of City Modern.

The FSCs shall strictly follow the City Modern's decision to operate the business and should obtain the City Modern's written approval before signing any significant contract, including share transfer, financing, land leasing, operating, etc.

*2) Exclusive Option Agreement*

Pursuant to the three Exclusive Option Agreements dated 2019 entered into by and between City Modern and the nominee equity holders of the FSCs (the "FSCs Exclusive Option Agreements"), the nominee equity holders of the FSCs irrevocably granted to City Modern an exclusive and unconditional option to purchase the FSCs' equity and assets.

City Modern has the absolute right to determine the specific time, method, frequency of exercising the above option, and has the right to request the nominee equity holders of the FSCs, at any time, to transfer the entire equity of the FSCs to City Modern (or its designated representative), and has the right to request, at any time, the FSCs to transfer to City Modern (or its designated representative) the FSCs' assets. Except for City Modern and its designated representative, no other person shall be entitled to purchase such equity and assets or other rights related to the equity or assets in the FSCs.

The purchase price of equity shall be the lower of the contribution by the nominee equity holders of the FSCs and the minimum price permitted by the applicable PRC laws. Pursuant to the FSCs Exclusive Option Agreements, the nominee equity holders of the FSCs and/or the FSCs shall not terminate the FSCs Exclusive Option Agreements unilaterally in any event unless otherwise required by applicable compulsory laws.

On April 1, 2022 the Company entered into a sale and purchase agreement as well as an agreement to terminate the Farm VIE Agreements with Mr. Cui Yixiong and Ms. Wang Yike to transfer the Farm Entities to Mr. Cui Yixiong and Ms. Wang Yike for RMB1. The share options previously issued to Mr. Cui Yixiong in connection with the acquisition of Farm Entities were returned and cancelled. At the same time, the Company granted 360,144 new share options to Mr. Cui Yixiong. Upon the termination, the Company recognized a gain from termination of the Farm Entities VIE arrangement of RMB13,116,960, which is measured as the difference between (i) the consideration of RMB1 receivable, (ii) the incremental fair value of RMB1,424,721 of the share options exchanged on April 1, 2022, and (iii) the carrying amount of Farm Entities' net liabilities of RMB15,658,584, including goodwill of RMB1,116,904. The disposal of the Farm Entities discontinued the Company's fresh products business. The Company's management believes that the termination of the Farm VIE Agreements does not represent a strategic shift that has a major effect on the Company's operations and financial results and is not accounted as discontinued operation.

**The VIE arrangements with Mengwei Stores**

The Company acquired a business engaging in the online sales of self-heated hotpots through a number of online stores (“Mengwei Stores”) in January 2021 (note 14).

The Company operates these online stores on E-commerce platform in the PRC through Chongqing Meng Wei Technology Co., Ltd., Chongqing Yizhichan Leisure Food E-commerce Service Department and Chongqing Wei Bang Internet Technology Co., Ltd. (“the Transferors”). The legal names of these stores are registered with the E-commerce platforms under the Transferors as nominal holders. A series of contractual agreements including Purchase Agreement and Store Operation Agreements (collectively, the “Mengwei Stores VIE Agreements”), were entered among Shanghai DayDayCook, and the Transferors.

Pursuant to these contractual agreements, the Company is able to exercise effective control over, bear the risks of, and enjoy substantially all of the economic benefits of Mengwei Stores and have the right to, including without limitation to, control such online stores with the assets within the stores. The Company’s management concluded that Mengwei Stores is a VIE and Shanghai DayDayCook is its primary beneficiary. As such, the consolidated financial statements of Mengwei Stores are included in the consolidated financial statements of the Company.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. DESCRIPTION OF BUSINESS AND ORGANISATION (cont.)**

The Mengwei Stores VIE agreements between Shanghai DayDayCook and the Transferors with the principal terms effective as of December 31, 2022 summarized as follows:

*1) Purchase Agreement.*

Pursuant to the Purchase Agreement entered into among the “Transferors”, Shanghai DayDayCook would have the right to, including without limitation to, control such online stores and the target assets, receive substantially all of the economic benefits of and bear all the risks of the Mengwei Stores, freely use certain trademarks of the Transferor, sell products of certain brands of the Transferors, and control all the receipt and payment accounts, third-party payment platform accounts and bank accounts of the online stores.

*2) Store Operation Agreements.*

Pursuant to the Store Operation Agreements entered into between Shanghai DayDayCook and the Transferors, Shanghai DayDayCook would have the right to enjoy the ownership and the exclusive right of operation and management of the stores. The Transferors would be delegated to operate the online stores until being required to terminate by Shanghai DayDayCook. Without prior written consent from Shanghai DayDayCook, the Transferors are prevented from changing any information of the online stores, sub-entrusting the operation right or the related assets, transferring, disposing, or set any form of guarantee on the online stores and related proceeds.

**Risks in relation to the VIE structure**

In the opinion of management, based on the legal opinion obtained from the Company’s local legal counsel, the ownership structures of the Company and its VIEs, do not and will not violate any applicable local laws, regulations, or rules currently in effect; the agreements among the Company, each of the VIEs and its nominee shareholders, governed by local laws, as described above, are valid, binding and enforceable in accordance with their terms and applicable local laws, rules, and regulations currently in effect, both currently and immediately after giving effect to the listing in capital market, and do not and will not violate any applicable local laws, regulations, or rules currently in effect. However, there are substantial uncertainties regarding the interpretation and application of current and future local laws and regulations. Accordingly, if the local government finds that the contractual arrangements do not comply with its restrictions on foreign ownership of businesses, or if the local government otherwise finds that the Company and the VIEs are in violation of local laws or regulations or lack the necessary permits or licenses to operate the Company’s business, the relevant regulatory authorities would have broad discretion in dealing with such violations, including:

- revoking the business and operating licenses of the Company;
- discontinuing or restricting the operations;
- imposing fines or confiscating any of VIEs’ income that they deem to have been obtained through illegal operations;
- imposing conditions or requirements with which the Company’s subsidiaries or the VIEs may not be able to comply;
- requiring the Company to restructure the ownership structure or operations, including terminating the contractual arrangements with the VIEs;
- restricting or prohibiting the Company’s use of the proceeds of overseas offering to finance the business and operations in these jurisdictions; or
- taking other regulatory or enforcement actions that could be harmful to the business.

If the imposition of any of these penalties or requirement to restructure the Company’s corporate structure causes it to lose the rights to direct the activities of the Mengwei or the Company’s right to receive its economic benefits, the Company would no longer be able to consolidate the financial results of the Mengwei in its consolidated financial statements. In the opinion of management, the likelihood of deconsolidation of the Mengwei is remote based on current facts and circumstances.

**1. DESCRIPTION OF BUSINESS AND ORGANISATION (cont.)**

In accordance with VIE Agreements, the Company has the power to direct the activities of the VIEs. Therefore, the Company considers that there are no assets in the VIEs that can be used only to settle obligations of the VIEs. The creditors of VIEs do not have recourse to the general credit of the Company and its subsidiaries. To the extent VIEs require financial support, the Company may, at its option and to the extent permitted under the local law, provide financial support to VIEs.

The VIEs also have assembled work force for sales, marketing and operations which were not recorded on the Company's consolidated balance sheets as they do not meet all the capitalization criteria.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**(a) Basis of Presentation**

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") assuming the Company will continue as a going concern. The going concern assumption contemplates the realization of assets and satisfaction of liabilities in the normal course of business. However, substantial doubt about the Company's ability to continue as a going concern exists.

For the year ended December 31, 2022, the Company incurred a loss from operations of RMB80.0 million, and net cash used in operating activities of RMB37.1 million. As of December 31, 2022, the Company had net current liabilities (current assets less current liabilities) of RMB106.2 million, an accumulated deficit of RMB1.5 billion, and cash and cash equivalents and restricted cash of RMB96.9 million. The Company will require additional liquidity to continue its operations over the next 12 months.

The Company is evaluating strategies to obtain the required additional funding for future operations. These strategies may include, but are not limited to, obtaining equity financing, issuing debt or entering into other financing arrangements, obtaining agreements with the existing investors to extend the due dates for outstanding debt and the redemption dates of redeemable equity securities. In addition, the Company plans to diversify revenue streams and implement cost saving measures to grow revenues and decrease expenses. However, the Company may be unable to access further equity or debt financing when needed. As such, there can be no assurance that the Company will be able to obtain additional liquidity when needed or under acceptable terms, if at all.

The consolidated financial statements do not include any adjustments to the carrying amounts and classification of assets, liabilities, and reported expenses that may be necessary if the Company were unable to continue as a going concern.

**(b) Principles of Consolidation**

The consolidated financial statements include the financial statements of the Company, its subsidiaries, and VIEs.

Subsidiaries are those entities in which the Company, directly or indirectly, controls more than one half of the voting power. Consolidated VIE are entities in which the Company, or its subsidiary, through contractual arrangements, exercises effective control over the activities that most impact the economic performance, bears the risks of, and enjoys the rewards normally associated with ownership of the entity, and therefore the Company or its subsidiary is the primary beneficiary of the entity.

All intercompany transactions and balances among the Company, its subsidiaries and the VIEs have been eliminated upon consolidation.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

***(c) Use of Estimates***

The preparation of the consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, related disclosures of contingent assets and liabilities at the balance sheet dates, and the reported revenues and expenses during the reported periods in the consolidated financial statements and accompanying notes.

Estimates are used for, but not limited to, valuation allowance for deferred tax assets, assessment for impairment of goodwill, long-lived assets and long-term investments, allowance for doubtful accounts, lower of cost and net realizable value of inventories, useful lives of property, plant and equipment and intangible assets, commitments and contingencies, the fair values of financial instruments including redeemable convertible preferred shares, convertible loans, warrant liabilities, the option liability, the shareholders' loans, the share-based compensation, the fair value of contingent consideration and prepaid consideration for business combinations, the purchase price allocation with respect to business combinations, and the fair value of ordinary shares to determine the existence of beneficial conversion feature of convertible instruments prior to the adoption of ASU 2020-06 on January 1, 2022 using the modified retrospective approach.

Actual results could differ from those estimates, and as such, differences may be material to the consolidated financial statements.

***(d) Foreign Currency and foreign currency translation***

The Company's reporting currency is Renminbi ("RMB"). The functional currency of the Company's entities incorporated in Cayman Islands is U.S. dollars ("US\$"), and that of the Company's entities incorporated in Hong Kong is H.K. dollars ("HK\$"). The Company's PRC subsidiaries and consolidated VIEs determined their functional currency to be Renminbi ("RMB").

Transactions denominated in currencies other than functional currency are translated into functional currency at the exchange rates quoted by authoritative banks prevailing at the dates of the transactions. Exchange gains and losses resulting from those foreign currency transactions denominated in a currency other than the functional currency are recorded as "Foreign currency exchange gain/(loss), net" in the consolidated statements of comprehensive loss.

The consolidated financial statements of the Company are translated from the respective functional currencies into RMB. Assets and liabilities are translated into RMB using the applicable exchange rates at the balance sheet date. Equity accounts other than earnings generated in current period are translated into RMB at the appropriate historical rates. Revenues, expenses, gains and losses are translated into RMB using the periodic average exchange rates. The resulting foreign currency translation adjustments are recorded in accumulated other comprehensive income as a component of shareholders' equity.

***(e) Convenience translation***

Translations of the consolidated financial statements from RMB into US\$ for the year ended December 31, 2022 are solely for the convenience of the readers and were calculated at the rate of US\$1.00=RMB7.2513, representing the noon buying rate in The City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York on June 30, 2023. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate on June 30, 2023, or at any other rate.

The US\$ convenience translation is not required under U.S. GAAP and all US\$ convenience translation amounts in the accompanying consolidated financial statements are unaudited.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

**(f) Commitments and Contingencies**

In the normal course of business, the Company is subject to loss contingencies, such as legal proceedings and claims arising out of its business, that cover a wide range of matters, including, among others, government investigations, shareholder lawsuits, and non-income tax matters. An accrual for a loss contingency is recognized when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. If a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, is disclosed.

**(g) Cash and Cash Equivalents**

The Company considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents. As of December 31, 2021 and 2022, cash and cash equivalents consist of cash on hand, cash at bank, demand deposits placed with commercial banks that are readily convertible to known amounts of cash, and certain amounts held in accounts managed by other financial institutions in connection with the provision of online and mobile commerce and related services. The cash and cash equivalents are held with reputable bank and financial institution counterparties.

**(h) Restricted Cash**

Cash that is restricted for withdrawal or use is reported separately on the face of the consolidated balance sheets. As of December 31, 2021 and 2022, the Company had a fixed deposit of US\$10,000,000 (equivalent to RMB63.8 million and RMB69.6 million, respectively) as a compensating balance for a loan facility (note 11). In order to maintain the loan facility, the management will not withdraw this fixed deposit and therefore based on the company's statements of intention, this deposit shall be included as restricted cash. As of December 31, 2022, due to certain closed and pending legal proceedings, bank accounts with the balances of RMB456,863 were frozen by the

**(i) Contract Balances**

The timing of revenue recognition, billings and cash collections result in accounts receivable, net and contract liabilities. A contract liability is recognized when the Company has an obligation to transfer goods or services to a customer for which the Company has received consideration from the customer, or for which an amount of consideration is due from the customer.

Accounts receivable, net are recognized in the period when the Company has transferred products or provided services to its customers and when its right to consideration is unconditional. Amounts collected on accounts receivable, net are included in net cash provided by operating activities in the consolidated statement of cash flows. In evaluating the collectability of receivable balances, the Company considers specific evidence including aging of the receivable, the customer’s payment history, its current credit worthiness and current economic trends. The Company makes a specific allowance if there is strong evidence indicating that an account receivable is likely to be unrecoverable, accounts receivable, net are written off after all collection efforts have been ceased. The Company does not have any off-balance sheet credit exposure related to its customers.

Accounts receivable, net consisted of the following:

**(j) Inventories**

Inventories, consisting of products available for sale, are stated at the lower of cost and net realizable value. The Company’s inventories mainly contain convenience food products and agriculture products.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

For convenience food products, cost of inventory is determined using the weighted average cost method. Adjustments are recorded to write down the cost of inventory to the estimated net realizable value due to slow-moving merchandise and damaged goods, which is dependent upon factors such as historical and forecasted consumer demand, and promotional environment. The Company takes ownership, risks and rewards of the products purchased. Write-downs are recorded in “cost of revenues” in the consolidated statements of comprehensive loss.

For agriculture products, the costs including but not limited to labor, fertilization, fuel, crop nutrition and irrigation, are capitalized into inventory throughout the respective crop cycle. Such costs are expensed as cost of revenues when the crops are sold.

**(k) Long-term investments**

The Company’s long-term investments includes equity investments without readily determinable fair value.

The Company measures the equity investment without readily determinable fair value at cost and adjusts for changes resulting from impairments and observable price changes in orderly transactions for identical or similar securities of the same issuer. The Company considers information in periodic financial statements and other documentation provided by the investees to determine whether observable price changes have occurred.

The Company makes a qualitative assessment considering impairment indicators to evaluate whether the equity investment without a readily determinable fair value is impaired at each reporting period. The Company also writes down to its fair value if a qualitative assessment indicates that the investment is impaired and that the fair value of the investment is less than its carrying value. If an equity investment without a readily determinable fair value is impaired, the Company includes an impairment loss in net income equal to the difference between the fair value of the investment and its carrying amount.

**(l) Property, plant and equipment, net**

Property, plant and equipment are stated at cost less accumulated depreciation and any recorded impairment.

Depreciation on property, plant and equipment is calculated on the straight-line method over the estimated useful lives of the assets as follows:

Building	20 years
Operating equipment	3 – 5 years
Transportation equipment	3 – 5 years
Electronic equipment	3 years
Office equipment and other	3 years
Leasehold improvements	Shorter of 2 – 3 years or lease term

Expenditures for repairs and maintenance are expensed as incurred, whereas the costs of renewals and betterment that extends the useful lives of property, plant and equipment are capitalized as additions to the related assets. Retirements, sales and disposals of assets are recorded by removing the costs, accumulated depreciation and impairment with any resulting gain or loss recognized in “cost of revenues, sales and marketing expenses, general and administrative expenses” in the consolidated statements of comprehensive loss.

**(m) Intangible Assets, net**

Intangible assets represent franchise agreements, customer relationships and brand name acquired through business combinations, which were initially recognized and measured at fair value upon acquisitions and are amortized on a straight-line basis over respective estimated useful life of 1.5-11 years.

**(n) Impairment of Long-lived Assets other than Goodwill**

The Company evaluates the recoverability of its long-lived assets, including property, plant and equipment and the intangible assets and for impairment whenever events or changes in circumstances indicate that the carrying

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

amount of its asset may not be fully recoverable. When these events occur, the Company measures impairment by comparing the carrying amount of the assets to the estimated undiscounted future cash flows expected to result from the use of the asset and their eventual disposition. If the sum of the expected undiscounted cash flows is less than the carrying amount of the asset, the Company recognizes an impairment loss based on the excess of the carrying amount of the asset over their fair value. Fair value is generally determined by discounting the cash flows expected to be generated by the asset when the market prices are not readily available. The adjusted carrying amount of the asset is the new cost basis and is depreciated over the asset's remaining useful life. Long-lived assets are grouped with other assets and liabilities at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities.

No impairment of long-lived assets was recognized for the years ended December 31, 2021 and 2022, respectively.

**(o) Goodwill**

Goodwill represents the excess purchase price over the estimated fair value of net assets acquired in a business combination.

Goodwill is not amortized but is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is tested for impairment at the reporting unit level on an annual basis and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. These events or circumstances could include a significant change in business climate, legal factors, operating performance indicators, competition, or sale or disposition of a significant portion of a reporting unit. The Company performs its annual impairment review of goodwill as of December 31 of each year.

Goodwill is allocated to reporting units that are expected to benefit from the synergies of the business combination from which it arose.

The Company has the option to perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If the Group decides, as a result of its qualitative assessment, that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the quantitative impairment test is mandatory. Otherwise, no further testing is required. Prior to the adoption of ASU 2017-04 from January 1, 2022 (note 2 (ag)), if the quantitative impairment test is required, first, the fair value of the reporting unit is compared with its carrying amount (including goodwill). If the fair value of the reporting unit is less than its carrying amount, an indication of goodwill impairment exists for the reporting unit and the Company performs step two of the impairment test (measurement). Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. ASU 2017-04 simplified the goodwill impairment test by eliminating Step two from the goodwill impairment test. Under the new guidance, goodwill impairment will be measured by the amount by which the carrying value of a reporting unit exceeds its fair value, without exceeding the carrying amount of goodwill allocated to that reporting unit.

Application of the goodwill impairment test requires judgment, including the determination of the fair value of each reporting unit. Estimating fair value is performed by utilizing various valuation techniques, with a primary technique being a discounted cash flow which requires significant judgments, including estimation of future cash flows, which is dependent on internal forecasts, estimation of the long-term growth rate for the Company's business, estimation of the useful life over which cash flows will occur, and determination of the Company's weighted average cost of capital.

**(p) Leases**

Prior to January 1, 2021, payments made under operating lease were charged to the consolidated statements of comprehensive loss on a straight-line basis over the term of underlying lease. Leases with escalated rent provisions are

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

recognized on a straight-line basis commencing with the beginning of the lease term. There was no capital improvement funding, lease concessions or contingent rent in the lease agreements. The Company had no legal or contractual asset retirement obligations at the end of the lease term.

On January 1, 2022, the Company adopted Accounting Standards Codification Topic 842 (ASC 842), which requires that a lessee recognize in the consolidated balance sheet a lease liability and a corresponding right-of-use asset, including for those leases that the Company currently classifies as operating leases. The right-of-use asset and the lease liability was initially measured using the present value of the remaining lease payments. ASC 842 was implemented using a modified retrospective approach which resulted in no cumulative-effect adjustment in the opening balance of accumulated deficit as of January 1, 2022. As a result, the consolidated balance sheet prior to January 1, 2022 was not restated and continues to be reported under FASB ASC Topic 840, “Leases,” (“ASC 840”), which did not require the recognition of a right-of-use asset or lease liability for operating leases. As permitted under ASC 842, the Company adopted the following practical expedients: (1) not to reassess whether an expired or non-lease contract that commenced before January 1, 2022 contained an embedded lease, (2) not to reassess the classification of existing leases, (3) not to determine whether initial direct costs related to existing leases should be capitalized under ASC 842.

The Company leases premises for land, offices and retail stores all under non-cancellable operating leases and has no finance leases for any of the periods presented. The adoption had no impact on the Company’s opening balance of accumulated deficit as of January 1, 2022. The Company’s lease agreements do not contain any residual value guarantees, restrictions or covenants.

The following table summarizes the effect on the consolidated balance sheet as a result of adopting ASC 842.

The Company reviews all relevant contracts to determine if the contract contains a lease at its inception date. A contract contains a lease if the contract conveys to the Company the right to control the use of an underlying asset for a period of time in exchange for consideration. If the Company determines that a contract contains a lease, it recognizes, in the consolidated balance sheets, a lease liability and a corresponding right-of-use asset on the commencement date of the lease. The lease liability is initially measured at the present value of the future lease payments over the lease term using the rate implicit in the lease or, if not readily determinable, the Company’s secured incremental borrowing rate. An operating lease right-of-use asset is initially measured at the value of the lease liability minus any lease incentives and plus initial direct costs incurred and any prepaid rent.

As the rate implicit in the Company’s lease is not typically readily available, the lease liability is measured using the Company’s secured incremental borrowing rates, which is based on an internally developed yield curve using interest rates of debt issued with a similar risk profile as the Company and a duration similar to the lease term. Some of the Company’s lease contracts include options to extend or terminate the leases. Such options are accounted for only

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

when it is reasonably certain that the Company will exercise the options. Lease cost is recognized on a straight-line basis over the lease term and is included in cost of revenues and general and administrative expenses in the Company's consolidated statements of comprehensive loss.

The Company's operating leases contain both lease components and non-lease components. Non-lease components are distinct elements of a contract that are not related to securing the use of the underlying assets, such as common area maintenance and other management costs. As a practical expedient, the Company has elected that for all leases, where it is the lessee, not to separate non-lease components from lease components and instead to account for all lease and non-lease components associated with each lease as a single lease component.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases (i.e. leases that, at the commencement date, have a lease term of 12 months or less and do not include an option to purchase the underlying asset that the lessee is reasonably certain to exercise).

The Company's subleases with escalated rent provisions are recognized on a straight-line basis commencing with the beginning of the lease term.

If the nature of a sublease is such that the original lessee is not relieved of the primary obligation under the original operating lease, the original lessee (as sublessor) shall account for both the original lease and the new lease as operating leases.

The total amounts for subleases income included in other income were RMB1.1 million and RMB0.5 million for the years ended December 31, 2021 and 2022, respectively.

**(q) Warrant Liabilities and Option Liability**

The warrants and option to purchase redeemable convertible preferred shares at a future date were determined to be freestanding instruments that were accounted for as liabilities. At initial recognition, the Company recorded the warrant liabilities and option liability on the consolidated balance sheets at their estimated fair value. The warrant liabilities and option liability are subject to remeasurement at each reporting period and the Company adjusted the carrying value of the warrant liabilities and option liability to fair value at the end of each reporting period utilizing the binomial option pricing model, with changes in estimated fair value included in the "changes in fair value of financial instruments" on the consolidated statement of comprehensive loss.

**(r) Fair Value Measurements**

Fair value represents the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability.

Accounting guidance defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Accounting guidance establishes a three-level fair value hierarchy and requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of inputs are:

- Level 1 — Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 — Include other inputs that are directly or indirectly observable in the marketplace.
- Level 3 — Unobservable inputs which are supported by little or no market activity.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

Accounting guidance also describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset.

Financial assets and liabilities of the Company primarily consist of cash and cash equivalents, restricted cash, accounts receivable, net, other receivables, deposits and amount due from suppliers included in prepayments and other current assets, long-term investments, other non-current assets, bank borrowings, accounts payable, amounts due to related parties, loans and other payables included in accrued expenses and other current liabilities, warrant liabilities, convertible loans and shareholder loans. Warrant liabilities, an option liability and certain convertible loans elected fair value option were measured at fair value using unobservable inputs and categorized in Level 3 of the fair value hierarchy. As of December 31, 2021 and 2022, the carrying amount of other financial instruments approximated to their fair values due to the short-term maturity of these instruments.

The Company's non-financial assets, such as goodwill, intangible assets, property, plant and equipment and inventories, would be measured at fair value only if they were determined to be impaired.

**(s) Revenue recognition**

The Company's revenue is recognized when control of the promised good or service is transferred to the customer in an amount that reflects the consideration expected to receive in exchange for those goods or services, after considering estimated sales return allowances, and value added tax ("VAT"). The Company follows five steps for revenue recognition: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, and (v) recognize revenue when (or as) the Company satisfies a performance obligation.

Revenue is primarily derived from (i) online products sales to individual customers or small retailers through third-party E-commerce platforms (ii) offline products sales to various distributors, e.g. offline retail chains or supermarkets who then sell to end customers, (iii) advertising services to customers with well-known brand names in lifestyle-related industries, (iv) cooking classes in the branded experience stores operated by the Company and (v) providing management services in collaborative arrangements.

The Company evaluates whether it is appropriate to record the gross amount of products sales and, advertising services and related costs or the net amount earned as commissions. When the Company is a principal, that the Company obtains control of the specified goods or services before they are transferred to the customers, revenue should be recognized in the gross amount of consideration to which it expects to be entitled in exchange for the specified goods or services transferred. When the Company is an agent and its obligation is to facilitate third parties in fulfilling their performance obligation of specified goods or services, revenue should be recognized in the net amount for the amount of commission which the Company earns in exchange for arranging for the specified goods or services to be provided by the third parties.

**Product sales**

The Company develops and sells the following types of products:

- (a) Own-branded ready to cook ("RTC") products that can be consumed within 15-20 minutes with additional cooking preparation required;
- (b) Own-branded ready to heat ("RTH") products, typically pre-or-semi-cooked meals, which require some preparation ahead of serving;

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

- (c) Ready to eat & plant base products (“RTE & Plant Base”) — typically pre -cooked meals that are ready to serve with minimal level of additional preparation, which includes the plant-based meal products;
- (d) Private label products with other third-party brand; and
- (e) Fresh products including fresh and organic vegetables and fruit. The Company no longer had this category following the deconsolidation of Farm Entities since April 1, 2022.

Each type of the products is distributed and promoted through omni channels (online and offline).

**1) Online consumer product sales**

The Company sells RTC, RTH, RTE & Plant Base and private label products to individual customers or small retailers through third-party E-commerce platforms. Revenues for online consumer products are recognized on a gross basis as the Company obtains control of the products before they are delivered to the customers.

When the Company sells RTC, RTH, RTE & Plant Base and private label products through third-party E-commerce platforms, the Company sets up online stores on platforms to sell the product to these individual customers or small retailers. These platforms provide services to support the operations of the online stores including processing sales orders and collecting payment from individual customers or small retailers. These platforms charge service fees based on the sales conducted through the online stores. The Company enters into sale contracts directly with individual customers or small retailers. These platforms do not take control of the goods or have sales contracts with individual customers or small retailers. The Company is responsible for fulfilling all obligations according to the sales contracts with end customers and small retailers, including delivering products, providing customer support and handling sales return. The Company also has discretion in setting the price charged on individual customers or small retailers. Accordingly, the Company determined that individual customers and small retailers (as opposed to the platforms) are the Company’s customers. The sales contracts with individual customers normally include a customer’s right to return products within seven days after receipt of goods.

The Company identifies that its performance obligation under online consumer product sales is to provide the ordered products to end customers or small retailers. Revenue is recognized upon delivery of the products. In scenarios where the Company separates one order into multiple deliveries, transaction price will be allocated to each product based on relative standalone selling prices and the allocated amount will be recognized as revenue when the product is delivered.

Estimated sales allowances for sales returns are made based on contract terms and historical patterns. Discount coupons are recorded as a deduction of revenue when used by customers. The Company does not issue any discount coupons concurrent with a sales transaction.

**2) Offline consumer product sales**

The Company primarily sells RTC, RTH, RTE & Plant Base, private label products and fresh products to various distributors, e.g. offline retail chains or supermarkets who then sell to end customers. Revenue is recognized on a gross basis upon delivery of the products to the warehouses of the distributors for the following reasons: (1) the Company is the primary obligor and is responsible for the acceptability of the products purchase orders and the fulfilment of the delivery services; (2) the Company is responsible to compensate the customers if the products are defective; (3) the Company has latitude in establishing selling prices and selecting suppliers.

**Advertising services**

The Company provides advertising services to customers for promotion of their brands and products. These types of advertising services include production and online publishment of customized promotional videos, advertising placements on the Company’s website channels and offline promotion e. g. products exhibition in the Company’s branded experience stores.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

Transaction price of advertising arrangements involving multiple deliverables is allocated to each distinct service based on their relative selling prices.

The Company recognizes advertising revenue when the advertisement is published or displayed.

**Cooking classes in the branded experience stores operated by the Company (“Experience stores”)**

The Company provides two types of offline cooking courses to customers at the Company’s branded experience stores: one-off experienced class and a series of cooking classes to be delivered in a course. As cooking classes are distinct from each other, revenue is recognized when an individual class is delivered. Generally, customers are required to pay in advance. Payment received in advance of the delivery of the classes is initially recorded as contract liabilities.

The Company offers refunds for any undelivered classes to customers who decide to withdraw from a course. A termination penalty will be charged for course withdrawal.

**Collaborative arrangements**

As described in Note 10, on July 1, 2021, the Company entered into purchase agreements with the selling shareholders of Fujian Yujiaweng Food Co. Ltd (“YJW”) and Fujian KeKe Food Co. Ltd (“KeKe”) acquire the respective 60% interests of YJW and KeKe’s product sales business, which primarily included distribution contracts, the sales and marketing teams, procurement team and other supporting function personnel (“the Target Assets”). The Company and the selling shareholders agreed to form an entity to which the Target Assets will be transferred specific to each purchase agreement. The Company and one of the selling shareholders agreed to hold 60% and 40% equity interests of the respective entities formed. During the period from July 1, 2021 until June 17, 2022 when the new entities were formed (“the transition period”), the Company managed and operated the Target Assets and was entitled to 60% of the net profit arising from the operation of the Target Assets.

The Company has determined that the arrangements during the transition period are collaborative arrangements between the Company and YJW and KeKe to jointly operate the product manufacturing and distribution activities. Under the arrangements, YJW and KeKe owned and provided the customer relationships, brand use rights and manufactured the products, and the Company is primarily responsible for managing and directing the daily operation of the sales and marketing activities. Each party is entitled to 60% and 40% respectively of the net profit arising from the operation of the Target Assets during the transition period. As both parties actively participate in the product manufacturing and distribution activities and are exposed to significant risks and rewards of such joint operating activities, the Company considers these arrangements to be in the scope of ASC 808 — Collaborative Arrangements. The Company determined that it provided distinct management services to its customers, YJW and KeKe, and recognized 60% of the net profit arising from the operation of the Target Assets as revenue from contracts with customers in accordance with ASC 606.

***Reconciliation of contract balance***

A receivable is recorded when the Company has an unconditional right to consideration. A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due.

A contract asset is recorded when the Company has transferred products to the customer before payment is received or is due, and right to consideration is conditional on future performance or other factors in the contract.

Product sales to platform distributors, offline distributors and advertising services to corporate customers are on credit terms. Receivables are recorded when the Company recognizes revenue upon fulfilment of the performance obligations.

For products sales to individual customers or small retailers through third-party E-commerce platforms, those customers pay through the payment channels of the platforms before the Company delivers the products. The platforms will then transfer the payment (after deducting platform service charges) to the Company based on pre-agreed days after the Company delivers products, or when the customers confirm the receipts of products, whichever is earlier.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

A contract liability is recorded when the obligation to transfer goods or service to a customer is not yet fulfilled but for which the Company has received consideration from the customer.

***Practical Expedients***

The Company applies the practical expedient to not disclose the value of unsatisfied performance obligations for contracts with an original expected duration of one year or less and contracts for which revenue is recognized at the amount to which the Company has the right to invoice services performed.

Payment terms with the customers require settlement within one year or less. The Company applies the practical expedient and does not adjust any of the transaction price for the time value of money. The Company generally expenses sales commissions when incurred because the amortization period would be one year or less. These costs are recorded within sales and marketing expenses.

***(t) Cost of Revenues***

Cost of revenues primarily consists of the purchase price of merchandise, lease costs, costs of publishing advertisement, personnel costs for cooking classes, and cost of fresh products.

***(u) Fulfilment Expenses***

Fulfilment expenses relate to product delivery and packaging.

***(v) Sales and Marketing Expenses***

Sales and marketing expenses mainly include app download promotion, social media platform and short video platform content marketing expenses, E-commerce platform promotion and channel promotion, including the commission of key opinion leader (“KOL”), payroll and related expenses for personnel engaged in sales and marketing activities, depreciation expenses relating to facilities and equipment used by those employees, lease costs of stores and facilities. The amount of advertising expenses incurred were RMB15.3 million and RMB2.9 million for the years ended December 31, 2021 and 2022, respectively.

***(w) Research and development expenses***

Research and development expenses consist primarily of payroll costs and related expenses for research and development employees involved in the development of “DAYDAYCOOK” Mini Program. Research and development expenses are expensed as incurred.

***(x) General and Administrative Expenses***

General and administrative expenses mainly consist of payroll and related costs for employees involved in general corporate functions, expenses associated with the use of facilities and equipment by these employees, such as operating lease and depreciation expenses, professional fees, information service fees, technical service fees, amortization expenses related to intangible assets acquired in business combinations, bank charges and other general corporate expenses.

***(y) Government grants***

Government grants are received from provincial and local governments for operating a business in their jurisdictions and compliance with specific policies promoted by the local governments. During the years ended December 31, 2021 and 2022, the Company received financial subsidies of RMB4.4 million and RMB0.2 million, respectively, from various local PRC government authorities. There are no defined rules and regulations to govern the criteria necessary for companies to receive such benefits, and the amount of financial subsidy is determined at the discretion of the relevant government authorities. Such amounts are recorded in other income when received

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

as the amount of the subsidies and the timing of payment are determined solely at the discretion of the relevant government authorities and there is no assurance that the Company will continue to receive any or similar subsidies in the future.

**(z) Share-based Compensation**

The Company determines whether an award should be classified and accounted for as a liability award or an equity award. Both liability-classified awards and equity-classified awards are initially measured at their grant-date fair value. At each financial reporting date and ultimately at settlement date, the fair value of a liability-classified award is remeasured. An equity-classified award is not remeasured after grant date. If share-based awards are subject to both service conditions and the occurrence of an initial public offering (“IPO”) as performance condition, cumulative share-based compensation expenses for the awards that have satisfied the service condition will be recorded upon the completion of the IPO, using the graded-vesting method. The fair value of share options at the time of grant or modification, if applicable, is determined using the binomial-lattice option pricing model. The Company elects to recognize the effect of forfeitures as compensation costs when they occur. To the extent the required vesting conditions are not met resulting in the forfeiture of the share-based awards, previously recognized compensation expense relating to those awards is reversed.

**(aa) Employee Benefits**

The full-time employees of the Company’s PRC subsidiaries and VIEs participate in a government mandated defined contribution plan, pursuant to which certain pension benefits, medical care, employee housing fund and other welfare benefits are provided to employees. The Company is required to accrue these benefits based on certain percentages of the qualified employees’ salaries and make contributions to the share based on the accrued amounts. The PRC government is responsible for the medical benefits and the pension liability to be paid to these employees and the Company’s obligations are limited to the amounts contributed. The Company has no further payment obligation once the contributions have been paid. The total amounts for such employee benefits were RMB6.3 million and RMB3.8 million for the years ended December 31, 2021 and 2022, respectively, and expensed in the period incurred.

**(ab) Income Taxes**

The Company accounts for income taxes using the asset and liability method. Current income taxes are provided on the basis of income before income taxes for financial reporting purposes and adjusted for income and expense items which are not assessable or deductible for income tax purposes, in accordance with the regulations of the relevant tax jurisdictions. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and for operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax laws and rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the consolidated statements of comprehensive loss in the period that includes the enactment date. A valuation allowance is provided to reduce the amount of deferred income tax assets if based on the weight of available evidence, it is more likely than not that some portion, or all, of the deferred income tax assets will not be realized. This assessment considers, among other matters, the nature, frequency and severity of current and cumulative losses, forecasts of futures profitability, the duration of statutory carry forward periods, the Company’s experience with operating loss and tax credit carry forwards, if any, not expiring.

The Company applies a “more-likely-than-not” recognition threshold in the evaluation of uncertain tax positions. The Company recognizes the benefit of a tax position in its consolidated financial statements if the tax position is “more-likely-than-not” to prevail based on the facts and technical merits of the position. Tax positions that meet the “more-likely-than-not” recognition threshold is measured at the largest amount of tax benefit that has a greater than fifty percent likelihood of being realized upon settlement. Unrecognized tax benefits may be affected by changes in interpretation of laws, rulings of tax authorities, tax audits, and expiry of statutory limitations. In addition, changes

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

in facts, circumstances and new information may require the Company to adjust the recognition and measurement estimates regarding individual tax positions. Accordingly, unrecognized tax benefits are periodically reviewed and re-assessed. Adjustments, if required, are recorded in the Company's consolidated financial statements in the period in which the change that necessitates the adjustments occur. The ultimate outcome for a particular tax position may not be determined with certainty prior to the conclusion of a tax audit and, in certain circumstances, a tax appeal or litigation process. The Company records interest and penalties related to unrecognized tax benefits (if any) in interest expenses and general and administrative expenses, respectively.

**(ac) Concentration and Risk**

*Concentration of credit risk*

Financial instruments that potentially expose the Company to concentrations of credit risk consist principally of cash and cash equivalents, restricted cash, accounts receivable, net, other receivables, short-term and long-term deposits, receivables of supplier rebates, prepayments and other receivables due from YJW and KeKe.

The Company's investment policy requires cash, cash equivalents and restricted cash to be placed with high quality financial institutions and to limit the amount of credit risk from any one institution. The Company regularly evaluates the credit standing of the counterparties or financial institutions.

Accounts receivable, net, derived from product sales and provision of services on the Company's E-commerce platforms and retail stores, as well as other receivables, deposits and other current assets (note 5), are exposed to credit risk. The assessment of the counterparties' creditworthiness is primarily based on past history of making payments when due and current ability to pay, taking into account information specific to the counterparties as well as pertaining to the economic environment in which the counterparties operate. Based on this analysis, the Company determines what credit terms, if any, to offer to each counter party individually. If the assessment indicates a likelihood of collection risk, the Company will not deliver the services or sell the products to or through the counterparties or require the counterparties to pay cash in time to secure payment.

*Concentration of customers and suppliers*

No customer individually represents greater than 10.0% of total revenues of the Company for the years ended December 31, 2021 and 2022.

Two customers and three customers represent greater than 10.0% of total accounts receivable, net balance of the Company as of December 31, 2021 and 2022, respectively. Accounts receivable, net balances from these customers are as follows:

	As of December 31,	
	2021	2022
	proportion of total accounts receivable, net balance	proportion of total accounts receivable, net balance
Customer A	39.5%	17.0%
Customer B	31.8%	20.6%
Customer C	*	11.4%

\* Less than 10.0% of the Company's accounts receivable, net in the respective years.

The Company conducts credit evaluations on its customers and generally does not require collateral or other security from such customers.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

Three suppliers and three suppliers represent greater than 10.0% of total purchases for the years ended December 31, 2021 and 2022, respectively. Purchase amounts from each supplier for the years ended December 31, 2021 and 2022 are as follows:

	For the Year Ended December 31,	
	2021	2022
	proportion of total purchases	proportion of total purchases
Supplier A	20.2%	*
Supplier B	35.3%	15.8%
Supplier C	14.2%	*
Supplier D	*	14.9%
Supplier E	*	13.6%

\* Less than 10.0% of the Company's purchase amounts in the respective years.

Although there is a limited number of providers of products, management believes that other providers could provide similar products on comparable terms. A change in suppliers, however, could cause negative impact on the business operation and a possible loss of sales, which would affect operating results adversely.

*Interest rate risk*

The Company's borrowings bear interests at fixed and floated rates. If the Company were to renew these borrowings, the Company might be subject to interest rate risk.

*Foreign currency exchange rate risk*

In July 2005, the PRC government changed its decades-old policy of pegging the value of the RMB to the US\$. Since June 2010, the RMB has fluctuated against the US\$, at times significantly and unpredictably. It is difficult to predict how market forces or the government policy may impact the exchange rate between the RMB and the US\$ in the future.

**(ad) Loss per Share**

Basic loss per share is computed by dividing net loss attributable to Class A ordinary shareholders, considering the accretions to redemption value of the preferred shares, by the weighted average number of ordinary shares outstanding during the year using the two-class method. Under the two-class method, net loss is not allocated to other participating securities when the participating securities do not have contractual obligations to share losses.

Class B ordinary shares of the Company were issued to the Founder, Ms. Norma Ka Yin Chu, which are not entitled to dividends and distributions of the Company, whereas any undistributed net loss is not allocated to Class B ordinary shares. Therefore, Class B ordinary shares are not participating securities.

The Company's preferred shares are not participating securities as they do not participate in unallocated loss on an as-converted basis. The preferred shares do not have a contractual obligation to fund or otherwise absorb the Company's losses. Accordingly, any undistributed net profit is allocated on a pro rata basis to the ordinary shares and preferred shares; whereas any undistributed net loss is allocated to ordinary shares only.

Diluted loss per share is calculated by dividing net loss attributable to ordinary shareholders, as adjusted for the effect of dilutive ordinary equivalent shares, if any, by the weighted average number of ordinary and dilutive ordinary equivalent shares outstanding during the period. Ordinary equivalent shares consist of shares issuable upon

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

the conversion of the preferred shares using the as-converted method, and exercise of outstanding share option using the treasury stock method. Ordinary equivalent shares are not included in the denominator of the diluted loss per share calculation when inclusion of such shares would be anti-dilutive.

**(ae) Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decisionmaker (“CODM”). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer (“CEO”). The Company’s CODM assesses performance and allocates resources based on two operating segments: merchandise sales and fresh agriculture produce.

- **Merchandise:** Merchandise segment includes sales of RTC, RTH, RTE and Plant Base, Private label products, Advertising service and Experience stores to third parties and individual customers.
- **Fresh products:** Fresh products segment includes fresh products sold to supermarkets and other third parties. This reporting segment was discontinued since April 1, 2022 due to the deconsolidation of Farm Entities.

Since the deconsolidation of Farm Entities from April 1, 2022, there is only one operating segment remaining.

The Company does not include intercompany transactions between segments for management reporting purposes. In general, revenues, cost of revenues and operating expenses are directly attributable, or are allocated, to each segment. The Company allocates costs and expenses that are not directly attributable to a specific segment, to different segments mainly based on usage, depending on the nature of the relevant costs and expenses. The Company currently does not allocate the assets to its segments, as its CODM does not use such information to allocate resources or evaluate the performance of the operating segments. The Company currently does not allocate other long-lived assets to the geographic operations as most of the Company’s long-lived assets are located in the PRC. In addition, most of the Company’s revenue is derived from within the PRC. Therefore, no geographical information is presented.

The Company’s segment operating performance measure is segment adjusted net loss, which represents net income or loss before (a) depreciation of property, plant and equipment and amortization of intangible assets, and (b) interest income, interest expenses, other income, other expenses, net, and income tax expense. The following table presents information about adjusted net loss and a reconciliation from the segment adjusted loss to total consolidated loss from operations for the years ended December 31, 2021 and 2022, respectively:

**(af) Statutory Reserves**

In accordance with the PRC Company Laws, the paid-in capitals of the PRC subsidiaries and VIEs are not allowed to be transferred to the Company by way of cash dividends, loans or advances, nor can they be distributed except for liquidation.

In addition, in accordance with the PRC Company Laws, the Company's PRC subsidiaries and VIEs must make appropriations from their after-tax profits as determined under the generally accepted accounting principles in the PRC ("PRC GAAP") to non-distributable reserve funds including statutory surplus fund and discretionary surplus fund. The appropriation to the statutory surplus fund must be 10% of the after-tax profits after offsetting any prior year losses as determined under PRC GAAP. Appropriation is not required if the statutory surplus fund has reached 50% of the registered capital of the PRC companies. Appropriation to the discretionary surplus fund is made at the discretion of the PRC companies.

The statutory surplus fund and discretionary surplus fund are restricted for use. They may only be applied to offset losses or increase the registered capital of the respective companies. These reserves are not allowed to be transferred to the Company by way of cash dividends, loans or advances, nor can they be distributed except for liquidation.

No appropriation to the reserve fund was made by the Company's PRC subsidiaries and VIEs, as these PRC Companies had accumulated losses as determined under PRC GAAP for the years ended December 31, 2021 and 2022.

**(ag) Recent Accounting Pronouncements**

**Recently Adopted Accounting Standards**

In February 2016, the FASB issued Accounting Standards Codification Topic 842, Leases (ASC 842). ASC 842 specifies the accounting for leases. For operating leases, ASC 842 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheets. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. ASC 842 was further amended in June 2020 by ASU 2020-05, Revenue from Contracts with Customers (ASC 606) and Leases (ASC 842), ASU 2020-05 deferred the effective date

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

of new leases standard. As a result, ASC 842, Leases, is effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2018. For all other entities, it is effective for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. Early adoption is permitted. As the Company is an “emerging growth company” and elects to apply for the new and revised accounting standards at the effective date for a private company, the Company adopted ASC 842 for the fiscal year ended December 31, 2022.

In January 2017, the FASB issued ASU 2017-04, Intangibles — Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, to simplify the goodwill impairment test by eliminating Step 2 from the goodwill impairment test. Under the new guidance, goodwill impairment will be measured by the amount by which the carrying value of a reporting unit exceeds its fair value, without exceeding the carrying amount of goodwill allocated to that reporting unit. As a result, ASU 2017-04 is effective for public companies for annual and interim impairment tests for periods beginning after December 15, 2019. For other entities, it is effective for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. This guidance is effective January 1, 2022 and is required to be adopted on a prospective basis, with early adoption permitted. As the Company is an “emerging growth company” and elects to apply for the new and revised accounting standards at the effective date for a private company, the Company adopted this standard for the year ended December 31, 2022.

In November 2021, the FASB issued ASU 2021-10, Government Assistance (Topic 832) — Disclosures by Business Entities about Government Assistance (“ASU 2021-10”). It requires issuers to make annual disclosures about government assistance, including the nature of the transaction, the related accounting policy, the financial statement line items affected and the amounts applicable to each financial statement line item, as well as any significant terms and conditions, including commitments and contingencies. The amendments in ASU 2021-10 are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2021. The Company adopted the standard for the year ended December 31, 2022 and the adoption of this standard does not have a material impact on its consolidated financial statements.

In August 2020, the Financial Accounting Standards Board (“FASB”) issued ASU 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”), which eliminates two of the three models in ASC 470-20 that require separate accounting for embedded conversion features and eliminates some of the conditions for equity classification in ASC 815-40 for contracts in an entity’s own equity. The guidance also requires entities to use the if-converted method for all convertible instruments in the diluted earnings per share calculation and generally requires them to include the effect of share settlement for instruments that may be settled in cash or shares. The Company adopted this standard on January 1, 2022, and such adoption did not impact on the consolidated financial statements.

**Accounting Standards to be Adopted**

In June 2016, the FASB amended ASU 2016-13, Financial Instruments — Credit Losses (ASC 326), Measurement of Credit Losses on Financial Instruments. ASU 2016-13 was further amended in November 2019 by ASU 2019-09, Financial Instruments — Credit Losses (ASC 326), Derivatives and Hedging (ASC 815), and Leases (ASC 842). As a result, ASC 326, Financial Instruments — Credit Losses is effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2019. For all other entities, it is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted. As the Company is an “emerging growth company” and elects to apply for the new and revised accounting standards at the effective date for a private company, the Company will adopt ASU 2016-13 for the fiscal year ending December 31, 2023. The Company does not expect the adoption to have a material impact on its consolidated financial statements.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

In October 2021, the FASB issued ASU 2021-08 Business Combinations (Topic 805), Accounting for Contract Assets and Contract Liabilities from Contracts with Customers, which requires contract assets and contract liabilities acquired in a business combination to be recognized and measured by the acquirer on the acquisition date in accordance with ASC 606, Revenue from Contracts with Customers. The guidance will result in the acquirer recognizing contract assets and contract liabilities at the same amounts recorded by the acquiree. The guidance is applied prospectively to acquisitions occurring on or after the effective date. The guidance is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted, including in interim periods, for any financial statements that have not yet been issued. The Company will adopt ASU 2021-08 for the fiscal year ending December 31, 2023. The Company does not expect the adoption to have a material impact on its consolidated financial statements.

**3. CASH, CASH EQUIVALENTS AND RESTRICTED CASH**

A reconciliation of cash, cash equivalents and restricted cash in the consolidated balance sheets to the amounts in the consolidated statement of cash flows is as follows:

	RMB	RMB

**6. LONG-TERM INVESTMENTS (cont.)**

On August 13, 2021, the Company entered into a subscription agreement with Black River Food 2 Pte. Ltd. (“Black River”) relating to Series C-1 redeemable convertible preferred shares and warrants of the Company. The Company agreed to allot and issue to Black River 5,833,468 Series C-1 redeemable convertible preferred shares and 6,219,115 warrants (“the PFI Warrant”), with each warrant entitling Black River to acquire one Series C-1 redeemable convertible preferred shares at nominal consideration when exercised, exercisable within 3 months. The consideration shall be satisfied by Black River transferring its 5,072,000 ordinary shares of PFI Food Industries Limited (“PFI Foods”, a subsidiary of Black River), representing approximately 6.316% of the entire issued share capital of PFI Foods. PFI Foods focuses on providing RTE and RTC plant-based meat products. The Company issued to Black River 5,833,468 Series C-1 redeemable convertible preferred shares and 6,219,115 PFI Warrant on August 30, 2021 and Black River exercised the PFI Warrant into 6,219,115 number Series C-1 redeemable convertible preferred shares on the same date. The equity interests in PFI Foods were transferred to the Company on December 22, 2021.

Prior to December 22, 2021, the Company determined the equity interests in PFI Foods to be transferred as a non-derivative prepaid forward contract. The forward contract, the Series C-1 redeemable convertible preferred shares issued and PFI warrant was initially recorded at their fair value of RMB94,141,160, RMB45,564,461 and RMB48,576,699, respectively. The forward contract was recorded as an investment on equity securities. The Company estimated the fair values of Series C-1 redeemable convertible preferred shares for Black River and PFI warrant using the binomial model with the assistance of an independent third-party valuation.

On December 22, 2021, the fair value of the forward contract was RMB49,289,160, with a fair value loss of RMB44,852,000 recognized in “Changes in fair value of financial instruments”, due to the overall under performance of the industry and PFI Food’s inability to obtain external financing in the poor economic environment. In determining the fair value of the investment in PFI Foods, the Company made estimates and judgments regarding the cash flow forecasts of PFI Foods, the weighted average cost of capital of 15.4% and the discount for lack of marketability of 20.0% applied to the projected cash flows with the assistance of an independent valuation firm.

After obtaining equity interests in PFI Foods, the Company does not have significant influence over PFI Foods and elected to measure investment in PFI Foods, without a readily determinable fair value, at cost adjusted for changes resulting from impairments, if any, and observable price changes in orderly transactions for the identical or similar securities of the same issuer. As of December 31, 2022, the Company made a qualitative assessment and considered there are impairment indicators that investment in PFI Foods is impaired as it is significantly behind the forecasted revenue growth target and there was a declining trend of the plant-based meat industry performance. In determining the fair value of the investment in PFI Foods, the Company made estimates and judgments regarding the cash flow forecasts of PFI Foods, the weighted average cost of capital of 15.2% and the discount for lack of marketability of 20.0% applied to the projected cash flows with the assistance of an independent valuation firm. As a result, the investment in PFI Foods was written down to its fair value and the difference of RMB22,705,285 between its fair value and the carrying value was included in “impairment loss for equity investments accounted for using measurement alternative” in the consolidated statements of comprehensive loss.

On May 26, 2022, the Company purchased 431 series seed preferred shares from Good Food Technologies (Cayman) Limited (“Good Food”) for a cash consideration of US\$0.1million (equivalent to RMB0.7 million), for 1.43% equity interests. The Company does not have significant influence over Good Food and elected to measure the equity investment without a readily determinable fair value at cost adjusted for changes resulting from impairments, if any, and observable price changes in orderly transactions for the identical or similar securities of the same issuer. The Company did not identify any observable price change requiring an adjustment to the investments in Good Food during 2022.

**10. OTHER NON-CURRENT ASSETS (cont.)**

The Company made estimates and judgments, with the assistance of an independent valuation firm, in determining the fair value of the consideration transferred. Share options granted were estimated on the grant date using the binomial option pricing model with the following assumptions used:

	As of July 1, 2021 and December 31, 2021	As of June 17, 2022 (Derecognition date)
Risk-free rate of return	1.66%	3.31%
Volatility	38.11%	37.01%
Expected IPO date	September 30, 2023	September 30, 2023
Expected dividend yield	—	—
Exercise multiple	N/A	N/A
Fair value of underlying ordinary shares	US\$0.94	US\$0.83
Expected terms	10 years	10 years

The expected volatility was estimated based on the historical volatility of comparable peer public companies with a time horizon close to the expected term of the Company's options. The risk-free interest rate was estimated based on the yield to maturity of U.S. treasury bonds denominated in US\$ for a term consistent with the expected term of the Company's options in effect at the option valuation date. Expected dividend yield is zero as the Company does not anticipate any dividend payments in the foreseeable future. The expected term is the contract life of the option.

(“the Sellers”), to acquire a number of online stores (“collectively referred to as Mengwei Stores”). Mengwei Stores are principally engaged in online sales of self-heated hotpots. The Company further entered into a store operation agreement (“Store Operation Agreement”) with the Sellers on the same date that the Sellers shall operate and manage Mengwei Stores under the instructions of the Company since January 12, 2021, yet the legal name of these stores are still registered with the E-commerce platforms under the Sellers.

Acquisition of Mengwei Stores shall diversify the Company’s existing business portfolio, and broaden the source of income of the Company.

The transaction was accounted for under the acquisition method of accounting in accordance with ASC 805, Business Combinations.

The total consideration payable by the Company comprises fixed cash consideration of RMB3.0 million and contingent cash consideration on achievement of Mengwei Stores’ GMV (as defined in the SPA) and net profit for each performance period from January 2021 to March 2022 (as defined in the SPA). The fair value of the contingent consideration payable of RMB3.3 million as of January 12, 2021 and RMB0.6 million as of December 31, 2021 were estimated by applying income approach which considers the present value of the expected future payment, discounted using a risk-adjusted discount rate of 12.4% as of January 12, 2021 and 12.7% as of December 31, 2021, that are not observable in the market (level 3 inputs).

In addition, the Company will grant share options to Mr. Liao Xuefeng and Mr. Zheng Haohua, holder of 10.0% equity interests in Chongqing Meng Wei Technology Co., Ltd. (“the Selling Shareholders”) at the end of each performance period, depending on achievement of Mengwei Stores’ GMV (as defined in the SPA) and net profit for each performance period from January 2021 to March 2022 (as defined in the SPA). Such share options will be fully vested upon each of the grant and enable Selling Shareholders to acquire the Company’s ordinary shares at the stated nominal exercise price upon the completion of Company’s IPO. Each share option has a contractual life of 10 years. As of December 31, 2022, the Company had granted 288,251 share options to Mr. Liao Xuefeng and 32,028 share options to Mr. Zheng Haohua, respectively, in connection with the achievements of the performance target. The Company made estimates and judgments in determining the fair value of consideration transferred, acquired assets and liabilities assumed, based on management’s experiences with similar assets and liabilities with the assistance of an independent valuation firm. The allocation of the purchase price is as follows:

	RMB

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**15. REDEEMABLE CONVERTIBLE PREFERRED SHARES (cont.)**

The proceeds from the issuance of the Series B-1 Redeemable Convertible Preferred Shares were first allocated to the 2017 Option based on its fair value of RMB2.6 million (US\$0.4 million).

The 2021 Warrant, the HL Option and the PFI Warrant are legally detachable and separately exercisable for underlying redeemable convertible preferred shares that are contingently redeemable and therefore are considered freestanding financial liabilities under ASC 480. The 2021 Warrant, the HL Option and the PFI Warrant are initially measured and recognized at their fair value and subsequently measured at fair value with changes in fair value recognized in “changes in fair value of financial instruments” in the consolidated statements of comprehensive loss.

The proceeds of US\$10.0 million received from the investor HL were first allocated to the 2021 Warrant and the HL Option which are financial liabilities at fair value. The total fair value of the 2021 Warrant of US\$11.6 million (equivalent to RMB74.2 million) and the HL Option of US\$4.0 million (equivalent to RMB25.5 million) exceeded proceeds received by US\$5.6 million (equivalent to RMB36.0 million), representing future business collaboration expected, which was recognized as “other expenses, net” in the consolidated statements of comprehensive loss. As a result, nil consideration was allocated to Series C-1 redeemable convertible preferred shares. As Series C-1 redeemable convertible preferred shares are redeemable at holders’ discretion at any time, the Company adjusts the Series C-1 redeemable convertible preferred shares from the nil consideration allocated, to their maximum redemption amount at each reporting date. The adjustments were recorded, in the absence of retained earnings, first as a reduction of additional paid-in capital and then as an increase to the net loss attributable to ordinary shareholders.

The proceeds of US\$5.1 million received from the C-1 investors for issuance of Series C-1 redeemable convertible preferred shares, the 2021 Warrant and ordinary shares were first allocated to the 2021 Warrant which are financial liabilities at their fair value of US\$2.7 million (equivalent to RMB17.1 million), with the remaining proceed allocated to Series C-1 redeemable convertible preferred shares and ordinary shares based on their relative fair values of US\$0.3 million (equivalent to RMB1.8 million) and US\$2.0 million (equivalent to RMB12.9 million) respectively.

The proceeds of US\$4.9 million received from the C-1 investors for issuance of the February 2021 Shareholders Loan, the 2021 Warrant and ordinary shares were first allocated to the 2021 Warrant which are financial liabilities at their fair value of US\$2.6 million (equivalent to RMB16.7 million), with the remaining proceeds allocated to the February 2021 Shareholders Loan and ordinary shares based on their relative fair values of US\$0.4 million (equivalent to RMB2.4 million) and US\$1.9 million (equivalent to RMB12.4 million) respectively.

The Company applied the debt extinguishment to account for the exchange of the July 2019 convertible loan and 2020 convertible loan into 1,710,353 Series C-1 redeemable convertible preferred shares and US\$4.1 million February 2021 Shareholders Loan. As a result, the Company recognized the respective fair values of series C-1 redeemable convertible preferred shares of US\$2.1 million (equivalent to RMB13.6 million), the February 2021 Shareholders Loan of US\$3.9 million (equivalent to RMB24.8 million), the 2021 Warrant of US\$5.3 million (equivalent to RMB34.0 million) and ordinary shares of US\$33.1 million (equivalent to RMB211.0 million), and derecognized the carrying value of the July 2019 convertible loan and 2020 convertible loan which resulted in an extinguishment loss of RMB224.4 million (US\$34.7 million) that was recognized as “other expenses, net” in the consolidated statement of comprehensive loss for the year ended December 31, 2021.

The C-1 redeemable convertible preferred shares issued to and those exercised from PFI warrant by Black River were recorded at their fair values on the issuance date.

The Company evaluated the embedded conversion option in the Redeemable Convertible Preferred Shares to determine if there were any embedded derivatives requiring bifurcation and to determine if there were any beneficial conversion features (“BCF”). The conversion option of the Redeemable Convertible Preferred Shares is not bifurcated because the conversion option is clearly and closely related to the host equity instrument. The contingent redemption options of the Redeemable Convertible Preferred Shares are not bifurcated because the underlying ordinary shares are not net settleable since the Redeemable Convertible Preferred Shares were neither publicly traded nor readily convertible into cash.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**15. REDEEMABLE CONVERTIBLE PREFERRED SHARES (cont.)**

BCF exist when the conversion price of the Redeemable Convertible Preferred Shares is lower than the fair value of the ordinary shares at the commitment date, which is the issuance date of the Redeemable Convertible Preferred Shares. The Company determined the fair value of the Company's Ordinary Shares with the assistance of an independent third-party valuation firm, utilizing the discounted cash flow method to determine the underlying equity value and adopted equity allocation model. No BCF was recognized for Series A, A-1, B, B-1 and C Redeemable Convertible Preferred Shares as the respective fair value per ordinary share at the commitment date was less than the respective most favorable conversion price. The Company determined that for Series C-1 redeemable convertible preferred shares issued to HL and C-1 investors, the effective conversion price was lower than the fair value of ordinary shares. The intrinsic value of the BCF represents the differences between the effective conversion price and the fair value of ordinary shares at the commitment date, multiplied by the number of the ordinary shares into which the Series C-1 redeemable convertible preferred share is convertible. Total intrinsic value of the BCF was greater than the proceeds allocated to the Series C-1 redeemable convertible preferred shares issued to HL and C-1 investors. Therefore, the amount of the discount assigned to the BCF is limited to the amount of the proceeds allocated to Series C-1 redeemable convertible preferred shares issued to HL (nil) and C-1 investors (RMB1.7 million), respectively. The BCF is recognized as additional paid-in capital with a corresponding amount recorded as the reduction of the carrying amount of the Series C-1 redeemable convertible preferred shares. For Series C-1 redeemable convertible preferred shares issued to convertible loan holders as part of the convertible loan exchange, the Company determined no BCF existed.

The contingent conversion price adjustment for the redeemable convertible preferred shares is accounted for as a contingent BCF. Changes to the conversion terms that would be triggered by future events not controlled by the issuer should be accounted as contingent conversions, and the intrinsic value of such conversion options would not be recognized until and unless a triggering event occurred. No contingent BCF was recognized for any of the Redeemable Convertible Preferred Shares before 2021. Upon the triggering event of the issuance of Series C-1 redeemable convertible preferred shares, contingent BCF of RMB4.7 million (US\$0.7 million) and RMB10.4 million (US\$1.6 million) was recognized for certain series B-2 and C redeemable convertible preferred shares, respectively, by allocating the intrinsic value, being the difference between the revised effective conversion price and the fair value of ordinary shares at the respective commitment dates, multiplied by the number of the ordinary shares into which the series B-2 and C redeemable convertible preferred shares are convertible from their carrying amount to additional paid-in capital for the year ended December 31, 2021.

From January 1, 2022, the Company adopted ASU 2020-06 which removed the BCF model for convertible instruments. The Company applied the modified retrospective method and determined there was no cumulative-effect adjustment in the opening balance of accumulated deficit as of January 1, 2022 and the consolidated balance sheet prior to January 1, 2022 was not restated.

As all series of the Redeemable Convertible Preferred Shares are redeemable at holders' discretion at any time, the Company adjusts the Redeemable Convertible Preferred Shares to their maximum redemption amount at each reporting date. The adjustments were recorded, in the absence of retained earnings, first as a reduction of additional paid-in capital of RMB289.2 million (US\$45.4 million) and RMB36.2 million (US\$5.4 million) for the years ended December 31, 2021 and 2022, respectively, and then as an increase to the accumulated deficit of RMB92.1 million and RMB72.9 million for the years ended December 31, 2021 and 2022, respectively.

***Modification and Extinguishment of Redeemable Convertible Preferred Shares***

Upon the issuance of the Series B-2 Redeemable Convertible Preferred Shares in September 2018, the redemption term of Series A, A-1, B and B-1 Redeemable Convertible Preferred Shares were modified to be the same as the redemption term of the B-2 Redeemable Convertible Preferred Shares to extend the earliest redemption date to January 1, 2022 in the event the Company does not complete a qualified IPO. In October 2021, all investors of Company's Redeemable Convertible Preferred Shares investors signed confirmation letters with the Company that they will not exercise their redemption rights at any time on or before January 1, 2023. In May 2022, all but one

investors of the Company's Redeemable Convertible Preferred Shares signed further confirmation letters that they will not exercise their redemption rights at any time on or before January 1, 2024. In June 2023, all but six investors of the Company's Redeemable Convertible Preferred Shares signed further confirmation letters that they will not exercise their redemption rights at any time on or before January 1, 2025.

The Company assessed whether there was a change in fair value of each modification of Redeemable Convertible Preferred Shares exceeding 10% immediately after the change in terms compared to the fair value of the Redeemable Convertible Preferred Shares immediately before the amendment at each modification date. A change in fair value exceeding 10% would result in extinguishment accounting, while a change in fair value not exceeding 10% would be considered non-substantive and subject to modification accounting.

The Company accounts for modifications that result in an increase to the fair value of the modified Redeemable Convertible Preferred Shares as a deemed dividend reconciling net loss to net loss attributable to ordinary shareholders as there is a transfer of value from the ordinary shareholders to the redeemable convertible preferred shareholders. Modifications that result in a decrease in the fair value of the modified Redeemable Convertible Preferred Shares were not recognized. With the assistance of an independent third-party valuation firm, the Company determined that the change in fair value for each modification did not exceed 10% and did not result in any substantial increase to the fair value of the modified Redeemable Convertible Preferred Shares.

The Company's Redeemable Convertible Preferred Shares activities consist of the following:

**16. CONVERTIBLE LOANS AND SHAREHOLDER LOANS**

**2018 Convertible Loan**

In June 2018, the Company issued US\$ denominated convertible loans for an aggregate principal amount of US\$5.0 million (“2018 Convertible Loan”). The 2018 Convertible Loan bears interest of 8.0% per annum, is repayable within 12 months from the issue date, and could be converted at the completion date of a next round of financing at a price per share as below:

- (a) where the proposed financing occurs within two (2) months from the first drawdown date, a price per share being a 15% discount to the price per share paid by the investors on such proposed financing;
- (b) where the proposed financing occurs after two (2) but within six (6) months from the first drawdown date, a price per share being a 20% discount to the price per share paid by the investors on such proposed financing; or
- (c) where the proposed financing occurs after six (6) months from the first drawdown date, a price per share being a 30% discount to the price per share paid by the investors on such proposed financing.

The Company elected to record the 2018 Convertible Loan at fair value. In September 2018, the Company closed a qualified financing of Series B-2 Redeemable Convertible Preferred Shares (note 15). The holders elected to convert all the 2018 Convertible Loan into 2,088,533 Series B-2 Redeemable Convertible Preferred Shares at a conversion price of US\$2.39 per share, a 20% discount to the price per share paid by the investors of Series B-2 Redeemable Convertible Preferred Shares. As the embedded variable share conversion features are share settled by a number of shares with a fair value equal to a fixed monetary amount, they are considered as an in-substance contingent prepayment option because the settlement amount does not vary with the share price. Therefore, the Company applied the debt extinguishment to account for the conversion. The Company recognized the fair value of Series B-2 Redeemable Convertible Preferred Shares and derecognized the carrying value of the 2018 Convertible Loan upon the conversion.

**January 2019 Shareholder Loan**

In January 2019, the Company entered into a shareholder loan agreement with an investor for an aggregate principal amount of HK\$23.5 million (the “January 2019 Shareholder Loan”). The loan bears interest of 12% per annum and is repayable within 12 months from the issue date. Concurrent with the loan, the Company granted a warrant (“B-2 Warrant”) to the investor for a consideration of HK\$1.0 to subscribe for Series B-2 Redeemable Convertible Preferred Shares at an exercise price of US\$3.95 per share. The total subscription price for the warrant shall not exceed one-third of the loan, plus any accrued but unpaid interest. The B-2 Warrant will expire on the earlier of: (i) the date of the closing of the first firm commitment, underwritten public offering to the general public of the ordinary shares of the Company where the valuation of the Company is no less than US\$400,000,000; or (ii) 23 January 2022.

In September 2019, the Company agreed with the lender to extend the loan to be expired by 25 September 2020, and revised interest to 6% per annum and concurrently granted an additional warrant (“C Warrant”) to the same lender for a consideration of HK\$1.0 to subscribe for Series C Redeemable Convertible Preferred Shares at an exercise price of US\$3.57 per share (“the first modification”). The total subscription price for the warrant shall not exceed one-third of the loan, plus any accrued but unpaid interest. The C Warrant will expire on the earlier of: (i) the date of the closing of the first firm commitment, underwritten public offering to the general public of the ordinary shares of the Company where the valuation of the Company is no less than US\$400,000,000; or (ii) 25 September 2022.

In October 2020, the Company agreed with the lender to extend the loan to be expired by March 2021, and revised interest to 8% per annum (“the second modification”). In addition, the Company revised the exercise price of both B-2 Warrant and C Warrant to US\$2.37 per share. Both B-2 Warrant and C Warrant became exercisable at the time on the earlier of: (i) the consummation of a qualified IPO; and (ii) 25 September 2023.

**16. CONVERTIBLE LOANS AND SHAREHOLDER LOANS (cont.)**

In February 2021, the Company repaid HK\$7.8 million and in March 2021, the Company agreed with the lender to extend the remaining unpaid principal of HK\$15.7 million to be expired on the earlier of (i) the consummation of a qualified IPO; and (ii) September 25, 2021. The interest of the outstanding amount of the loan remains at 8% per annum (“the third modification”).

In September 2021, the Company agreed with the lender to extend the loan to be expired on the earlier of (i) the consummation of a qualified IPO; and (ii) April 2022. The interest remains at 8% per annum. Concurrently the Company granted additional warrants (“Class A OS Warrant”) to the same lender for a consideration of HK\$1.0 to subscribe for the new Class A Ordinary Shares at an exercise price of US\$0.665 per share. The total subscription price for the Class A Ordinary Shares shall not exceed US\$2,405,964. At the same time, the B-2 & C Warrant issued to the lender were cancelled. The Class A OS Warrant will expire on 25 September 2023 (“the fourth modification”).

The warrants are legally detachable and separately exercisable for underlying Redeemable Convertible Preferred Shares that are contingently redeemable and therefore are considered a freestanding financial liability under ASC 480. The Class A OS Warrant are legally detachable and separately exercisable for variable number of the Company’s equity shares and therefore are considered a freestanding financial liability under ASC 480. The warrants are initially measured and recognized at its fair value and also subsequently measured at fair value with changes in fair value recognized in “changes in fair value of financial instruments” in the consolidated statements of comprehensive loss.

The Company assessed whether there were substantial changes of terms of the January 2019 Shareholder Loan. If the terms are substantially different, the modification is accounted for as a debt extinguishment. Otherwise, it is accounted for as a modification. In order to determine whether the terms are substantially different upon each modification, the Company compared whether the present value of the cash flows under the terms of the modified debt instrument is at least 10 percent different from the present value of the remaining cash flows under the terms of the original debt instrument. If the terms of a non-convertible debt instrument are modified and the cash flow effect on a present value basis is less than 10 percent, the debt instruments are not considered to be substantially different. The calculation of the present value of the cash flows of the new debt instruments included all cash flows specified by the terms of the new debt instruments plus any amounts paid by the Company. Those amounts paid by the Company were the fair value of new warrants issued in the first modification, the incremental fair value resulted from the revision of the warrant terms in the second modification, nil in the third modification and the excess of the fair value of Class A OS Warrant issued, over the fair value of the B-2 & C Warrants cancelled, in the fourth modification.

Based on the above assessment, it was determined that there was no substantial change of terms in the first modification and the new debt was accounted for at amortized cost using a new effective interest rate determined based on the original debt’s net carrying amount after deducting the fair value of the newly issued C Warrant and the revised cash flow under the term of the modified debt instrument.

For the second modification, it was determined that there was substantial change of terms and extinguishment accounting was applied. The excess of the reacquisition price of debt, being the fair value of the new debt instruments and the incremental fair value of RMB2.9 million (US\$0.5 million) of the warrants resulted from the revision of the exercise price, over the net carrying amount of the extinguished debt was recognized as losses upon the extinguishment.

It was determined that there was no substantial change of terms in the third modification and the new debt was accounted for at amortized cost using a new effective interest rate determined based on the original debt’s net carrying amount and the revised cash flow under the term of the modified debt instrument.

For the fourth modification, it was determined that there was substantial change of terms and extinguishment accounting was applied. The excess of the reacquisition price of debt, being the fair value of the new debt instruments and the incremental fair value of RMB5.9 million (US\$0.9 million) of the issuance of Class A OS Warrant, over the net carrying amount of the extinguished debt and the derecognition of the B-2 & C Warrant was recognized as losses upon the extinguishment in 2021 (note 21).

**16. CONVERTIBLE LOANS AND SHAREHOLDER LOANS (cont.)**

In April 2022, the Company agreed with the lender to extend the remaining unpaid principal of HK\$15.7 million to be expired on the earlier of (i) the consummation of a qualified IPO; (ii) the date falling fourteen (14) business days after receiving a repayment notice. At any time after the Company has received a new round of financing of not less than US\$20.0 million, the lender may elect to request the Company for repayment of the indebtedness; and (iii) October 25, 2022. The interest of the outstanding amount of the loan remains at 8% per annum (“the fifth modification”).

In October 2022, the Company agreed with the lender to extend the remaining unpaid principal of HK\$15.7 million to be expired on the earlier of (i) the consummation of a qualified IPO; (ii) the date falling fourteen (14) business days after receiving a repayment notice. At any time after the Company has received a new round of financing of not less than US\$20.0 million, the lender may elect to request the Company for repayment of the indebtedness; and (iii) October 25, 2023. The interest of the outstanding amount of the loan remains at 8% per annum (“the sixth modification”).

It was determined that there was no substantial change of terms in the fifth and sixth modifications and the new debt was accounted for at amortized cost using a new effective interest rate determined based on the original debt’s net carrying amount and the revised cash flow under the term of the modified debt instrument.

**March 2019 Convertible Loan**

In March 2019, the Company issued a US\$ denominated convertible loan of US\$2.0 million to an investor (“the March 2019 Convertible Loan”). The March 2019 Convertible Loan bears interest of 8% per annum, is repayable within 12 months from the issue date, and could be converted at the completion date of a next round of financing at a price per share being a 25% discount to the price per share paid by the investors on such proposed financing.

As the embedded variable share conversion features will be share settled by a number of shares with a fair value equal to a fixed settlement amount, they are considered as an in-substance contingent prepayment option because the settlement amount does not vary with the share price. The Company elected to record the March 2019 Convertible Loan at fair value.

In May 2019, in connection with a qualified financing of Series C Redeemable Convertible Preferred Shares (note 15). The holders elected to convert all the March 2019 Convertible Loan into 760,001 Series C Redeemable Convertible Preferred Shares at a conversion price of US\$2.63 per share, with a 25% discount to the price per share paid by the investors of Series C Redeemable Convertible Preferred Shares. As the variable share conversion feature was considered an in-substance contingent prepayment option, the Company applied the debt extinguishment guidance in ASC405-20 to account for the conversion. The Company recognized the fair value of Series C Redeemable Convertible Preferred Shares and derecognized the fair value of the March 2019 Convertible Loan which resulted in an extinguishment loss of RMB2.1 million (US\$0.3 million).

**March 2019 Shareholder Loan**

In March 2019, the Company borrowed US\$ denominated loans of US\$3.0 million from shareholders. The loans bear interest of 12% per annum and have terms of 12 months from the issue date. Upon the occurrence of the next equity financing of the Company after the date of this agreement, the lenders may at any time elect to request the Company for repayment of the loan and accrued interest.

Concurrently, the Company granted warrants to each of the loan holders for a total consideration of US\$1.0 to subscribe for Series B-2 Redeemable Convertible Preferred Shares at the price of US\$3.952 per share (the “March 2019 B-2 Warrant”). The total subscription price for the March 2019 B-2 Warrant shall not exceed one-third of the loan plus any accrued but unpaid interest. The March 2019 B-2 Warrant is exercisable at the time on the earlier of: (i) the date of the closing of the first firm commitment, underwritten public offering to the general public of the ordinary shares of the Company where the valuation of the Company is no less than US\$400,000,000; or (ii) 4 March 2022.

**16. CONVERTIBLE LOANS AND SHAREHOLDER LOANS (cont.)**

In May 2019, the holders agree with the Company that the term of March 2019 B-2 Warrant shall be amended, and that total subscription price shall not exceed US\$1.0 million.

The Company elected to record the March 2019 Shareholder Loan at fair value.

The March 2019 B-2 Warrant is legally detachable and separately exercisable for underlying Redeemable Convertible Preferred Shares that are contingently redeemable and therefore are considered a freestanding financial liability under ASC 480. Proceeds received for the concurrent issuance of the March 2019 Shareholder Loan and March 2019 B-2 Warrant to individual investors were allocated between March 2019 Shareholder Loan and March 2019 B-2 Warrant based on their relative fair values. Both the March 2019 Shareholder Loan and March 2019 B-2 Warrant is subsequently measured at fair value with changes in fair value recognized in “changes in fair value of financial instruments” in the consolidated statements of comprehensive loss.

In July 2019, the Company agreed with the holders to settle this loan by issuing 1,210,287 Series C Redeemable Convertible Preferred Shares instead. The conversion price was US\$2.48 per share, a 30% discount to the fair value of the Series C Redeemable Convertible Preferred Shares. The Company applied the debt extinguishment guidance to account for this settlement, recognized the fair value of Series C Redeemable Convertible Preferred Shares and derecognized the carrying value of the March 2019 Shareholder Loan which resulted in an extinguishment loss of RMB8.9 million (US\$1.3 million).

In March 2022, the Company agreed with the holders to extend the March 2019 B-2 Warrant to be expired on the date of underwritten public offering to the general public of the ordinary shares of the Company where the valuation of the Company is no less than UD\$400 million, including by way of merger with a listed special purpose acquisition company (“SPAC”).

**July 2019 Convertible Loan**

In July 2019, the Company issued US\$ denominated convertible loans of US\$4.2 million to a number of investors (“the July 2019 Convertible Loan”). No interest shall accrue on the July 2019 Convertible Loan. The lenders could elect to convert the July 2019 Convertible Loan into series seed preferred shares on or after the proposed financing conversion date at a fixed conversion price of US\$2.1058. The lenders also have right to convert the July 2019 Convertible Loan into ordinary shares on or after the qualified IPO at a fixed conversion price of US\$2.1058. Upon qualified IPO or a termination event, the lenders may request the Company to repay the July 2019 Convertible Loan in full if the July 2019 Convertible Loan has not been converted.

As the embedded conversion features are underlying preferred shares and could not be publicly traded or readily convertible into cash, the embedded conversion feature is not an embedded derivative and does not require bifurcation.

The Company further evaluated the embedded contingent redemption feature and concluded that it is not required to be bifurcated because it is considered to be clearly and closely related to the debt host, as the loans were not issued at a substantial discount or premium and are redeemable at par. There were no other embedded derivatives that are required to be bifurcated. In addition, no BCF was recorded at the issuance date of the July 2019 Convertible Loan based on the fair value of the common stock or other securities into which the July 2019 Convertible Loan was convertible.

In February 2021, in connection with a qualified financing of Series C-1 Redeemable Convertible Preferred Shares, the term of the July 2019 Convertible Loan was modified and extinguishment accounting was applied (note 15).

**2020 Convertible Loan**

In March 2020, the Company issued US\$ denominated convertible loan for an aggregate principal amount of US\$3.0 million. Further, in June, July and October 2020, the Company issued convertible loans with the aggregate principal amount of US\$1.6 million. Collectively, these convertible loans are referred to as the “2020 Convertible Loan”. The 2020 Convertible Loan bear interest of 10% per annum and have terms of 12 months from the draw down date.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**16. CONVERTIBLE LOANS AND SHAREHOLDER LOANS (cont.)**

Upon the proposed financing, lenders could elect to convert the 2020 Convertible Loan into preferred shares issued in the proposed financing, at a conversion price equal to 65% per share price applicable in the proposed financing. Upon qualified IPO, lenders could elect to convert the 2020 Convertible Loan into ordinary shares, at a conversion price equal to 65% per IPO share price.

Concurrently with the drawdown of the 2020 Convertible Loan, the lenders were issued warrants (the “C-1 Warrant”), pro rata to their lending principal amount, which entitle them to, upon the occurrence of: (1) a qualified IPO, (2) proposed financing, or (3) a liquidation event, requesting the Company to issue certain amount of ordinary shares in the case of (1) or new preferred shares in the case of (2) and (3), determined by a formula, at a total nominal consideration of US\$1.0 for all shares. The lenders shall each have the right to choose either to exercise the C-1 Warrant or the conversion options, but not both.

Lenders have the right to demand immediate repayment of the 2020 Convertible Loan together with accrued but unpaid interest upon the occurrence of a trigger event as long as no conversion option or C-1 Warrant (see below) have been exercised. In particular, upon the occurrence of a liquidation event or event of default, the lenders shall have the right to elect to require the Company to redeem the 2020 Convertible Loan at an effective interest rate of 60% per annum.

The C-1 Warrant was considered an embedded feature rather than a freestanding instrument as it is not separately exercisable. As the embedded variable share conversion features will be share settled by a number of shares with a fair value equal to a fixed monetary amount, they are considered as an in-substance redemption feature because the settlement amount does not vary with the share price. The Company elected to record the 2020 Convertible Loans at fair value in their entirety.

In February 2021, in connection with a qualified financing of Series C-1 Redeemable Convertible Preferred Shares, holders of US\$3.8 million principal amount of the 2020 Convertible Loan agreed a modification with the Company (note 15) and these US\$3.8 million was extinguished upon the modification.

In August 2021, one of the holders of US\$250,000 principal amount of 2020 Convertible Loan agreed with the Company to modify the conversion term and converted into 260,226 ordinary shares at the conversion price of US\$0.96 per share. The Company applied the debt extinguishment guidance, recognized the fair value of Class A ordinary shares and derecognized the carrying value of the 2020 Convertible Loan of US\$0.4 million, which resulted in an extinguishment gain of RMB0.7 million (US\$0.1 million) (note 21).

As of December 31, 2021 and 2022, the remaining 2020 Convertible Loan was stated at fair value.

**November 2020 Shareholder Loan**

In November 2020, the Company borrowed US\$ denominated loans of US\$0.7 million from one of the shareholders. The loans bear interest of 8% per annum. Upon the closing of the Series C-1 round of the Company, the lenders may at any time elect to request the Company for repayment of the loan and accrued interest. No payment was made before December 31, 2022, it was recorded as current liability at amortized cost and the balance as of December 31, 2021 and 2022 was RMB4,436,142 and RMB4,875,220, respectively.

**February 2021 Shareholders Loan**

In connection with the C-1 financing completed in February 2021 (note 15) and the resulting modification of the July 2019 convertible loan and the 2020 convertible loan, the Company issued certain shareholders’ loans to related investors. These loans bear a fixed interest rate of 8.0% per annum and are repayable within one year. In May 2022, the related investors except one signed loan extension agreements with the Company that the repayment date shall be extended to January 1, 2024, and in June 2023, the related investors except three signed loan extension agreements with the Company that the repayment date shall be extended to January 1, 2025, they were recorded as non-current liabilities at amortized cost and the balances as of December 31, 2021 and 2022 were RMB40,858,472 and RMB62,170,776.

**May 2021 Convertible Loan**

In May 2021, the Company issued US\$ denominated convertible loans of HK\$3.0 million to a new investor (“the May 2021 Convertible Loan”). Interest rate is 0% per annum of the May 2021 Convertible Loan and its repayment term is 12 months from the issuance date. If a proposed financing (the pre-money valuation of the Company is no less than US\$260,000,000) has not occurred within 12 months from the issuance date, the holder shall agree that the repayment date shall be extended by 3 months. The holder could elect to convert the May 2021 Convertible Loan into (1) in the event of the proposed financing, redeemable convertible preferred shares issued with respect to the proposed financing; or (2) in the event of a qualified IPO, ordinary shares; at a price per share being a 16.667% discount to the price per share on fully diluted basis paid by the investors on such proposed financing.

As the embedded variable share conversion features will be share settled by a number of shares with a fair value equal to a fixed monetary amount, they are considered as an in-substance redemption feature because the settlement amount does not vary with the share price. The Company elected to record the May 2021 Convertible Loan at fair value.

In August 2021, in connection with a qualified financing of Black River (note 15), holders of May 2021 Convertible Loan agreed to convert into Class A ordinary shares at the conversion rate of US\$0.96 per share. The Company recognized the fair value of Class A ordinary shares and derecognized the fair value of the May 2021 Convertible Loan which resulted in an extinguishment loss of RMB52,331 (note 21).

**August 2021 Convertible Loan**

In August 2021, the Company entered into a convertible loan agreement with a new lender for a total principal amount of RMB12.0 million (US\$1.9 million) (“the August 2021 Convertible Loan”). The repayment date falls on 12 months from the date of the August 2021 Convertible Loan agreement, provided, that if a proposed financing has not occurred within 12 months from the date of the August 2021 Convertible Loan, the parties hereby agree that the repayment date shall be extended by 3 months. Interest rate is 0% per annum. Loan conversion shall take place automatically on or immediately before the date of listing of the qualified IPO. The conversion price is US\$1.24 per share, or a price per share that equals to US\$300,000,000 divided by the Company’s total number of shares immediately before Qualified IPO calculated on fully diluted basis, whichever is lower.

In August 2022, the Company renewed the August 2021 Convertible Loan agreement and also revised certain terms. Based on the revised terms, the repayment date is August 30, 2023 or an earlier date if agreed by both parties. Interest rate is 0% per annum. Loan conversion shall take place automatically on or immediately before the date of listing of the qualified IPO. The conversion price is US\$0.73 per share, or a price per share that equals to US\$210 million divided by the Company’s total number of shares immediately before Qualified IPO calculated on fully diluted basis, or a price per share that equals to 80% of the price per share of Qualified IPO, whichever is lower.

The Company assessed whether there were substantial changes of terms of the August 2021 Convertible Loan. If the terms are substantially different, the modification is accounted for as a debt extinguishment. Otherwise, it is accounted for as a modification. In order to determine whether the terms are substantially different upon each modification, the Company compared whether the present value of the cash flows under the terms of the modified debt instrument is at least 10 percent different from the present value of the remaining cash flows under the terms of the original debt instrument. If the terms of a non-convertible debt instrument are modified and the cash flow effect on a present value basis is less than 10 percent, the debt instruments are not considered to be substantially different. The calculation of the present value of the cash flows of the new debt instruments included all cash flows specified by the terms of the new debt instruments plus any amounts paid by the Company.

Based on the above assessment, it was determined that there was no substantial change of terms in the modification and the new debt was accounted for at amortized cost using a new effective interest rate determined based on the original debt’s net carrying amount after deducting the revised cash flow under the term of the modified debt instrument.

As the embedded conversion features are underlying ordinary shares of a private company and could not be publicly traded or readily convertible into cash, the embedded conversion feature is not an embedded derivative and does not require bifurcation.

The Company further evaluated the embedded contingent redemption feature and concluded that it is not required to be bifurcated because it is considered to be clearly and closely related to the debt host, as the loans were not issued at a substantial discount or premium and are redeemable at par. There were no other embedded derivatives that are required to be bifurcated. In addition, no BCF was recorded at the issuance date of the August 2021 Convertible Loan based on the fair value of the common stock or other securities into which the August 2021 Convertible Loan was convertible.

The August 2021 Convertible Loan was recorded as non-current liability at amortized cost as of December 31, 2021 and current liability at amortized cost as of December 31, 2022, respectively.

**18. SERIES SEED CONVERTIBLE PREFERRED SHARES**

In November 2015, the Company entered into a share subscription agreement with a number of investors that the investors agreed to subscribe 3,858 (subsequently subdivided to 3,858,000) number of series seed preferred shares for US\$1.2 million (equivalent of RMB7.6 million). The Company also agreed with a number of ordinary shareholders to redesignate 13,366 (subsequently subdivided to 13,366,000) number of ordinary shares to series seed preferred shares. Upon the redesignation, the difference between the carrying amount of the ordinary shares and the fair value of the series seed preferred shares was recorded as deemed dividend in accumulated losses.

In July 2019, in order to facilitate the Company to close the round C financing, some holders of series seed preferred shares transferred 1,986,801 number of series seed preferred shares to a new investor at the fair value of US\$2.1058 per share for a total consideration of US\$4.2 million (equivalent of RMB28.7 million). As a result, the difference between the carrying amount and the fair value of the series seed preferred shares of US\$3.6 million (equivalent of RMB24.5 million) was recorded as deemed dividend in accumulated losses.

The key terms of the series seed convertible preferred shares are summarized below:

***Conversion Rights***

The series seed convertible preferred shares shall be convertible, at the option of the holder at any time after the date of issuance of such share according to the initial conversion ratio of 1:1, subject to adjustments for dilution, including but not limited to share splits, share combination, share dividends and distribution and certain other events.

Each series seed convertible preferred share shall automatically be converted into ordinary shares upon the earlier of (i) the consummation of a qualified IPO or (ii) the date, or the occurrence of an event, specified by vote or written consent or agreement of the requisite majority (voting as separate series, and on an as-converted basis).

***Voting Rights***

The series seed convertible preferred shareholder shall be entitled to one vote for each ordinary share into which such series seed convertible preferred shares could then be converted, and with respect to such vote, such holders shall have full voting rights and power equal to the voting rights and powers of the ordinary shareholders.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**18. SERIES SEED CONVERTIBLE PREFERRED SHARES (cont.)**

***Dividend Rights***

Each holder of the series seed convertible preferred shares shall be entitled to receive dividends at 5% per annum of the respective subscription price of that series seed convertible preferred shares.

For the series seed convertible preferred shares held by such holder, payable out of funds or assets when and as such funds or assets become legally available therefor on parity with each other, prior and in preference to, and satisfied before, any dividend on the ordinary shares. Such dividends shall be payable only when, as, and if declared by the unanimous approval of the Board and shall be non-cumulative.

***Liquidation Preferences***

In the event of any liquidation, dissolution or winding up of the Company, the assets of the Company legally available for distribution to the shareholders shall be distributed in the following manner and order:

Shareholders of the series seed convertible preferred shares shall be entitled to receive, prior and in preference to any distribution of any of the assets or funds of the Company to the holders of ordinary shares, the amount equal to the greater of (i) 100% of the subscription price, plus any and all declared but unpaid dividends on such series seed convertible preferred shares, and (ii) the amount the holders of series seed convertible preferred shares would have received had the series seed convertible preferred shares been converted into ordinary share immediately prior to the liquidation event.

The liquidation preference amount will be paid to the series seed convertible preferred shares after payments to the holders of all series of Redeemable Convertible Preferred Shares. After distributing or paying in full the liquidation preference amount to all of the preferred shareholders, the remaining assets of the Company available for distribution, if any, shall be distributed to the holders of ordinary shares and the preferred shareholders on a pro rata basis, based on the number of ordinary shares then held by each shareholder on an as converted basis. If the value of the remaining assets of the Company is less than the aggregate liquidation preference amounts payable to the holders of a particular series of preferred shares, then the remaining assets of the Company shall be distributed pro rata amongst the holders of all outstanding preferred shares of that series.

All remaining assets and funds of the Company available for distribution to the shareholders shall be distributed ratably among all the shareholders based on the number of shares held by such shareholders on a fully diluted basis.

***Initial measurement and subsequent accounting for the series seed convertible preferred shares***

The series seed convertible preferred shares are classified as permanent equity in the consolidated balance sheets as they are not redeemable. The series seed convertible preferred shares are recognized at their fair value at the date of issuance or redesignation from ordinary shares, net of nil issuance costs. No subsequent adjustment of the carrying amount was required.

The Company evaluated the embedded conversion option in the series seed convertible preferred shares to determine if there were any embedded derivatives requiring bifurcation and to determine if there were any beneficial conversion features ("BCF"). The conversion option of the series seed convertible preferred shares is not bifurcated because the conversion option is clearly and closely related to the host equity instrument.

BCF exist when the conversion price of the series seed convertible preferred shares is lower than the fair value of the ordinary shares at the commitment date, which is the issuance date of the series seed convertible preferred shares. No BCF was recognized for the series seed convertible preferred shares as the fair value per ordinary share at the commitment date was less than the respective most favorable conversion price, as adjusted for the Share Subdivision. The Company determined the fair value of the Company's ordinary shares with the assistance of an independent third-party valuation firm.

**DDC ENTERPRISE LIMITED**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**18. SERIES SEED CONVERTIBLE PREFERRED SHARES (cont.)**

The contingent conversion price adjustment is accounted for as a contingent BCF. Changes to the conversion terms of series seed convertible preferred shares that would be triggered by future events not controlled by the issuer should be accounted as contingent conversions, and the intrinsic value of such conversion options would not be recognized until and unless a triggering event occurred. No contingent BCF was recognized for any of the series seed convertible preferred shares for the years ended December 31, 2021.

From January 1, 2022, the Company adopted ASU 2020-06 which removed the BCF model for convertible instruments. The Company applied the modified retrospective method and determined there was no cumulative-effect adjustment in the opening balance of accumulated deficit as of January 1, 2022 and the consolidated balance sheet prior to January 1, 2022 was not restated.

**19. SHARE-BASED COMPENSATION**

**19. SHARE-BASED COMPENSATION (cont.)**

The expected volatility was estimated based on the historical volatility of comparable peer public companies with a time horizon close to the expected term of the Company's options. The risk-free interest rate was estimated based on the yield to maturity of U.S. treasury bonds denominated in US\$ for a term consistent with the expected term of the Company's options in effect at the option valuation date. Expected dividend yield is zero as the Company does not anticipate any dividend payments in the foreseeable future. The expected exercise multiple was estimated as the average ratio of the stock price to the exercise price of when employees would decide to voluntarily exercise their vested options. Expected term is the contract life of the option.

In 2022, the Company modified the share options for senior management members. Upon the modifications, service condition which originally ended on July 29, 2022 for 964,301 share options was removed. In addition, another 5,785,808 share options became fully vested as the performance condition of occurrence of a qualified IPO was removed. In June 2022 these two persons exercised their fully vested 5,785,808 share options. In connection with those share options that the performance condition was removed, the Company recognized compensation cost of RMB33,485,823 (US\$5,141,560) on the dates based on the modification fair values of these awards.

The fair values of the options granted are estimated on the dates of grant or modification using the binomial option pricing model with the following assumptions used:

	For the Year Ended December 31,	
	2021	2022
Risk-free rate of return	1.37% – 1.65%	1.65% – 3.90%
Volatility	37.3% – 37.85%	36.92% – 39.48%
Expected dividend yield	—	—
Exercise multiple	2.2 – 2.8	2.2 – 2.8
Fair value of underlying ordinary share	US\$0.94 – US\$1.06	US\$0.81 – US\$0.94
Expected terms	10 years	10 years

In October 2022, the Company granted 311,177 share options to one senior management member. 75% of these awards were vested by December 2022 and 25% of these awards are vested upon the occurrence of the Company's qualified IPO. The Company recognized compensation costs of RMB1,345,156 (US\$190,067) in the consolidated statement of comprehensive loss based on the grant date fair value for those vested awards.

The Company has not recognized any share-based compensation expenses for 18,021,317 share options granted and outstanding as at December 31, 2022, because the Company considers it is not probable that the performance conditions will be satisfied until the event occurs. As a result, the share-based compensation expenses for these options that are only exercisable upon the occurrence of the Company's qualified IPO and will be recognized using the graded-vesting method upon the consummation of the qualified IPO.

As of December 31, 2022, there were RMB84.34 million of unrecognized compensation expenses for non-vested options. Total unrecognized compensation cost may be adjusted for actual forfeitures occurring in the future.

**Recurring**

The Company measured the fair value of its warrant liabilities and option liability on a recurring basis using significant unobservable (Level 3) inputs as of December 31, 2021 and 2022.

The Company estimated the fair values of warrant liabilities using the binomial option-pricing model with the assistance of an independent third-party valuation firm using the corresponding inputs:

	As of December 31, 2021		As of December 31, 2022	
	March 2019 B-2 Warrant	Class A OS Warrant	March 2019 B-2 Warrant	Class A OS Warrant

**20. FAIR VALUE MEASUREMENT (cont.)**

The Company estimated the fair values of option liability using the binomial option-pricing model with the assistance of an independent third-party valuation firm using the corresponding inputs:

	As of December 31, 2021	As of December 31, 2022
Risk-free interest rate	0.40%	4.59%
Expected volatility	40.63%	37.57%
Dividend yield	0.00%	0.00%
Remaining contractual life	1.09	0.09
Fair value of the underlying preferred shares	US\$ 1.11	US\$ 1.01

- (1) The risk-free interest rate within warrant liabilities and option liability was estimated based on the yield to maturity of U.S. treasury bonds denominated in US\$ for a term consistent with the expected term in effect at the valuation date.
- (2) The expected volatility was estimated based on the historical average volatility of comparable peer public companies with a time horizon close to the expected term of the Company's warrant liabilities and option liability.
- (3) The determination of the fair value of the Company's preferred shares and ordinary shares requires complex and subjective judgments to be made regarding the cash flow forecasts and the weighted average cost of capital and the discount for lack of marketability applied to the projected cash flows. If different estimates and assumptions had been used, the fair values of the preferred shares and ordinary shares could be significantly different, and the fair value of the warrant liabilities and option liability may materially differ from the recognized amount.

The fair value of the convertible loans measured at fair value was RMB6.1 million (US\$1.0 million) and RMB18.8 million (US\$2.7 million) as of December 31, 2021 and 2022, respectively. The Company estimated the fair value of the convertible loans based on a probability-weighted analysis which included the discounted cash flows from the convertible loans and the value of the conversion option as determined by the binomial option pricing model. The inputs used in the analysis were classified as Level 3 inputs within the fair value hierarchy due to the lack of observable market data and activity. If different estimates and assumptions had been used, the fair values of the preferred shares and ordinary shares could be significantly different, and the fair value of the convertible loans may materially differ from the recognized amount. Interest expense on the Company's fixed-rate debt is displayed separately from other changes in its fair value. The amount presented as interest expense is determined each period by applying the interest method using the effective interest rate on the debt at its issuance.

The fair value of the contingent consideration payables was RMB0.6 million (US\$0.1 million) as of December 31, 2021. The fair value of the contingent consideration payable was detailed in note 14.

The Company did not transfer any financial assets or liabilities in or out of Level 3 during the years ended December 31, 2021 and 2022, respectively.

**22. INCOME TAX**

**a) Income tax**

*Cayman Islands*

Under the current laws of the Cayman Islands, the Company is not subject to tax on income or capital gain. Additionally, the Cayman Islands does not impose a withholding tax on payments of dividends to shareholders.

*Hong Kong S.A.R.*

Under the current Hong Kong S.A.R. Inland Revenue Ordinance, the Company's Hong Kong S.A.R. subsidiary is subject to Hong Kong S.A.R. profits tax at the rate of 16.5% on its taxable income generated from the operations in Hong Kong S.A.R. The first HK\$2.0 million of assessable profits earned by a company will be taxed at 8.25% whilst the remaining profits will continue to be taxed at 16.5%. There is an anti-fragmentation measure where each Company will have to nominate only one company in the Company to benefit from the progressive rates. Payments of dividends by the Hong Kong S.A.R. subsidiary to the Company is not subject to withholding tax in Hong Kong S.A.R.

*The PRC*

The Company's PRC subsidiaries and the VIEs are subject to the PRC Enterprise Income Tax Law ("EIT Law"), which was effective since January 1, 2008. In accordance with EIT Law, the statutory income tax rate of 25%, unless a preferential EIT rate is otherwise stipulated.

Under the EIT Law and its implementation rules, an enterprise established outside China with a "place of effective management" within China is considered a China resident enterprise for Chinese enterprise income tax purposes. A China resident enterprise is generally subject to certain Chinese tax reporting obligations and a uniform 25% enterprise income tax rate on its worldwide income. The implementation rules to the New EIT Law provide that non-resident legal entities are considered PRC residents if substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc., occurs within the PRC. Despite the present uncertainties resulting from the limited PRC tax guidance on the issue, the Company does not believe that the legal entities organized outside the PRC should be treated as residents for 2008 EIT law purposes. If the PRC tax authorities subsequently determine that the Company and its subsidiaries registered outside the PRC are deemed resident enterprises, the Company and its subsidiaries registered outside the PRC will be subject to the PRC income tax at a rate of 25%.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**22. INCOME TAX (cont.)**

Dividends paid to non-PRC-resident corporate investor from profits earned by the PRC subsidiaries after January 1, 2008 would be subject to a withholding tax. The EIT law and its relevant regulations impose a withholding tax at 10%, unless reduced by a tax treaty or agreement, for dividends distributed by a PRC-resident enterprise to its non-PRC-resident corporate investor for earnings generated beginning on January 1, 2008.

As of December 31, 2021 and 2022, there were no retained earnings from consolidated level of all the PRC subsidiaries. And thus, the Company has not provided for deferred tax liabilities on undistributed earnings.

A valuation allowance is provided against deferred income tax assets when the Company determines that it is more likely than not that the deferred income tax assets will not be utilized in the foreseeable future. In making such determination, the Company evaluates a variety of factors including the Company's operating history, accumulated deficit, existence of taxable temporary differences and reversal periods.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**22. INCOME TAX (cont.)**

As of December 31, 2021 and 2022, the valuation allowances of RMB87,212,118 and RMB52,114,383 were related to the deferred income tax assets of the PRC entities which were in loss position. Since these entities have incurred accumulated net operating losses for income tax purposes since their inception, all deferred tax assets of the Company are recognized and a valuation allowance is recognized to the extent that it is more likely than not that the deferred tax assets will not be realized as of December 31, 2021 and 2022.

Changes in valuation allowance are as follows:

	As of December 31,

**c) Uncertain Tax Positions**

The benefits of uncertain tax positions are recorded in the Company's consolidated financial statements only after determining a more-likely-than-not probability that the uncertain tax positions will sustain, if examined by taxing authorities.

As of December 31, 2021 and 2022, the amounts of unrecognized tax benefits were nil and RMB3.4 million respectively, which would affect the Company's effective income tax rate.

A reconciliation of unrecognized tax benefits from continuing operations is as follows:

	As of December 31,	
	2021	2022
	RMB	RMB
Unrecognized tax benefits, beginning of year	—	—
Increases	—	3,417,532
<b>Unrecognized tax benefits, end of year</b>	<b>—</b>	<b>3,417,532</b>

The Company classifies interest and penalties related to uncertain tax benefits as interest expense and general and administrative expense, respectively.

The Company recognizes the benefit of positions taken or expected to be taken in tax returns in the financial statements when it is more-likely-than-not that the position would be sustained upon examination by tax authorities. A recognized tax position is measured at the largest amount of benefit that is greater than 50% likely of being realized upon settlement.

Due to uncertainties under the tax law, positions taken on tax returns may be challenged and ultimately disallowed by taxing authorities. Accordingly, it may not be appropriate to reflect a position taken on the tax return when the outcome of that tax position is uncertain. For the years ended December 31, 2022, the Company recorded the amounts of RMB3,417,532, which are related to uncertainty of the Company's subsidiaries in the Chinese mainland mainly with regards to expense without valid vouchers. The unrecognized tax benefits balances, if recognized upon audit settlement or statute expiration, would affect the effective tax rate. The Company is currently unable to provide an estimate of a range of total amount of unrecognized tax benefits that is reasonably possible to change significantly within the next twelve months.

According to the PRC Tax Administration and Collection Law, the statute of limitation is three years if the underpayment of taxes is due to computational errors made by the taxpayer or the withholding agent. The statute of limitation is extended to five years under special circumstances where the underpayment of taxes is more than

**22. INCOME TAX (cont.)**

RMB0.1 million. In the case of transfer pricing issues, the statute of limitation is 10 years. There is no statute of limitation in the case of tax evasion. The income tax returns of the Company's PRC subsidiary and the VIEs for the years from 2017 to 2022 are open to examination by the PRC tax authorities.

Securities that could potentially dilute basic net loss per ordinary share and that were not included in the computation of diluted net loss per ordinary share because to do so would have been antidilutive for the years ended December 31, 2021 and 2022 are as follows:

The Company has elected the practical expedient to not disclose the information about remaining performance obligations which are part of contracts that have an original expected duration of one year or less.

**25. COMMITMENTS AND CONTINGENCIES**

***Litigation and contingencies***

The Company and its operations from time to time are, and in the future may be, parties to or targets of lawsuits, claims, investigations, and proceedings, including but not limited to acts of non-compliance with respect to lease contracts, which are handled and defended in the ordinary course of business. The Company may be unable to estimate the reasonably possible loss or a range of reasonably possible losses until developments in such matters have provided sufficient information to support an assessment of the range of possible loss, such as quantification of a damage demand from plaintiffs, discovery from other parties and investigation of factual allegations, rulings by the court on motions or appeals, or the progress of settlement negotiations. The Company accrues a liability for such matters when it is probable that a liability has been incurred and the amount can be reasonably estimated. When a single amount cannot be reasonably estimated but the cost can be estimated within a range, the Company accrues the minimum amount. The Company expenses legal costs, including those expected to be incurred in connection with a loss contingency, as incurred.

As of December 31, 2021 and 2022, the Company was involved in various claims and legal actions arising in the ordinary course of business and RMB1.6 million was estimated to be probable to be paid and was included in “Accrued expenses and other current liabilities” in the consolidated balance sheet. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company’s consolidated financial position, results of operations, or liquidity.

***(a) Basis of Presentation***

The accompanying unaudited condensed consolidated financial statements of DDC Enterprise Limited (“DDC” or the “Parent”), its subsidiaries and Variable Interest Entities (“VIEs”) (collectively referred to as the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted as permitted by rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). The consolidated balance sheet as of December 31, 2022 was derived from the audited consolidated financial statements of the Company. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements of the Company as of and for the year ended December 31, 2022.

In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the financial position as of June 30, 2023, the results of operations and cash flows for the six months ended June 30, 2022 and 2023, have been made.

The preparation of the unaudited condensed consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, related disclosures of contingent assets and liabilities at the balance sheet dates, and the reported revenues and expenses during the reported periods. Significant accounting estimates include, but are not limited to, valuation allowance for deferred tax assets, assessment for impairment of long-lived assets and long-term investments, allowance for credit losses, lower of cost and net realizable value of inventories, useful lives of property, plant and equipment, commitments and contingencies, the valuation and recognition of share-based compensation arrangements and the fair value of financial instruments including redeemable convertible preferred shares, convertible loans, warrant liabilities, option liability, shareholders’ loans, and the purchase price allocation with respect to business combinations. Actual results could differ from those estimates, and as such, differences may be material to the unaudited condensed consolidated financial statements.

The accompanying unaudited condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. However, substantial doubt about the Company’s ability to continue as a going concern exists.

For the six months ended June 30, 2023, the Company incurred a loss from operations of RMB10.8 million, and net cash used in operating activities of RMB24.7 million. As of June 30, 2023, the Company had net current liabilities (current assets less current liabilities) of RMB135.9 million, an accumulated deficit of RMB1.5 billion and cash, cash equivalents and restricted cash of RMB95.0 million. The Company will require additional liquidity to continue its operations over the next 12 months.

The Company is evaluating strategies to obtain the required additional funding for future operations. These strategies may include, but are not limited to, obtaining equity financing, issuing debt or entering into other financing arrangements, obtaining agreements with the existing investors to extend the due dates for outstanding debt and the redemption dates of redeemable equity securities. In addition, the Company plans to diversify revenue streams and implement cost saving measures to grow revenues and decrease expenses. However, the Company may be unable to access further equity or debt financing when needed. As such, there can be no assurance that the Company will be able to obtain additional liquidity when needed or under acceptable terms, if at all.

The unaudited condensed consolidated financial statements do not include any adjustments to the carrying amounts and classification of assets, liabilities, and reported expenses that may be necessary if the Company were unable to continue as a going concern.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

*(b) Summary financial information of the Company's VIEs in the unaudited condensed consolidated financial statements*

Some operations of the Company are conducted through variable interest entities ("VIEs") and VIEs' subsidiaries in order to comply with certain PRC laws and regulations. The Company consolidated its VIEs and VIE's subsidiaries as one of the Company's subsidiaries is the primary beneficiary which is able to exercise effective control over, bear the risks of, and enjoy substantially all of the economic benefits of the VIEs as a result of certain contractual agreements. On April 1, 2022, the Company terminated VIE arrangements with two of its VIEs, Farm Entities and Weishi, and deconsolidated these VIEs on April 1, 2022. As of December 31, 2022 and June 30, 2023, the Company had VIE arrangements with one VIE which engages in the online sales of self-heated hotpots through a number of online stores ("Mengwei Stores"). The Company terminated VIE arrangements with Mengwei Stores on August 19, 2023 (note 21).

The following unaudited condensed consolidated assets and liabilities information of the Company's VIE as of December 31, 2022 and June 30, 2023, and unaudited condensed consolidated revenues, net loss and cash flow information for six months ended June 30, 2022 and 2023, have been included in the accompanying unaudited condensed consolidated financial statements.

**(c) Convenience Translation**

Translations of the unaudited condensed consolidated financial statements from RMB into US\$ as of and for the six months ended June 30, 2023 are solely for the convenience of the readers and were calculated at the rate of US\$1.00 = RMB7.2513, representing the noon buying rate in The City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York on June 30, 2023. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate on June 30, 2023, or at any other rate.

**(d) Concentration and Risk**

*Concentration of credit risk*

Financial instruments that potentially expose the Company to concentrations of credit risk consist principally of cash and cash equivalents, restricted cash, accounts receivable, net, other receivables, short-term and long-term deposits, receivables of supplier rebates, prepayments and other receivables due from YJW and KeKe, and deposits for a potential acquisition.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

The Company's investment policy requires cash, cash equivalents and restricted cash to be placed with high quality financial institutions and to limit the amount of credit risk from any one institution. The Company regularly evaluates the credit standing of the counterparties or financial institutions.

Cash and cash equivalents are deposited into financial institutions at locations below:

Cash that is restricted for withdrawal or use is reported separately on the face of the unaudited condensed consolidated balance sheets.

As of December 31, 2022 and June 30, 2023, the Company had a fixed deposit of US\$10,000,000 (equivalent to RMB69.6 million and RMB72.3 million, respectively) as a compensating balance for a loan facility (note 8). In order to maintain the loan facility, the management will not withdraw this fixed deposit and therefore based on the Company's statements of intention, this deposit shall be included as restricted cash. As of December 31, 2022 and June 30, 2023, due to certain closed and pending legal proceedings, bank accounts with the balances of RMB456,863 and RMB481,314, respectively, were frozen by the banks. Liabilities related to such legal proceedings were recorded in "Accrued expenses and other current liabilities" in the unaudited condensed consolidated balance sheets as it is probable that the liabilities have been incurred and the amount of loss can be reasonably estimated.

**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE SIX MONTHS ENDED JUNE 30, 2022 AND 2023**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

For financial instruments other than cash, the assessment of the counterparties' creditworthiness is primarily based on past history of making payments when due and current ability to pay, taking into account information specific to the counterparties as well as pertaining to the economic environment in which the counterparties operate. Based on this analysis, the Company determines what credit terms, if any, to offer to each counter party individually. If the assessment indicates a likelihood of collection risk, the Company will not deliver the services or sell the products to or through the counterparties or require the counterparties to pay cash in time to secure payment.

*Concentration of customers and suppliers*

No customer individually represents greater than 10.0% of total revenues of the Company for the six months ended June 30, 2022 and 2023.

Three and two customers represent greater than 10.0% of total accounts receivable, net balance of the Company as of December 31, 2022 and June 30, 2023, respectively. Accounts receivable, net balances from these customers are as follows:

	<b>As of December 31, 2022</b>	<b>As of June 30, 2023</b>
	<i>proportion of total accounts receivable, net balance</i>	<i>proportion of total accounts receivable, net balance</i>
Customer A	20.6%	20.0%
Customer B	17.0%	16.0%
Customer C	11.4%	*

\* Less than 10.0% of the Company's accounts receivable, net balance in the respective years.

The Company conducts credit evaluations on its customers and generally does not require collateral or other security from such customers.

Two and three suppliers represent greater than 10.0% of total purchases for the six months ended June 30, 2022 and 2023, respectively. Purchase amounts from the supplier for the six months ended June 30, 2022 and 2023 are as follows:

	<b>For the Six Months Ended June 30,</b>	
	<b>2022</b>	<b>2023</b>
	<i>proportion of total purchases</i>	<i>proportion of total purchases</i>
Supplier A	30.0%	*
Supplier B	*	32.1%
Supplier C	*	27.5%
Supplier D	15.7%	*
Supplier E	*	16.4%

\* Less than 10.0% of the Company's purchase amounts in the respective years.

Although there are a limited number of providers of products, management believes that other providers could provide similar products on comparable terms. A change in suppliers, however, could cause negative impact on the business operation and a possible loss of sales, which would affect operating results adversely.

**FOR THE SIX MONTHS ENDED JUNE 30, 2022 AND 2023**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

*Interest rate risk*

The Company's borrowings bear interests at fixed and floating rates. If the Company were to renew these borrowings, the Company might be subject to interest rate risk.

*Foreign currency exchange rate risk*

In July 2005, the PRC government changed its decades-old policy of pegging the value of the RMB to the US\$. Since June 2010, the RMB has fluctuated against the US\$, at times significantly and unpredictably. It is difficult to predict how market forces or the government policy may impact the exchange rate between the RMB and the US\$ in the future.

**(e) Expected Credit Losses**

In 2016, the FASB issued ASU 2016-13, Financial Instruments — Credit Losses (ASC 326), which amends previously issued guidance regarding the impairment of financial instruments by creating an impairment model that is based on expected losses. The Company adopted ASC 326 on January 1, 2023 using a modified retrospective approach with the cumulative effect recorded as increase of accumulated deficit by RMB101,120.

The Company's accounts receivable, other receivables, short-term and long-term deposits, receivables of supplier rebates, prepayments, other receivables due from YJW and KeKe, and deposits for a potential acquisition are within the scope of ASC 326. The Company has identified the relevant risk characteristics of its customers and the related receivables and other receivables which include size, type of the services or the products the Company provides, or a combination of these characteristics. Receivables with similar risk characteristics have been grouped into pools. For each pool, the Company considers the historical credit losses experience, current economic conditions, supportable forecasts of future economic conditions, and any recoveries in assessing the lifetime expected credit losses. Other key factors that influence the expected credit losses analysis include customer demographics, payment terms offered in the normal course of business to customers, and industry-specific factors that could impact the Company's receivables. Additionally, external data and macroeconomic factors are also considered. This is assessed at each quarter based on the Company's specific facts and circumstances.

The Company considers historical credit loss rates for each category of deposits and other receivables and also considers forward looking macroeconomic data in making its loss accrual determinations. The Company considers specific credit loss provisions on a case-by-case basis for particular aged receivable balances.

**(f) Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decisionmaker ("CODM"). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the chief executive officer ("CEO"). Prior to the deconsolidation of the Company's VIEs, Farm entities and Weishi on April 1, 2022, the Company's CODM assesses performance and allocates resources based on two operating segments: Merchandise sales and fresh agriculture produce.

- **Merchandise:** Merchandise segment includes sales of Convenient ready-to-cook ("RTC") and ready-to-heat ("RTH"), Private label products, Advertising services and Experience stores to third parties and individual customers.
- **Fresh products:** Fresh products segment includes fresh products sold to supermarkets and other third parties. This reporting segment was discontinued since April 1, 2022 due to the deconsolidation of Farm Entities.

Since the deconsolidation of Farm Entities from April 1, 2022, there is only one operating segment remaining.

**9. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES (cont.)**

The original liability for the Company to issue the preference shares was extinguished upon the modification date and the fair value of the share option was recognised as an equity instrument. The difference between the carrying amount of the liability extinguished and the fair value of the new instrument issued amounted to RMB289,457 was recorded in “other income” in the consolidated statements of comprehensive loss.

The fair values of share options granted are estimated on the dates of grant using the binomial option pricing model with the following assumptions used:

Risk-free rate of return	3.62%
Volatility	36.48%
Expected dividend yield	—
Exercise multiple	NA
Fair value of underlying ordinary share	US\$0.82
Expected terms	10 years

The expected volatility was estimated based on the historical volatility of comparable peer public companies with a time horizon close to the expected term of the Company’s options. The risk-free interest rate was estimated based on the yield to maturity of U.S. treasury bonds denominated in US\$ for a term consistent with the expected term of the Company’s options in effect at the option valuation date. Expected dividend yield is zero as the Company does not anticipate any dividend payments in the foreseeable future. The expected exercise multiple was estimated as the average ratio of the stock price to the exercise price of when employees would decide to voluntarily exercise their vested options. Expected term is the contract life of the option.

**13. SHARE-BASED COMPENSATION**

The Company's shareholders and Board of Directors approved of employee option plans from 2014 to 2023 in order to provide incentives and rewards to the Company's employees, directors, consultants and senior management (the "Option Plans"). As of June 30, 2023, the Company authorized 29,163,416 share options under the Option Plans. Share options awarded under the Option Plans are typically vested based on the service conditions up to four years agreed with each of the participants in their grant letters, with exercise prices ranging from nominal consideration to US\$1.9. In addition, the share options can only be exercised and converted into shares upon the completion of Company's qualified IPO, except for the modifications made in 2022 for two senior management members and 233,383 share options granted to one senior management member in 2022. Each share option has a contractual life of 10 years.

In connection with the acquisition of the 51% equity interest of Lishang in May 2022, the Company may be required to grant share options to Ms. Chen Di and two other her nominee shareholders ("the Seller") at the end of each performance period, adjusted based on the achievement of Lishang's revenue, gross profit and net profit for each of the four performance periods during May 1, 2022 to December 31, 2024, over the target performance. If the qualified IPO does not occur by January 1, 2024, the Company is obliged to pay RMB3.5 million cash corresponding to 495,751 number of share options out of the total base number of 702,969 share options to be issued for the third performance period. If the qualified IPO does not occur by January 1, 2025, the Company is obligated to deliver a fixed amount of RMB12.4 million cash in addition to the previous payment of RMB3.5 million, with all previously issued share options, if any, cancelled. In August 2023, the Company issued 271,549 share options to the Seller, based on the actual performances of Lishang for the first two performance periods up to December 31, 2022. As the Seller is required to continuously provide services to Lishang for no less than three years after the acquisition, and as the Company is obligated to deliver cash unless a qualified IPO takes place, these share-based arrangements are accounted for as liability-classified award and were amortized over the service period of the Seller based on the cash amount to be paid the qualified IPO does not occur. The compensation cost recognized in connection with this liability-classified award for the six months ended June 30, 2022 and 2023 amounted to RMB1,040,556 and RMB3,121,666 respectively. The liability-classified award was RMB4,162,222 and RMB7,283,888 as of December 31, 2022 and June 30, 2023 respectively and was recognised as non-current liabilities.

A summary of the share-based compensation activities for the six months ended June 30, 2023 are presented below:

**13. SHARE-BASED COMPENSATION (cont.)**

The expected volatility was estimated based on the historical volatility of comparable peer public companies with a time horizon close to the expected term of the Company's options. The risk-free interest rate was estimated based on the yield to maturity of U.S. treasury bonds denominated in US\$ for a term consistent with the expected term of the Company's options in effect at the option valuation date. Expected dividend yield is zero as the Company does not anticipate any dividend payments in the foreseeable future. The expected exercise multiple was estimated as the average ratio of the stock price to the exercise price of when employees would decide to voluntarily exercise their vested options. Expected term is the contract life of the option.

The Company has not recognized any share-based compensation expenses for 18,021,317 and 17,248,678 share options granted and outstanding as of December 31, 2022 and 30 June, 2023, respectively, because the Company considers it is not probable that the performance conditions will be satisfied until the event occurs. As a result, the share-based compensation expenses for these options that are only exercisable upon the occurrence of the Company's qualified IPO and will be recognized using the graded-vesting method upon the consummation of the qualified IPO.

As of June 30, 2023, there were RMB84.3 million of unrecognized compensation expenses for non-vested options. Total unrecognized compensation cost may be adjusted for actual forfeitures occurring in the future.

**Recurring**

The Company measured the fair value of its warrant liabilities and option liability on a recurring basis using significant unobservable (Level 3) inputs as of December 31, 2022 and June 30, 2023.

**DDC ENTERPRISE LIMITED**  
**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE SIX MONTHS ENDED JUNE 30, 2022 AND 2023**

**14. FAIR VALUE MEASUREMENT (cont.)**

The Company estimated the fair values of warrant liabilities using the binomial option-pricing model with the assistance of an independent third-party valuation firm using the corresponding inputs:

	As of June 30, 2023			
	March 2019 B-2 Warrant		Class A OS Warrant	
Risk-free interest rate	5.24%		5.24%	
Expected volatility	31.11%		30.66%	
Dividend yield	0.00%		0.00%	
Remaining contractual life	0.25		0.24	
Fair value of the underlying preferred shares/ordinary shares	US\$	2.37	US\$	0.82

- (1) The risk-free interest rate within warrant liabilities and option liability was estimated based on the yield to maturity of U.S. treasury bonds denominated in US\$ for a term consistent with the expected term in effect at the valuation date.
- (2) The expected volatility was estimated based on the historical average volatility of comparable peer public companies with a time horizon close to the expected term of the Company's warrant liabilities and option liability.
- (3) The determination of the fair value of the Company's preferred shares and ordinary shares requires complex and subjective judgments to be made regarding the cash flow forecasts and the weighted average cost of capital and the discount for lack of marketability applied to the projected cash flows. If different estimates and assumptions had been used, the fair values of the preferred shares and ordinary shares could be significantly different, and the fair value of the warrant liabilities and option liability may materially differ from the recognized amount.

The fair value of the convertible loans was RMB18.8 million (US\$2.7 million) and RMB27.9 million (US\$3.8 million) as of December 31, 2022 and June 30, 2023, respectively. The Company estimated the fair value of the convertible loans based on a probability-weighted analysis which included the discounted cash flows from the convertible loans and the value of the conversion option as determined by the binomial option pricing model. The inputs used in the analysis were classified as Level 3 inputs within the fair value hierarchy due to the lack of observable market data and activity. If different estimates and assumptions had been used, the fair values of the preferred shares and ordinary shares could be significantly different, and the fair value of the convertible loans may materially differ from the recognized amount. Interest expense on the Company's fixed-rate debt is displayed separately from other changes in its fair value. The amount presented as interest expense is determined each period by applying the interest method using the effective interest rate on the debt at its issuance.

The Company did not transfer any financial assets or liabilities in or out of Level 3 during the six months ended June 30, 2022 and 2023, respectively.

**15. INCOME TAX**

The statutory income tax rate for the Company's PRC subsidiaries and VIEs is 25% for the six months ended June 30, 2022 and 2023. The effective income tax rate for the six months ended June 30, 2022 and 2023 differs from the PRC statutory income tax rate of 25% primarily due to non-taxable profit and loss of Cayman Company, non-deductible expense and the recognition of valuation allowance for deferred income tax assets of loss-making entities.

For the six months ended June 30, 2022 and 2023, the Redeemable Convertible Preferred Shares, Series seed convertible preferred shares, share options, Warrants and Convertible loans were excluded from the calculation of diluted loss per ordinary share as their inclusion would have been anti-dilutive. 14,000,000 Class B ordinary shares of the Company were also excluded from the calculation of diluted loss per ordinary share as they are not entitled to dividends and distributions of the Company.

Securities that could potentially dilute basic net loss per ordinary share and that were not included in the computation of diluted net loss per ordinary share because to do so would have been antidilutive are as follows:

**18. COMMITMENTS AND CONTINGENCIES**

***Litigation and contingencies***

The Company and its operations from time to time are, and in the future may be, parties to or targets of lawsuits, claims, investigations, and proceedings, including but not limited to acts of non-compliance with respect to lease contracts, which are handled and defended in the ordinary course of business. The Company may be unable to estimate the reasonably possible loss or a range of reasonably possible losses until developments in such matters have provided sufficient information to support an assessment of the range of possible loss, such as quantification of a damage demand from plaintiffs, discovery from other parties and investigation of factual allegations, rulings by the court on motions or appeals, or the progress of settlement negotiations. The Company accrues a liability for such matters when it is probable that a liability has been incurred and the amount can be reasonably estimated. When a single amount cannot be reasonably estimated but the cost can be estimated within a range, the Company accrues the minimum amount. The Company expenses legal costs, including those expected to be incurred in connection with a loss contingency, as incurred.

As of December 31, 2022 and June 30, 2023, the Company was involved in various claims and legal actions arising in the ordinary course of business, RMB1.6 million and RMB1.2 million were estimated to be probable to be paid and was included in "Accrued expenses and other current liabilities" in the unaudited condensed consolidated balance sheet, respectively. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's unaudited condensed consolidated financial position, results of operations, or liquidity.

**Item 9. Undertakings.**

- (a) The undersigned registrant hereby undertakes:
  - (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
    - (i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;
    - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;
    - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
  - (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
  - (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
  - (4) To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A. of Form 20-F at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the Act need not be furnished, provided that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (a)(4) and other information necessary to ensure that all other information in the prospectus is at least as current as the date of those financial statements. Notwithstanding the foregoing, with respect to registration statements on Form F-3, a post-effective amendment need not be filed to include financial statements and information required by Section 10(a)(3) of the Act if such financial statements and information are contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Form F-3.
  - (5) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:
    - (i) If the registrant is relying on Rule 430B:
      - (A) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

- (B) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or
  - (ii) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
- (6) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:
  - (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
  - (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
  - (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
  - (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.
- (b) The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreements, certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.
- (c) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described in Item 6 hereof, or otherwise, the registrant has been advised that in the opinion of the U.S. Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than

(d) The undersigned registrant hereby undertakes that:

- (1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
- (2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(l) The Shares and the Ordinary Shares underlying the Underwriter Warrants shall have been approved for listing on the NYSE, subject to only official notice of issuance.

(m) If the Company elects to rely upon Rule 462(b) under the Securities Act, the Company shall have filed a Rule 462 Registration Statement with the Commission in compliance with Rule 462(b) promptly after 4:00 p.m., New York City time, on the date of this Agreement, and the Company shall have at the time of filing either paid to the Commission the filing fee for the Rule 462 Registration Statement or given irrevocable instructions for the payment of such fee pursuant to Rule 111(b) under the Securities Act.

(n) The Company shall have filed the Prospectus with the Commission (including the information required by Rule 430A under the Securities Act) in the manner and within the time period required by Rule 424(b) under the Securities Act; or the Company shall have filed a post-effective amendment to the Registration Statement containing the information required by such Rule 430A, and such post-effective amendment shall have become effective.

(o) No stop order suspending the effectiveness of the Registration Statement, any Rule 462 Registration Statement, or any post-effective amendment to the Registration Statement, shall be in effect and no proceedings for such purpose shall have been instituted or threatened by the Commission.

(p) FINRA shall not have raised any objection with respect to the fairness or reasonableness of the underwriting, or other arrangements of the transactions contemplated hereby.

(q) On the Closing Date or an Option Closing Date, as the case may be, the Representatives and counsel for the Underwriters shall have received such information, documents, certificates and opinions as they may reasonably require for the purposes of enabling them to pass upon the accuracy and completeness of any statement in the Registration Statement, the Time of Sale Prospectus and the Prospectus, issuance and sale of the Shares as contemplated herein, or in order to evidence the accuracy of any of the representations and warranties, or the satisfaction of any of the conditions or agreements, herein contained.

The several obligations of the Underwriters to purchase Additional Shares hereunder are subject to the delivery to the Representatives on the applicable Option Closing Date of such documents as the Representatives may reasonably request with respect to the good standing of the Company, the due authorization and issuance of the Additional Shares to be sold on such Option Closing Date and other matters related to the issuance of such Additional Shares.

Notwithstanding the immediately preceding paragraph, the Representatives may, in their sole discretion, waive on behalf of the Underwriters compliance with any conditions to the obligations of the Underwriters hereunder, whether in respect of a Closing Date or an Option Closing Date.

#### ***6. Covenants of the Company.***

The Company, in addition to its other agreements and obligations hereunder, covenants with each Underwriter as follows:

- (a) To file the Prospectus with the Commission within the time periods specified by Rule 424(b) and Rule 430A under the Securities Act.

(b) To furnish to the Representatives, without charge, signed copies of the Registration Statement (including, in each case, exhibits thereto) and for delivery to each other Underwriter a conformed copy of the Registration Statement (in each case, without exhibits thereto) and to furnish to the Representatives in New York City, without charge, prior to 10:00 a.m. New York City time on the business day next succeeding the date of this Agreement and during the period mentioned in Sections 6(f) or 6(g) hereof, as many copies of the Time of Sale Prospectus, the Prospectus and any supplements and amendments thereto or to the Registration Statement as the Representatives may reasonably request.

(c) Before amending or supplementing the Registration Statement, the Time of Sale Prospectus or the Prospectus, to furnish to the Representatives a copy of each such proposed amendment or supplement and not to file any such proposed amendment or supplement to which the Representatives reasonably object, and to file with the Commission within the applicable period specified in Rule 424(b) under the Securities Act any prospectus required to be filed pursuant to such Rule.

(d) To furnish to the Representatives a copy of each proposed free writing prospectus to be prepared by or on behalf of, used by, or referred to by the Company and not to use or refer to any proposed free writing prospectus to which the Representatives reasonably object.

(e) Without the prior written consent of the Representatives, not to take any action that would result in an Underwriter or the Company being required to file with the Commission pursuant to Rule 433(d) under the Securities Act a free writing prospectus prepared by or on behalf of the Underwriter that the Underwriter otherwise would not have been required to file thereunder.

(f) If the Time of Sale Prospectus is being used to solicit offers to buy the Shares at a time when the Prospectus is not yet available to prospective purchasers and any event shall occur or condition exist as a result of which it is necessary to amend or supplement the Time of Sale Prospectus in order to make the statements therein, in the light of the circumstances, not misleading, or if any event shall occur or condition exist as a result of which the Time of Sale Prospectus conflicts with the information contained in the Registration Statement then on file, or if, in the opinion of counsel for the Underwriters, it is necessary to amend or supplement the Time of Sale Prospectus to comply with applicable law, forthwith to prepare, file with the Commission and furnish, at its own expense, to the Underwriters and to any dealer upon request, either amendments or supplements to the Time of Sale Prospectus so that the statements in the Time of Sale Prospectus as so amended or supplemented will not, in the light of the circumstances when the Time of Sale Prospectus is delivered to a prospective purchaser, be misleading or so that the Time of Sale Prospectus, as amended or supplemented, will no longer conflict with the Registration Statement, or so that the Time of Sale Prospectus, as amended or supplemented, will comply with applicable law.

(g) If, during such period after the first date of the public offering of the Shares as in the opinion of counsel for the Underwriters the Prospectus (or in lieu thereof the notice referred to in Rule 173(a) of the Securities Act) is required by law to be delivered in connection with sales by an Underwriter or dealer, any event shall occur or condition exist as a result of which it is necessary to amend or supplement the Prospectus in order to make the statements therein, in the light of the circumstances when the Prospectus (or in lieu thereof the notice referred to in Rule 173(a) of the Securities Act) is delivered to a purchaser, not misleading, or if, in the opinion of counsel for the Underwriters, it is necessary to amend or supplement the Prospectus to comply with applicable law, forthwith to prepare, file with the Commission and furnish, at its own expense, to the Underwriters and to the dealers (whose names and addresses the Representatives will furnish to the Company) to which Shares may have been sold by the Representatives on behalf of the Underwriters and to any other dealers upon request, either amendments or supplements to the Prospectus so that the statements in the Prospectus as so amended or supplemented will not, in the light of the circumstances when the Prospectus (or in lieu thereof the notice referred to in Rule 173(a) of the Securities Act) is delivered to a purchaser, be misleading or so that the Prospectus, as amended or supplemented, will comply with applicable law.

(h) To endeavor to qualify the Shares for offer and sale under the securities or Blue Sky laws of such jurisdictions as the Representatives shall reasonably request.

(i) To advise the Representatives promptly and confirming such advice in writing, of any request by the Commission for amendments or supplements to the Registration Statement, the Form 8-A Registration Statement, any Time of Sale Prospectus, Prospectus or free writing prospectus or for additional information with respect thereto, or of notice of institution of proceedings for, or the entry of a stop order, suspending the effectiveness of the Registration Statement, if the Commission should enter a stop order suspending the effectiveness of the Registration Statement, to use its best efforts to obtain the lifting or removal of such order as soon as possible.

(j) To make generally available to the Company's security holders and to the Representatives as soon as practicable an earnings statement covering a period of at least twelve months beginning with the first fiscal quarter of the Company occurring after the date of this Agreement, which shall satisfy the provisions of Section 11(a) of the Securities Act and the rules and regulations of the Commission thereunder (including but not limited to Rule 158 under the Securities Act) provided that the Company will be deemed to have furnished such statement to its security holders and the Representatives to the extent it is filed on EDGAR.

(k) During the period when the Prospectus is required to be delivered under the Securities Act, to file all documents required to be filed with the Commission pursuant to the Exchange Act within the time periods required by the Exchange Act and the rules and regulations of the Commission thereunder; during the five-year period after the date of this Agreement, to furnish to the Representatives and, upon request, to each of the other Underwriters, as soon as practicable after the end of each fiscal year, a copy of its annual report to shareholders for such year; and to furnish to the Representatives (i) as soon as available, a copy of each report and any definitive proxy statement of the Company filed with or furnished to the Commission under the Exchange Act or mailed to shareholders, and (ii) from time to time, such other information concerning the Company as the Representatives may reasonably request. However, so long as the Company is subject to the reporting requirements of either Section 13 or Section 15(d) of the Exchange Act and is timely filing reports with the Commission on its EDGAR reporting system, it is not required to furnish such reports or statements filed through EDGAR to the Underwriters.

(l) To apply the net proceeds to the Company from the sale of the Shares in the manner set forth under the heading “Use of Proceeds” in the Time of Sale Prospectus and to file such reports with the Commission with respect to the sale of the Shares and the application of the proceeds therefrom as may be required by Rule 463 under the Securities Act; not to invest, or otherwise use the proceeds received by the Company from its sale of the Shares in such a manner (i) as would require the Company or any of the Controlled Entities to register as an investment company under the 1940 Act, and (ii) that would result in the Company being not in compliance with any applicable laws, rules and regulations of the State Administration of Foreign Exchange of the PRC.

(m) Not to take, and to cause each of its Controlled Entities not to, take, directly or indirectly, any action designed to or that would constitute or that would reasonably be expected to cause or result in the stabilization or manipulation of the price of any security of the Company to facilitate the sale or resale of the Shares.

(n) (i) The Company will indemnify and hold harmless the Underwriters against any transaction, stamp, capital or other issuance, registration, documentary, transaction, transfer, withholding, income or other similar taxes or duties, including any interest and penalties, on the creation, allotment, issue and sale of the Shares to the Underwriters and on the execution and delivery of, and the performance of the obligations (including the initial resale and delivery of the Shares by the Underwriters) under, this Agreement and on bringing any such document within any jurisdiction; (ii) all payments to be made by the Company hereunder shall be made free and clear of and without withholding or deduction for or on account of any present or future taxes, duties or governmental charges whatsoever unless the Company is compelled by law to deduct or withhold such taxes, duties or charges. In that event, the Company shall pay such additional amounts as may be necessary in order that the net amounts received after such withholding or deduction shall equal the amounts that would have been received if no withholding or deduction had been made; (iii) all payment to be made by the Company to the Underwriters hereunder shall be considered exclusive of any value added or similar taxes. Where the Company is obliged to pay value added or similar tax on any amount payable hereunder to the Underwriters, the Company shall pay such additional amounts equal to any applicable value added or similar tax.

(o) To comply with all applicable securities and other laws, rules and regulations, including, without limitation, the Sarbanes-Oxley Act, and use its reasonable best efforts to cause the Company’s directors and officers, in their capacities as such, to comply with such laws, rules and regulations, including, without limitation, the provisions of the Sarbanes-Oxley Act.

(p) (i) it will not attempt to avoid any judgment in connection with this Agreement obtained by it, applied to it, or denied to it in a court of competent jurisdiction outside the Cayman Islands; (ii) following the consummation of the offering, to use its reasonable efforts to obtain and maintain all approvals required in the Cayman Islands to pay and remit outside the Cayman Islands all dividends declared by the Company and payable on the Ordinary Shares, if any; and (iii) to use its reasonable efforts to obtain and maintain all approvals, if any, required in the Cayman Islands for the Company to acquire sufficient foreign exchange for the payment of dividends and all other relevant purposes.

(q) To comply with the PRC Overseas Investment and Listing Regulations, and to use its reasonable efforts to cause holders of its Ordinary Shares that are, or that are directly or indirectly owned or controlled by, Chinese residents or Chinese citizens, to comply with the PRC Overseas Investment and Listing Regulations applicable to them, including, without limitation, requesting each such shareholder to complete any registration and other procedures required under applicable PRC Overseas Investment and Listing Regulations (including any applicable rules and regulations of the SAFE).

(r) To implement and maintain reasonable measures in compliance with PRC laws and regulations concerning copyrights, information dissemination over the Internet, user privacy protection, cybersecurity, meal products, advertising services, stores and intellectual property.

(s) The Company will promptly notify the Representatives if the Company ceases to be an Emerging Growth Company at any time prior to the later of (i) the time when a prospectus relating to the offering or sale of the Shares or any other securities relating thereto is not required by the Securities Act to be delivered (whether physically or through compliance with Rule 172 under the Securities Act or any similar rule) and (ii) completion of the Restricted Period (as defined below).

(t) If at any time following the distribution of any Written Testing-the-Waters Communication there occurred or occurs an event or development as a result of which such Written Testing-the-Waters Communication included or would include an untrue statement of a material fact or omitted or would omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances existing at that subsequent time, not misleading, the Company will promptly notify the Representatives and will promptly amend or supplement, at its own expense, such Written Testing-the-Waters Communication to eliminate or correct such untrue statement or omission.

(u) Prior to the Closing Date, the Company will have purchased insurance covering its directors and officers for liabilities or losses arising in connection with this offering, including, without limitation, liabilities or losses arising under the Securities Act, the Exchange Act and the rules and regulations thereof.

(v) The Company will deliver to each Underwriter (or its agent), prior to or at the Closing Date, a properly completed and executed Internal Revenue Service (“IRS”) Form W 9 or an IRS Form W 8, as appropriate, together with all required attachments to such form.

(w) The Company, without the prior written consent of the Representatives on behalf of the Underwriters, will not, during the period ending 180 days after the date of the Prospectus (the “**Restricted Period**”), (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any Ordinary Shares, or any securities convertible into or exercisable or exchangeable for Ordinary Shares or (ii) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Ordinary Shares, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of Ordinary Shares, or such other securities, in cash or otherwise or (iii) confidentially submit any draft registration statement or file any registration statement with the Commission relating to the offering of any Ordinary Shares, or any securities convertible into or exercisable or exchangeable for Ordinary Shares.

The restrictions contained in the preceding paragraph shall not apply to (i) the Shares to be sold hereunder, (ii) the issuance by the Company of Ordinary Shares upon the exercise of an option or warrant or the conversion of a security outstanding on the date hereof of which the Underwriters have been advised in writing, or (iii) the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act for the transfer of Ordinary Shares, provided that (A) such plan does not provide for the transfer of Ordinary Shares during the Restricted Period and (B) to the extent a public announcement or filing under the Exchange Act, if any, is required of or voluntarily made by the Company regarding the establishment of such plan, such announcement or filing shall include a statement to the effect that no transfer of Ordinary Shares may be made under such plan during the Restricted Period.

8. ***Covenants of the Underwriters.*** Each Underwriter severally covenants with the Company not to take any action that would result in the Company being required to file with the Commission under Rule 433(d) a free writing prospectus prepared by or on behalf of such Underwriter that otherwise would not be required to be filed by the Company thereunder, but for the action of such Underwriter.

9. ***Indemnity and Contribution.***

(a) The Company agrees to indemnify and hold harmless each Underwriter, each affiliate of any Underwriter within the meaning of Rule 405 under the Securities Act, each director, officer, employee and affiliate of the any of the foregoing, the selling agents of each Underwriter, and each person, if any, who controls any Underwriter within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act, from and against any and all losses, claims, damages and liabilities, joint or several, or any action in respect thereof (including, without limitation, any legal or other expenses reasonably incurred in connection with defending or investigating any such action or claim) arising out of or based upon any untrue statement or alleged untrue statement of a material fact contained in the Registration Statement or any amendment thereof, any preliminary prospectus, the Time of Sale Prospectus or any amendment or supplement thereto, any issuer free writing prospectus as defined in Rule 433(h) under the Securities Act, any Company information that the Company has filed, or is required to file, pursuant to Rule 433(d) under the Securities Act, any road show as defined in Rule 433(h) under the Securities Act (a “**road show**”), or the Prospectus or any amendment or supplement thereto, or any Written Testing-the-Waters Communication, or arising out of or based upon any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, and shall reimburse each Underwriter and each such director, officer, employee, affiliate or controlling person promptly upon demand for any legal or other expenses reasonably incurred by that Underwriter, director, officer, employee, affiliate or controlling person in connection with investigating or defending or preparing to defend against any such loss, claim, damage, liability or action as such expenses are incurred; except insofar as such losses, claims, damages or liabilities are arising out of or based upon any such untrue statement or omission or alleged untrue statement or omission in reliance upon and in conformity with the Underwriter Information (as defined in Section 9(b) hereof).

(b) Each Underwriter agrees, severally and not jointly, to indemnify and hold harmless the Company, the directors of the Company, the officers of the Company who sign the Registration Statement and each person, if any, who controls the Company within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act to the same extent as the foregoing indemnity from the Company to such Underwriter, but only with reference to information furnished to the Company in writing by such Underwriter through the Representatives expressly for use in the Registration Statement, any preliminary prospectus, the Time of Sale Prospectus or the Prospectus or any amendment or supplement thereto, it being understood and agreed that the only such information furnished by any Underwriter consists of the information furnished by or on behalf of the Representatives appearing in paragraph(s) [1], [5] and [14] under the caption "Underwriting" (the "Underwriter Information").

(c) In case any proceeding (including any governmental investigation) shall be instituted involving any person in respect of which indemnity may be sought pursuant to Section 9(a) or 9(b) hereof, such person (the "indemnified party") shall promptly notify the person against whom such indemnity may be sought (the "indemnifying party") in writing, *provided, however*, that the failure to notify the indemnifying party shall not relieve it from any liability which it may have under this Section 9 except to the extent it has been materially prejudiced (through the forfeiture of substantive rights and defenses) by such failure and, *provided, further*, that the failure to notify the indemnifying party shall not relieve it from any liability which it may have to an indemnified party otherwise than under this Section 9. The indemnifying party, upon request of the indemnified party, shall retain counsel reasonably satisfactory to the indemnified party to represent the indemnified party and any others the indemnifying party may designate in such proceeding and shall pay the fees and disbursements of such counsel related to such proceeding. In any such proceeding, any indemnified party shall have the right to retain its own counsel, but the fees and expenses of such counsel shall be at the expense of such indemnified party unless (i) the indemnifying party and the indemnified party shall have mutually agreed to the retention of such counsel or (ii) the named parties to any such proceeding (including any impleaded parties) include both the indemnifying party and the indemnified party and representation of both parties by the same counsel would be inappropriate due to actual or potential differing interests between them. It is understood that the indemnifying party shall not, in respect of the legal expenses of any indemnified party in connection with any proceeding or related proceedings in the same jurisdiction, be liable for the (i) fees and expenses of more than one separate firm (in addition to any local counsel) for all Underwriters and all persons, if any, who control any Underwriter within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act or who are affiliates of any Underwriter within the meaning of Rule 405 under the Securities Act, (ii) the fees and expenses of more than one separate firm (in addition to any local counsel) for the Company, its directors, its officers who sign the Registration Statement and each person, if any, who controls the Company within the meaning of either such Section, and that all such fees and expenses shall be reimbursed as they are incurred. In the case of any such separate firm for the Underwriters and such control persons and affiliates of any Underwriters, such firm shall be designated in writing by the Representatives. In the case of any such separate firm for the Company, and such directors, officers and control persons of the Company, such firm shall be designated in writing by the Company. The indemnifying party shall not be liable for any settlement of any proceeding effected without its written consent, but if settled with such consent or if there be a final judgment for the plaintiff, the indemnifying party agrees to indemnify the indemnified party from and against any loss or liability by reason of such settlement or judgment. Notwithstanding the foregoing sentence, if at any time an indemnified party shall have requested an indemnifying party to reimburse the indemnified party for fees and expenses of counsel as contemplated by the [second and third] sentences of this paragraph, the indemnifying party agrees that it shall be liable for any settlement of any proceeding effected without its written consent if (i) such settlement is entered into more than 30 days after receipt by such indemnifying party of the aforesaid request and (ii) such indemnifying party shall not have reimbursed the indemnified party in accordance with such request prior to the date of such settlement. No indemnifying party shall, without the prior written consent of the indemnified party, effect any settlement of any pending or threatened proceeding in respect of which any indemnified party is or could have been a party and indemnity could have been sought hereunder by such indemnified party, unless such settlement (x) includes an unconditional release of such indemnified party from all liability on claims that are the subject matter of such proceeding, and (y) does not include any statement as to, or any admission of, fault, culpability or a failure to act by or on behalf of any indemnified party.

(d) To the extent the indemnification provided for in Section 9(a) or 9(b) hereof, is unavailable to an indemnified party or insufficient in respect of any losses, claims, damages or liabilities referred to therein, then each indemnifying party under such paragraph, in lieu of indemnifying such indemnified party thereunder, shall contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages or liabilities (i) in such proportion as is appropriate to reflect the relative benefits received by the indemnifying party or parties on the one hand and the indemnified party or parties on the other hand from the offering of the Shares or (ii) if the allocation provided by clause 9(d)(i) above is not permitted by applicable law, in such proportion as is appropriate to reflect not only the relative benefits referred to in clause 9(d)(i) above but also the relative fault of the indemnifying party or parties on the one hand and of the indemnified party or parties on the other hand in connection with the statements or omissions that resulted in such losses, claims, damages or liabilities, as well as any other relevant equitable considerations. The relative benefits received by the Company on the one hand and the Underwriters on the other hand in connection with the offering of the Shares shall be deemed to be in the same respective proportions as the net proceeds from the offering of the Shares (before deducting expenses) received by the Company and the total underwriting discounts and commissions received by the Underwriters, in each case as set forth in the table on the cover of the Prospectus, bear to the aggregate Public Offering Price of the Shares. The relative fault of the Company on the one hand and the Underwriters on the other hand shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the Company or by the Underwriters and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. The Underwriters' respective obligations to contribute pursuant to this Section 9 are several in proportion to the respective number of Shares they have purchased hereunder, and not joint.

(e) The Company and the Underwriters agree that it would not be just or equitable if contribution pursuant to this Section 9 were determined by *pro rata* allocation (even if the Underwriters were treated as one entity for such purpose) or by any other method of allocation that does not take account of the equitable considerations referred to in Section 9(d)(i) hereof. The amount paid or payable by an indemnified party as a result of the losses, claims, damages and liabilities referred to in Section 9(d)(i) hereof shall be deemed to include, subject to the limitations set forth above, any legal or other expenses reasonably incurred by such indemnified party in connection with investigating or defending any such action or claim. Notwithstanding the provisions of this Section 9, in no event shall an Underwriter be required to contribute any amount in excess of the amount by which the total underwriting discounts and commissions received by such Underwriter with respect to the offering of the Shares exceeds the amount of any damages that such Underwriter has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. The remedies provided for in this Section 9 are not exclusive and shall not limit any rights or remedies which may otherwise be available to any indemnified party at law or in equity.

(f) The indemnity and contribution provisions contained in this Section 9 and Section 6(n)(i) hereof and the representations, warranties and other statements of the Company contained in this Agreement shall remain operative and in full force and effect regardless of (i) any termination of this Agreement, (ii) any investigation made by or on behalf of (A) any Underwriter, any person controlling any Underwriter or any affiliate of any Underwriter, or (B) the Company, its officers or directors or any person controlling the Company and (iii) acceptance of and payment for any of the Shares.

10. **Termination.** The Underwriters may terminate this Agreement by notice given by the Representatives to the Company, if after the execution and delivery of this Agreement and prior to the Closing Date (i) trading generally shall have been suspended or materially limited on, or by, as the case may be, any of the New York Stock Exchange, the NYSE MKT, the Nasdaq Stock Market, (ii) trading of any securities of the Company shall have been suspended on any exchange or in any over-the-counter market, (iii) a material disruption in commercial banking, securities settlement, payment or clearance services in the United States, Hong Kong, PRC or the Cayman Islands, shall have occurred, (iv) any moratorium on commercial banking activities shall have been declared by United States Federal, New York State, Hong Kong, the PRC or the Cayman Islands authorities, (v) there shall have occurred any outbreak or escalation of hostilities, or any change in financial markets, currency exchange rates or controls or any calamity or crisis that, in the judgment of the Representatives, is material and adverse and which, singly or together with any other event specified in this clause (v), makes it, in the judgment of the Representatives, impracticable or inadvisable to proceed with the offer, sale or delivery of the Shares on the terms and in the manner contemplated in the Time of Sale Prospectus or the Prospectus.

11. **Effectiveness; Defaulting Underwriters.** This Agreement shall become effective upon the execution and delivery hereof by the parties hereto.

If, on the Closing Date or an Option Closing Date, as the case may be, any one or more of the Underwriters shall fail or refuse to purchase Shares that it has or they have agreed to purchase hereunder on such date, and the aggregate number of Shares which such defaulting Underwriter or Underwriters agreed but failed or refused to purchase is not more than one-tenth of the aggregate number of the Shares to be purchased on such date, the other Underwriters shall be obligated severally in the proportions that the number of Firm Shares set forth opposite their respective names in Schedule I bears to the aggregate number of Firm Shares set forth opposite the names of all such non-defaulting Underwriters, or in such other proportions as the Representatives may specify, to purchase the Shares which such defaulting Underwriter or Underwriters agreed but failed or refused to purchase on such date; *provided* that in no event shall the number of Shares that any Underwriter has agreed to purchase pursuant to this Agreement be increased pursuant to this Section 11 by an amount in excess of one-ninth of such number of Shares without the written consent of such Underwriter. If, on the Closing Date, any Underwriter or Underwriters shall fail or refuse to purchase Firm Shares and the aggregate number of Firm Shares with respect to which such default occurs is more than one-tenth of the aggregate number of Firm Shares to be purchased on such date, and arrangements satisfactory to the Representatives and the Company for the purchase of such Firm Shares are not made within 36 hours after such default, this Agreement shall terminate without liability on the part of any non-defaulting Underwriter and the Company. In any such case either the Representatives or the Company shall have the right to postpone the Closing Date, but in no event for longer than seven days, in order that the required changes, if any, in the Registration Statement, in the Time of Sale Prospectus, in the Prospectus or in any other documents or arrangements may be effected. If, on an Option Closing Date, any Underwriter or Underwriters shall fail or refuse to purchase Additional Shares and the aggregate number of Additional Shares with respect to which such default occurs is more than one-tenth of the aggregate number of Additional Shares to be purchased on such Option Closing Date, the non-defaulting Underwriters shall have the option to (i) terminate their obligation hereunder to purchase the Additional Shares to be sold on such Option Closing Date or (ii) purchase not less than the number of Additional Shares that such non-defaulting Underwriters would have been obligated to purchase in the absence of such default. Any action taken under this paragraph shall not relieve any defaulting Underwriter from liability in respect of any default of such Underwriter under this Agreement.

If this Agreement shall be terminated by the Underwriters, or any of them, because of any failure or refusal on the part of the Company to comply with the terms or to fulfill any of the conditions of this Agreement, or if for any reason the Company shall be unable to perform its obligations under this Agreement, the Company will reimburse the Underwriters or such Underwriters as have so terminated this Agreement with respect to themselves, severally, for all out-of-pocket expenses (including the fees and disbursements of their counsel) reasonably incurred by such Underwriters in connection with this Agreement or the offering contemplated hereunder.

12. **Submission to Jurisdiction; Appointment of Agent for Service.** The Company hereby irrevocably submits to the exclusive jurisdiction of the U.S. federal and state courts in the Borough of Manhattan in The City of New York (each, a “**New York Court**”) in any suit or proceeding arising out of or relating to this Agreement, the Time of Sale Prospectus, the Prospectus, the Registration Statement, the offering of the Shares or any transactions contemplated hereby. The Company and each of the Company’s Controlled Entities irrevocably and unconditionally waive any objection to the laying of venue of any suit or proceeding arising out of or relating to this Agreement, the Time of Sale Prospectus, the Prospectus, the Registration Statement, the offering of the Shares or any transactions contemplated hereby in the New York Courts, and irrevocably and unconditionally waives and agrees not to plead or claim in any such court that any such suit or proceeding in any such court has been brought in an inconvenient forum. To the extent that the Company has or hereafter may acquire any immunity (on the grounds of sovereignty or otherwise) from the jurisdiction of any court or from any legal process with respect to itself or its property, the Company irrevocably waives, to the fullest extent permitted by law, such immunity in respect of any such suit, action or proceeding. The Company irrevocably appoints Cogency Global Inc., as its authorized agent (the “**Authorized Agent**”) in the Borough of Manhattan in The City of New York upon which process may be served in any such suit or proceeding, and agree that service of process in any manner permitted by applicable law upon such agent shall be deemed in every respect effective service of process in any manner permitted by applicable law upon the Company, as the case may be, in any such suit or proceeding. The Company further agrees to take any and all action as may be necessary to maintain such designation and appointment of such agent in full force and effect for a period of seven years from the date of this Agreement. 13. **Judgment Currency.** If for the purposes of obtaining judgment in any court it is necessary to convert a sum due hereunder into any currency other than United States dollars, the parties hereto agree, to the fullest extent permitted by law, that the rate of exchange used shall be the rate at which in accordance with normal banking procedures the Underwriters could purchase United States dollars with such other currency in The City of New York on the business day preceding that on which final judgment is given. The obligation of the Company pursuant to this Agreement with respect to any sum due from it to any Underwriter or any person controlling any Underwriter shall, notwithstanding any judgment in a currency other than United States dollars, not be discharged until the first business day following receipt by such Underwriter or controlling person of any sum in such other currency, and only to the extent that such Underwriter or controlling person may in accordance with normal banking procedures purchase United States dollars with such other currency. If the United States dollars so purchased are less than the sum originally due to such Underwriter or controlling person hereunder, the Company agrees as a separate obligation and notwithstanding any such judgment, to indemnify such Underwriter or controlling person against such loss. If the United States dollars so purchased are greater than the sum originally due to such Underwriter or controlling person hereunder, such Underwriter or controlling person agrees to pay to the Company, an amount equal to the excess of the dollars so purchased over the sum originally due to such Underwriter or controlling person hereunder.

14. **Entire Agreement.** This Agreement, the Underwriter Warrants, together with any contemporaneous written agreements and any prior written agreements (to the extent not superseded by this Agreement) that relate to the sale and purchase of the Shares and the Underwriters' Securities and the offering of the Shares and the Ordinary Shares underlying the Underwriter Warrants, represents the entire agreement between the Company and the Underwriters with respect to the preparation of any preliminary prospectus, the Time of Sale Prospectus, the Prospectus, the conduct of the offering, and the purchase and sale of the Shares and the Underwriters' Securities, and the offering of the Shares and the Ordinary Shares underlying the Underwriter Warrants.

15. **Counterparts.** This Agreement may be signed in two or more counterparts, each of which shall be an original, with the same effect as if the signatures thereto and hereto were upon the same instrument.

As Representatives to the several underwriters  
referred to in the Underwriting Agreement below

c/o CMB International Capital Limited

Hong Kong

c/o The Benchmark Company, LLC  
150 East 58th Street, 17th Floor,  
New York, NY 10155  
United States

Ladies and Gentlemen:

The undersigned understands that CMB International Capital Limited and The Benchmark Company, LLC, as representatives (each, a “**Representative**,” and collectively, the “**Representatives**”) of the several underwriters (the “**Underwriters**”) under the Underwriting Agreement, propose to enter into an Underwriting Agreement (the “**Underwriting Agreement**”) with DDC Enterprise Limited, an exempted company incorporated with limited liability under the laws of the Cayman Islands (the “**Company**”), providing for the public offering (the “**Public Offering**”) by the several Underwriters, including the Representatives, of a certain number of ordinary shares, par value US\$[●] per share, of the Company (the “**Ordinary Shares**”).

To induce the Underwriters that may participate in the Public Offering to continue their efforts in connection with the Public Offering, the undersigned hereby agrees that, without the prior written consent of the Representatives on behalf of the Underwriters, it will not, during the period commencing on the date hereof and ending 180 days after the date of the final prospectus (the “**Restricted Period**”) relating to the Public Offering (the “**Prospectus**”), (1) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any Ordinary Shares (collectively, the “**Securities**”) beneficially owned (as such term is used in Rule 13d-3 of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”), by the undersigned or any other securities so owned convertible into or exercisable or exchangeable for the Securities or (2) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of the Securities or such other securities, in cash or otherwise. The foregoing sentence shall not apply to (a) transactions relating to the Securities or other securities of the Company acquired in open market transactions after the completion of the Public Offering, *provided* that no filing under Section 16(a) of the Exchange Act shall be required or shall be voluntarily made in connection with subsequent sales of the Securities or other securities acquired in such open market transactions, (b) transfers of shares of the Securities or any security convertible into the Securities as a *bona fide* gift, (c) distributions of the Securities or any security convertible into the Securities to limited partners or stockholders of the undersigned; *provided* that in the case of any transfer or distribution pursuant to clause (b) or (c), (i) each donee or distributee shall sign and deliver to the Representatives a lock-up letter substantially in the form of this letter and (ii) no filing under Section 16(a) of the Exchange Act, reporting a reduction in beneficial ownership of the Securities, shall be required or shall be voluntarily made during the Restricted Period, or (d) the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act for the transfer of the Securities, *provided* that such plan does not provide for the transfer of the Securities during the Restricted Period and to the extent a public announcement or filing under the Exchange Act, if any, is required of or voluntarily made by or on behalf of the undersigned or the Company regarding the establishment of such plan, such announcement or filing shall include a statement to the effect that no transfer of the Securities may be made under such plan during the Restricted Period. In addition, the undersigned agrees that, without the prior written consent of the Representatives on behalf of the Underwriters, it will not, during the Restricted Period, make any demand for or exercise any right with respect to, the registration of any Securities or any security convertible into or exercisable or exchangeable for the Securities. The undersigned hereby also agrees and consents to the entry of stop transfer instructions with the Company’s transfer agent and registrar against the transfer of the undersigned’s Securities unless such transfer is in compliance with the foregoing restrictions.

If the undersigned is an officer or director of the Company, the undersigned further agrees that the foregoing provisions shall be equally applicable to any issuer-directed Securities the undersigned may purchase in the Public Offering.

The undersigned understands that the Company and the Underwriters are relying upon this letter in proceeding toward consummation of the Public Offering. The undersigned further understands that this letter is irrevocable and shall be binding upon the undersigned’s heirs, legal representatives, successors and assigns.

Whether or not the Public Offering actually occurs depends on a number of factors, including market conditions. Any Public Offering will only be made pursuant to an Underwriting Agreement, the terms of which are subject to negotiation between the Company and the Representatives on behalf of the Underwriters. This letter shall terminate and be of no further force or effect if the Underwriting Agreement is terminated pursuant to its terms.

This letter is governed by, and to be construed in accordance with, the internal laws of the State of New York, without regard to the conflict of laws principles thereof.

5. The registered office of the Company shall be at such address in the Cayman Islands as the Directors shall from time to time determine. The Company may in addition establish and maintain such other offices and places of business and agencies in such places as the Directors may from time to time determine.

## ISSUE OF SHARES

6. Subject to the provisions, if any, in the Memorandum of Association, these Articles and to any direction that may be given by the Company in a general meeting, the Directors may, in their absolute discretion and without approval of the existing Members, issue shares, grant rights over existing shares or issue other securities in one or more series as they deem necessary and appropriate and determine designations, powers, preferences, privileges and other rights, including dividend rights, conversion rights, terms of redemption and liquidation preferences, any or all of which may be greater than the powers and rights associated with the shares held by existing Members, at such times and on such other terms as they think proper. The Company shall not issue shares in bearer form.
7. The Directors may provide, out of the unissued shares, for series of preferred shares. Before any preferred shares of any such series are issued, the Directors shall fix, by resolution or resolutions, the following provisions of the preferred shares thereof:
  - (a) the designation of such series, the number of preferred shares to constitute such series and the subscription price thereof if different from the par value thereof;
  - (b) whether the shares of such series shall have voting rights, in addition to any voting rights provided by law, and, if so, the terms of such voting rights, which may be general or limited;
  - (c) the dividends, if any, payable on such series, whether any such dividends shall be cumulative, and, if so, from what dates, the conditions and dates upon which such dividends shall be payable, the preference or relation which such dividends shall bear to the dividends payable on any shares of any other class or any other series of preferred shares;
  - (d) whether the preferred shares of such series shall be subject to redemption by the Company, and, if so, the times, prices and other conditions of such redemption;
  - (e) the amount or amounts payable upon preferred shares of such series upon, and the rights of the holders of such series in, a voluntary or involuntary liquidation, dissolution or winding up, or upon any distribution of the assets, of the Company;
  - (f) whether the preferred shares of such series shall be subject to the operation of a retirement or sinking fund and, if so, the extent to and manner in which any such retirement or sinking fund shall be applied to the purchase or redemption of the preferred shares of such series for retirement or other corporate purposes and the terms and provisions relative to the operation thereof;
  - (g) whether the preferred shares of such series shall be convertible into, or exchangeable for, shares of any other class or any other series of preferred shares or any other securities and, if so, the price or prices or the rate or rates of conversion or exchange and the method, if any, of adjusting the same, and any other terms and conditions of conversion or exchange;
  - (h) the limitations and restrictions, if any, to be effective while any preferred shares of such series are outstanding upon the payment of dividends or the making of other distributions on, and upon the purchase, redemption or other acquisition by the Company of, the existing shares or shares of any other class of shares or any other series of preferred shares;

- (i) the conditions or restrictions, if any, upon the creation of indebtedness of the Company or upon the issue of any additional shares, including additional shares of such series or of any other class of shares or any other series of preferred shares; and
- (j) any other powers, preferences and relative, participating, optional and other special rights, and any qualifications, limitations and restrictions thereof.

Without limiting the foregoing and subject to Article 89, the voting powers of any series of preferred shares may include the right, in the circumstances specified in the resolution or resolutions providing for the issuance of such preferred shares, to elect one or more Directors who shall serve for such term and have such voting powers as shall be stated in the resolution or resolutions providing for the issuance of such preferred shares. The term of office and voting powers of any Director elected in the manner provided in the immediately preceding sentence of this Article 7 may be greater than or less than those of any other Director or class of Directors.

8. The powers, preferences and relative, participating, optional and other special rights of each series of preferred shares, and the qualifications, limitations or restrictions thereof, if any, may differ from those of any and all other series at any time outstanding. All shares of any one series of preferred shares shall be identical in all respects with all other shares of such series, except that shares of any one series issued at different times may differ as to the dates from which dividends thereon shall be cumulative.

#### **CLASS A ORDINARY SHARES AND CLASS B ORDINARY SHARES**

9. Holders of Class A Ordinary Shares and Class B Ordinary Shares shall at all times vote together as one class on all resolutions submitted to a vote by the Members. Each Class A Ordinary Share shall be entitled to one (1) vote on all matters subject to vote at general meetings of the Company, and each Class B Ordinary Share shall be entitled to ten (10) votes on all matters subject to vote at general meetings of the Company.
10. Class A Ordinary Shares are not convertible into Class B Ordinary Shares under any circumstances.
11. Class B Ordinary Shares:
- (a) are not convertible into Class A Ordinary Shares under any circumstances;

    - (iii) the Founder being deemed by applicable legal authority to be incapacitated or unsuitable for the purpose of performing her duties as a Director; or

- (iv) the transfer to another person of the beneficial ownership of such Class B Ordinary Shares or control over the voting rights attached to such Class B Ordinary Shares held by the Founder.

12. The holder of Class B Ordinary Shares shall:

- (a) not be entitled to dividends or other distributions of the Company; and
- (b) not be entitled to distributions in relation to the winding up of the Company in accordance with these Articles.

13. Save and except for the rights and restrictions as set out in Articles 9 to 12 (inclusive), the Class A Ordinary Shares and the Class B Ordinary Shares shall rank *pari passu* and shall have the same rights, preferences, privileges and restrictions.

#### **REGISTER OF MEMBERS AND SHARE CERTIFICATES**

14. The Company shall maintain a Register of its Members and a Member shall only be entitled to a share certificate if the Directors resolve that share certificates shall be issued. Share certificates (if any) shall specify the share or shares held by that person and the amount paid up thereon, provided that in respect of a share or shares held jointly by several persons the Company shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all. All certificates for shares shall be delivered personally or sent through the post addressed to the Member entitled thereto at the Member's registered address as appearing in the register.

15. All share certificates shall bear legends required under the applicable laws, including the Securities Act.

16. Any two or more certificates representing shares of any one class held by any Member may at the Member's request be cancelled and a single new certificate for such shares issued in lieu on payment (if the Directors shall so require) of US\$1.00 or such smaller sum as the Directors shall determine.

17. If a share certificate shall be damaged or defaced or alleged to have been lost, stolen or destroyed, a new certificate representing the same shares may be issued to the relevant Member upon request subject to delivery up of the old certificate or (if alleged to have been lost, stolen or destroyed) compliance with such conditions as to evidence and indemnity and the payment of out-of-pocket expenses of the Company in connection with the request as the Directors may think fit.

18. In the event that shares are held jointly by several persons, any request may be made by any one of the joint holders and if so made shall be binding on all of the joint holders.

#### **TRANSFER OF SHARES**

19. (a) Shares are transferable subject to the approval of the Board or the written consent of a Director authorized by the Board in writing to approve share transfers and the Board may, in its sole discretion, decline to register any transfer of any share which is not fully paid up or on which the Company has a lien.

- (b) The Directors may also decline to register any transfer of any share unless:
- (i) the instrument of transfer is lodged with the Company, accompanied by the certificate for the shares to which it relates and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer;
  - (ii) the instrument of transfer is in respect of only one class of shares;
  - (iii) the instrument of transfer is properly stamped, if required;
  - (iv) in the case of a transfer to joint holders, the number of joint holders to whom the share is to be transferred does not exceed four;
  - (v) the shares concerned are free of any lien in favor of us; or
  - (vi) a fee of such maximum sum as the Designated Stock Exchange may determine to be payable, or such lesser sum as the Board may from time to time require, is paid to the Company in respect thereof.
- (c) If the Directors refuse to register a transfer they shall, within two months after the date on which the instrument of transfer was lodged, send to each of the transferor and the transferee notice of such refusal.
20. The registration of transfers may, on 14 days' notice being given by advertisement in such one or more newspapers or by electronic means, be suspended and the register closed at such times and for such periods as the Board may from time to time determine, provided, however, that the registration of transfers shall not be suspended nor the register closed for more than 30 days in any year.
21. The instrument of transfer of any share shall be in writing and executed by or on behalf of the transferor (and if the Directors so require, signed by the transferee). The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the Register of Members.
22. All instruments of transfer that shall be registered shall be retained by the Company.

#### **REDEMPTION AND PURCHASE OF OWN SHARES**

23. Subject to the provisions of the Companies Act the Company may issue Shares that are to be redeemed or are liable to be redeemed at the option of the Member or the Company. The redemption of such Shares shall be effected in such manner and upon such other terms as the Company may, by Special Resolution, determine before the issue of the Shares.
24. Subject to the provisions of the Companies Act, the Company may purchase its own Shares (including any redeemable Shares) in such manner and on such other terms as the Directors may agree with the relevant Member.
25. The Company may make a payment in respect of the redemption or purchase of its own Shares in any manner permitted by the Companies Act, including out of capital.

26. The Directors may accept the surrender for no consideration of any fully paid Share.

#### **TREASURY SHARES**

27. The Directors may, prior to the purchase, redemption or surrender of any Share, determine that such Share shall be held as a Treasury Share.
28. The Directors may determine to cancel a Treasury Share or transfer a Treasury Share on such terms as they think proper (including, without limitation, for nil consideration).

#### **VARIATION OF RIGHTS ATTACHING TO SHARES**

29. If at any time the share capital of the Company is divided into different classes of Shares, all or any of the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may, whether or not the Company is being wound up, be varied without the consent of the holders of the issued Shares of that class where such variation is considered by the Directors not to have a material adverse effect upon such rights; otherwise, any such variation shall be made only with the consent in writing of the holders of not less than two thirds of the issued Shares of that class, or with the approval of a resolution passed by a majority of not less than two thirds of the votes cast at a separate meeting of the holders of the Shares of that class. For the avoidance of doubt, the Directors reserve the right, notwithstanding that any such variation may not have a material adverse effect, to obtain consent from the holders of Shares of the relevant class.
30. The provisions of these Articles relating to general meetings shall apply to every such general meeting of the holders of one class or series of shares except the following:
- (a) separate general meetings of the holders of a class or series of shares may be called only by (i) the Chairperson of the Board, or (ii) a majority of the entire Board of Directors (unless otherwise specifically provided by the terms of issue of the shares of such class or series). Nothing in this Article 30 or Article 29 shall be deemed to give any Member or Members the right to call a class or series meeting.
  - (b) the necessary quorum shall be one or more persons holding or representing by proxy at least one-third of the issued shares of the class or series and that any holder of shares of the class or series present in person or by proxy may demand a poll.
31. The rights conferred upon the holders of the shares of any class or series shall not, unless otherwise expressly provided by the terms of issue of the shares of that class or series, be deemed to be varied by the creation or issue of further shares ranking in priority thereto or pari passu therewith.

#### **COMMISSION ON SALE OF SHARES**

32. The Company may in so far as the Statutes from time to time permit pay a commission to any person in consideration of his subscribing or agreeing to subscribe whether absolutely or conditionally for any shares of the Company. Such commissions may be satisfied by the payment of cash or the lodgement of fully or partly paid-up shares or partly in one way and partly in the other. The Company may also on any issue of shares pay such brokerage as may be lawful.

## **NON-RECOGNITION OF TRUSTS**

33. No person shall be recognised by the Company as holding any share upon any trust and the Company shall not be bound by or be compelled in any way to recognise (even when having notice thereof) any equitable, contingent, future, or partial interest in any share, or any interest in any fractional part of a share, or (except only as is otherwise provided by these Articles or the Statutes) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.

## **LIEN ON SHARES**

34. The Company shall have a first and paramount lien and charge on all shares (whether fully paid-up or not) registered in the name of a Member (whether solely or jointly with others) for all debts, liabilities or engagements to or with the Company (whether presently payable or not) by such Member or his estate, either alone or jointly with any other person, whether a Member or not, but the Directors may at any time declare any share to be wholly or in part exempt from the provisions of this Article. The registration of a transfer of any such share shall operate as a waiver of the Company's lien (if any) thereon. The Company's lien (if any) on a share shall extend to all dividends or other monies payable in respect thereof.
35. The Company may sell, in such manner as the Directors think fit, any shares on which the Company has a lien, but no sale shall be made unless some sum in respect of which the lien exists is presently payable nor until the expiration of 14 calendar days after a notice in writing, stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share, or the persons entitled thereto by reason of his death or bankruptcy.
36. For giving effect to any such sale the Directors may authorise some person to transfer the shares sold to the purchaser thereof. The purchaser shall be registered as the holder of the shares comprised in any such transfer and he shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
37. The proceeds of the sale shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable, and the residue shall (subject to a like lien for sums not presently payable as existed upon the shares prior to the sale) be paid to the person entitled to the shares at the date of the sale.

## **CALLS ON SHARES**

38. Subject to the terms of allotment, the Directors may from time to time make calls upon the Members in respect of any money unpaid on their shares, and each Member shall (subject to receiving at least 14 calendar days notice specifying the time or times of payment) pay to the Company at the time or times so specified the amount called on his shares. A call shall be deemed to have been made at the time when the resolution of the Directors authorising such call was passed.
39. The joint holders of a share shall be jointly and severally liable to pay calls in respect thereof.

40. If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest upon the sum at the rate of eight percent per annum from the day appointed for the payment thereof to the time of the actual payment, but the Directors shall be at liberty to waive payment of that interest wholly or in part.
41. The provisions of these Articles as to the liability of joint holders and as to payment of interest shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the amount of the share, or by way of premium, as if the same had become payable by virtue of a call duly made and notified.
42. The Directors may make arrangements on the issue of shares for a difference between the Members, or the particular shares, in the amount of calls to be paid and in the times of payment.
43. The Directors may, if they think fit, receive from any Member willing to advance the same all or any part of the monies uncalled and unpaid upon any shares held by him, and upon all or any of the monies so advanced may (until the same would, but for such advance, become presently payable) pay interest at such rate (not exceeding without the sanction of an Ordinary Resolution, eight percent per annum) as may be agreed upon between the Member paying the sum in advance and the Directors. No such sum paid in advance of calls shall entitle the Member paying such sum to any portion of a dividend declared in respect of any period prior to the date upon which such sum would, but for such payment, become presently payable.

#### **FORFEITURE OF SHARES**

44. If a Member fails to pay any call or instalment of a call on the day appointed for payment thereof, the Directors may, at any time thereafter during such time as any part of such call or instalment remains unpaid, serve a notice on him requiring payment of such much of the call or instalment as is unpaid, together with any interest which may have accrued.
45. The notice shall name a further day (not earlier than the expiration of 14 calendar days from the date of the notice) on or before which the payment required by the notice is to be made, and shall state that in the event of non-payment at or before the time appointed the shares in respect of which the call was made will be liable to be forfeited.
46. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may at any time thereafter, before the payment required by notice has been made, be forfeited by a resolution of the Directors to that effect.
47. A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Directors think fit, and at any time before a sale or disposition the forfeiture may be cancelled on such terms as the Directors think fit.
48. A person whose shares have been forfeited shall cease to be a Member in respect of the forfeited shares, but shall, notwithstanding, remain liable to pay to the Company all monies which at the date of forfeiture were payable by him to the Company in respect of the shares, but his liability shall cease if and when the Company receives payment in full of the fully paid up amount of the shares.

49. A certificate in writing under the hand of a Director of the Company, which certifies that a share has been forfeited on a date stated in the certificate, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share. The Company may receive the consideration, if any, given for the share or any sale or disposition thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of and he shall thereupon be registered as the holder of the share, and shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.
50. The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which by the terms of issue of a share becomes due and payable, whether on account of the amount of the share, or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

#### **REGISTRATION OF EMPOWERING INSTRUMENTS**

51. The Company shall be entitled to charge a fee not exceeding one dollar (US\$1.00) on the registration of every probate, letters of administration, certificate of death or marriage, power of attorney, notice in lieu of distringas, or other instrument.

#### **TRANSMISSION OF SHARES**

52. The legal personal representative of a deceased sole holder of a share shall be the only person recognised by the Company as having any title to the share. In the case of a share registered in the name of two or more holders, the survivors or survivor, or the legal personal representatives of the deceased survivor, shall be the only person recognised by the Company as having any title to the share.
53. Any person becoming entitled to a share in consequence of the death or bankruptcy of a Member shall upon such evidence being produced as may from time to time be properly required by the Directors, have the right either to be registered as a Member in respect of the share or, instead of being registered himself, to make such transfer of the share as the deceased or bankrupt person could have made. If the person so becoming entitled shall elect to be registered himself as holder he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.
54. A person becoming entitled to a share by reason of the death or bankruptcy of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a Member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company, provided however, that the Directors may at any time give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within 90 calendar days, the Directors may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share until the requirements of the notice have been complied with.

## ALTERATION OF CAPITAL

55. The Company may by Ordinary Resolution:
- (a) increase the share capital by such sum, to be divided into shares of such classes and amount, as the resolution shall prescribe;
  - (b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;
  - (c) sub-divide its existing shares or any of them into shares of a smaller amount provided that in the subdivision the proportion between the amount paid and the amount, if any, unpaid on each reduced share shall be the same as it was in case of the share from which the reduced share is derived;
  - (d) cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.
56. Subject to the provisions of the Statutes and these Articles as regards to the matters to be dealt with by Ordinary Resolution, the Company may by Special Resolution reduce its share capital and any capital redemption reserve in any manner authorized by law.
57. All new shares created hereunder shall be subject to the same provisions with reference to the payment of calls, liens, transfer, transmission, forfeiture and otherwise as the shares in the original share capital.

## CLOSING REGISTER OF MEMBERS OR FIXING RECORD DATE

58. For the purpose of determining those Members that are entitled to receive notice of, attend or vote at any meeting of Members or any adjournment thereof, or those Members that are entitled to receive payment of any dividend, or in order to make a determination as to who is a Member for any other purpose, the Directors may provide that the Register of Members shall be closed for transfers for a stated period but not to exceed in any case 30 calendar days. If the Register of Members shall be so closed for the purpose of determining those Members that are entitled to receive notice of, attend or vote at a meeting of Members such register shall be so closed for at least 10 calendar days immediately preceding such meeting and the record date for such determination shall be the date of the closure of the Register of Members.
59. In lieu of or apart from closing the Register of Members, the Directors may fix in advance a date as the record date for any such determination of those Members that are entitled to receive notice of, attend or vote at a meeting of the Members and for the purpose of determining those Members that are entitled to receive payment of any dividend, the Directors may, at or within 90 calendar days prior to the date of declaration of such dividend fix a subsequent date as the record date of such determination.
60. If the Register of Members is not so closed and no record date is fixed for the determination of those Members entitled to receive notice of, attend or vote at a meeting of Members or those Members that are entitled to receive payment of a dividend, the date on which notice of the meeting is posted or the date on which the resolution of the Directors declaring such dividend is adopted, as the case may be, shall be the record date for such determination of Members. When a determination of those Members that are entitled to receive notice of, attend or vote at a meeting of Members has been made as provided in this section, such determination shall apply to any adjournment thereof.

## GENERAL MEETINGS

61. All general meetings of the Company other than annual general meetings shall be called extraordinary general meetings.
62. (a) The Company may hold an annual general meeting and shall specify the meeting as such in the notices calling it. The annual general meeting shall be held at such time and place as the Directors shall determine, including via electronic means.
- (b) At these meetings the report of the Directors (if any) shall be presented.
63. (a) The Directors may call general meetings, and they shall on a Members requisition forthwith proceed to convene an extraordinary general meeting of the Company.

- (e) A general meeting convened as aforesaid by requisitionists shall be convened in the same manner as nearly as possible as that in which general meetings are to be convened by Directors.

## NOTICE OF GENERAL MEETINGS

64. At least seven calendar days' notice shall be given for any general meeting. Every notice shall be exclusive of the day on which it is given or deemed to be given and of the day for which it is given and shall specify the place, the day and the hour of the meeting and the general nature of the business and shall be given in the manner hereinafter mentioned or in such other manner if any as may be prescribed by the Company, provided that a general meeting of the Company shall, whether or not the notice specified in this regulation has been given and whether or not the provisions of these Articles regarding general meetings have been complied with, be deemed to have been duly convened if it is so agreed:
- (a) in the case of an annual general meeting by all the Members (or their proxies) entitled to attend and vote thereat; and
- (b) in the case of an extraordinary general meeting by a majority in number of the Members (or their proxies) having a right to attend and vote at the meeting, being a majority together holding not less than ninety five percent in par value of the shares giving that right.

In such event the Directors shall do all acts and things required to give effect to such capitalisation, with full power given to the Directors to make such provisions as they think fit in the case of Shares becoming distributable in fractions (including provisions whereby the benefit of fractional entitlements accrue to the Company rather than to the Members concerned). After 180 days after the Effective Date, transfers to others may be made subject to compliance with or exemptions from applicable securities laws. In order to make any permitted assignment, the Holder must deliver to the Company the assignment form attached hereto duly executed and completed, together with the Purchase Warrant and payment of all transfer taxes, if any, payable in connection therewith. The Company shall within five (5) business days transfer this Purchase Warrant on the books of the Company and shall execute and deliver a new Purchase Warrant or Purchase Warrants of like tenor to the appropriate assignee(s) expressly evidencing the right to purchase the aggregate number of Shares purchasable hereunder or such portion of such number as shall be contemplated by any such assignment.

3.2 Restrictions Imposed by the Act. The securities evidenced by this Purchase Warrant shall not be transferred unless and until: (i) if required by applicable law, the Company has received the opinion of counsel for the Company that the securities may be transferred pursuant to an exemption from registration under the Act and applicable state securities laws, or (ii) a registration statement or a post-effective amendment to the Registration Statement relating to the offer and sale of such securities has been filed by the Company and declared effective by the U.S. Securities and Exchange Commission (the “**Commission**”) and compliance with applicable state securities law has been established.

### 4. New Purchase Warrants to be Issued.

4.1 Partial Exercise or Transfer. This Purchase Warrant may be exercised or assigned in whole or in part. In the event of the exercise or assignment hereof in part only, upon surrender of this Purchase Warrant for cancellation, together with the duly executed exercise or assignment form, the Company shall cause to be delivered to the Holder without charge a new Purchase Warrant of like tenor to this Purchase Warrant in the name of the Holder evidencing the right of the Holder to purchase the number of Shares purchasable hereunder as to which this Purchase Warrant has not been exercised or assigned.

4.2 Lost Certificate. Upon receipt by the Company of evidence satisfactory to it of the loss, theft, destruction or mutilation of this Purchase Warrant and of reasonably satisfactory indemnification or the posting of a bond, determined in the sole discretion of the Company, the Company shall execute and deliver a new Purchase Warrant of like tenor and date. Any such new Purchase Warrant executed and delivered as a result of such loss, theft, mutilation or destruction shall constitute a substitute contractual obligation on the part of the Company.

## 5. Adjustments.

5.1 Adjustments to Exercise Price and Number of Securities. The Exercise Price and the number of Shares underlying the Purchase Warrant shall be subject to adjustment from time to time as hereinafter set forth:

5.1.1 Share Dividends; Split Ups. If, after the date hereof, and subject to the provisions of Section 5.3 below, the number of outstanding Shares is increased by a share dividend payable in Shares or by a split up of Shares or other similar event, then, on the effective day thereof, the number of Shares purchasable hereunder shall be increased in proportion to such increase in outstanding Shares, and the Exercise Price shall be proportionately decreased.

5.1.2 Aggregation of Shares. If, after the date hereof, and subject to the provisions of Section 5.3 below, the number of outstanding Shares is decreased by a consolidation, combination or reclassification of Shares or other similar event, then, on the effective date thereof, the number of Shares purchasable hereunder shall be decreased in proportion to such decrease in outstanding Shares, and the Exercise Price shall be proportionately increased.

5.1.3 Replacement of Securities upon Reorganization, etc. In case of any reclassification or reorganization of the outstanding Shares other than a change covered by Section 5.1.1 or 5.1.2 hereof or that solely affects the par value of such Shares, or in the case of any share reconstruction or amalgamation or consolidation or merger of the Company with or into another corporation (other than a consolidation or share reconstruction or amalgamation or merger in which the Company is the continuing corporation and that does not result in any reclassification or reorganization of the outstanding Shares), or in the case of any sale or conveyance to another corporation or entity of the property of the Company as an entirety or substantially as an entirety in connection with which the Company is dissolved, the Holder of this Purchase Warrant shall have the right thereafter (until the expiration of the right of exercise of this Purchase Warrant) to receive upon the exercise hereof, for the same aggregate Exercise Price payable hereunder immediately prior to such event, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, share reconstruction or amalgamation, or consolidation, or upon a dissolution following any such sale or transfer, by a Holder of the number of Shares of the Company obtainable upon exercise of this Purchase Warrant immediately prior to such event; and if any reclassification also results in a change in Shares covered by Section 5.1.1 or 5.1.2, then such adjustment shall be made pursuant to Sections 5.1.1, 5.1.2 and this Section 5.1.3. The provisions of this Section 5.1.3 shall similarly apply to successive reclassifications, reorganizations, share reconstructions or amalgamations, or consolidations, sales or other transfers.

5.1.4 Changes in Form of Purchase Warrant. This form of Purchase Warrant need not be changed because of any change pursuant to this Section 5.1, and Purchase Warrants issued after such change may state the same Exercise Price and the same number of Shares as are stated in the Purchase Warrants initially issued pursuant to this Agreement. The acceptance by any Holder of the issuance of new Purchase Warrants reflecting a required or permissive change shall not be deemed to waive any rights to an adjustment occurring after the Commencement Date or the computation thereof.

5.2 Substitute Purchase Warrant. In case of any consolidation of the Company with, or share reconstruction or amalgamation or merger of the Company with or into, another corporation (other than a consolidation or share reconstruction or amalgamation or merger which does not result in any reclassification or change of the outstanding Shares), the corporation formed by such consolidation or share reconstruction or amalgamation shall execute and deliver to the Holder a supplemental Purchase Warrant providing that the holder of each Purchase Warrant then outstanding or to be outstanding shall have the right thereafter (until the stated expiration of such Purchase Warrant) to receive, upon exercise of such Purchase Warrant, the kind and amount of shares of stock and other securities and property receivable upon such consolidation or share reconstruction or amalgamation, by a holder of the number of Shares of the Company for which such Purchase Warrant might have been exercised immediately prior to such consolidation, share reconstruction or amalgamation or merger, sale or transfer. Such supplemental Purchase Warrant shall provide for adjustments which shall be identical to the adjustments provided for in this Section 5. The above provision of this Section 5 shall similarly apply to successive consolidations or share reconstructions or amalgamations or mergers.

5.3 Elimination of Fractional Interests. The Company shall not be required to issue certificates representing fractions of Shares upon the exercise of the Purchase Warrant, nor shall it be required to issue scrip or pay cash in lieu of any fractional interests, it being the intent of the parties that all fractional interests shall be eliminated by rounding any fraction up or down, as the case may be, to the nearest whole number of Shares or other securities, properties or rights.

6. Reservation. The Company shall at all times reserve and keep available out of its authorized Shares, solely for the purpose of issuance upon exercise of the Purchase Warrants, such number of Shares or other securities, properties or rights as shall be issuable upon the exercise thereof. The Company covenants and agrees that, upon exercise of the Purchase Warrants and payment of the Exercise Price therefor, in accordance with the terms hereby, all Shares and other securities issuable upon such exercise shall be duly and validly issued, fully paid and non- assessable and not subject to preemptive rights of any shareholder.

7. Certain Notice Requirements.

7.1 Holder's Right to Receive Notice. Nothing herein shall be construed as conferring upon the Holders the right to vote or consent or to receive notice as a shareholder for the election of directors or any other matter, or as having any rights whatsoever as a shareholder of the Company. If, however, at any time prior to the expiration of the Purchase Warrants and their exercise, any of the events described in Section 7.2 shall occur, then, in one or more of said events, the Company shall deliver to each Holder a copy of each notice relating to such events given to the other shareholders of the Company at the same time and in the same manner that such notice is given to the shareholders.

7.2 Events Requiring Notice. The Company shall be required to give the notice described in this Section 7 upon one or more of the following events: (i) if the Company shall take a record of the holders of its Shares for the purpose of entitling them to receive a dividend or distribution payable otherwise than in cash, or a cash dividend or distribution payable otherwise than out of retained earnings, as indicated by the accounting treatment of such dividend or distribution on the books of the Company, or (ii) the Company shall offer to all the holders of its Shares any additional shares of capital stock of the Company or securities convertible into or exchangeable for shares of capital stock of the Company, or any option, right or warrant to subscribe therefor.

7.3 Notice of Change in Exercise Price. The Company shall, promptly after an event requiring a change in the Exercise Price pursuant to Section 5 hereof, send notice to the Holders of such event and change ("**Price Notice**"). The Price Notice shall describe the event causing the change and the method of calculating same.

7.4 Transmittal of Notices. All notices, requests, consents and other communications under this Purchase Warrant shall be in writing and shall be deemed to have been duly made when hand delivered, or mailed by express mail or private courier service: (i) if to the registered Holder of the Purchase Warrant, to the address of such Holder as shown on the books of the Company, or (ii) if to the Company, to following address or to such other address as the Company may designate by notice to the Holders:

8.5 Governing Law; Submission to Jurisdiction; Trial by Jury. This Purchase Warrant shall be governed by and construed and enforced in accordance with the laws of the State of New York, without giving effect to conflict of laws principles thereof. The Company hereby agrees that any action, proceeding or claim against it arising out of, or relating in any way to this Purchase Warrant shall be brought and enforced in the courts located in New York, New York, or in the United States District Court located in New York, New York, and irrevocably submits to such jurisdiction, which jurisdiction shall be exclusive. The Company hereby waives any objection to such exclusive jurisdiction and that such courts represent an inconvenient forum. Any process or summons to be served upon the Company may be served by transmitting a copy thereof by registered or certified mail, return receipt requested, postage prepaid, addressed to it at the address set forth in Section 7 hereof. Such mailing shall be deemed personal service and shall be legal and binding upon the Company in any action, proceeding or claim. The Company and the Holder agree that the prevailing party(ies) in any such action shall be entitled to recover from the other party(ies) all of its reasonable attorneys' fees and expenses relating to such action or proceeding and/or incurred in connection with the preparation therefor. The Company (on its behalf and, to the extent permitted by applicable law, on behalf of its shareholders and affiliates) and the Holder hereby irrevocably waive, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement or the transactions contemplated hereby.

8.6 Waiver, etc. The failure of the Company or the Holder to at any time enforce any of the provisions of this Purchase Warrant shall not be deemed or construed to be a waiver of any such provision, nor to in any way affect the validity of this Purchase Warrant or any provision hereof or the right of the Company or any Holder to thereafter enforce each and every provision of this Purchase Warrant. No waiver of any breach, non-compliance or non-fulfillment of any of the provisions of this Purchase Warrant shall be effective unless set forth in a written instrument executed by the party or parties against whom or which enforcement of such waiver is sought; and no waiver of any such breach, non-compliance or non-fulfillment shall be construed or deemed to be a waiver of any other or subsequent breach, non-compliance or non-fulfillment.

8.7 Exchange Agreement. As a condition of the Holder's receipt and acceptance of this Purchase Warrant, Holder agrees that, at any time prior to the complete exercise of this Purchase Warrant by Holder, if the Company and the Representative enter into an agreement ("**Exchange Agreement**") pursuant to which they agree that all outstanding Purchase Warrants will be exchanged for securities or cash or a combination of both, then Holder shall agree to such exchange and become a party to the Exchange Agreement.

Dear Sirs

**DDC Enterprise Limited**

We have acted as counsel as to Cayman Islands law to DDC Enterprise Limited (the “**Company**”) in connection with the Company’s registration statement on Form F-1, including all amendments or supplements thereto, filed with the United States Securities and Exchange Commission (the “**Commission**”) under the United States Securities Act of 1933 (the “**Act**”), as amended (the “**Registration Statement**”), related to the offering by the Company (the “**Offering**”) of certain Class A Ordinary Shares, par value of US\$0.016 per share (the “**Shares**”). This opinion is given in accordance with the terms of the Legal Matters section of the Registration Statement.

**1. DOCUMENTS REVIEWED**

We have reviewed originals, copies, drafts or conformed copies of the documents listed in Schedule 1 to this opinion, being all of the documents necessary to form our opinion. Defined terms shall have the meanings set out in Schedule 1 or in the Registration Statement.

**2. ASSUMPTIONS**

The following opinion is given only as to, and based on, circumstances and matters of fact existing and known to us on the date of this opinion. This opinion only relates to the laws and practice of the Cayman Islands which are in force on the date of this opinion. In giving this opinion we have relied (without further verification) upon the completeness and accuracy of the Director’s Certificate, a copy of which is attached to this opinion as to matters of fact, and have assumed that copy documents or drafts of documents provided to us are true and complete copies of, or in the final forms of, the originals. In giving this opinion, we have additionally assumed (without further verification), that the Shareholder Resolutions (as defined below) have or will be passed at one or more duly convened, constituted and quorate meetings in compliance with the M&A (as defined below) or by unanimous written resolutions, and thereafter will remain in full force and effect and will not be rescinded or amended.

### 3. OPINIONS

Based upon, and subject to, the foregoing assumptions and qualifications, and having regard to such legal considerations as we deem relevant, we are of the opinion that:

- 3.1 the Company has been duly incorporated as an exempted company with limited liability and is validly existing and in good standing under the laws of the Cayman Islands;
- 3.2 Upon valid approval of the Shareholder Resolutions:
- (a) the authorised share capital of the Company, with effect immediately prior to and conditional upon the completion of the Offering of the Shares, will be US\$1,614,000 divided into 100,000,000 Class A Ordinary Shares of par value US\$0.016 each and 875,000 Class B Ordinary Shares of US\$0.016 par value each;
  - (b) the issue and allotment of the Shares shall have been duly authorised and when allotted, issued and paid for as contemplated in the Registration Statement, the Shares will be legally issued and allotted, fully paid and non-assessable. In this opinion the phrase “non-assessable” means, with respect to Shares in the Company, that a shareholder shall not, solely by virtue of its status as a shareholder, be liable for additional assessments or calls on the Shares by the Company or its creditors (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstances in which a court may be prepared to pierce or lift the corporate veil). As a matter of Cayman Islands law, a share is only issued when it has been entered in the register of members (shareholders); and
- 3.3 the statements under the caption “Taxation” in the prospectus forming part of the Registration Statement, to the extent that they constitute statements of Cayman Islands law, are accurate in all material respects and such statements constitute our opinion.

We hereby consent to the prospectus discussion of this opinion, to the filing of this opinion as an exhibit to the Registration Statement and to the reference to our firm under the headings “Enforcement of Civil Liabilities”, “Taxation” and “Legal Matters” and elsewhere in the prospectus included in the Registration Statement. In providing our consent, we do not thereby admit that we are in the category of persons whose consent is required under Section 7 of the Act or the Rules and Regulations of the Commission thereunder.

This opinion is limited to the matters detailed herein and is not to be read as an opinion with respect to any other matter.

Yours faithfully

 Sheung Wan, Hong Kong  
 Dear Sirs,

We are qualified lawyers of the People's Republic of China (the "PRC") and as such are qualified to issue this opinion on the laws and regulations of the PRC effective as at the date hereof. We have acted as PRC counsel to DDC Enterprise Limited., a corporation organized under the laws of the Cayman Islands (the "Company") in connection with the proposed initial public offering (the "Offering") of the Class A Ordinary Shares (the "Offered Shares") issued by the Company, and listing of such Offered Shares on the New York Stock Exchange (the "Listing"). Details of the Offering are described in the Registration Statement on Form F-1 of the Company initially filed with the U.S. Securities and Exchange Commission on June 16, 2023, including all amendments and supplements thereto (the "Registration Statement") under the U.S. Securities Act of 1933, as amended.

Unless otherwise defined herein, capitalized terms in this opinion shall have the same meaning ascribed to them in the Registration Statement.

In rendering this opinion, we have examined originals and/or copies, certified or otherwise identified to our satisfaction, of all such documents, corporate records, certificates, governmental approvals and other instruments as we have considered necessary or appropriate for the purpose of rendering this opinion.

For the purpose of providing this opinion, we have assumed:

- (i) the genuineness of all signatures (including seals, chops and marks), the authenticity of each document submitted to us as an original and each signature on behalf of a party thereto, the conformity with the originals of all documents provided to us as copies thereof, the documents as they were presented to us up to the date of this opinion, the correctness and completeness of all facts stated or given in such documents, and none of the documents has been revoked, amended, varied or supplemented; and
- (ii) Where certain facts were not, or may not be possible to be independently established by us, we have relied upon certificates or statements or representations issued or made by relevant governmental authorities of the PRC and/or the appropriate representatives of the PRC Subsidiaries with the proper powers and functions.

The following terms as used in this Opinion are defined as follows:

“Government Agency”	means any competent government authorities, courts, arbitral, or regulatory bodies of the PRC.
“PRC Laws”	means any and all laws, regulations, statutes, rules, decrees, notices, and supreme court’s judicial interpretations currently in force and publicly available in the PRC as of the date hereof.
“PRC Subsidiaries”	means the companies listed in Schedule 1 hereto, each of which is a company incorporated under the PRC Laws.
“Prospectus”	means the prospectus, including all amendments or supplements thereto, that forms part of the Registration Statement.

Based on the foregoing, we are of the opinion that:

(1) *Corporate Structure*. The description of the corporate structure of the PRC Subsidiaries set forth in “Our Corporate History and Structure” section of the Prospectus is correct and accurate in all material respects and is consistent with the status of such PRC Subsidiaries. The corporate structure of the Company (including the shareholding structure of each of the PRC Subsidiaries) as described in the Prospectus does not violate any applicable PRC Laws. However, there are uncertainties regarding the interpretation and application of the PRC Laws, and there can be no assurance that the Government Agencies will ultimately take a view that is not contrary to our opinion stated above.

(2) *CSRC Measures*.

On February 17, 2023, China Securities Regulatory Commission, or the CSRC, promulgated the Trial Administrative Measures of Overseas Securities Offering and Listing by Domestic Enterprises (the “CSRC Measures”), which became effective on March 31, 2023. On the same date, the CSRC circulated Supporting Guidance Rules No. 1 through No. 5, Notes on the CSRC Measures, Notice on Administration Arrangements for the Filing of Overseas Listings by Domestic Enterprises and relevant CSRC Answers to Reporter Questions (collectively, the “Guidance Rules and Notice”) on the CSRC’s official website. Under the CSRC Measures, either direct or indirect overseas offering and listing by domestic companies shall fulfill the filing procedure with the CSRC with submitting relevant materials. Any overseas offering and listing made by an issuer that meets both the following conditions will be determined as indirect: (1) 50% or more of the issuer’s operating revenue, total profit, total assets or net assets as documented in its audited consolidated financial statements for the most recent accounting year is accounted for by domestic companies; and (2) the main parts of the issuer’s business activities are conducted in the China Mainland, or its main places of business are located in the China Mainland, or the senior managers in charge of its business operation and management are mostly Chinese citizens or domiciled in the Chinese Mainland. The determination as to whether or not an overseas offering and listing by domestic companies is indirect, shall be made on a substance over form basis. When certain circumstances happen, overseas offering and listing shall not be made. And if the intended overseas offering and listing necessitates a national security review, relevant security review procedures shall be completed according to law before the application for such offering and listing is submitted to any overseas parties such as securities regulatory agencies and trading venues. Pursuant to the CSRC Measures and the Guidance Rules and Notice, initial public offerings or listings in overseas markets shall be filed with the CSRC within 3 working days after the relevant application is submitted overseas, while PRC domestic enterprises that have submitted valid applications for overseas offerings and listing but have not obtained the approval from the relevant overseas regulatory authority or overseas stock exchanges shall complete filings with the CSRC prior to their overseas offerings and listings. As disclosed in the Prospectus, the Company has submitted the filing materials with the CSRC to fulfill the filing procedure with the CSRC as per requirement of the CSRC Measures, and completed such proceeding in November 2023. The Company shall continue to comply with the CSRC Measures. Any failure of the Company to complete further filings or any other relevant regulatory procedures in a timely manner may significantly limit or completely hinder its ability to offer or continue to offer its Class A Ordinary Shares, cause significant disruption to its business operations, and severely damage our reputation, which would materially and adversely affect its financial condition and results of operations and cause its Class A Ordinary Shares to significantly decline in value or become worthless.

*(3) Statements in the Prospectus.*

The statements set forth in the Prospectus under the captions “Prospectus Summary,” “Risk Factors,” “Dividend Policy,” “Corporate History and Structure,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” “Enforceability of Civil Liabilities,” “Business,” “Regulations,” “Related Party Transactions,” and “Taxation,” insofar as such statements constitute summaries of legal or regulatory matters under, or documents, agreements or proceedings governed by, the PRC Laws, are correct and accurate in all material respects; and did not omit to state any material fact necessary to make the statements, in light of the circumstances under which they were made, not misleading in any material aspect.

*(4) Enforceability of Civil Liabilities.*

We have advised the Company that there is uncertainty as to whether the courts of the PRC would (i) recognize or enforce judgments of United States courts obtained against the Company or directors or officers of the Company predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States; or (ii) entertain original actions brought in each respective jurisdiction against the Company or directors or officers of the Company predicated upon the securities laws of the United States or any state in the United States.

We have advised the Company further that the recognition and enforcement of foreign judgments are provided for under the PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of the PRC Civil Procedures Law based either on treaties between the PRC and the country or region where the judgment is made or on principle of reciprocity between jurisdictions. China does not have any treaties or other agreements that provide for the reciprocal recognition and enforcement of foreign judgments with the United States or the Cayman Islands. In addition, according to the PRC Civil Procedures Law, courts in the PRC will not enforce a foreign judgment against us or our directors and officers if they decide that the judgment violates the basic principles of PRC law or national sovereignty, security or public interest. Accordingly, it is uncertain whether a PRC court would enforce a judgment rendered by a court in the United States or the Cayman Islands. In addition, it will be difficult for U.S. shareholders to originate actions against us in China, because we are incorporated under the laws of the Cayman Islands and it is difficult for U.S. shareholders, by virtue of holding our Offered Shares, to establish a factual connection to the PRC and it is uncertain whether a PRC court would be competent to have the subject matter jurisdiction.

This opinion is intended to be used in the context which is specifically referred to herein and each paragraph should be looked at as a whole and no part should be extracted and referred to independently.

This opinion is rendered on the basis of the PRC laws (other than the laws of Hong Kong, Macao and Taiwan) effective as of the date hereof and there is no assurance that any of such laws will not be changed, amended or replaced in the immediate future or in the longer term with or without retrospective effect. Any such changes, amendments or replacements may become effective immediately on promulgation.

We hereby consent to the use and discussion of this opinion in the prospectus included in the Registration Statement, and the filing hereof as an exhibit to, the above-mentioned Registration Statement, and to the use of our name in the prospectus included in the Registration Statement. In giving such consent, we do not thereby admit that we fall within the category of the person whose consent is required under Section 7 of the Securities Act, or the regulations promulgated thereunder.

Yours faithfully,

Grandall Law Firm (Shanghai)

(a) Agreement Not to Compete. Employee hereby covenants, and agrees that, during the Employment Term and for a period of six (6) months thereafter (the “Non-Compete Period”), he shall not within the United States directly or indirectly in any manner or capacity (whether alone or as a partner, joint venturer, stockholder or investor, creditor, principal, agent, advisor, employee, officer, director, licensor, licensee, salesman, broker or representative, for any “Person” (defined as any individual, corporation (including any non-profit corporation), general, limited or limited liability partnership, limited liability company, joint venture, estate, trust, association, organization, or other entity or governmental body), or through any agency or by any other means whatsoever) engage in the Business of the Company or any Subsidiary, except for on behalf of the Company or its affiliates. (d) No Solicitation. Employee agrees that during the Non-Compete Period, he will not, directly or indirectly, on behalf of himself or any other Person, solicit the hiring of or hire, on any basis, any Person employed by the Company or its Affiliates at the time of such solicitation.

9. Reasonable Restriction; Limits on Enforcement.

(a) The parties hereto agree that the restrictions on the activities and business of Employee provided for in this Agreement, and the duration and territorial scope thereof, are, under all circumstances, reasonable and necessary to safeguard the interests of the Company and its Affiliates and to protect the goodwill acquired pursuant thereto.

(b) If any court of competent jurisdiction shall refuse to enforce any or all of the provisions hereof because the time limit applicable thereto is deemed unreasonable, it is expressly understood and agreed that such provisions shall not be void, but that for the purpose of such proceedings and in such jurisdiction such time limitation shall be deemed to be reduced to the extent necessary to permit enforcement of such provisions.

(c) If any court of competent jurisdiction shall refuse to enforce any or all of the provisions hereof because they are more extensive (whether as to geographical area, scope of business or otherwise) than is deemed reasonable, it is expressly understood and agreed that such provisions shall not be void, but that for the purpose of such proceedings and in such jurisdiction, the restrictions contained herein (whether as to geographic area, scope of business or otherwise) shall be deemed to be reduced to the extent necessary to permit enforcement of such provisions.

12. Third Party Beneficiaries. Employee acknowledges and agrees that the covenants contained in Sections 8 through 11 hereof are expressly intended to benefit the Company and all of its Affiliates, and that for purposes of such sections the term “Company” shall include all of Company’s Affiliates.

13. Indemnity. The Company and the Employee agree that indemnification with respect to the Employee’s service shall be governed by that certain Indemnification Agreement attached as Exhibit A hereto.

14. Survival. The covenants and agreements of the Employee set forth in Sections 8 through 12 shall remain in effect and survive the termination of this Agreement for the respective periods set forth therein.

15. Waiver. No waiver of any term, condition or covenant of this Agreement shall be deemed to be a waiver of subsequent breaches of the same or other terms, covenants or conditions hereof.

16. Amendment. This Agreement may not be amended, altered or modified except by a written agreement between the parties hereto.

17. Assignability. Employee may not assign this Agreement to any third party for whatever purpose without the express written consent of the Company, other than as specifically authorized herein. The Company may not assign this Agreement to any third party without the express written consent of Employee except by operation of law, or through merger, liquidation, recapitalization or sale of all or substantially all of the assets of the Company, provided that the Company may assign this Agreement at any time to an Affiliate of the Company.

18. Invalidity. 22. Governing Law. This Agreement shall be governed by and construed under the internal laws of the State of Delaware, without regard to the principles of comity and/or the applicable conflicts of laws of any state that would result in the application of any laws other than the State of Delaware.

23. Jurisdiction & Arbitration. The validity, performance and interpretation of the Agreement shall be governed by the laws of the State Delaware, without regard to its conflicts of law rules. Any dispute or claim arising under or with respect to this Agreement, which is incapable of resolution, will be resolved by arbitration before one (1) arbitrator in Wilmington, Delaware, in accordance with the Rules for Commercial Arbitration of the American Arbitration Association ("AAA"). The appointing agency shall be the AAA and the arbitrator shall apply Delaware State law to both interpret this Agreement and fashion an award.

24. Tax Matters.

(a) The parties intend that this Agreement be administered in accordance with Section 409A of the Code. To the extent that any provision of this Agreement is ambiguous as to its compliance with, or exemption from, Section 409A of the Code, the provision will be read in such a manner so that all payments hereunder either comply with, or are exempt from, Section 409A of the Code. The Parties agree that this Agreement may be amended as reasonably requested by either Party, and as may be necessary to fully comply with Section 409A of the Code and all related rules and regulations in order to preserve the payments and benefits provided hereunder without additional cost to either party. The Company makes no representation or warranty and will have no liability to Employee or any other person if any provisions of this Agreement are determined to constitute deferred compensation subject to Section 409A of the Code but do not satisfy an exemption from, or the conditions of, such Section.

(b) Anything in this Agreement to the contrary notwithstanding, if at the time of Employee's "separation from service" within the meaning of Section 409A of the Code, the Company determines that Employee is a "specified employee" within the meaning of Section 409A(a)(2)(B)(i) of the Code, then to the extent any payment or benefit that Employee becomes entitled to under this Agreement on account of his separation from service would be considered deferred compensation subject to the 20 percent additional tax imposed pursuant to Section 409A(a) of the Code as a result of the application of Section 409A(a)(2)(B)(i) of the Code, such payment shall not be payable and such benefit shall not be provided until the date that is the earlier of (A) six months and one day after Employee's separation from service or (B) Employee's death. If any such delayed cash payment is otherwise payable on an installment basis, the first payment shall include a catch-up payment covering amounts that would otherwise have been paid during the six-month period but for the application of this provision, and the balance of the installments will be payable in accordance with their original schedule.

(c) To the extent that any payment or benefit described in this Agreement constitutes “non-qualified deferred compensation” under Section 409A of the Code, and to the extent that such payment or benefit is payable upon Employee’s termination of employment, then such payments or benefits shall be payable only upon Employee’s “separation from service.” The determination of whether and when a separation from service has occurred shall be made in accordance with the presumptions set forth in Treasury Regulation Section 1.409A 1(h).

(d) All in-kind benefits provided and expenses eligible for reimbursement under this Agreement shall be provided by the Company or incurred by Employee during the time periods set forth in this Agreement. All reimbursements shall be paid as soon as administratively practicable, but in no event shall any reimbursement be paid after the last day of the taxable year following the taxable year in which the expense was incurred. The amount of in-kind benefits provided or reimbursable expenses incurred in one taxable year shall not affect the in-kind benefits to be provided or the expenses eligible for reimbursement in any other taxable year. Such right to reimbursement or in-kind benefits is not subject to liquidation or exchange for another benefit.

25. Counterparts and Electronic Signatures. This Agreement may be executed in two or more counterparts and by facsimile or any electronic means, each of which shall be deemed an original but all of which together shall constitute one and the same Agreement.

The Company’s obligation to pay Expense Advances to Indemnitee is contingent upon Indemnitee’s execution and delivery to the Company of an undertaking to repay any amounts paid, advanced, or reimbursed by the Company for such Expenses to the extent that it is ultimately determined, following the final disposition of such Claim, that Indemnitee is not entitled to indemnification hereunder. Indemnitee’s obligation to reimburse the Company for Expense Advances shall be unsecured and no interest shall be charged thereon.

**4. Indemnification for Expenses in Enforcing Rights.** To the fullest extent allowable under applicable law, the Company shall also indemnify Indemnitee against, and, if requested by Indemnitee, shall advance to Indemnitee subject to and in accordance with Section 3, any Expenses actually and reasonably paid or incurred by Indemnitee in connection with any action or proceeding by Indemnitee for (a) indemnification or reimbursement or advance payment of Expenses by the Company under any provision of this Agreement, or under any other agreement or provision of the Constituent Documents now or hereafter in effect relating to Claims relating to Indemnifiable Events, and/or (b) recovery under any directors’ and officers’ liability insurance policies maintained by the Company. However, in the event that Indemnitee is ultimately determined not to be entitled to such indemnification or insurance recovery, as the case may be, then all amounts advanced under this Section 4 shall be repaid.

**5. Partial Indemnity.** If Indemnitee is entitled under any provision of this Agreement to indemnification by the Company for a portion of any Losses in respect of a Claim related to an Indemnifiable Event but not for the total amount thereof, the Company shall nevertheless indemnify Indemnitee for the portion thereof to which Indemnitee is entitled.

## 6. Notification and Defense of Claims.

(a) Notification of Claims. Indemnitee shall notify the Company in writing as soon as practicable of any Claim which could relate to an Indemnifiable Event or for which Indemnitee could seek Expense Advances, including a brief description (based upon information then available to Indemnitee) of the nature of, and the facts underlying, such Claim. The failure by Indemnitee to timely notify the Company hereunder shall not relieve the Company from any liability hereunder unless the Company's ability to participate in the defense of such claim was materially and adversely affected by such failure. If at the time of the receipt of such notice, the Company has directors' and officers' liability insurance in effect under which coverage for Claims related to Indemnifiable Events is potentially available, the Company shall give prompt written notice to the applicable insurers in accordance with the procedures set forth in the applicable policies. The Company shall provide to Indemnitee a copy of such notice delivered to the applicable insurers, and copies of all subsequent correspondence between the Company and such insurers regarding the Claim, in each case substantially concurrently with the delivery or receipt thereof by the Company.

(b) Defense of Claims. The Company shall be entitled to participate in the defense of any Claim relating to an Indemnifiable Event at its own expense and, except as otherwise provided below, to the extent the Company so wishes, it may assume the defense thereof with counsel reasonably satisfactory to Indemnitee. After notice from the Company to Indemnitee of its election to assume the defense of any such Claim, the Company shall not be liable to Indemnitee under this Agreement or otherwise for any Expenses subsequently directly incurred by Indemnitee in connection with Indemnitee's defense of such Claim other than reasonable costs of investigation or as otherwise provided below. Indemnitee shall have the right to employ its own legal counsel in such Claim, but all Expenses related to such counsel incurred after notice from the Company of its assumption of the defense shall be at Indemnitee's own expense; provided, however, that if (i) Indemnitee's employment of its own legal counsel has been authorized by the Company, (ii) Indemnitee has reasonably determined that there may be a conflict of interest between Indemnitee and the Company in the defense of such Claim, (iii) after a Change in Control, Indemnitee's employment of its own counsel has been approved by the Independent Counsel or (iv) the Company shall not in fact have employed counsel to assume the defense of such Claim, then Indemnitee shall be entitled to retain its own separate counsel (but not more than one law firm) and all Expenses related to such separate counsel shall be borne by the Company.

**7. Procedure upon Application for Indemnification.** In order to obtain indemnification pursuant to this Agreement, Indemnitee shall submit to the Company a written request therefor, including in such request such documentation and information as is reasonably available to Indemnitee and is reasonably necessary to determine whether and to what extent Indemnitee is entitled to indemnification following the final disposition of the Claim. Indemnification shall be made insofar as the Company determines Indemnitee is entitled to indemnification in accordance with Section 8 below.

## 8. Determination of Right to Indemnification.

### (a) Mandatory Indemnification.

(i) To the extent that Indemnitee shall have been successful on the merits or otherwise in defense of any Claim relating to an Indemnifiable Event or any portion thereof or in defense of any issue or matter therein, including without limitation dismissal without prejudice, Indemnitee shall be indemnified against all Losses relating to such Claim in accordance with Section 2 to the fullest extent allowable by law, and no Standard of Conduct Determination (as defined in Section 8(b)) shall be required.

(ii) To the extent that Indemnitee's involvement in a Claim relating to an Indemnifiable Event is to prepare to serve and serve as a witness, and not as a party, the Indemnitee shall be indemnified against all Losses incurred in connection therewith to the fullest extent allowable by law and no Standard of Conduct Determination (as defined in Section 8(b)) shall be required.

(b) Standard of Conduct. To the extent that the provisions of Section 8(a) are inapplicable to a Claim related to an Indemnifiable Event that shall have been finally disposed of, any determination of whether Indemnitee has satisfied any applicable standard of conduct under New York law that is a legally required condition to indemnification of Indemnitee hereunder against Losses relating to such Claim and any determination that Expense Advances must be repaid to the Company (a “Standard of Conduct Determination”) shall be made as follows:

(i) if no Change in Control has occurred, (A) by a majority vote of the Disinterested Directors, even if less than a quorum of the Board, (B) by a committee of Disinterested Directors designated by a majority vote of the Disinterested Directors, even though less than a quorum or (C) if there are no such Disinterested Directors, by Independent Counsel in a written opinion addressed to the Board, a copy of which shall be delivered to Indemnitee; and

(ii) if a Change in Control shall have occurred, (A) if the Indemnitee so requests in writing, by a majority vote of the Disinterested Directors, even if less than a quorum of the Board or (B) otherwise, by Independent Counsel in a written opinion addressed to the Board, a copy of which shall be delivered to Indemnitee.

(c) Making the Standard of Conduct Determination. The Company shall use its reasonable best efforts to cause any Standard of Conduct Determination required under Section 8(b) to be made as promptly as practicable. If the person or persons designated to make the Standard of Conduct Determination under Section 8(b) shall not have made a determination within thirty days after the later of (A) receipt by the Company of a written request from Indemnitee for indemnification pursuant to Section 7 (the date of such receipt being the “Notification Date”) and (B) the selection of an Independent Counsel, if such determination is to be made by Independent Counsel, then Indemnitee shall be deemed to have satisfied the applicable standard of conduct; provided that such 30-day period may be extended for a reasonable time, if the person or persons making such determination in good faith requires such additional time to obtain or evaluate information relating thereto. Notwithstanding anything in this Agreement to the contrary, no determination as to entitlement of Indemnitee to indemnification under this Agreement shall be required to be made prior to the final disposition of any Claim.

(d) Payment of Indemnification. If, in regard to any Losses:

(i) Indemnitee shall be entitled to indemnification pursuant to Section 8(a);

(ii) no Standard Conduct Determination is legally required as a condition to indemnification of Indemnitee hereunder; or

(iii) Indemnitee has been determined or deemed pursuant to Section 8(b) or Section 8(c) to have satisfied the Standard of Conduct Determination,

then the Company shall pay to Indemnitee, within thirty days after the later of (A) the Notification Date or (B) the earliest date on which the applicable criterion specified in clause (i), (ii) or (iii) is satisfied, an amount equal to such Losses.

(e) Selection of Independent Counsel for Standard of Conduct Determination. If a Standard of Conduct Determination is to be made by Independent Counsel pursuant to Section 8(b)(i), the Independent Counsel shall be selected by the Board, and the Company shall give written notice to Indemnitee advising of the identity of the Independent Counsel so selected. If a Standard of Conduct Determination is to be made by Independent Counsel pursuant to Section 8(b)(ii), the Independent Counsel shall be selected by Indemnitee, and Indemnitee shall give written notice to the Company advising it of the identity of the Independent Counsel so selected. In either case, Indemnitee or the Company, as applicable, may, within five days after receiving written notice of selection from the other, deliver to the other a written objection to such selection; provided, however, that such objection may be asserted only on the ground that the Independent Counsel so selected does not satisfy the criteria set forth in the definition of “Independent Counsel” in Section 1, and the objection shall set forth with particularity the factual basis of such assertion. Absent a proper and timely objection, the person or firm so selected shall act as Independent Counsel. If such written objection is properly and timely made and substantiated, (i) the Independent Counsel so selected may not serve as Independent Counsel unless and until such objection is withdrawn or a court has determined that such objection is without merit; and (ii) the non-objecting party may, at its option, select an alternative Independent Counsel and give written notice to the other party advising such other party of the identity of the alternative Independent Counsel so selected, in which case the provisions of the two immediately preceding sentences, the introductory clause of this sentence and numbered clause (i) of this sentence shall apply to such subsequent selection and notice. If applicable, the provisions of clause (ii) of the immediately preceding sentence shall apply to successive alternative selections. If no Independent Counsel that is permitted under the foregoing provisions of this Section 8(e) to make the Standard of Conduct Determination shall have been selected within twenty days after the Company gives its initial notice pursuant to the first sentence of this Section 8(e) or Indemnitee gives its initial notice pursuant to the second sentence of this Section 8(e), as the case may be, either the Company or Indemnitee may petition a court of competent jurisdiction to resolve any objection which shall have been made by the Company or Indemnitee to the other's selection of Independent Counsel and/or to appoint as Independent Counsel a person to be selected by such court or such other person as the court shall designate, and the person or firm with respect to whom all objections are so resolved or the person or firm so appointed will act as Independent Counsel. In all events, the Company shall pay all of the reasonable fees and expenses of the Independent Counsel incurred in connection with the Independent Counsel's determination pursuant to Section 8(b).

(f) Presumptions and Defenses.

(i) Indemnitee's Entitlement to Indemnification. In making any Standard of Conduct Determination, the person or persons making such determination shall presume that Indemnitee has satisfied the applicable standard of conduct and is entitled to indemnification, and the Company shall have the burden of proof to overcome that presumption and establish that Indemnitee is not so entitled. Any Standard of Conduct Determination that is adverse to Indemnitee may be challenged by the Indemnitee in a court of competent jurisdiction. No determination by the Company (including by its directors or any Independent Counsel) that Indemnitee has not satisfied any applicable standard of conduct may be used as a defense to any legal proceedings brought by Indemnitee to secure indemnification or reimbursement or advance payment of Expenses by the Company hereunder or create a presumption that Indemnitee has not met any applicable standard of conduct.

(ii) Reliance as a Safe Harbor. For purposes of this Agreement, and without creating any presumption as to a lack of good faith if the following circumstances do not exist, Indemnitee shall be deemed to have acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the Company if Indemnitee's actions or omissions to act are taken in good faith reliance upon the records of the Company, including its financial statements, or upon information, opinions, reports or statements furnished to Indemnitee by the officers or employees of the Company or any of its subsidiaries in the course of their duties, or by committees of the Board or by any other Person (including legal counsel, accountants and financial advisors) as to matters Indemnitee reasonably believes are within such other Person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Company. In addition, the knowledge and/or actions, or failures to act, of any director, officer, agent or employee of the Company shall not be imputed to Indemnitee for purposes of determining the right to indemnity hereunder.

(iii) No Other Presumptions. For purposes of this Agreement, the termination of any Claim by judgment, order, settlement (whether with or without court approval) or conviction, or upon a plea of nolo contendere or its equivalent, will not create a presumption that Indemnitee did not meet any applicable standard of conduct or have any particular belief, or that indemnification hereunder is otherwise not permitted.

(iv) Defense to Indemnification and Burden of Proof. It shall be a defense to any action brought by Indemnitee against the Company to enforce this Agreement (other than an action brought to enforce a claim for Losses incurred in defending against a Claim related to an Indemnifiable Event in advance of its final disposition) that it is not permissible under applicable law for the Company to indemnify Indemnitee for the amount claimed. In connection with any such action or any related Standard of Conduct Determination, the burden of proving such a defense or that the Indemnitee did not satisfy the applicable standard of conduct shall be on the Company.

(v) Resolution of Claims. The Company acknowledges that a settlement or other disposition short of final judgment may be successful on the merits or otherwise for purposes of Section 8(a)(i) if it permits a party to avoid expense, delay, distraction, disruption and uncertainty. In the event that any Claim relating to an Indemnifiable Event to which Indemnitee is a party is resolved in any manner other than by adverse judgment against Indemnitee (including, without limitation, settlement of such action, claim or proceeding with or without payment of money or other consideration) it shall be presumed that Indemnitee has been successful on the merits or otherwise for purposes of Section 8(a)(i). The Company shall have the burden of proof to overcome this presumption.

**9. Exclusions from Indemnification.** Notwithstanding anything in this Agreement to the contrary, the Company shall not be obligated to:

(a) indemnify or advance funds to Indemnitee for Expenses or Losses with respect to proceedings initiated by Indemnitee, including any proceedings against the Company or its directors, officers, employees or other indemnitees and not by way of defense, except:

(i) proceedings referenced in Section 4 above (unless a court of competent jurisdiction determines that each of the material assertions made by Indemnitee in such proceeding was not made in good faith or was frivolous); or

(ii) where the Company has joined in or the Board has consented to the initiation of such proceedings;

(b) indemnify Indemnitee if a final decision by a court of competent jurisdiction determines that such indemnification is prohibited by applicable law;

(c) indemnify Indemnitee for the disgorgement of profits arising from the purchase or sale by Indemnitee of securities of the Company in violation of Section 16(b) of the Exchange Act, or any similar successor statute; or

(d) indemnify or advance funds to Indemnitee for Indemnitee's reimbursement to the Company of any bonus or other incentive-based or equity-based compensation previously received by Indemnitee or payment of any profits realized by Indemnitee from the sale of securities of the Company, as required in each case under the Exchange Act (including any such reimbursements under Section 304 of the Sarbanes-Oxley Act of 2002 in connection with an accounting restatement of the Company or the payment to the Company of profits arising from the purchase or sale by Indemnitee of securities in violation of Section 306 of the Sarbanes-Oxley Act).

**10. Settlement of Claims.** The Company shall not be liable to Indemnitee under this Agreement for any amounts paid in settlement of any threatened or pending Claim related to an Indemnifiable Event effected without the Company's prior written consent, which shall not be unreasonably withheld. The Company shall not settle any Claim related to an Indemnifiable Event in any manner that would impose any Losses on the Indemnitee without the Indemnitee's prior written consent.

**11. Duration.** All agreements and obligations of the Company contained herein shall continue during the period that Indemnitee is a director or officer of the Company (or is serving at the request of the Company as a director, officer, employee, member, trustee or agent of another Enterprise) and shall continue thereafter (i) so long as Indemnitee may be subject to any possible Claim relating to an Indemnifiable Event (including any rights of appeal thereto) and (ii) throughout the pendency of any proceeding (including any rights of appeal thereto) commenced by Indemnitee to enforce or interpret his or her rights under this Agreement, even if, in either case, he or she may have ceased to serve in such capacity at the time of any such Claim or proceeding.

**12. Non-Exclusivity.** The rights of Indemnitee hereunder will be in addition to any other rights Indemnitee may have under the Constituent Documents, the New York Business Corporation Law, any other contract or otherwise (collectively, "Other Indemnity Provisions"); provided, however, that (a) to the extent that Indemnitee otherwise would have any greater right to indemnification under any Other Indemnity Provision, Indemnitee will be deemed to have such greater right hereunder and (b) to the extent that any change is made to any Other Indemnity Provision which permits any greater right to indemnification than that provided under this Agreement as of the Effective Date, Indemnitee will be deemed to have such greater right hereunder.

**13. Liability Insurance.** The Company shall from time to time make the good faith determination whether or not it is practicable for the Company to obtain and maintain a policy or policies of insurance providing the officers and directors of the Company with coverage for losses incurred in connection with their services to the Company or to ensure the Company's performance of its indemnification obligations under this Agreement. To the extent the Company maintains an insurance policy or policies providing directors' and officers' liability insurance, Indemnitee shall be covered by such policy or policies, in accordance with its or their terms, to the maximum extent of the coverage available for any of the Company's directors or officers, as applicable. Upon reasonable request, the Company will provide to Indemnitee copies of all directors' and officers' liability insurance applications, binders, policies, declarations and endorsements.

**14. No Duplication of Payments.** The Company shall not be liable under this Agreement to make any payment to Indemnitee in respect of any Losses to the extent Indemnitee has otherwise received payment under any insurance policy, the Constituent Documents, Other Indemnity Provisions or otherwise of the amounts otherwise indemnifiable by the Company hereunder.

**15. Subrogation.** In the event of payment to Indemnitee under this Agreement, the Company shall be subrogated to the extent of such payment to all of the rights of recovery of Indemnitee. Indemnitee shall execute all documents required and shall do everything that may be necessary to secure such rights, including the execution of such documents necessary to enable the Company effectively to bring suit to enforce such rights.

**16. Amendments.** No supplement, modification or amendment of this Agreement shall be binding unless executed in writing by both of the parties hereto. No waiver of any of the provisions of this Agreement shall be binding unless in the form of a writing signed by the party against whom enforcement of the waiver is sought, and no such waiver shall operate as a waiver of any other provisions hereof (whether or not similar), nor shall such waiver constitute a continuing waiver. Except as specifically provided herein, no failure to exercise or any delay in exercising any right or remedy hereunder shall constitute a waiver thereof.

**17. Binding Effect.** This Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective successors (including any direct or indirect successor by purchase, merger, consolidation or otherwise to all or substantially all of the business and/or assets of the Company), assigns, spouses, heirs and personal and legal representatives. The Company shall require and cause any successor (whether direct or indirect by purchase, merger, consolidation or otherwise) to all, substantially all or a substantial part of the business and/or assets of the Company, by written agreement, to assume and agree to perform this Agreement in the same manner and to the same extent that the Company would be required to perform if no such succession had taken place.

**18. Severability.** The provisions of this Agreement shall be severable in the event that any of the provisions hereof (including any portion thereof) are held by a court of competent jurisdiction to be invalid, illegal, void or otherwise unenforceable, and the remaining provisions shall remain enforceable to the fullest extent permitted by law.

**19. Notices.** All notices, requests, demands and other communications required or permitted under this Agreement shall be in writing and shall be deemed to have been duly given and made if (i) delivered by hand; (ii) otherwise delivered against receipt therefor; (iii) mailed by postage prepaid, certified or registered mail; (iv) sent by a recognized courier with next-day or second-day delivery to the last known address of the other party; or (v) sent by e-mail with confirmation of receipt:

**20. Governing Law.** This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of New York applicable to contracts made and to be performed in such state without giving effect to its principles of conflicts of laws.

**21. Headings.** The headings of the sections and paragraphs of this Agreement are inserted for convenience only and shall not be deemed to constitute part of this Agreement or to affect the construction or interpretation thereof.

In addition, subject to Employee's execution and non-revocation of an agreement containing a release of any and all legal claims and other termination-related provisions in a form acceptable to the Company (the "Separation Agreement"), Employee shall be entitled to receive upon such termination an additional cash payment in the amount of twelve (12) months of such base salary (the "Severance Payment"). The Company shall pay the Severance Payment in substantially equal installments over six (6) months (the "Severance Benefits Period") in accordance with the Company's standard payroll practice, in arrears beginning on the first payroll date that occurs following the thirtieth (30th) day after the date on which Employee's employment with the Company terminates; provided, that prior to such date, the Separation Agreement becomes effective. Solely for purposes of Section 409A of the Code, each installment of the Severance Payment will be considered a separate payment. Additionally, the vesting of outstanding equity and option awards issued to the Employee shall, concurrent with such termination of service, accelerate with respect to one-half (50%) of the unvested portion of all outstanding equity and option awards which shall remain exercisable for the remainder of their term. Notwithstanding the foregoing, the Company shall not be required to pay any severance pay for any period following the effective date of termination of Employee's employment hereunder if Employee shall have materially violated the provisions of Sections 3, 8, 10 or 11 of this Agreement and such violation is not cured within thirty (30) days following receipt of written notice from the Company containing a description of the violation and a demand for immediate cure.

(b) If any court of competent jurisdiction shall refuse to enforce any or all of the provisions hereof because the time limit applicable thereto is deemed unreasonable, it is expressly understood and agreed that such provisions shall not be void, but that for the purpose of such proceedings and in such jurisdiction such time limitation shall be deemed to be reduced to the extent necessary to permit enforcement of such provisions.

(c) If any court of competent jurisdiction shall refuse to enforce any or all of the provisions hereof because they are more extensive (whether as to geographical area, scope of business or otherwise) than is deemed reasonable, it is expressly understood and agreed that such provisions shall not be void, but that for the purpose of such proceedings and in such jurisdiction, the restrictions contained herein (whether as to geographic area, scope of business or otherwise) shall be deemed to be reduced to the extent necessary to permit enforcement of such provisions.

22. Jurisdiction & Arbitration. The validity, performance and interpretation of the Agreement shall be governed by the laws of the State Delaware, without regard to its conflicts of law rules. Any dispute or claim arising under or with respect to this Agreement, which is incapable of resolution, will be resolved by arbitration before one (1) arbitrator in Wilmington, Delaware, in accordance with the Rules for Commercial Arbitration of the American Arbitration Association (“AAA”). The appointing agency shall be the AAA and the arbitrator shall apply Delaware State law to both interpret this Agreement and fashion an award.

23. Tax Matters.

(a) The parties intend that this Agreement be administered in accordance with Section 409A of the Code. To the extent that any provision of this Agreement is ambiguous as to its compliance with, or exemption from, Section 409A of the Code, the provision will be read in such a manner so that all payments hereunder either comply with, or are exempt from, Section 409A of the Code. The Parties agree that this Agreement may be amended as reasonably requested by either Party, and as may be necessary to fully comply with Section 409A of the Code and all related rules and regulations in order to preserve the payments and benefits provided hereunder without additional cost to either party. The Company makes no representation or warranty and will have no liability to Employee or any other person if any provisions of this Agreement are determined to constitute deferred compensation subject to Section 409A of the Code but do not satisfy an exemption from, or the conditions of, such Section.

(b) Anything in this Agreement to the contrary notwithstanding, if at the time of Employee's "separation from service" within the meaning of Section 409A of the Code, the Company determines that Employee is a "specified employee" within the meaning of Section 409A(a)(2)(B)(i) of the Code, then to the extent any payment or benefit that Employee becomes entitled to under this Agreement on account of his separation from service would be considered deferred compensation subject to the 20 percent additional tax imposed pursuant to Section 409A(a) of the Code as a result of the application of Section 409A(a)(2)(B)(i) of the Code, such payment shall not be payable and such benefit shall not be provided until the date that is the earlier of (A) six months and one day after Employee's separation from service or (B) Employee's death. (c) To the extent that any payment or benefit described in this Agreement constitutes "non-qualified deferred compensation" under Section 409A of the Code, and to the extent that such payment or benefit is payable upon Employee's termination of employment, then such payments or benefits shall be payable only upon Employee's "separation from service." The determination of whether and when a separation from service has occurred shall be made in accordance with the presumptions set forth in Treasury Regulation Section 1.409A-1(h).

(d) All in-kind benefits provided and expenses eligible for reimbursement under this Agreement shall be provided by the Company or incurred by Employee during the time periods set forth in this Agreement.
