## DDC Enterprise Announces Up to \$528 Million Raise to Accelerate Bitcoin Treasury Strategy

*Landmark Funding Dedicated Exclusively to Bitcoin Acquisition Positions DDC to Become a Global Leader in Bitcoin Holdings*

### FOR IMMEDIATE RELEASE

**NEW YORK — June 17, 2025** — DDC Enterprise Limited (NYSE: DDC) (“DDC” or the “Company”) today announced it has entered into three securities purchase agreements for a total of up to \$528 million of gross proceeds to the Company, before placement agent fees and offering expenses. Investors include Anson Funds, Animoca Brands, Kenetic Capital, QCP Capital, and a network of leading institutional funds and individual Bitcoin investors. Substantially all of the capital raise will be dedicated to expanding the Company’s Bitcoin treasury. This transformative financing, among the largest single-purpose Bitcoin raises by any NYSE-listed company, is expected to accelerate DDC’s mission to establish one of the most valuable corporate Bitcoin holdings. The closings of the financings are subject to the satisfaction of customary closing conditions.

### Strategic Funding Structure: Institutional Confidence at Scale

- **\$26 Million Equity PIPE Investment**

The Company has entered into subscription agreements with premier investors including Animoca Brands, Kenetic Capital, QCP Capital, Jack Liu, Matthew Liu (Co-Founder, Origin Protocol), and other leading institutional funds and individual Bitcoin investors. Subject to standard closing conditions, DDC expects to issue up to 2,435,169 Class A Ordinary shares at an average price of \$10.30 per share. The shares will be restricted for 180-days.

- **\$300 Million Convertible Secured Note and \$2 Million Equity Private Placement**

With Anson Funds as the investor, an institutional investment firm with offices in the United States and Canada, the convertible secured note accrues no interest and will mature in 24 months. Pursuant to the Facility, the Company will issue a note in the aggregate principal amount of \$25 million as its first tranche, with additional capacity of up to \$275 million available in subsequent drawdowns upon mutual agreement of the parties. Anson Funds is also purchasing 307,693 Class A Ordinary shares for \$2 million in a concurrent private placement.

- **\$200 Million Equity Line**

The \$200 million equity line of credit (“ELOC”), also secured with Anson Funds, is designed to offer DDC maximum flexibility in accessing capital for dedicated BTC stacking. With the ELOC, upon its future commencement following registration, the Company can optimize market timing and can consistently make BTC purchases over time at management discretion.

Substantially all of the gross proceeds from the financings will be deployed to acquire Bitcoin.
